(b) *Classes of utilization.* (1) Class I milk shall be all milk and skim milk disposed of in the form of milk or in the form of flavored milk drinks containing more than 1 percent butterfat and all milk not specifically accounted for as Class II or Class III milk.

(2) Class II milk shall be all milk except skim milk used to produce cream (for consumption as cream, including any cream product in fluid form which contains 6 percent or more of butterfat), flavored milk drinks containing not more than 1 percent butterfat, buttermilk and aerated cream.

(3) Class III milk shall be all milk and skim milk used to produce butter, cheese, evaporated milk, condensed milk, ice cream, ice cream mix, eggnog, creamed cottage cheese; used for wholesale baking and candy making purposes; accounted for as salvage from products where the recovery of fat is impossible; dumped milk; skim milk or buttermilk disposed of for livestock feed; not accounted for but not in excess of 3 percent of the total receipts of butterfat other than receipts from other handlers; and as used to produce a milk product other than those specified in Class I or Class II milk.

3. Amend § 968.4 *Minimum prices* as follows:

a. Provide for the purchasing of milk on a 3.5 percent butterfat basis.

b. Provide for the separate classification and pricing of butterfat and skim milk.

c. Provide for a Class I premium of 80 cents per hundredweight over the basic formula price.

d. Provide for a Class II price of 35 cents per hundredweight below the Class I price.

e. Provide for a basic formula price for milk of 3.5 percent butterfat content determined by the arithmetical average of (1) the average paying price of the 18 northern condenseries and (2) the average paying price of the 5 local manufacturing plants presently used to determine the Class II price.

4. Amend § 968.7 and § 968.8 to provide for an even production incentive plan by having the market administrator withhold 20 cents per hundredweight from the producers prices in the months of April, May and June and the paying back of such in July, August and September of each year commencing in 1948.

5. Amend § 968.4 by adding a new paragraph (b) to read as follows:

(b) *Out of area milk.* Whenever the supply of producer milk available to handlers is in excess of 110 percent of Class I and Class II requirements, the price to be paid by a handler for Class I milk disposed of outside of the marketing area shall be the price which is being paid for milk of equivalent use in the market where such milk is disposed of; *Provided however*, That such price as ascertained by the market administrator shall not be lower than the Class I price within the marketing area minus 45 cents.

6. Amend § 968.6 (e) by striking out all of said paragraph and inserting in lieu thereof the following:

(e) The provision of paragraphs (b), (c), (d) of this section above shall not apply (1) if the handlers can prove to the market administrator that such milk or butterfat was used only to the extent that milk of producers was not available, and (2) until after the market administrator has subtracted 10 percent of the Class I and Class II sales to cover returns of products in these classes.

7. Amend § 968.10 (a) by deleting the last sentence thereof.

Proposed by the Dairy Branch, Production and Marketing Administration, United States Department of Agriculture.

1. Amend § 968.7 *Determination of uniform price to producers* by deleting subparagraph (5) of paragraph (b) and substituting therefor the following:

(5) Compute the total value of the milk which is in excess of the delivered base of producers computed pursuant to subparagraph (4) of this paragraph and which is included in the computation pursuant to paragraph (a) of this section as follows: (i) Determine the classification of milk in excess of base by allocating such milk first to Class III milk and then to each succeeding higher classification until all such milk has been classified, (ii) multiply the total pounds of excess milk allocated to each class by the appropriate class prices provided in paragraph (a) of § 968.4, and (iii) add together the resulting amounts.

2. Delete the proviso in paragraph (a) of § 968.9.

Proposed by Beatrice Foods Company.

1. Amend § 968.1 (f) to read as follows:

(f) "Handler" means any person who on his own behalf or on behalf of others, disposes of as Class I or Class II milk in the marketing area all, or a portion of the milk purchased or received by him at an approved plant from (1) producers, (2) his own production, and (3) other handlers. This definition shall include a cooperative association with respect to milk which it causes to be delivered from a producer to a plant from which no milk is disposed of as Class I milk or as Class II milk, in the marketing area. This definition shall not, however, include a peddler distributor who buys milk in bottle form from a handler and who neither bottles milk nor receives milk in unbottled form.

2. Amend § 968.1 to add a new paragraph (j) to read as follows:

(j) "Milk products" or "dairy products" as used herein shall mean any product manufactured from milk or milk ingredients other than those manufactured products which are disposed of in the form in which received without further processing.

3. Amend § 968.1 by adding a new paragraph (k) to read as follows:

(k) An "approved plant" means any milk plant or section of a milk or dairy manufacturing plant approved by health authorities of the City of Wichita for the handling of milk to be disposed of for fluid consumption as milk in the marketing area and currently used for any or all of the function of receiving, weighing (or measuring), sampling, cooling, pasteurizing or other preparation of milk for sale or disposition as milk or cream for fluid consumption in the marketing area.

4. Amend § 968.3 (a) to read as follows:

§ 968.3 *Classification of milk*—(a) *Basis of classification.* All milk and milk products produced or received by each handler, including milk of a producer which a cooperative association causes to be delivered to a plant from which no milk is disposed of as Class I milk or Class II milk in the marketing area, shall be reported by the handler in the classes set forth in (b) of this section; *Provided*, That:

(1) Any milk moved as fluid milk from an approved plant to any point outside of a 100-mile radius of the City of Wichita shall be Class I milk;

(2) Any milk moved as fluid cream beyond a radius of 100 miles shall be classified as Class II milk; *Provided, however*, That the market administrator shall be authorized to accept a sworn affidavit from the operator of the receiving plant as to the usage of any milk moved as cream and the market administrator shall not be required to make further verification of the usage of such cream and shall classify the milk so shipped as cream, based upon the reported usage at the receiving plant;

(3) Any milk, skim milk, or cream sold or disposed of by the handler to the plant of a nonhandler who does not distribute fluid milk or cream on wholesale or retail routes shall be Class III milk regardless of the location of such nonhandler; and

(4) Any milk moved from an approved plant of a handler to an approved plant of another handler shall be reported as Class I milk if moved as fluid milk, and shall be reported as Class II milk if moved as fluid cream, unless utilization of another class is indicated in writing to the milk administrator on or before the tenth day after the end of the delivery period within which such transfer was made, but in no event shall the amount so reported in any class exceed the total use in such class by the receiving handler.

5. Amend § 968.3 (d) (1) and (2) to read as follows:

(1) Determine the total pounds of milk received as follows: Add together the total pounds of milk received at the approved plant of the handler from (i) producers, (ii) own farm production, (iii) other handlers, and (iv) other sources.

(2) Determine the total pounds of butterfat received as follows: (i) Multiply by its average butterfat test the weight of milk received at the approved plant of the handler from (a) producers, (b) own farm production, (c) other handlers, (d) other sources, and (ii) add together the resulting amount.

6. Amend § 968.3 (d) (3) by adding after the words "2.15 pounds per quart" the following words: (in the case of flavored milk for flavored milk drink two pounds per quart).

7. Amend § 968.3 (e) (2) to read as follows:

(2) If the total utilization of milk in the various classes for any handler as computed pursuant to paragraph (d) (6) of this section is greater than the receipts of milk from producers, the market administrator shall decrease the total pounds of milk in Class II for such handler by an amount equal to the difference between the receipts from producers and the total utilization of milk by classes for such handler.

8. Amend § 968.5 (a) to read as follows:

§ 968.5 *Reports of handlers*—(a) *Periodic reports.* On or before the 7th day after the end of each delivery period each handler who purchased or received milk from sources other than his own production or other handlers shall, with respect to milk or dairy products which were purchased, or received at an approved plant, produced by such handler during such delivery period, report to the market administrator in the detail and form prescribed by the milk administrator, as follows:

9. Amend § 968.5 (d) in part to read as follows:

(d) *Verification of reports and payments.* The market administrator shall verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose disposition of milk the classification depends. *Provided, however*, That the market administrator may accept the sworn affidavit of any person to whom milk in the form of fluid cream has been shipped beyond a radius of 100 miles and upon whose disposition of milk the classification of milk depends . . .

10. Amend § 968.6 by deleting paragraphs (b), (c) and the last sentence of paragraph (d).

11. Amend § 968.8 (g) by adding the following sentence: "Whenever verification by the market administrator of the payment by a handler to any purchaser for milk purchased or received by such handler at an approved plant discloses an erroneous payment to such purchaser in excess of that required by this section, such handler may deduct the amount of the excess from the payment to the purchaser next following such disclosures and report the same to the market administrator."

Copies of this notice of hearing may be procured from Mr. M. M. Morehouse, Market Administrator, 311 North Washington Avenue, Wichita 2, Kansas, or from the Hearing Clerk, United States Department of Agriculture, Room 0306, South Building, Washington 25, D. C., or may be there inspected.

CIVIL AERONAUTICS BOARD

[14 CFR, Part 41]

FLIGHT NAVIGATOR CERTIFICATES

JULY 11, 1947.

Section 41.330 of the Civil Air Regulations requires that "In all operations where celestial navigation is necessary, either as a primary or secondary means of navigation, at least one member of the flight crew must hold a flight navigator certificate issued in accordance with the provisions of Part — (In preparation.)" New Part 34 providing for the certification of flight navigators will become effective August 1, 1947.

The Civil Aeronautics Board finds that it will require a period of several months for the preparation of necessary examinations by the Administrator and for interested flight navigators in the various parts of the world to be given an opportunity to accomplish the examinations necessary for the issuance of flight navigator certificates under Part 34.

It is proposed to amend Part 41 of the Civil Air Regulations as follows:

1. By amending § 41.330 to read as follows:

§ 41.330 *When required.* In all operations where celestial navigation is necessary, either as a primary or secondary means of navigation, at least one member of the flight crew must be a flight navigator.

2. By adding a new § 41.332 to read as follows:

§ 41.332 *Certificate.* Effective November 15, 1947, each flight navigator shall hold a valid flight certificate issued in accordance with the provisions of Part 34.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Bureau that those interested offer suggestions and comments regarding the proposed amendments. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt not later than 15 days after the date of this public notice.

FLIGHT NAVIGATOR CERTIFICATES

JULY 11, 1947.

Part 61 of the Civil Air Regulations makes no provision requiring flight navigators. It is contemplated that such provision will be made in the proposed revision of this part.

The new Part 34, covering rules for the certification of flight navigators, will become effective August 1, 1947. It will require a period of several months after this effective date for the preparation of necessary examinations by the Administrator and for interested flight navigators to be given an opportunity to accomplish the examinations necessary for the issuance of flight navigator certificates under Part 34. An amendment to Part 61 of the Civil Air Regulations should be promulgated to be consistent with Part 41.

It is therefore proposed to amend Part 61 of the Civil Air Regulations by adding the following sections:

§ 61.57 *Flight navigator.*

§61.570 *Certificate.* Effective November 15, 1947, each flight navigator shall hold a valid flight navigator certificate issued in accordance with the provisions of Part 34.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Bureau that those interested offer suggestions and comments regarding the proposed amendments. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt not later than 15 days after the date of this public notice.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

WYOMING

NOTICE FOR FILING OBJECTIONS TO THE INCLUSION OF CERTAIN LANDS IN STOCK DRIVEWAY WITHDRAWAL NO. 128, WYOMING NO. 13

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the order of the Secretary of the Interior dated July 7, 1947, so far as that order adds the NE¼NE¼, sec. 10, NW¼NE¼, N½NW¼, sec. 11, T. 37 N., R. 86 W., and lot 4, sec. 1, T. 36 N., R. 87 W., 6th P. M., to Stock Driveway Withdrawal No. 128, Wyoming No. 13, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the withdrawal should be rescinded, modified, or let stand, will be given to all interested parties of record and the general public.

WILLIAM E. WARNE,
Assistant Secretary of the Interior.

ARIZONA

RESTORATION ORDER NO. 1179 UNDER FEDERAL POWER ACT

JULY 8, 1947.

Pursuant to the determination of the Federal Power Commission (DA-83 and DA-85, Arizona) and in accordance with the Departmental regulations of August 16, 1946 (43 CFR 4.275 (16), 11 F. R. 9080), it is ordered as follows:

The lands hereinafter described, being withdrawn for Power Site Reserves Nos. 96 and 188, and Power Project No. 306, are hereby opened to disposition under the public land laws, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1063), as amended by the act of August 26, 1935 (49 Stat. 846, 16 U. S. C. 818).

At 10:00 a. m. on September 9, 1947, the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 10, 1947 to December 9, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from August 21, 1947 to September 9, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 10, 1947, shall be treated as simultaneously filed.

(c) *Date for nonpreference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 10, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous nonpreference right filings.* Applications by the general public may be presented during the 20-day period from November 20, 1947 to December 9, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 10, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Phoenix, Arizona.

The lands affected by this order are described as follows:

GILA AND SALT RIVER MERIDIAN

T. 10 N., R. 3 W.,
Sec. 10, SW¼SE¼;
Sec. 11, SE¼SE¼;
Sec. 12, SW¼SW¼;
Sec. 14, SW¼NE¼, S½NW¼, and NW¼NW¼;
Sec. 23, lots 5 and 11;
Sec. 24, N½NE¼, NW¼, and W½SW¼;
Sec. 25, W½.

The areas described aggregate 1,020.50 acres.

These lands are generally rough and broken in character. They are within an arid region and have a sandy clay soil containing much rock.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-982]

NORFOLK & WESTERN RAILWAY CO.

FINDINGS AND ORDER GRANTING UNLISTED TRADING PRIVILEGES

At a regular session of the securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 10th day of July A. D. 1947.

The Boston Stock Exchange has made application to the Commission pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 for permission to extend unlisted trading privileges to the Common Stock, $100 Par Value, of Norfolk & Western Railway Company.

After appropriate notice and opportunity for hearing and in the absence of any request by any interested person for hearing on this matter, the Commission on the basis of the facts submitted in the application makes the following findings:

(1) That this security is listed and registered on the New York Stock Exchange; that the geographical area deemed to constitute the vicinity of the Boston Stock Exchange is the New England States exclusive of Fairfield County, Connecticut; that out of a total of 1,406,483 shares outstanding, 91,477 shares are owned by 2,171 shareholders in the vicinity of the Boston Stock Exchange; and that in the vicinity of the Boston Stock Exchange there were 443 transactions involving 8,527 shares during a twelve-month period ended February 28, 1947;

(2) That sufficient public distribution of, and sufficient public trading activity in, this security exist in the vicinity of the applicant exchange to render the extension of unlisted trading privileges thereto appropriate in the public interest and for the protection of investors; and

(3) That the extension of unlisted trading privileges on the applicant exchange to this security is otherwise appropriate in the public interest and for the protection of investors.

Accordingly it is ordered, Pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934, that the application of the Boston Stock Exchange for permission to extend unlisted trading privileges to the Common Stock, $100 Par Value, of Norfolk & Western Railway Company be, and the same is, hereby granted.

By the Commission.

PENNSYLVANIA POWER & LIGHT CO.

FINDINGS AND ORDER GRANTING UNLISTED TRADING PRIVILEGES

At a regular session of the Securities and Exchange Commission, held at its

office in the City of Philadelphia, Pa., on the 10th day of July A. D. 1947.

The Boston Stock Exchange has made application to the Commission pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 for permission to extend unlisted trading privileges to the Common Stock, No Par Value, of Pennsylvania Power & Light Company.

After appropriate notice and opportunity for hearing and in the absence of any request by any interested person for hearing on this matter, the Commission on the basis of the facts submitted in the application makes the following findings:

(1) That this security is listed and registered on the New York Stock Exchange and the Philadelphia Stock Exchange; that the geographical area deemed to constitute the vicinity of the Boston Stock Exchange is the New England States exclusive of Fairfield County, Connecticut; that out of a total of 2,500,752 shares outstanding, 75,654 shares are owned by 1,309 shareholders in the vicinity of the Boston Stock Exchange; and that in the vicinity of the Boston Stock Exchange there were 502 transactions involving 29,439 shares during a twelve-month period ended February 23, 1947;

(2) That sufficient public distribution of, and sufficient public trading activity in, this security exist in the vicinity of the applicant exchange to render the extension of unlisted trading privileges thereto appropriate in the public interest and for the protection of investors; and

(3) That the extension of unlisted trading privileges on the applicant exchange to this security is otherwise appropriate in the public interest and for the protection of investors.

Accordingly it is ordered, Pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934, that the application of the Boston Stock Exchange for permission to extend unlisted trading privileges to the Common Stock, No Par Value, of Pennsylvania Power & Light Company be, and the same is, hereby granted.

By the Commission.

SOUTH CAROLINA ELECTRIC AND GAS CO.

FINDINGS AND ORDER GRANTING UNLISTED TRADING PRIVILEGES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 10th day of July, A. D. 1947.

The Boston Stock Exchange has made application to the Commission pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 for permission to extend unlisted trading privileges to the Common Stock, $7.50 Par Value, of South Carolina Electric and Gas Company.

After appropriate notice and opportunity for hearing and in the absence of any request by any interested person for hearing on this matter, the Commission on the basis of the facts submitted in the application makes the following findings:

(1) That this security is listed and registered on the New York Stock Exchange; that the geographical area deemed to constitute the vicinity of the Boston Stock Exchange is the New England States exclusive of Fairfield County, Connecticut; that out of a total of 808,587 shares outstanding, 52,449 shares are owned by 2,909 shareholders in the vicinity of the Boston Stock Exchange; and that in the vicinity of the Boston Stock Exchange there were 656 transactions involving 18,067 shares from November 15, 1946 to February 28, 1947;

(2) That sufficient public distribution of, and sufficient public trading activity in, this security exist in the vicinity of the applicant exchange to render the extension of unlisted trading privileges thereto appropriate in the public interest and for the protection of investors; and

(3) That the extension of unlisted trading privileges on the applicant exchange to this security is otherwise appropriate in the public interest and for the protection of investors.

Accordingly it is ordered, Pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934, that the application of the Boston Stock Exchange for permission to extend unlisted trading privileges to the Common Stock, $7.50 Par Value, of South Carolina Electric and Gas Company be, and the same is, hereby granted.

NORTHERN PENNSYLVANIA POWER CO.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 9th day of July 1947.

Northern Pennsylvania Power Company, a subsidiary of General Public Utilities Corporation, a registered holding company, having filed an application, as amended, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935, with respect to the following transaction:

Northern Pennsylvania Power Company proposes to issue and sell for cash at principal amount to Northwestern Mutual Life Insurance Company $600,000 principal amount of its First Mortgage Bonds, 2¾% Series, due 1975. The cash proceeds of the sale of the bonds are to be used for the purchase or construction of new facilities and betterment of existing facilities.

Such application, as amended, having been duly filed, and notices of said filing having been duly given in the form and manner prescribed by Rule U-23, promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application, as amended, within the period specified within said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that the requirements of the applicable provisions of the act are satisfied and deeming it appropriate in the public interest and in the interests of investors and consumers that the said application, as amended, be granted, and deeming it appropriate to grant the request of the company that the order become effective at the earliest date practicable:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that the application, as amended, be, and the same hereby is, granted and the proposed transaction may be consummated forthwith.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9872

AMENDMENT OF EXECUTIVE ORDER NO. 7658, RESTORING TO THE TERRITORY OF HAWAII A PORTION OF THE FORT DE RUSSY MILITARY RESERVATION

WHEREAS by Executive Order No. 7658 of July 15, 1937, the President restored to the Territory of Hawaii a certain parcel of land comprising a part of the Fort De Russy Military Reservation but reserved to the United States the right to construct on the said parcel of land a railroad from the Fort De Russy Military Reservation to the existing line of the Honolulu Rapid Transit and Land Company; and

WHEREAS it now appears that there is no necessity for the construction of the said railroad by the United States; and

WHEREAS it is deemed advisable and in the public interest that the United States relinquish its right to construct such railroad:

NOW, THEREFORE, by virtue of the authority vested in me by section 91 of the act of April 30, 1900, 31 Stat. 159, as amended by section 7 of the act of May 27, 1910, 36 Stat. 447, the said Executive Order No. 7658 of July 15, 1937, is hereby amended by deleting from the first paragraph thereof the provision reserving to the United States the right to construct a railroad from the Fort De Russy Military Reservation to the existing line of the Honolulu Rapid Transit and Land Company upon the land restored by the order to the Territory of Hawaii.

AUTHORITY: §§ 271.101 to 271.125, inclusive, issued under sec. 7 (a), 49 Stat. 4 as amended, sec. 4 (a), 55 Stat. 498, 56 Stat. 768; 15 U. S. C. and Sup., 713 (a), 713a–8, 50 U. S. C. App., Sup., 969; Article Third, paragraphs (b), (j), Charter of Commodity Credit Corporation.

§ 271.101 *Administration.* The program will be administered in the field by the county agricultural conservation committees under the general supervision of State PMA Committee. Forms may be obtained from county committees in areas where loans and purchase agreements are available, or from CCC branch offices. County committees will determine or cause to be determined the quantity and grade of the flaxseed, the amount of the loan, and the value of the flaxseed delivered under a loan or purchase agreement. All loan and purchase agreement documents will be completed and approved by the county committee, which will retain copies of all documents. The county committee may designate in writing certain employees of the county agricultural conservation association to execute such forms on behalf of the committee. The county committee will furnish the borrower with the names of local lending agencies approved for making disbursements on loan documents, or with the address of the CCC branch offices to which loan documents may be forwarded for disbursement.

§ 271.102 *Availability of loans and purchase agreements*—(a) *Area.* (1) Loans will be available on eligible flaxseed stored on farms in the States and counties for which loan rates are established in Supplement 2 to this bulletin.

(2) Loans shall be available on eligible flaxseed stored in approved public grain warehouses in all areas.

(3) Purchase agreements shall be available on eligible flaxseed in all areas where loans are available.

(b) *Time.* Loans and purchase agreements shall be available from harvest through October 31, 1947, for California, Texas, and Arizona, and through January 31, 1948, for all other states.

§ 271.103 *Approved lending agencies.* An approved lending agency shall be any bank, cooperative marketing association, corporation, partnership, individual, or other legal entity with which CCC has entered into a Lending Agency Agreement (Form PMA–97) or other form prescribed by the Administrator of PMA.

§ 271.104 *Eligible producer.* An eligible producer shall be any individual, partnership, association, corporation, or other legal entity producing the flaxseed in 1947, as landowner, landlord, tenant, or sharecropper.

§ 271.105 *Eligible flaxseed.* Eligible flaxseed shall be flaxseed which meets the following requirements.

(a) Such flaxseed must be flaxseed produced in 1947 by the eligible producer, or flaxseed represented by a "Certificate of Indemnity" (Form FCI–574, Revised), covering 1947-crop year flaxseed, issued by the Federal Crop Insurance Corporation to the eligible producer.

(b) The beneficial interest in the flaxseed must be in the person tendering the flaxseed for a loan or purchase and must always have been in him, or must have been in him and a former producer whom he succeeded before the flaxseed was harvested.

(c) Such flaxseed must grade No. 1 or No. 2. Flaxseed which contains more than 30 percent damage or which contains more than 11 percent moisture or which is musty, sour, heating, hot, or which has any commercially objectionable odor, or which is otherwise of low quality is not eligible for loan or purchase.

(d) In order to be eligible for a farm storage loan, flaxseed must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing unless otherwise approved by the county agricultural conservation association.

§ 271.106 *Eligible storage.* Eligible storage for flaxseed shall meet the following requirements:

(a) Under the loan program eligible farm storage shall consist of farm bins and granaries which, as determined by the county committee, are of such substantial and permanent construction as to afford safe storage of the flaxseed, permit effective fumigation for the destruction of insects, and afford protection against rodents, other animals, thieves, and weather.

(b) Under the loan and purchase agreement program, eligible warehouse storage shall consist of (1) public grain warehouses for which a Uniform Grain Storage Agreement (CCC Form H) has been executed (Warehouseman desiring approval may communicate with the CCC branch offices serving the area in which the warehouse is located); or (2) warehouses operated by eastern common carriers under tariffs approved by the Interstate Commerce Commission. A list of approved warehouses will be furnished State PMA Offices and county committees, and information relating to such warehouses may be obtained from these offices.

(c) Under the purchase agreement program, flaxseed stored in other than eligible warehouse storage will be purchased on a delivered basis.

§ 271.107 *Approved forms.* The approved forms constitute the loan and purchase agreement documents which, together with the provisions of §§ 271.101 to 271.125, inclusive, govern the rights and responsibilities of the producer, and should be read carefully. Any fraudulent representation made by a producer in obtaining a loan or purchase agreement, or in executing any of the loan or purchase agreement documents, will render him subject to prosecution under the United States Criminal Code.

Notes, note and loan agreements and purchase agreements, must be dated on or before October 31, 1947, for California, Arizona, and Texas, and on or before January 31, 1948, for all other States, and executed in accordance with these instructions, with State and documentary revenue stamps affixed thereto where required by law. Notes, note and loan agreements, and purchase agreements executed by an administrator, executor, or trustee will be acceptable only where legally valid.

(a) *Farm storage loans.* Approved forms shall consist of producers' notes on CCC Commodity Form A, secured by chattel mortgages on CCC Commodity Form AA.

(b) *Warehouse storage loans.* Approved forms shall consist of note and loan agreements on CCC Commodity Form B, secured by negotiable warehouse receipts representing the flaxseed stored in approved warehouses. All flaxseed pledged as security for a loan on a single CCC Commodity Form B must be stored in the same warehouse.

(c) *Purchase agreement program.* Approved forms shall consist of the Purchase Agreement (CCC Purchase Form 1) signed by the Producer and approved by the county committee, negotiable warehouse receipts, and such other forms as may be prescribed by the Director, Fats and Oils Branch, PMA.

(d) *Warehouse receipts.* Flaxseed in eligible warehouse storage under the loan and purchase agreement program must be represented by warehouse receipts which satisfy the following requirements:

(1) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouseman.

(2) Each warehouse receipt should set forth in its written terms that the flaxseed is insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone, and tornado, or, in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(3) The flaxseed represented by each warehouse receipt must be free of all liens for charges prior to unloading in or delivery to the warehouse. Liens for warehouse charges will be recognized by CCC only from April 1, 1947, or the date of the warehouse receipt, whichever is later.

(4) Warehouse receipts must set forth in the written or printed terms the gross weight or bushels, grade, class, subclass, test weight and such other information as is required by the Uniform Warehouse Receipts Acts or be accompanied by a certificate of the warehouseman identified with such warehouse receipt, setting out such information, and shall be based on the inbound movement on delivery of the flaxseed to the warehouse.

§ 271.108 *Determination of quantity.* Loans and purchases will be made at values expressed in cents per bushel. A

bushel will be 56 pounds of flaxseed free of dockage, when determined by weight, or 1.25 cubic feet of flaxseed testing 56 pounds per bushel when determined by measurement. A deduction of ¾ pound for each sack will be made in determining the net quantity of the flaxseed when stored as sacked grain. In determining the quantity of flaxseed in farm storage by measurement, fractional pounds of the test weight per bushel will be disregarded, and the quantity determined as above will be the following percentages of the quantity determined for 56-pound flaxseed:

For flaxseed testing:	Percent
56 pounds or over	100
55 pounds or over, but less than 56 pounds	98
54 pounds or over, but less than 55 pounds	96
53 pounds or over, but less than 54 pounds	94
52 pounds or over, but less than 53 pounds	92
51 pounds or over, but less than 52 pounds	90
50 pounds or over, but less than 51 pounds	88
49 pounds or over, but less than 50 pounds	85
48 pounds or over, but less than 49 pounds	83
47 pounds or over, but less than 48 pounds	81

§ 271.109 *Determination of dockage.* The percentage of dockage shall be determined in accordance with the Official Grain Standards of the United States and the weight of said dockage shall be deducted from the gross weight of the flaxseed in determining the net quantity available for loan or purchase.

§ 271.110 *Liens.* The flaxseed must be free and clear of all liens and encumbrances, or if liens or encumbrances exist on the flaxseed, proper waivers must be obtained.

§ 271.111 *Service fees* — (a) *Loans.* Where the flaxseed under loan is farm-stored, the producer shall pay a service fee of 1 cent per bushel, and where the flaxseed under loan is warehouse-stored, the producer shall pay a service fee of ½ cent per bushel.

(b) *Purchase agreement.* At the time the producer applies for a purchase agreement he shall pay a preliminary minimum service fee of $1.50. In addition, where delivery of flaxseed is made under the purchase agreement, the producer shall pay a service fee of ½ cent per bushel on each bushel of flaxseed delivered in excess of 300 bushels.

§ 271.112 *Set-offs.* A producer who is listed on the county debt register as indebted to any agency or corporation of the United States Department of Agriculture shall designate the agency or corporation to which he is indebted as the payee of the proceeds of the loan or purchase agreement to the extent of such indebtedness, but not to exceed that portion of the proceeds remaining after deduction of the service fees and amounts due prior lien holders. Indebtedness owing to CCC shall be given first consideration after claims of prior lien holders.

§ 271.113 *Loan rates and purchase price*—(a) *Loan rates.* Loan rates for the designated grades and subclasses will be set out in 1947 CCC flaxseed Bulletin 1, Supplements 1 and 2. An additional payment of $1.00 per bushel will be made to the producer if and when CCC takes title to the flaxseed.

(b) *Purchase price.* The price paid for flaxseed delivered under a purchase agreement shall be the applicable loan rate established for the flaxseed at the approved point of delivery plus $1.00 per bushel.

§ 271.114 *Interest rate.* Loans shall bear interest at the rate of 3 percent per annum, and interest shall accrue from the date of disbursement of the loan, notwithstanding the printed provisions of the note.

§ 271.115 *Transfer of producer's equity.* The right of the producer to transfer either his right to redeem the flaxseed under loan or his remaining interest may be restricted by CCC.

§ 271.116 *Safeguarding of the flaxseed.* The producer who places the flaxseed under loan is obligated to maintain the farm storage structures in good repair, and to keep the flaxseed in good condition.

§ 271.117 *Insurance.* CCC will not require the producer to insure the flaxseed placed under farm storage loan; however, if the producer does insure such flaxseed, such insurance shall inure to the benefit of CCC to the extent of its interest, after first satisfying the producer's equity in the flaxseed involved in the loss.

§ 271.118 *Loss or damage to the flaxseed.* The producer is responsible for any loss in quantity or quality to the flaxseed placed under farm storage loan, except that uninsured physical loss or damage occurring without fault, negligence, or conversion on the part of the producer, and resulting solely from an external cause other than insect infestation or vermin, will be assumed by CCC, provided the producer has given the county committee immediate notice in writing of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan.

§ 271.119 *Personal liability.* The making of any fraudulent representation by the producer in the loan documents or in obtaining the loan, or the conversion or unlawful disposition of any portion of the flaxseed by him, shall render the producer personally liable for the amount of the loan and for any resulting expense incurred by any holder of the note.

§ 271.120 *Maturity and satisfaction*—(a) *Loans.* Loans mature on demand but not later than January 31, 1948, in California, Arizona, Texas, and April 30, 1948 in other states. In the case of farm-storage loans, the producer is required to pay off his loan on or before maturity, or to deliver the mortgaged commodity in accordance with instructions of the county committee. Credit will be given for the total quantity delivered, provided it was stored in the bins in which the commodity under loan was stored, at the applicable loan rate, according to grade and/or quality plus $1.00 per bushel. If the settlement value of the commodity is less than the amount due on the loan, the amount of the deficiency, plus interest, shall be paid by the producer to the Corporation, or may be set off against any payment which would otherwise be made to the producer under any agricultural programs administered by the Secretary of Agriculture, or any other payments which are due or may become due to the producer from Commodity Credit Corporation or any other agency of the United States. In the event the farm is sold or there is a change of tenancy, the commodity may be delivered before the maturity date of the loan upon prior approval by the County Committee. In the case of warehouse-storage loans, if the producer does not repay his loan by maturity, CCC shall have the right to sell or pool the flaxseed in satisfaction of the loan in accordance with the provisions of the note and loan agreement and § 271.121.

(b) *Purchase agreements.* The producer who signs a Purchase Agreement (CCC Purchase Form 1) shall not be obligated to deliver any specified quantity of flaxseed to CCC. If the producer who signs a purchase agreement wishes to sell flaxseed to CCC, he shall, within 30 days from the maturity date shown on the loan notes, or such earlier date as demand for payment of loan notes may be made, submit eligible warehouse receipts representing flaxseed stored in eligible warehouse storage to the county committee for the quantity of such flaxseed he elects to sell to CCC, or in the case of flaxseed stored in other than eligible warehouse storage, he shall notify the county committee of his intention to sell and request delivery instructions. The producer must then complete delivery within a 15-day period immediately following the date the county committee issues delivery instructions, unless the county committee determines more time is needed for delivery. Delivery shall be made to an approved warehouse, or as otherwise directed by the Administrator of PMA, or his authorized representative. When delivery is completed, payment shall be made as prescribed by the Administrator of PMA, subject to the provisions for set-offs in § 271.112. The producer shall direct to whom payment of the purchase price will be made.

In the case of flaxseed stored in eligible warehouse storage, purchases will be made on the basis of the weight, grade and other quality factors shown on the warehouse receipts and accompanying documents. Flaxseed delivered from other than eligible warehouse storage will be purchased on the basis of official weight, grade, and other quality factors at destination; or on the basis of official weight at destination and official grade, and other quality factors at the inspection point shown on the shipping order furnished the producer, which unless otherwise agreed shall be the customary location, on the route of shipment, of an inspector licensed under the United States Grain Standards Act; or, if such flaxseed is delivered to a local CCC binsite, on the basis of the weight, grade, and other quality factors determined by the county committee (in accordance with instructions for the determination of such factors under the loan program), and approved by the producer at the time of delivery.

§ 271.121 *Removal of the flaxseed under loan.* If the loan is not satisfied upon maturity by payment or delivery, the holder of the note may remove the flaxseed and sell it, either by separate contract or after pooling it with other lots of the same flaxseed similarly held. The producer shall have no right of redemption after the flaxseed is pooled, but shall share ratably in any overplus remaining upon liquidation of the pool. CCC shall have the right to treat the pooled flaxseed as a reserve supply to be marketed under such sales policies as CCC determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of the flaxseed even though part or all of such pooled flaxseed is disposed of under such policies at prices less than the current domestic price for such flaxseed. Any sum due the producer as a result of the sale of the flaxseed or of insurance proceeds thereon, or any ratable share resulting from the liquidation of a pool, shall be payable only to the producer without right of assignment by him.

§ 271.122 *Release of the flaxseed under loan.* A producer may at any time obtain release of the flaxseed remaining under loan by paying to the holder of the note, or note and loan agreement, the principal amount thereof, plus interest. If the note is held by an out-of-town lending agency or by CCC, the producer may request that the note be forwarded to a local bank for collection. In such case, where CCC is the holder of the note, the local bank will be instructed to return the note if payment is not effected within 15 days. All charges in connection with the collection of the note shall be paid by the producer. Upon payment of a farm-storage loan, the county committee should be requested to release the mortgage by filing an instrument of release or by a marginal release on the county records. Partial release of the flaxseed prior to maturity may be arranged with the county committee by paying to the holder of the note the amount of the loan plus charges and accrued interest, represented by the quantity of the flaxseed to be released. In case of warehouse storage loans, each partial release must cover all the flaxseed under one warehouse receipt number.

§ 271.123 *Storage allowance*—(a) *Warehouse-stored loans.* Under the loan program, CCC will assume accrued warehouse charges on flaxseed in eligible warehouse storage.

(b) *Farm-stored loans.* A farm storage payment of 7 cents per bushel will be paid to the producer (1) on flaxseed delivered to CCC on or after the maturity dates in the respective areas, or (2) on flaxseed delivered to CCC prior to the maturity dates in the respective areas, pursuant to demand by CCC for repayment of the loan. If delivery is made prior to January 31, 1948 in Arizona, California, and Texas, or April 30, 1948, in all other States, upon request by the producer and with the approval of CCC, the storage payment will be as follows:

	Arizona, California, and Texas	Other States
6 cents per bushel if delivered in month of	January 1948	April 1948.
5 cents per bushel if delivered in month of	December 1947	March 1948.
4 cents per bushel if delivered in month of	November 1947	February 1948.
3 cents per bushel if delivered in month of	October 1947	January 1948.
2 cents per bushel if delivered prior to	October 1947	December 1947.

Earned storage shall be computed after delivery has been completed.

No storage payment will be made on flaxseed delivered to CCC prior to April 30, 1948, pursuant to demand by CCC for the repayment of a loan if such demand for repayment was due to any fraudulent representation on the part of the producer or the fact that the flaxseed was damaged, threatened with damage, abandoned, or otherwise impaired.

In the case of losses assumed by CCC under the loan program, CCC will pay the producer the full storage payment of 7 cents per bushel for the flaxseed lost.

(c) *Purchase agreements.* Under the purchase agreement program, CCC will assume accrued warehouse charges on flaxseed in eligible warehouse storage, or make a payment of 7 cents per bushel to the producer on flaxseed in such storage if it is shown that all warehouse charges other than receiving charges have been paid by the producer up to the time he submits the warehouse receipt to the county committee. A payment of 7 cents per bushel will be made to the producer on flaxseed delivered from other than eligible warehouse storage pursuant to delivery instructions issued by the county committee.

(d) *Track-loaded flaxseed.* Under the loan and purchase agreement program a payment of 2 cents per bushel will be made to the producer by CCC on flaxseed delivered on track at a country point.

§ 271.124 *Purchase of notes.* CCC will purchase, from approved lending agencies, notes evidencing approved loans which are secured by chattel mortgages or negotiable warehouse receipts. The purchase price to be paid by CCC will be the principal sums remaining due on such notes, plus accrued interest from the date of disbursement to the date of purchase at the rate of 1½ percent per annum. Lending agencies are required to submit a weekly report to CCC and to the county committees on 1940 CCC Form F, or such other form as CCC may prescribe, of all payments received on producers' notes held by them, and they are required to remit promptly to CCC an amount equivalent to 1½ percent interest per annum on the amount of the principal collected from the date of disbursement to the date of payment. Lending agencies should submit notes and reports to the CCC Branch office serving the area.

TITLE 7—AGRICULTURE

Chapter VIII—Production and Marketing Administration (Sugar Branch)

PART 802—SUGAR DETERMINATIONS

FAIR AND REASONABLE SUGARCANE WAGE RATES IN FLORIDA DURING JULY 1, 1947, TO JUNE 30, 1948

Pursuant to section 301 (b) of the Sugar Act of 1937, as amended, and after investigation and due consideration of the evidence obtained at the public hearing held in Clewiston, Florida on May 10, 1947, the following determination is hereby issued:

§ 802.24aa *Fair and reasonable sugarcane wage rates in Florida during the period July 1, 1947, to June 30, 1948.* The requirements of section 301 (b) of the Sugar Act of 1937, as amended, shall be deemed to have been met with respect to the production, cultivation and harvesting of sugarcane in Florida during the period July 1, 1947 to June 30, 1948, if all persons employed on the farm during such period in the production, cultivation and harvesting of sugarcane shall have been paid in full for all such work and shall have been paid wages in cash therefor at rates as follows:

(a) The wage rates agreed upon between the producer and the laborer but after the date of this determination not less than the rates prescribed under paragraphs (b) and (c) of this section.

(b) *For work performed on a time basis.*

	Cents per hour
(1) All work except as otherwise specified:	
Adult males	45.0
Adult females	38.0
(2) Tractor drivers and operators of mechanical harvesting or loading equipment	55.0

	Cents per hour
(3) Workers between 14 and 16 years of age (maximum employment per day of such workers, without deductions from Sugar Act payments, is 8 hours	38.0

(c) *For work performed on a piece work basis.* The piece rate for any operation shall be the rate agreed upon between the producer and the laborer and such rate shall be the same for comparable work for all workers: *Provided, however,* That the individual earnings of not less than 90% of all workers employed on a piece rate basis during each pay period (such period not to be in excess of two weeks) shall average for the time involved not less than the applicable hourly rate prescribed in paragraph (b) of this section.

(d) The producer shall not reduce the wage rates to laborers below those determined herein through any subterfuge or device whatsoever.

(e) The provisions of this determination are subject to such changes as may be required by termination of the Sugar Act of 1937 or by such further legislation as the Congress may enact relating to the subject matter hereof. (Sec. 301, 50 Stat. 909; 7 U. S. C. 1131)

Issued this 11th day of July 1947.

[SEAL] N. E. DODD,
Acting Secretary of Agriculture.

LIMITATION OF TIME FOR PAYMENT OF GOVERNMENT CHECKS

JULY 14, 1947.

Part 202 (appearing also as Treasury Department Circular No. 176 (Revised), dated December 21, 1945, as amended) is hereby further amended by deleting § 202.28, "*One-year restriction on payment of checks,*" and substituting in lieu thereof the following § 202.28:

§ 202.28 *Limitation of time for payment*—(a) *Checks drawn on the Treasurer of the United States.* Checks drawn on the Treasurer of the United States (including checks payable through designated Federal Reserve Banks) are not payable by him after the expiration of ten years from the date on which they were issued, and in cases where the owner or holder has died or is incompetent are not payable by the Treasurer after the expiration of one year following the close of the fiscal year (ending June 30) in which they were issued. Such checks should be transmitted by the owner or holder to the General Accounting Office, Washington 25, D. C., for settlement, accompanied by an application for payment over the signature and address of the owner or holder of such checks: *Provided, however,* That checks issued on account of public-debt obligations and transactions regarding the administration of banking and currency laws are payable without limitation of time.

(b) *Checks drawn on depositaries.* After the expiration of one year following the close of the fiscal year (ending June 30) in which they are drawn, checks, with the exception of those issued on account of public-debt obligations and transactions regarding the administration of banking and currency laws, drawn by authorized officers of the United States on designated depositaries are not payable by those depositaries and should be transmitted by the owner or holder to the General Accounting Office, Washington 25, D. C., for settlement, accompanied by a request for payment over the signature and address of the owner or holder of such checks. This paragraph does not apply to checks drawn by wholly owned or mixed-ownership Government corporations on designated depositaries. (R. S. 161; 5 U. S. C. 22)

PART 207—NAVIGATION REGULATIONS

PERDIDO BAY, FLORIDA; RESTRICTED AREA FOR SEAPLANES

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), the following § 207.177 is hereby prescribed to govern the use and navigation of waters of Perdido Bay, Florida, comprising a restricted area for seaplanes used in night flying operations by the Naval Air Training Bases, Pensacola, Florida:

§ 207.177 *Perdido Bay, Fla.; restricted area for seaplanes, Naval Air Training Bases, Pensacola, Fla.*—(a) *Area.* That portion of Perdido Bay, Florida, bounded by a line beginning at latitude 30°22'30", longitude 87°27'00"; thence to latitude 30°22'00", longitude 87°26'55"; thence to latitude 30°20'45", longitude 87°25'50"; thence to latitude 30°20'35", longitude 87°25'50"; thence to latitude 30°20'10", longitude 87°26'30"; thence to latitude 30°19'15", longitude 87°27'20"; thence to latitude 30°19'20", longitude 87°28'35"; thence to latitude 30°19'40", longitude 87°29'20"; thence to latitude 30°20'15", longitude 87°29'50", thence to latitude 30°20'25", longitude 87°29'45"; thence to latitude 30°20'20", longitude 87°29'00"; thence meandering and following the one-fathom line to latitude 30°21'50", longitude 87°27'25"; thence to latitude 30°22'30", longitude 87°27'25"; thence to latitude 30°22'30", longitude 87°27'00"; thence to the point of beginning.

(b) *Regulations.* (1) The area will be used for seaplane operations two nights each week for periods of three hours beginning fifteen minutes before sundown. When such operations are being conducted navigation will be warned by means of a lighted rotating beacon located on a hangar building at Bronson Field, and the area will be lighted and patrolled by Navy surface craft.

(2) When seaplane operations are being conducted, no vessel or other craft shall enter or remain in the area. At all other times navigation shall not be restricted.

(3) The regulations in this section shall be enforced by the Commander, Naval Air Training Bases, Pensacola, Florida, and such agencies as he may designate. [Regs. June 19, 1947 (800.-2121, Perdido Bay, Ala.-Fla.)—ENGWR] (40 Stat. 266; 33 U. S. C. 1)

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 3—RADIO BROADCAST SERVICES

WITHDRAWAL OF TELEVISION CHANNEL NO. 9 FROM DETROIT, MICH.

At a meeting of the Federal Communications Commission, held at its offices in Washington, D. C., on the 3d day of July 1947;

The Commission having, since April 1946, carried on conversations and negotiations with representatives of the Dominion of Canada for the purpose of determining mutual problems relative to the allocation of television stations in their respective border areas; and

It appearing, that pending the conclusion of a final television allocation plan by the United States and the Dominion of Canada, an arrangement has been reached by the representatives of both countries whereby television channel No. 9, currently assigned to the Detroit area in Michigan, will be reassigned to the Windsor area in Canada; and

It further appearing, that, the reassignment of said channel No. 9 involves a foreign affairs function of the United States and, as such, is exempt from the requirements of section 4 of the Administrative Procedure Act; and

It further appearing, that said television channel No. 9 is the only channel in the Detroit area in Michigan which has not been assigned to any applicant in the United States, nor is any application pending therefor; and

It further appearing, that, in honoring the reservation by the Dominion of Canada of said channel No. 9, the United States will have taken an important and necessary step in concluding agreements between both countries leading toward a solution of mutual allocation problems for television broadcasting;

It is ordered, That pursuant to the authority vested in the Commission by sections 301, 303 (c) and 303 (r) of the Communications Act of 1934, as amended, § 3.606 of the Commission's rules and regulations be amended so that channel No. 9 is withdrawn from the Detroit metropolitan area in the table showing the allocation of television channels to metropolitan districts in the United States, effective immediately.

(Sec. 301, 48 Stat. 1081, sec. 303 (c), 48 Stat. 1082, sec. 303 (r), 50 Stat. 191; 47 U. S. C. 301, 303 (c), 303 (r))

FEDERAL COMMUNICATIONS COMMISSION,

PART 12—AMATEUR RADIO SERVICES

ELIGIBILITY FOR LICENSE

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 3d day of July 1947;

The Commission having under consideration the revision of § 12.21 of its rules governing amateur radio service which requires, among other things, that an applicant for a Class A amateur radio operator license shall, within five years prior to receipt of his application by the Commission, have held, for a period of a year or more, an amateur operator license issued by the Commission; and

It appearing, that it is desirable to amend § 12.21 of the above-mentioned rules insofar as it applies to Class A amateur operator licenses by deleting the words "within 5 years" and inserting the words "at any time", thereby making eligible to apply for a Class A amateur operator license any citizen of the United States who at any time prior to the receipt of his application by the Commission has held, for a period of a year or more, an amateur operator license issued by the Commission; and

It further appearing, that authority to amend § 12.21 as aforesaid is contained in section 303 (l) and (r) of the Communications Act of 1934, as amended, that such amendment relieves an existing restriction is non-controversial and in the public interest and that Public Notice and Procedure required by section 4 of the Administrative Procedure Act are unnecessary;

It is ordered, That § 12.21 of the Commission's rules governing Amateur Radio Service, insofar as it applies to Class A amateur operator licenses, be, and it is hereby, amended to read as follows:

§ 12.21 *Eligibility for license.* The following are eligible to apply for amateur operator license and privileges:

Class A: Any citizen of the United States who at any time prior to receipt of his application by the Commission has held, for a period of a year or more, an amateur operator license issued by the Commission.

It is further ordered, That this order shall take effect immediately.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 947]

HANDLING OF MILK IN FALL RIVER, MASS., MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND TO PROPOSED AMENDMENTS

Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Cum. Supp. 900.1 et seq., 11 F. R. 7737, 12 F. R. 1159), public hearings were held upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Fall River, Massachusetts, marketing area.

A hearing was held at Fall River, Massachusetts, on March 21–22, 1947. Previously a hearing was held at Boston on November 20, 1946, to consider amendments to Order No. 47, which had been proposed by cooperative associations of producers and by the Dairy Branch. Action has been taken with respect to all of the issues except one which were developed at that hearing. The issue upon which action had not been completed deals with contraseasonal changes in the Class I price which might occur as the result of the formula-determined price.

A notice of recommended decision and opportunity to file written exceptions with respect to the issues developed at the March 1947 hearing and the open issue of the hearing held November 20, 1946 was published in the FEDERAL REGISTER June 10, 1947 (12 F. R. 3772). Exceptions have been filed to that recommended decision and were considered in arriving at the findings and conclusions contained herein.

Findings and conclusions. The issues which were listed in the notice and which were developed at the hearing in March 1947 are grouped under the following headings. The issue developed at the hearing held November 20, 1946 is included under the issue "Class I prices."

(1) Class I prices.
(2) Pricing all milk sold in the marketing area.
(3) Method of pooling.
(4) Definitions for "producer" and "dairy farmer."
(5) Classification of milk.
(6) Base rating plan.
(7) Class II prices.
(8) Administration assessment.
(9) Language changes to comply with present organization of the Department of Agriculture.
(10) General.

Exceptions were filed on behalf of New England Milk Producers' Association and H. P. Hood & Sons, Inc. Neither party filing exceptions took exception to the findings and conclusions contained in the aforesaid recommended decision with regard to issues (2), (4), (6), (7), (8), and (9). The findings and conclusions hereinafter set forth on these issues are the same as those contained in the recommended decision and, in effect, are adopted as the findings and conclusions of this decision. With regard to the findings and conclusions of the recommended decision to which specific exception has been taken, this decision contains a ruling thereon in the discussion of the material issues to which the exception refers.

The following findings and conclusions on the material issues are based upon the evidence introduced at the hearing and the record thereof.

(1) *Class I prices.* The butter-nonfat dry milk solids formula for determining the Class I price should be retained in its present form with a provision to prevent contraseasonal changes in the Class I price. Minimum floor prices should be established for each of the months of August through December 1947, and any price decrease in January or February 1948, should be limited to 44 cents per hundredweight below the price of the previous month. The Class I price should be maintained at its present relationship to the Class I price established by the Boston order for milk received at the 201–210 mile zone from that market.

The minimum floor prices should be $5.52 per hundredweight for August and $5.96 per hundredweight for September, October, November, and December. If the butter-nonfat dry milk solids formula yields a price higher than $5.96 in any of the months of August, September, October, or November, that price should continue through December.

There is a serious need for encouraging a shift toward more fall production in the Fall River milk shed. Prior to 1946, for a period of six years, seasonal variation in production increased each year. In 1946 fall production increased relative to spring production. Minimum Class I floor prices are required for each month through December 1947 in order to assure a substantial rise in prices from the spring to the fall and thus develop a better seasonal pattern of production in the area. The short season rise in prices which should normally take place on October 1 should be advanced to September 1 this year in order to encourage feeding during the fall season to get more milk this fall.

The uncertainty of economic conditions in the fall and winter makes necessary a safeguard in addition to minimum floor prices. The butter-nonfat dry milk solids formula should be retained to give producers the benefit of any increase over the floor prices which may be justified by prices of other dairy products and by the general price level. The formula should be modified to prevent contraseasonal price changes in the months just preceding or during the seasons of greater shortage or flush production. The Class I prices for any of the months of September, October, November, and December of any year should not be lower than the Class I price in effect for the preceding month and the Class I prices for the months of March, April, May, and June of any year should not be higher than the Class I price in effect for the preceding month. The provision to prevent contraseasonal price changes will avoid the nullification of the seasonal price plan by movements of the general price level. It is not considered advisable to provide for complete prevention of downward price movements in the last half of the year or upward price movements in the first half because such a provision would hold back unduly adjustments to the general price level. The limitation of price drops from December to January and January to February to 44 cents will prevent any precipitous price drop immediately following the period for which greater production is to be encouraged.

Exact prices cannot be determined from this record for a period of 8 to 12 months in advance. The present trend toward increasing production and decreasing consumption and the general uncertainty as to business conditions this fall and winter preclude a fixed guarantee of exact Class I prices. The formula will establish prices this fall above the floor prices if conditions warrant higher prices and will provide a method of pricing after December. If the rise in prices of butter and nonfat dry milk solids which took place in 1946 is repeated in 1947, the formula will establish prices as high as those established in November 1946.

The large quantities of milk which move from the Boston market into Fall River and the nearness of the two markets make it imperative that the Class I prices in the two markets move together. The prices set forth herein are such that the established relationship will be maintained between Fall River prices and the prices established for the Boston 201–210 mile zone in a decision of the Secretary of Agriculture issued June 30, 1947. The Boston 201–210 mile zone price represents the average price of Boston milk which may be offered for sale in Fall River. An increase of 2 cents in the differential between the Boston price and the prices established herein should not be adopted since the record supports the continuation of the present relationship between prices in the two markets.

Price differentials for Class I milk received at plants located 100 miles or more from Fall River should be continued on the same basis.

(2) *Pricing all milk sold in the marketing area.* The order should be revised to price all milk entering the marketing area except milk from another marketing area regulated by an order of the Secretary of Agriculture, milk which is a part of a handler's normal supply for a market other than the marketing area, and milk delivered by dairy farmers to plants located outside of the New England States and New York.

Large quantities of milk which are not subject to the pricing provisions of the Fall River order or any other order of the Secretary of Agriculture come into the marketing area. The entrance of such unpriced milk into the marketing area constitutes a threat to the stability of the market.

The supply of milk in New England available for fluid uses is increasing. Certain manufacturing outlets for milk are becoming less attractive and milk formerly used in such outlets is becoming available for fluid uses. Plants which are withdrawn from the Boston pool can supply milk to Fall River handlers for Class I use at, or slightly above, the Boston blended price.

Some handlers obtain a larger percentage of their supply from unpriced sources than other handlers. This results in inequality in the prices handlers pay for their milk.

Milk from another marketing area regulated by an order of the Secretary of Agriculture is priced under the provisions of that order and need not be subject to the pricing provisions of Order No. 47. Milk which is a part of a handler's normal supply for a market other than the marketing area should be exempted from the pricing provisions of the order to allow certain handlers to continue their practice of distributing milk in Fall River and one or more nearby markets from the same plant without making those operations in the nearby markets subject to the pricing provisions of the order. Milk received from plants located outside of New England and New York State should not be subject to the pricing provisions of the order because it would not be administratively feasible to regulate plants so far away.

(3) *Method of pooling.* Payment on the basis of individual handler pools should be adopted to replace the present market-wide pool.

The method of pooling must be coordinated with the objective of bringing under the pricing provisions of the order that milk which now enters the marketing area free from any price regulation. To expand the market-wide pool to include all plants from which unpriced milk now enters the marketing area would increase the supply several times over the amount needed for the market. To designate certain of these plants as Fall River pool plants would bring about a problem of which of the plants should and which should not be Fall River pool plants. If the market-wide pool were extended, it would be possible for handlers to shift plants to the Fall River pool, regardless of whether or not the milk was needed in Fall River. Under the individual

handler pool a handler must keep his purchases in line with his Class I requirements and his competitors' uniform prices in order to maintain a supply of milk. Because of this the individual handler pool provides better machinery for the allocation of the available supply of milk between handlers according to their requirements.

A handler excepted to extensive revision of the order on the basis that the record is not complete enough to support the changes. Although the proponents of the individual handler pool did not present for the record specific language to be used to effectuate this proposal, they did adduce evidence in which all of the ramifications of the adoption of the individual handler pool were fully explored and the intention of the proponents in connection therewith was expressly stated and evidence in support thereof was presented. Handlers apparently understood the specific nature of the proposal for they discussed it at the hearing and in their briefs.

(4) *Definitions of "producer" and "dairy farmer."* The definition of a producer should be revised to include more specifically those farmers who constitute a regular source of supply of milk for the marketing area. A definition for a dairy farmer should be provided in order to facilitate references to those farmers who produce milk but are not a regular source of supply for the marketing area.

The present producer definition was placed in the order at a time when the market was practically self-sufficient. Under the present deficit conditions the benefits of the order are limited to only certain of the farmers supplying the market. The definition should be broadened to include those farmers who are now excluded.

Dairy farmers who are part of a handler's normal supply for a market other than the marketing area should be excluded from the producer definition if none of their milk is disposed of as Class I in the marketing area. With the close relationship which exists between the Fall River market and nearby markets, it is doubtful if a situation would develop in which the Fall River supply was below Class I requirements while the supply in nearby markets was substantially in excess of Class I requirements. Producers contended that dairy farmers who are a part of a handler's normal supply for another market should be excluded in the producer definition only if none of their milk was disposed of as Class I in a market other than the one for which they are designated. Such a requirement would cause inefficiencies in plants serving other markets in addition to Fall River.

A large portion of the supply for Class II uses in the Fall River market is obtained from cream plants in the midwest. These suppliers of cream should not be considered handlers of the Fall River milk supply nor should the dairy farmers shipping to such plants be considered producers.

Milk received at a plant which has operations in another market and from which the quantity of Class I milk sold or distributed in the marketing area during the delivery period is no greater than the quantity of Class I milk received from Fall River handlers, plus the quantity of bulk milk received from plants subject to another order of the Secretary of Agriculture during the delivery period should not be considered as milk from producers Such a provision would allow a cooperative association to continue its operation of using one plant to clean up scattered surpluses during the flush season and to provide supplemental supplies in the short season for Fall River handlers and dealers in a nearby market. The provision should apply to any person who engages in such a function.

The producer definition should not contain a qualification based on Board of Health approval of individual dairy farmers since there is no assurance that such inspections could be made in all cases.

In order to be consistent with the producer definition the handler definition should be revised to include any person who receives milk from producers, dairy farmers, or other handlers, all or a portion of which is disposed of as Class I milk in the marketing area.

(5) *Classification of milk.* The provisions for classifying milk received from producers and other sources should contain the directions for computing the amount of each source milk used in each class. Allowable plant shrinkage should be computed and prorated on all receipts at a plant except receipts from other handlers who receive milk from producers and milk received completely processed and packaged. Under the present provisions it is possible for producers to bear plant shrinkage on milk received from sources other than producers.

Milk from other handlers who receive milk from producers would be excluded from the proration because it has already shared in the plant loss at the first handler's plant. Plant shrinkage on milk received completely processed and packaged should be computed on the basis of actual units lost.

Transfers from a handler's plant at which milk is received from producers to another handler should be classified according to agreement between the buyer and seller: *Provided*, That the buyer has utilization in the class agreed upon equal to or greater than the amount transferred during the delivery period. Optional classification of transfers from a handler's plant at which milk is received from producers to another handler will permit a handler with Class II facilities to absorb the surpluses of handler's without Class II facilities without the receiving handler's producer pool being diluted with Class II milk. The receiving handler should not be required to show that it was physically possible for receipts to have been utilized in Class II. Such a requirement would involve additional effort on the part of the market administrator in making his audits of receipts and utilization without affecting net payments to producers.

Milk from sources other than producers, dairy farmers who are a part of a handler's normal supply for a market other than the marketing area, and other marketing areas regulated by an order of the Secretary of Agriculture should be classified as Class II up to the amount of Class II utilization remaining after the classification and proration of allowable plant shrinkage. Such classification is necessary in order to prevent the possible displacement of producer milk by milk from plants located outside New England and New York State which would remain exempt from minimum pricing.

The amount of Class II milk remaining after the classification of allowable plant shrinkage and outside milk at a plant at which milk is received from producers should be prorated to receipts from producers, dairy farmers designated for other markets, and plants subject to an order of the Secretary of Agriculture regulating the handling of milk in another marketing area, except, as presently provided in the order, that the total amount of milk received from producers which is classified as Class II should not exceed 5 percent of total receipts from producers, if receipts from other sources are sufficient to absorb the Class I utilization in excess of 5 percent. The 5 percent limitation should not be extended to cover handlers' receipts from other handlers who receive milk from producers since such a provision would be inconsistent with a provision to allow optional classification of interhandler transfers.

A handler excepted to the continuation of the 5 percent limitation on Class II producer milk on the grounds that an individual handler pool provides an incentive toward minimizing Class II utilization and that the 5 percent limitation is more restrictive to handlers with outside market operation than to handlers with local operations only. The record contains no evidence to indicate that supply conditions have changed since the adoption of the 5 percent provision to such an extent that the limitation of 5 percent is now too restrictive. Although a handler with outside market operations is limited to 5 percent Class II milk in his Fall River operation, there is no limit to the amount of Class II he may have in his other market operations. The provision should be retained until it is subject to more thorough consideration at another hearing.

Since milk of a handler's own production is considered as producer milk, no special provisions for its classification are necessary. If the handler has receipts from producers and from any other source, the amount of Class II which producers bear is limited by the 5 percent provision, and the breakdown of Class II between own farm production and sources other than producers would be only a statistical result.

Milk used in standardizing cream should not be classified as Class I. Classification of such milk as Class I would result in inequalities in prices handlers pay for cream depending upon whether cream was brought into Fall River as cream containing 40 percent butterfat or as cream already standardized.

(6) *Base rating plan.* The base rating provisions should be deleted from the order. These provisions have been suspended since January 31, 1943. Changes which have been made in the order since that date are such as to make the existing base rating plan unworkable in its present form even if such a plan were considered desirable. No new base rating plan should be established at this time. The base rating payment plan was not considered in detail since most witnesses offered testimony on seasonal changes in Class I prices to achieve the level production objective which is the purpose of a base rating plan.

(7) *Class II prices.* No change should be made in the formula for establishing Class II prices.

The established relationship between Fall River and Boston Class II prices should be maintained. No change was recommended in the Boston Class II pricing formula in the recommended decision which was issued on May 21 with respect to the Boston order.

(8) *Administration assessment.* The basis for assessing handlers to defray the expenses of administering the order should not be changed. The language should be clarified to show specifically that a handler should not be assessed on milk which has already borne assessment in another Fall River handler's plant.

Assessment for expense of administration should be paid upon milk from dairy farmers designated for other markets and on milk received in the marketing area and resold in bulk outside the marketing area since the administrative effort required of the market administrator in auditing receipts and disposition is no less for such milk than for any other milk.

The provision that the rate of assessment may be established at an amount lower than the specified maximum rate should be revised to reflect the actual practice that no change is made without the approval of the Secretary of Agriculture.

The records of the Milk Control Board of Massachusetts, with respect to milk received from producers designated for the New Bedford market, should not be adopted by the market administrator in lieu of an audit conducted by him of all the milk received in a handler's plant. An over-all audit of all of the operations in a handler's plant is required to verify the utilization of milk subject to the provisions of Order No. 47. To adopt the audit made by another agency would require the other agency to apply the same rules of auditing and accounting as those applied by the market administrator. No evidence of present similarity of auditing practices was submitted.

(9) *Language changes to comply with present organization of the Department of Agriculture.* Changes in organization within the Department of Agriculture have rendered obsolete certain terms now used in the order. Those terms should be changed to coincide with the present organization.

(10) *General.* (a) The attached marketing agreement and the attached amended order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The attached marketing agreement and the attached amended order regulate the handling of milk in the same manner as and are applicable only to persons in the respective classes of industrial and commercial activity specified in the tentatively approved marketing agreement upon which the hearings have been held; and

(c) The prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect the market supply and demand for such milk, and the minimum prices specified in the attached marketing agreement and the attached amended order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled "Marketing Agreement Regulating the Handling of Milk in the Fall River, Massachusetts, Marketing Area" and "Order Amending the Order, As Amended, Regulating the Handling of Milk in the Fall River, Massachusetts, Marketing Area" which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order amending the order, as amended, which will be published with the decision.

This decision filed at Washington, D. C., this 11th day of July 1947.

[SEAL] N. E. DODD,
Acting Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Fall River, Massachusetts, Marketing Area

§ 947.0 *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Cum. Supp. 900.1 et seq., 11 F. R. 7737, 12 F. R. 1159), public hearings were held upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Fall River, Massachusetts, marketing area. Upon the basis of evidence introduced at such hearings and the record thereof, it is found that:

(a) The said order, as amended and as hereby further amended, and all of the terms and conditions of said order, as amended and as hereby further amended, will tend to effectuate the declared policy of the act;

(b) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to section 2 and section 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Fall River, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended to read as follows:

§ 947.1 *Definitions.* The following terms as used herein have the following meanings:

(a) "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.).

(b) "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

(c) "Fall River, Massachusetts, marketing area", hereinafter called the "marketing area," means the city of Fall River and the town of Somerset, both in the Commonwealth of Massachusetts, and the town of Tiverton in the State of Rhode Island.

(d) "Person" means any individual, partnership, corporation, association, or any other business unit.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

(e) "Dairy farmer" means any person who produces milk.

(f) "Producer" means any dairy farmer, irrespective of whether such dairy farmer is also a handler, whose milk is received at a plant from which Class I milk is shipped to, or sold in, the marketing area either directly or through another plant during the delivery period: *Provided*, That a dairy farmer shall not be a producer within this definition:

(1) If minimum prices are required to be paid to him under provisions of any other Federal order;

(2) If milk delivered by him is determined by the market administrator to be a part of the handler's normal supply for a market other than the marketing area and (i) is classified in Class II or is disposed of outside the marketing area and is classified as Class I, or (ii) is moved to a plant from which the quantity of Class I milk sold or distributed in the marketing area during the delivery period is no greater than the quantity of Class I milk received during the delivery period at such plant from Fall River handlers plus the quantity of bulk milk received from a Federal order plant during the delivery period; or

(3) If his milk is delivered to a plant located outside Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, and New York.

(g) "Dairy farmers designated for other markets" means those dairy farmers which are reported to the market administrator by a handler as his normal supply for a market other than the marketing area.

(h) "Cooperative association" means any association of producers or producers and dairy farmers which the Secretary determines (1) to have its entire activities under the control of its members, and (2) to have and to be exercising full authority in the sale of milk of its members.

(i) "Handler" means any person, irrespective of whether such person is also a dairy farmer, a producer, or a cooperative association, who receives milk from producers, dairy farmers, cooperative associations, or other handlers, all or a portion of which milk is disposed of as Class I milk in the marketing area during the delivery period.

(j) "Producer-handler" means a producer who is also a handler who receives no milk from producers: *Provided*, That such handler shall furnish to the market administrator for his verification, subject to review by the Secretary, evidence that the maintenance, care, and management of the dairy animals and other resources necessary for the production of milk in his name are and continue to be the personal enterprise of and at the personal risk of such producer and the processing, packaging, and distribution of the milk are and continue to be the personal enterprise of and at the personal risk of such producer in his capacity as a handler.

(k) "Delivery period" means the calendar month, or the portion thereof, during which the provisions hereof are effective.

(l) "Producer milk" means all milk produced by a producer, which is purchased or received by a handler either directly from such producer or from a cooperative association.

(m) "Other source milk" means all milk received by a handler which is not producer milk, milk from dairy farmers designated for other markets, or milk from a Federal order plant.

(n) "Federal order" means any order of the Secretary regulating the handling of milk pursuant to the act.

(o) "Federal order plant" means any plant at which the milk is subject to the minimum pricing provisions of another Federal order during the delivery period.

(p) "Hundredweight" means one hundred pounds of milk or its volume equivalent, considering 85 pounds of milk and 86 pounds of skim milk per 40-quart can, and 2.15 pounds of milk per quart.

§ 947.2 *Market administrator* — (a) *Designation.* The agency for the administration hereof shall be a market administrator who shall be a person selected and subject to removal by the Secretary. The market administrator shall, within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary. The market administrator shall be entitled to such reasonable compensation as shall be determined by the Secretary.

(b) *Powers.* The market administrator shall have the power to:

(1) Administer the terms and provisions hereof;

(2) Report to the Secretary complaints of violations hereof;

(3) Make rules and regulations to effectuate the terms and provisions hereof; and

(4) Recommend to the Secretary amendments hereto.

(c) *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(1) Keep such books and records as will clearly reflect the transactions provided for herein;

(2) Submit his books and records for examination by the Secretary at any and all times;

(3) Furnish such information and such verified reports as the Secretary may request;

(4) Obtain a bond with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(5) Publicly disclose, after reasonable notice, the name of any person who has not made reports pursuant to § 947.3 or made payments required by § 947.8;

(6) Prepare and disseminate, for the benefit of producers, consumers, and handlers, such statistics and information concerning the operation hereof as do not reveal confidential information;

(7) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;

(8) Pay out of the funds received pursuant to § 947.10 the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and the performance of his duties;

(9) Promptly verify the information contained in the reports submitted by handlers; and

(10) Verify, subject to review by the Secretary, evidence furnished by handlers pursuant to § 947.1 (j), such verification to be made within 15 days of the date of receipt of such evidence, and to be effective from the first day of the delivery period during which verification is made.

§ 947.3 *Reports of handlers*—(a) *Submission of reports.* Each handler shall report to the market administrator in the form and detail prescribed by the market administrator.

(1) On or before the 7th day after the end of each delivery period, the receipts of milk, skim milk, and cream at each plant from producers, from other handlers, from such handler's own production, from any other sources, and inventories on hand at the beginning and end of such delivery period;

(2) On or before the 7th day after the end of each delivery period, the respective quantities of milk, skim milk, and cream which were sold, distributed, or disposed of, including sales or deliveries to other handlers, for the several purposes and classifications as set forth in § 947.5;

(3) Within 10 days after the market administrator's request, with respect to any producer for whom such information is not in the files of the market administrator, and with respect to a period or periods of time designated by the market administrator, (i) the name, post office address, and farm location, (ii) the total pounds of milk delivered, (iii) the average butterfat test of milk delivered, and (iv) the number of days on which deliveries were made;

(4) At such time after the 18th day after the end of each delivery period as the market administrator may require, each handler shall within 10 days submit to the market administrator his producer records for such delivery period which shall show for each producer: (i) The total delivery of milk with the average butterfat test thereof, (ii) the net amount of the payment to each producer and each cooperative association made pursuant to § 947.8, and (iii) the deductions and charges made by the handler;

(5) On or before the 18th day after the end of the first delivery period following the effective date hereof, a schedule of the transportation rates which were charged and paid for the transportation of milk from the farm of each producer to such handler's receiving plant and such information with respect to distances involved as the market administrator may require;

(6) On or before the 18th day after any changes are made in the schedule filed in accordance with subparagraph (5) of this paragraph, a copy of the revised schedule with the effective dates of such changes as may appear in the revised schedule;

(7) On or before the 7th day after the end of each delivery period, dairy farmers designated for other markets.

(b) *Verification of reports.* Each handler shall make available to the market administrator or his agent those records which are necessary for the verification of the information contained in reports submitted by such handler pursuant to this section and those facilities necessary for the weighing, measuring, sampling, and testing for butterfat content of milk or any product therefrom and for determining the utilization made by the handler of milk or any product therefrom.

§ 947.4 *Applications of provisions.* (a) Sections 947.6, 947.8, 947.9, and 947.10 are not applicable to any producer-handler as herein defined.

(b) Milk received by a handler from a producer-handler shall be considered as being received from a producer.

§ 947.5 *Classification of milk*—(a) *Responsibility of handlers.* In establishing the classification of milk received by a handler the burden rests upon the handler who received the milk from producers to account for all milk received at each plant at which milk is received from producers, and to prove that such milk should not be classified as Class I. The burden rests upon the handler who distributes milk in the marketing area to establish the source of all milk received.

(b) *Classes of milk.* Milk received by each handler at a plant where milk is received from producers shall be classified in Class I or Class II in accordance with subparagraphs (1) and (2) of this paragraph, subject to paragraphs (c) and (d) of this section.

(1) All milk the utilization of which is not established as Class II shall be Class I.

(2) Class II milk shall be all milk which is accounted for as (i) sold, distributed, or disposed of other than as milk which contains one-half of 1 percent or more but less than 16 percent of butterfat, and other than as chocolate or flavored whole or skim milk, buttermilk, or cultured skim milk, for human consumption; and (ii) actual plant shrinkage not in excess of 2 percent of milk received from all sources including the handler's own production but not including receipts from other handlers who receive milk from producers or milk received completely processed and packaged from a Federal order plant.

(c) *Transfers of milk from a plant at which milk is received from producers.* (1) Transfers to a producer-handler shall be Class I.

(2) Transfers to another handler not a producer-handler or to a Federal order plant shall be classified as reported by the seller, or, if the seller submits no report, as reported by the buyer: *Provided*, That the quantity classified as Class II milk shall not exceed the total quantity of Class II milk of such buyer during the delivery period.

(3) Transfers to a plant, other than a plant at which milk is received from producers or a Federal order plant, from which milk is distributed or at which milk products are manufactured shall be Class I not to exceed the total Class I at such plant during the delivery period.

(d) *Classification of milk received at plants at which milk is received from producers.* For each delivery period each handler shall report the classification of milk which was received at plants at which milk is received from producers by making computations in the order indicated as follows:

(1) Determine the pounds of milk, skim milk, cream, and other milk products received at all plants of the handler at which milk is received from producers (i) from producers, including own production, (ii) from dairy farmers designated for other markets, (iii) in the form of products received completely processed and packaged from a Federal order plant, (iv) in the form of bulk milk received from another Federal order plant, (v) from other handlers who receive milk from producers, and (vi) from other sources, and the total.

(2) Determine the total pounds of milk, skim milk, cream, and other milk products utilized in Class II products including allowable plant shrinkage as provided in paragraph (b) (2) (ii) of this section.

(3) Prorate allowable plant shrinkage classified as Class II to producer milk, milk from dairy farmers designated for other markets, bulk milk received from a Federal order plant, and other source milk, and deduct such plant shrinkage from total Class II computed pursuant to subparagraph (2) of this paragraph.

(4) Classify other source milk as Class II in an amount no greater than the amount of Class II remaining.

(5) Deduct from the remaining pounds in each class the quantity of milk, skim milk, cream, and other milk products received from other handlers who receive milk from producers and classified according to paragraph (c) (2) of this section, and Class I and Class II products received completely processed and packaged from a Federal order plant classified according to the actual use established.

(6) Prorate remaining Class II to producer milk, milk from dairy farmers designated for other markets, and bulk milk received from a Federal order plant: *Provided*, That the amount of producer milk classified as Class II inclusive of plant shrinkage shall not exceed 5 percent of the total amount of producer milk.

(7) Deduct any remaining Class II amounts from the total quantity received from producers and the remainder is Class I producer milk.

(8) From the total receipts from each source listed in subparagraph (1) of this paragraph deduct the amount classified as Class II for each source in subparagraphs (3), (4), (5), (6), and (7) of this paragraph and the remainder from each source is Class I: *Provided*, That the total Class I utilization in the marketing area is not more than the Class I producer milk determined in this subparagraph plus Class I milk received from Federal order plants and Class I milk from plants located outside Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, and New York.

§ 947.6 *Minimum prices*—(a) *Class I prices.* (1) Each handler shall pay producers or cooperative associations for their milk containing 3.7 percent butterfat, during each delivery period, in the manner set forth in § 947.8 and subject to the differentials set forth in paragraph (c) of this section, for Class I milk delivered by them, not less than the price per hundredweight determined as follows:

(i) Using the period beginning with the 25th of the second preceding month and ending with the 24th of the immediately preceding month, compute the average of the highest prices reported daily by the United States Department of Agriculture for U. S. Grade A (U. S. 92-score) butter at wholesale in the New York market.

(ii) Using the midpoint of any range as one quotation, compute the average of all that the hot roller process nonfat dry milk solids quotations per pound for "other brands, animal feed, carlots, bags, or barrels," and for "other brands, human consumption, carlots, bags, or barrels," published during the 30 days ending on the 24th day of the immediately preceding month in "The Producers' Price Current;" subtract 4 cents; and multiply the remainder by 1.8.

(iii) Add the values determined pursuant to subdivisions (i) and (ii) of this subparagraph.

(iv) Subject to subdivisions (v), (vi), and (vii) of this subparagraph, the Class I price per hundredweight shall be as shown in the following table:

CLASS I PRICE SCHEDULE

Value computed pursuant to subdivision (iii) of this subparagraph (cents)		Class I price (dollars per cwt.)	
At least—	But less than—	April through June	July through March
0	25	2.44	2.88

90	95	5.52	5.96
95	100	5.74	6.18
100	105	5.96	6.40

If the value computed pursuant to subdivision (iii) of this subparagraph is 105 cents or more the price shall be increased at the same rate as would result from further extension of this table.

(v) The Class I price for any of the months of March through June of each year shall not be higher than the Class I price for the immediately preceding month, and the Class I price for any of the months of September through December of each year shall not be lower than the Class I price for the immediately preceding month.

(vi) The Class I price shall not be less than $5.52 per hundredweight for the month of August 1947 and shall not be less than $5.96 per hundredweight for each of the months of September through December 1947.

(vii) The Class I price for January 1948 shall not be less than the December 1947 Class I price minus 44 cents, and the Class I price for February 1948 shall not be less than the January 1948 Class I price minus 44 cents.

(2) For milk delivered to a handler from producers' farms at a plant located more than 100 miles from the City Hall in Fall River, there shall be deducted the sum of 13 cents plus an amount per hundredweight equal to the lowest rail tariff, for the transportation in carlots of milk in 40-quart cans, as published in the New England Joint Tariff M5 (including revisions and supplements thereto), for the distance from the railroad shipping point for such plant to the handler's railroad delivery point for the marketing area.

(b) *Class II prices.* (1) Except as provided in subparagraph (2) of this paragraph, each handler shall pay producers or cooperative associations for their milk in the manner set forth in § 947.8 not less than the price per hundredweight, for milk containing 3.7 percent butterfat calculated for each delivery period by the market administrator as follows:

(i) Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market, reported by the United States Department of Agriculture for the delivery period during which such milk is delivered, multiply the result by 3.7 and subtract 15 cents.

(ii) Add any plus amount which results from the following computation: using the midpoint in any range as one quotation, compute the average quotation per pound of nonfat dry milk solids in carlots for roller process human food products in barrels, and for hot roller process animal feed products in bags, as published during the delivery period by the United States Department of Agriculture for New York City. Multiply each such quotation by the applicable percentage indicated for the delivery period in the following table and combine the results, subtract 4 cents, and multiply the remainder by 7.5.

Delivery period	Human food products	Animal feed products
	Percent	*Percent*
January	100	
February	100	
March	50	50
April	50	50
May	25	75
June	25	75
July	50	50
August	75	25
September	75	25
October	100	
November	100	
December	100	

(2) For milk delivered to a handler from producers' farms at a plant located more than 100 miles from the City Hall in Fall River, the price shall be the amount computed pursuant to subparagraph (1) of this paragraph minus 14 cents.

(c) *Butterfat differential.* If any producer has delivered to any handler during any delivery period milk having an average butterfat content other than 3.7 percent, such handler shall, in making the payments to such producer prescribed by paragraph (a) of § 947.8, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent an average butterfat content below 3.7 percent, an amount per hundredweight which shall be calculated by the market administrator as follows: divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day inclusive of the delivery period during which such milk is delivered, or the last such price reported for a delivery period and if no such price is reported for the period between the 16th day of the preceding month and the 15th day inclusive of the delivery period during which such milk is delivered, subtract 1½ cents and divide the result by 10.

(d) *Computation of transportation allowances.* For the purpose of this section, the milk which was disposed of during each delivery period by each handler as Class I milk from a plant located within 100 miles of the City Hall in Fall River shall be presumed to have been, first, that milk which was received directly from producers' farms at such plant, and then that milk which was shipped from the nearest plant located more than 100 miles from the City Hall in Fall River.

§ 947.7 *Determination of uniform prices to producers*—(a) *Computation of value of milk of basic test received by each handler from producers.* For each delivery period the market administrator shall compute the value of milk received by each handler from producers in the following manner:

(1) Multiply the quantity of milk received from producers and classified in Class I and Class II pursuant to § 947.5 (d) by the respective class prices pursuant to § 947.6 (a) and (b):

(2) Combine the resulting values.

(b) *Computation of uniform prices.* The market administrator shall compute for each handler the uniform price per hundredweight of milk received from producers during each delivery period in the following manner:

(1) Add to the total value computed pursuant to paragraph (a) of this section the total amount of the differentials pursuant to § 947.8 (b); and

((2) Divide the amount computed pursuant to subparagraph (1) of this paragraph by the total quantity of milk received from producers. This result shall be the handler's uniform price for milk containing 3.7 percent butterfat.

(c) *Announcement of uniform prices.* The market administrator shall, on or before the 11th day after the end of each delivery period, mail to each handler and publicly announce:

(1) The uniform prices per hundredweight computed pursuant to paragraph (b) of this section; and

(2) The Class II price and the butterfat differential.

§ 947.8 *Payments for milk*—(a) *Time and method of payment.* (1) On or before the 1st day after the end of each delivery period, each handler shall make payment to producers for the approximate value of milk received during the first 15 days of such delivery period. On or before the 17th day after the end of each delivery period, each handler shall make payment for the total value of milk received from producers or cooperative associations during the preceding delivery period, computed pursuant to § 947.7, subject to the differentials set forth in paragraph (c) of § 947.6 and paragraphs (b) and (c) of this section as follows:

(i) To producers, at not less than the uniform price per hundredweight announced pursuant to § 947.7 (c) for the quantity of milk received from each producer.

(ii) To a cooperative association for milk which is caused to be delivered to a handler from producers by such cooperative association, and for which such cooperative association collects payment, a total amount equal to not less than the sum of the payments otherwise payable to such producers individually, pursuant to subdivision (i) of this subparagraph.

(b) *Differential for plant handling and transportation.* The payments to be made by handlers to producers, pursuant to paragraph (a) of this section shall be reduced by differentials as follows: with respect to milk received from a producer at a plant located more than 100 miles from the City Hall in Fall River, a sum of 13 cents plus an amount per hundredweight equal to the lowest rail tariff for transportation in carlots of milk in 40-quart cans, as published in the New England Joint Tariff M5 (including revisions and supplements thereto), for the distance from the railroad shipping point of such plant to the handler's delivery plant for the marketing area.

(c) *Other differentials.* In making payments to producers or cooperative associations pursuant to paragraph (a) of this section, handlers may deduct $0.0075 per hundredweight with respect to milk received from producers in containers supplied by the handler for the transportation of milk from their farms to the handler's plant as rental for such containers.

(d) *Correction of errors in payments to producers.* Errors in making any of the payments required in this section shall be corrected not later than the date for making payments next following the determination of such errors.

§ 947.9 *Marketing service deductions*—(a) *Marketing services performed by market administrator.* On or before the 15th day after the end of each delivery period, in making payments to producers pursuant to § 947.8, each handler shall deduct, with respect to milk received from each producer during such delivery period, except as set forth in paragraph (b) of this section, 4 cents per hundredweight, or such lesser amount as the market administrator shall determine to be sufficient, and shall pay an amount equivalent to such deductions to the market administrator. Such amount shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples and tests of milk received from producers. The market administrator may contract with a cooperative association or associations for the furnishing of the whole or any part of such services to or with respect to the milk received by handlers from producers.

(b) *Marketing services performed by cooperative associations.* On or before the 17th day after the end of each delivery period, in making payments to producers pursuant to § 947.8, each handler shall deduct, with respect to milk received from producers for whom a cooperative association, which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act" is actually performing the services set forth in paragraph (a) of this section, such amounts as are authorized by such producers, and pay an equivalent amount to the cooperative association rendering such services to its members.

§ 947.10 *Expense of administration*—(a) *Payments by handlers.* As his pro rata share of the expense of administration hereof, each handler not a producer-handler shall, on or before the 15th day after the end of each delivery period, pay to the market administrator 5 cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe with respect to all milk received during such delivery period at (1) a plant at which milk is received from producers, and (2) a plant from which Class I milk is disposed of in the marketing area to persons other than handlers who receive milk from producers: *Provided,* That such handler, which is a cooperative association, shall pay such pro rata share of expense of administration on such milk which it causes to be delivered by member producers to a handler's plant for the marketing area and for which milk such cooperative association collects payment: and *Provided further,* That any amounts required by this paragraph to be paid to the market administrator shall be reduced by an amount equivalent to any amounts paid with respect to such milk, for cost of administration of a Federal order.

(b) *Suits by the market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of payments required by this section.

§ 947.11 *Effective time, suspension, or termination of order*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended, or terminated, pursuant to paragraph (b) of this section.

(b) *Suspension or termination of order.* The Secretary may suspend or terminate this order or any provision hereof whenever he finds that this order or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate. The market administrator, or such other person as the Secretary may designate, shall:

(1) Continue in such capacity until removed by the Secretary;

(2) From time to time account for all receipts and disbursements and, when so directed by the Secretary, deliver all funds on hand, together with the books and records of the market administrator or such person, to such person as the Secretary shall direct; and

(3) If so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof, the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in ar equitable manner.

§ 947.12 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture to act as his agent or representative in connection with any of the provisions hereof.

§ 947.13 *Marketing committee*—(a) *Establishment.* At the request of handlers of more than 50 percent of the milk which is produced for sale in the marketing area, the Director of the Dairy Branch, Production and Marketing Administration, United States Department of Agriculture, (hereinafter referred to as Director) may select a committee, to be known as the "Marketing Committee," which shall have as its members representatives of the various groups directly interested in the marketing of milk in the marketing area, all of whom may be selected from among the persons nominated by the handlers in accordance with the procedure established by the Director.

(b) *Duties.* The Marketing Committee shall have such duties as the Director determines to be necessary and appropriate to effectuate the declared policy of the act in its application to this order, as amended, and the administration thereof, all of which duties shall be prescribed by the Director.

(c) *Compensation.* The members of the Marketing Committee shall serve without compensation but shall be entitled to expenses necessarily incurred by them in the performance of their duties, and such expenses shall be paid by the market administrator out of the assessments collected hereunder for the cost of administration hereof.

(d) *Supervision.* Each and every act of the Marketing Committee shall be subject to the continuing right of the Director or the Secretary to disapprove at any time.

(e) *Procedure.* The procedure to be followed by the Marketing Committee shall be recommended by the market administrator hereunder and shall be approved by the Director.

§ 947.14 *Emergency price provision.* Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy, or other similar payment, being made by any Federal agency in connection with the milk, or product, associated with the price specified: *Provided,* That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: *Provided further,* That if the specified price is not reported or published and there is no applicable maximum uniform price, or if the specified price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

CIVIL AERONAUTICS BOARD

[14 CFR, Part 292]

ALASKAN AIR CARRIERS

CLASSIFICATION, EXEMPTION AND REGULATION

JULY 7, 1947.

The Civil Aeronautics Board has under consideration a revision of § 292.2 of the Economic Regulations relating to the classification, exemption and regulation of air carriers operating in air transportation within the Territory of Alaska. The revision (text of which is attached hereto) is proposed under the authority of sections 205 (a) and 1001 and Title IV of the Civil Aeronautics Act of 1938, as amended (52 Stat. 984, 1017, 987–1005,

as amended; 49 U. S. C. 425, 641, 481–496).

The Board has authorized the circulation of the proposed revision to interested persons. Comments should be submitted in writing to the Secretary, Civil Aeronautics Board, Washington 25, D. C., on or before August 14, 1947.

The Board has been conducting an investigation into the matter of the regulation of air transportation within the Territory of Alaska for some time. Hearings have been held and members of the staff have conducted various studies and surveys in order to determine the scope of economic regulation required for an adequate air transportation system.[1] This investigation is being continued and the Board intends to consider further changes in the pattern of regulation for air transportation in the Territory of Alaska upon completion of this investigation.[2] It is the opinion of the Board, however, that additional regulation is required in the interim.

The revised regulation herein proposed is a codification of the existing regulation § 292.2 (Alaskan Air Carriers) and contains new matter which removes some of the existing exemptions under which air carriers in Alaska are now operating.

In order to facilitate understanding of some of the principal changes which the proposed revision will effect, the following explanatory statement is offered.

Classification of Alaskan Air Carriers. Under the provisions of this proposed revision, there would be established a classification of air carriers to be known as "Alaskan Air Carriers". Grouped within this classification would be all classes of air carriers now conducting substantially all of their operations within the Territory of Alaska pursuant to authorization issued by the Civil Aeronautics Board. It would include (a) those air carriers now known as "Alaskan Air Carriers" under the present § 292.2 which are operating within the Territory of Alaska under authority of certificates of convenience and necessity issued by the Board; (b) those air carriers known as "k" carriers which are operating under the authority of paragraph "k" of the present § 292.2; and (c) those air carriers which are operating in accordance with individual exemption orders issued by the Board.

Scope of operations permitted. The revised regulation would grant to the Alaskan Air Carriers, as newly defined therein, an exemption from sections 401 (a) and 404 (a) of the act to permit them to continue to operate in air transportation within the Territory of Alaska over the same routes and to offer service of the same type and class as they are now operating under the exemptions now in effect.

Regulation of Alaskan Air Carriers. Alaskan Air Carriers would be made subject to all the principal Economic Regulations of the Board now applicable to the domestic air carriers. Schedules and tariffs would be required to be filed, the Uniform System of Accounts for Air Carriers would be made effective for Alaskan Air Carriers and filing of reports of financial and operating statistics would be required. Many of the Alaskan Air Carriers may not be able to comply at this time with all of the requirements of §§ 202.1 (Forms of Reports of Financial and Operating Statistics) 202.2 (Forms of Accounts of Air Carriers), 208.2 (Filing of Schedules and Changes therein by Air Carriers), and 224.1 (Filing, Posting and Publishing of Tariffs by Air Carriers), and provision is made in the proposed revision for the relief of such air carriers to the extent required in the circumstances. The Director of the Alaska Office would be granted the authority to relieve any Alaskan Air Carrier from complying with a provision or provisions of any of the regulations enumerated in the preceding sentence upon a finding of undue burden on the air carrier affected. He would be authorized to take preliminary action for the Board in so acting and his action would be subject to objection by any person affected and to ratification by the Board.

In addition to the flexibility which is provided through action by the Director, smaller air carriers which may not have sufficient personnel to comply with the detailed reporting requirements of § 202.1, would be given the option of filing their financial and operating statistical reports upon a simplified form entitle "Short Form Report of Financial and Operating Statistics for Alaskan Air Carriers" in place of Form No. 41 required under that section. This privilege would be limited to Alaskan Air Carriers which do not hold certificates of public convenience and necessity authorizing the carriage of mail over routes totaling more than 200 miles in length.

Procedural provisions. The remoteness of the Territory of Alaska from Washington, D. C., places a great burden upon Alaskan Air Carriers when complying with regulations primarily designed for domestic air carriers. In order to ease this burden and to facilitate the regulation of Alaskan air transportation, certain procedural provisions are included in the proposed revision for the purpose of giving the Alaska Office of the Board greater autonomy and flexibility. In formal proceedings being conducted before examiners of the Board in Alaska, the Director of the Alaska Office would be authorized to take certain actions for the Board subject to modification or reversal by the Board. These actions would include acting on interventions, consolidations and dismissal of certain applications and, upon request of any of the parties, the hearing of oral argument in lieu of argument before the Board.

§ 292.2 *Alaskan Air Carriers* — (a) *Classification of Air Carriers.* There is hereby established, within the meaning of § 416 (a) of the Civil Aeronautics Act of 1938, a classification of air carriers which, except as otherwise authorized in paragraphs (b) (2) and (c) (1) (ii) of this section, engage solely in air transportation within the Territory of Alaska, said classification to be designated as "Alaskan Air Carriers". Such classification shall include both (1) certificated air carriers and (2) air carriers operating under the authority of paragraph (c) of this section.

(b) *Temporary exemption of certificated air carriers.* Until the Board shall adopt further rules, regulations, or orders, any Alaskan Air Carrier which holds a certificate of public convenience and necessity issued by the Board shall be exempt, subject to the conditions and requirements hereinafter set forth, from sections 401 (a) and 404 (a) of the act insofar as the enforcement of said sections would prevent any such air carrier:

(1) From providing, over a regular route designated in a certificate of public convenience and necessity, service, of the same type authorized by the certificate, to such additional points not named in the certificate as are situated within the territory which would ordinarily be served by such route.

(2) From making charter trips and rendering other special services between points on routes which it is authorized by its certificate to serve. Charter trips and other special services may also be rendered to or from any other point within or outside the Territory of Alaska: *Provided, however,* That such trips originate at or are destined to a point on a route (regular or irregular) the carrier is authorized by its certificate to serve: *And, provided, further,* That all such trips are casual, occasional, or infrequent, and are not made in such manner as to result in establishing a regular or schedule service.

(3) From transporting over postal routes 78182 and 78187 (blanket authorization of the Postmaster General relating to the transportation of first-class mail) and over postal routes designated by the Postmaster General as "gratuitous" routes, such mail as may be tendered by postmasters in Alaska for transportation over such routes.

(c) *Temporary exemption of noncertificated air carriers.* (1) Until the Board shall adopt further rules, regulations or orders, any air carrier engaging in air transportation within the Territory of Alaska which does not hold a certificate of public convenience and necessity and which during the six months ending March 31, 1945, was engaging within the Territory of Alaska in air transportation which had not been authorized by the Board, and which heretofore has filed on or prior to September 15, 1945, an application for a permanent or temporary certificate of public convenience and necessity covering such services, shall be exempt, subject to the conditions and requirements hereinafter set forth, from sections 401 (a) and 404 (a) of the act insofar as the enforcement of said sections would otherwise prevent:

(i) Any such air carrier from continuing to engage in air transportation of the same nature, extent, regularity and frequency as was rendered by it within the Territory of Alaska during said period ending March 31, 1945, and for which air transportation such air carrier filed, on or prior to September 15, 1945 an application for a permanent or temporary certificate of public convenience and necessity;

(ii) Any such air carrier from making charter trips and rendering other special services between points on routes which it is authorized to serve by the terms of subdivision (i) of this subparagraph. Charter trips and other special services may also be rendered to or from any other point, within or outside the Territory of Alaska: *Provided,* That such trips originate at or are destined to a point on a route such air carrier is authorized to serve by the terms of subdivision (i) of this subparagraph: *And provided, further,* That all such trips are casual, occasional, or infrequent, and are not made in such a manner as to result in establishing a regular or scheduled service.

The exemptions granted in this subparagraph shall be of no further force or effect as to any air carrier from and after the effective date of an order by the Board denying the application of such air carrier to engage in air transportation, or from the date of the inauguration of air transportation pursuant to an authorization of the Board.

(2) Until the Board shall adopt further rules, regulations or orders, any air carrier engaging in air transportation within the Territory of Alaska pursuant to a specific exemption order adopted by the Board pursuant to section 416 (b) of the act shall be exempt, subject to the conditions and requirements hereinafter set forth, from section 401 (a) and 404 (a) of the act insofar as the enforcement of said sections would otherwise prevent any such air carrier from continuing to engage in air transportation of the same nature, extent, regularity and frequency as is authorized by the Board in specific exemption orders pursuant to section 416 (b) of the act. The exemption granted in this subparagraph shall remain in force and effect as to any air carrier for the term provided for in, and in accordance with the terms of, the order granting the specific exemption for such air carrier.

(d) *Regulation.* The Economic Regulations of the Board shall not be applicable to Alaskan Air Carriers except to the extent provided in this paragraph. Subject to the provisions of subparagraphs (2), (3) and (4) of this paragraph, the following regulations are made applicable to Alaskan Air Carriers:

(1)

Sec.
202.1 Reports of Financial and Operating Statistics.
202.2 Uniform System of Accounts.
202.3 Preservation of Records.
202.5 Audits of Public Accountants.
208.1 Review of Orders of Postmaster General.
208.2 Filing of Schedules.
216.1 Petitions for Mail Compensation.
224.1 Filing and Posting of Tariffs.
228.1 Free Travel of Postal Employees.
228.3 Access to Aircraft.
228.4 Free and Reduced Rate Transportation.
238.1 Application for Certificate of Public Convenience and Necessity.
238.6 (Except paragraph (f)) Temporary Suspensions of Service.
248.1 Interlocking Relationships.
251.1 Filing of Agreements.
251.2 Filing of Agreements with Foreign Countries.

(2) Any Alaskan Air Carrier which is not certificated for the carriage of mail over routes totaling more than 200 miles, may make periodic financial and statistical reports using the appropriate schedules of the "Short Form Report of Financial and Operating Statistics for Alaskan Air Carriers" CAB Form _____, and such amendments thereto as may hereafter be approved by the Board. Such reports shall be made in accordance with, and filed with the Director of the Alaska Office at such times as are specified in the instructions relating to reporting procedure attached to said CAB Form _____, effective _____, 1947, and such amendments thereto as may hereafter be approved by the Board. The reporting requirements of this section have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(3) The Director of the Alaska Office may take preliminary action for the Board to relieve any Alaskan Air Carrier or group of Alaskan Air Carriers from complying with a specific provision or provisions of §§ 202.1, 202.2, 208.2 and 224.1 of the Economic Regulations of the Board or of subparagraph (2) of this paragraph when the application of any provision or provisions of these sections are found by him to be an undue burden on such Alaskan Air Carrier or Air Carriers by reason of the limited extent of, or unusual circumstances affecting, the operations of such Alaskan Air Carrier or Air Carriers. Upon finding that such relief is no longer necessary, the Director of the Alaska Office may take preliminary action for the Board to cancel the relief previously granted in accordance with the provisions of this paragraph. The action of the Director shall be subject to ratification by the Board and any person affected by his action may file exceptions thereto with the Board within 15 days after the date the Director makes his action effective. The action of the Director under this paragraph may be taken either on written application to or may be initiated by him in the first instance. Whenever reference is made in § 224.1 to the Economic Bureau or to the Director of the Economic Bureau such reference shall be deemed to mean the Director of the Alaska Office.

(4) An Alaskan Air Carrier which prior to the effective date of this section has suspended service to a point on a regular route named in its certificate and which shall file, within 45 days after the effective date of this section, an "Application for Order Authorizing Temporary Suspension of Service" pursuant to § 238.6 is authorized to continue to suspend service to that point until its application shall have been granted or denied by the Board.

(f) *Procedural requirements* — (1) *Place and time of filing.* Notwithstanding the requirements of any other regulation, order, or rule of the Board, all documents authorized or required by the Civil Aeronautics Act, or any regulation, order, or rule of the Board issued thereunder, to be filed with the Board by any Alaskan Air Carrier or in connection with air transportation performed or sought to be performed by such air carrier shall be filed in accordance with the methods and within the time limitations provided therein with the Director of the Alaska Office of the Board: *Provided,* That applications, motions, and petitions in formal proceedings filed through counsel having addresses outside of Alaska may be filed with the Board at its office in Washington, D. C., in which event one signed copy (being one of the duplicate originals specified in subparagraph 2 of this paragraph) of each such document shall be sent by air mail to the Director of the Alaska Office in Anchorage, Alaska, by the counsel so filing.

(2) *Duplicate originals required.* In addition to the number of copies of each document required to be filed by the regulation, order, or rule under which it is filed, one additional signed copy shall be filed, and if the regulation, order, or rule under which it is filed requires verification of documents filed thereunder, said additional signed copy shall also be verified. Two signed copies will constitute duplicate originals. In the event both copies are filed with the Director of the Alaska Office, that office shall transmit one signed copy to the office of the Board in Washington, D. C., and retain the other signed copy in the files of the Alaska Office.

(3) *Conformity to rules.* All such documents shall in all other respects conform to the requirements of the regulation, order, or rule of the Board under which they are filed; *Provided,* That any such requirement may be waived or substantial compliance authorized by the Director of the Alaska Office if he finds that such requirement will constitute an undue burden on an air carrier or group of air carriers and strict compliance is unnecessary in view of the limited extent of or unusual circumstances affecting the operations of any such air carrier or group of air carriers.

(4) *Posting and preservation of documents.* The Alaska Office copy of all documents subject to this regulation which are required by the act, or by the regulations, orders, or rules, of the Board thereunder, to be posted in the Office of the Secretary of the Board, shall be posted in the Office of the Director of the Alaska Office; and the Alaska Office copy of documents which are required by section 1103 of the act to be preserved as public records in the custody of the Secretary of the Board, shall be preserved as public records in the custody of the Director of the Alaska Office under such reasonable arrangements as he may make for public inspection thereof. Such posting and preservation as public records shall be in addition to that required of the Secretary of the Board.

(5) *Requests for additional information.* The Director of the Alaska Office may at any time require any person filing documents with the Alaska Office to file additional copies thereof, and to make service upon persons other than

those specified in the pertinent regulation, order, or rule of the Board, if he finds such requirements necessary in the public interest or in the interest of efficiency and expedition in the work of the Board. If he is of the opinion that a formal or informal application, complaint, petition or other document does not sufficiently set forth the material required to be set forth by any applicable regulation, order or rule of the Board, or is otherwise insufficient, he may advise the party filing the same of the deficiency and require that any additional information be supplied. In case he deems an answer to formal complaints and petitions desirable, he may so notify the parties.

(6) *Extension of time.* The Director of the Alaska Office shall have authority upon good cause shown, to extend the time for filing of any document required by this regulation to be filed with the Alaska Office.

(7) *Recommendations concerning regulations.* The Director of the Alaska Office may submit a draft of proposed regulations affecting air transportation within Alaska, or of amendments or modifications of such regulations to the Alaskan Air Carriers for comment. Upon expiration of the date fixed for submission of comments he shall transmit any comments received, together with his recommendations, to the Board for consideration. The Board may revise any such proposed regulation, amendment, or modification, and in respect of any substantial revision, may direct the Director of the Alaska Office to submit such revision to the Alaskan Air Carriers for further comment.

(g) *Formal proceedings*—(1) *Docket of Alaska Office.* A complete docket of all formal proceedings by or against Alaskan Air Carriers, or by or against persons seeking authority to engage in air transportation solely within the Territory of Alaska, shall be maintained in the offices of the Board at Washington, D. C., and in the Board's Alaska Office.

(2) *Exceptions and oral argument.* Exceptions to the initial or recommended decision of the examiner in any formal proceeding and briefs in support of such exemptions, may be filed with the Board at its office in Washington, D. C., in which event one copy of such exceptions and briefs shall be sent by air mail to the Director of the Alaska Office by the party so filing; or may be filed with the Director of the Alaska Office, in which event they will be transmitted by him to the Board's Office in Washington, D. C. If any of the parties to any such proceeding so desire, the Director of the Alaska Office may on behalf of the Board hear oral argument upon exceptions to the Examiner's report and shall transmit a transcript of such oral argument to the Board. Such oral argument before the Director of the Alaska Office shall be in lieu of oral argument before the Board.

(3) Hearings and Conferences. Hearings and conferences in proceedings on the Board's Alaskan Docket shall be assigned, and procedural notices (other than notice of oral argument before the Board) and examiner's report will be served by the Director of the Alaska Office.

(h) *Powers of the director in formal proceedings.* Subject to the modification or reversal by the Board, on its own motion or upon petition or application of any air carrier or other person affected by or having a substantial interest in his action, the Director of the Alaska Office is authorized and designated to act for the Board in the following matters:

(1) *Intervention.* All petitions for intervention in proceedings on the Board's Alaska Docket shall be referred to the Director of the Alaska Office who shall have authority to grant or deny such intervention. Any person whose petition for intervention shall have been denied by the Director of the Alaska Office may file exceptions thereto within 15 days after such denial and the Director of the Alaska Office shall submit such petition and exceptions to the Board for review.

(2) *Dismissal of applications.* The Director of the Alaska Office shall have authority to order dismissal of any application made to the Board pursuant to the Civil Aeronautics Act of 1938, as amended, and pending on the Board's Alaska Docket, when such dismissal is requested by the applicant or where the applicant has failed to prosecute such application.

(3) *Consolidation of applications.* The Director of the Alaska Office shall have authority to consolidate applications under Title IV of the act on the Board's Alaska Docket for hearing or issuance of initial or recommended decision by an examiner. (52 Stat. 984 and 1004, 49 U. S. C. 425 and 496)

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Part 5]

[Docket No. 8448]

EXPERIMENTAL RADIO SERVICES

NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above entitled matter.

2. The proposed rule-change, set forth below, contemplates amendment of § 5.21 to conform with frequency allocations made by the Commission's final reports, issued pursuant to proceedings in Docket No. 6651; restriction of the use of frequencies allocated exclusively to experimental service to class 1 experimental stations, and imposition of the requirement that class 2 experimental radio stations operate on frequencies specifically allocated to the service or proposed service in which experimentation is being conducted, except upon showing of unusual circumstances requiring assignment of other frequencies.

3. The frequencies listed in the proposed amendment of § 5.21 were allocated, specifically, to experimental service in final reports of the Commission issued on July 19, 1946, and March 20, 1947, pursuant to proceedings in Docket No. 6651.

4. The proposed amendment is issued under the authority of sections 301 and 303 (c), (f) and (r) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted (except with respect to the frequency allocations made in the Commission's final reports of July 19, 1946, and March 20, 1947), or should not be adopted in the form set forth herein, may file with the Commission, on or before July 23, 1947, a written statement or brief setting forth his comments. If any comments are received which appear to warrant the Commission in holding an oral argument before final action is taken, notice of the time and place of such oral argument will be given interested parties.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs or comments filed shall be furnished the Commission.

Proposed amendment of § 5.21, rules and regulations governing Experimental Radio Services.

§ 5.21 *Frequencies.* (a) The following frequencies are allocated for assignment to Class 1 experimental radio stations:

Center frequency:	Channel width (kc)
1614 kc	4
2398 kc	4
3492.5 kc	5
4797.5 kc	5
6425 kc	10
9135 kc	10
12862.5 kc	15
17310 kc	20
23100 kc	25
[1] 27.455 mc	50
30.58 mc	40
30.62 mc	40
30.66 mc	40
30.70 mc	40
30.74 mc	40
30.78 mc	40
30.82 mc	40
33.14 mc	40
35.02 mc	40
42.98 mc	40
72.18 mc	40
72.22 mc	40
154.49 mc	60
154.57 mc	100
158.31 mc	60
Above 30,000 mc	--

[1] This service recognizes that interference to its operations on this frequency may result from the emissions on the frequency 27.320 mc of industrial, scientific and medical devices and from stations in the fixed and mobile services operating on frequencies between 27.430 mc and 27.480 mc.

(b) Class 2 experimental stations may be authorized on non-government frequencies allocated to that service in which the experimental station is to operate or on frequencies allocated for use by a proposed new service in which the experimental station is to operate. In cases where no frequencies have been allocated, the Commission may, upon a proper showing of need, authorize Class 2 experimental stations to use frequencies listed in subsection (a) hereof.

(c) The following frequencies are allocated for assignment to Class 3 experimental stations:

Center frequency:	Channel width (kc)
2398 kc	4
3492.5 kc	5
30.66 mc	40
Above 30,000 mc	--

(d) Class 1 experimental stations may be authorized on frequencies other than those listed in paragraph (a) except for frequencies allocated to the amateur service and except for those frequencies the use of which, in the opinion of the Commission, may result in interference to stations engaged in safety or emergency communications, *Provided:*

(1) The need for the other frequencies is fully stated by the applicant.

(2) A satisfactory showing is made that the frequencies assigned for use by the experimental service are unsuitable for the proposed experimental program.

(3) No interference will be caused to the stations regularly assigned the frequencies requested.

Adopted: July 3, 1947.

Released: July 8, 1947.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR, Part 250]

EXEMPTION OF CERTAIN PUBLIC-UTILITY COMPANIES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to adopt a rule exempting certain public-utility companies as subsidiary companies of the trustees of certain nonbusiness trusts, and exempting such trustees from all provisions of the act except section 9 (a) (2). It will exempt any such public-utility company and trustees if (a) voting securities of the company are held by trustees of an inter-vivos or testamentary trust created by an instrument executed prior to January 1, 1935; (b) the purposes of the trust are charitable, religious, educational, or the benefit of individuals; (c) the beneficial interests in said trust are not represented by transferable certificates; and (d) such public-utility company is not itself a holding company.

The rule is proposed pursuant to the provisions of the Public Utility Holding Company Act of 1935, particularly sections 3 (a), 3 (d) and 20 (a) of the act.

The proposed rule is being considered because of the fact that the Commission is of the tentative opinion that it is not generally necessary or appropriate in the public interest or for the protection of investors or consumers that such trustees and the public-utility companies whose securities they hold be subject to the obligations, duties, or liabilities imposed upon holding companies and their subsidiary companies under the act.

The proposed rule would provide substantially as follows:

§ 250.12 *Exemption of certain utility companies and nonbusiness trusts.* If voting securities of a public-utility company are owned, controlled or held with power to vote by the trustee or trustees of an inter-vivos or testamentary trust created by an instrument executed prior to January 1, 1935, and if such trust was established for charitable, religious, educational or other nonbusiness purposes, or for the benefit of an individual or individuals, or for more than one of such purposes, and if the beneficial interest or interests in such trust are not represented by transferable certificates, and if such public-utility company is not itself a holding company, then such public-utility company and any subsidiary companies thereof shall not be deemed to be subsidiary companies of such trustees or trust within the meaning of the act or any rule or regulation thereunder, and such public-utility company and any subsidiary companies thereof and such trustees and trust shall be exempt from any provisions of the act other than section 9 (a) (2) thereof, from any rules and regulations thereunder and from any obligations, duties and liabilities thereunder to which they might otherwise be subject by reason of the ownership, control or holding with power to vote of such securities by such trustees. [Rule U-12]

All interested persons may submit data, views, and comments in writing to the Securities and Exchange Commission at its main offices, 18th and Locust Streets, Philadelphia 3, Pennsylvania, on or before August 15, 1947.

By the Commission.

SOUTHERN CALIFORNIA BROADCASTING CO. AND ORANGE COUNTY BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Marshall S. Neal, Paul Buhlig, E. F. Foley, and Edwin Earl, d b as Southern California Broadcasting Company (KWKW), Pasadena, California, Docket No. 6737, File No. BP-3710; George W. Berger, George A. Raymer, Fred Forgy and John W. Swallow, d b as Orange County Broadcasting Company, Santa Ana, California, Docket No. 8454, File No. BP-5936; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 3d day of July 1947;

The Commission having under consideration the above-entitled application of Marshall S. Neal, Paul Buhlig, E. F. Foley, and Edwin Earl, d/b as Southern California Broadcasting Company, requesting a construction permit to change frequency to 830 kc and increase power to 5 kw, daytime only, at Station KWKW, Pasadena, California, and the application of George W. Berger, George A. Raymer, Fred Forgy and John W. Swallow, d/b as Orange County Broadcasting Company, requesting a construction permit for a new standard broadcast station to operate on 850 kc, with 1 kw power, daytime only, at Santa Ana, California, and the Commission also having under consideration a petition filed by the Southern California Broadcasting Company requesting that the said applications be designated for a consolidated hearing, and an opposition thereto filed by Orange County Broadcasting Company and a reply filed by the petitioner;

It is ordered, That the petition of Southern California Broadcasting Company be, and it is hereby, granted;

It is further ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications be, and they are hereby, designated for hearing in a consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant partnerships and the partners to construct and operate the proposed station and Station KWKW as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and Station KWKW as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program services proposed to be rendered and whether they would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station and Station

KWKW as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station and Station KWKW as proposed would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station and Station KWKW as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

WELDON LAWSON AND TRI-COUNTY BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Weldon Lawson, Sequin, Texas, Docket No. 8450, File No. BP-4991; H. Miller Ainsworth, A. G. Ainsworth, J. Edward Johnson, and Ross Bohannon, a partnership, doing business as Tri-County Broadcasting Company, Luling, Texas, Docket No. 8371, File No. BP-5636; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 3d day of July 1947;

The Commission having under consideration the above-entitled application of Weldon Lawson for construction permit for a new standard broadcast station to operate on 1400 kc, 250 w power, unlimited time, at Sequin, Texas, which application was filed contingent upon a grant of the application of Mission Broadcasting Company (BP-4329, Docket No. 8072) for a change in frequency and power of Station KONO, San Antonio, Texas; and

It appearing, that the Commission, on April 30, 1947, designated for hearing the above application of Tri-County Broadcasting Company, requesting a construction permit for a new standard broadcast station to operate on 1420 kc, 1 kw, employing a directional antenna at night, unlimited time;

It is ordered, That the above application of Weldon Lawson be, and it is hereby, designated for hearing in a consolidated proceeding with the said application of Tri-County Broadcasting Company, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the Commission's order of April 30, 1947, designating the application of Tri-County Broadcasting Company for hearing, be, and it is hereby, amended to include the application of Weldon Lawson.

By the Commission.

NORMAN BROADCASTING CO. AND H. J. GRIFFITH BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Byrne Ross and W. P. Fowler, d/b as Norman Broadcasting Company, Norman, Oklahoma, Docket No. 8455, File No. BP–5839; H. J. Griffith, d/b as H. J. Griffith Broadcasting Company, Norman, Oklahoma, Docket No. 8456, File No. BP–5861; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 3d day of July 1947;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new standard broadcast station to operate on 1400 kc, 250 w, unlimited time, at Norman, Oklahoma;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications be, and they are hereby, designated for hearing in a consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical financial, and other qualifications of the individual applicant and the applicant partnership and the partners to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed stations would involve objectionable interference, each with the other, or with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the proposed installations and operations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine the overlap, if any, that will exist between the service areas of the proposed operation of Norman Broadcasting Company and of Station KLPR at Oklahoma City, Oklahoma, the nature and extent thereof, and whether such overlap, if any, is in contravention of Section 3.35 of the Commission's rules.

8. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

FM BROADCAST STATION CONSTRUCTION PERMITS [1]

INTERIM PROCEDURE REGARDING LICENSES

JUNE 17, 1947.

In connection with the issuance of licenses to cover construction permits for FM broadcast stations, the Commission wishes to announce that the following procedures will apply.

Pending the adoption of a new application form, license applications should be submitted on Form 320 as modified in accordance with the Form 320 instruction sheet.[2] The forms and instruction sheet are available upon request.

Where frequencies have been changed pursuant to the reallocation plan adopted on June 12, 1947, letters will be sent to permittees and licensees advising them of their changed frequency assignment. Outstanding construction permits and licenses will not be reissued to show the new frequency, as this will be included in subsequent instruments of authorization. During such interval, operation on the new frequency will be authorized by letter or telegram. In instances where a license application is now on file and the station frequency is changed, action on the application will be withheld until the frequency change is made and an appropriate amendment is submitted to the application. License applications now pending need not be otherwise amended unless further data are requested by the Commission.

License applications will not be granted unless an approved frequency and modulation monitor is installed. After installation, a check of the transmitter frequency (and the frequency monitor) with an external frequency measuring service or other standard should be made, if feasible under the circumstances.

The FM license application form requires that measurements of audio frequency operating characteristics be made to insure that the FM engineering standards are met. It is expected that such measurements will also be required in connection with license renewal applications, in order that the technical performance of a station may be periodically reviewed. With respect to present operation, the Commission realizes that in some instances equipment for this purpose and adequately trained personnel for making such measurements are not immediately available. Accordingly, consideration will be given to applications for licenses which do not supply complete measurements to indicate compliance with the engineering standards. As much of this data should be supplied as possible, however, and applications must include reasons therefor when complete measurements are not made. In some instances licensees have reported difficulty in meeting fully all of the engineering requirements at this time due to equipment and measurements problems; applications indicating such conditions will be considered on their individual merits. The Commission wishes to emphasize that the FM engineering standards are not being changed, but only that additional time is being provided where necessary to meet these standards. This procedure will also permit more expeditious licensing of FM stations.

With respect to the field intensity measurements required of Class B FM stations by § 3.216 (c) of the rules, the Commission has received inquiries concerning the time within which such measurements must be submitted. As indicated by a footnote to the rule, this material "shall be submitted within one year after the license has been issued or within such extension of time as the Commission may for good cause grant." The Commission does not desire to impose an undue burden on FM licensees. However, the Commission wishes to obtain as much data as possible concerning FM service areas in order to provide for the best allocation and use of the FM band. While the Commission expects to follow a lenient policy concerning the requirement of field intensity measurements, it is hoped that FM licenses, particularly of the larger stations, will endeavor to supply this data as promptly as feasible.

License applications should not, of course, be filed until full construction has been completed in accordance with the terms of the permit. Equipment tests and program tests may then be conducted in accordance with §§ 3.216 and 3.217 of the rules. Prior to completion of construction and the filing of a license application, program operation may be authorized in accordance with interim operation procedure described by a separate Public Notice of the Commission. If interim operation is being conducted with complete equipment as specified by the construction permit, then equipment tests and program tests need not be made.

[Docket No. G–916]

CONSOLIDATED GAS UTILITIES CORP.

NOTICE OF APPLICATION

JULY 11, 1947.

Notice is hereby given that on June 26, 1947, Consolidated Gas Utilities Corporation (Applicant), a Delaware corporation, having its principal place of business at Oklahoma City, Oklahoma, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate the following described facilities:

(1) Approximately 8 miles of 7½-inch O. D. pipeline beginning at Applicant's Hunnewell Compressor Station located in Section 16, Township 35 South, Range 1 East, and extending in a northeasterly direction to a point of connection with Applicant's existing 7-inch pipeline in the Southwest Quarter of Section 2, Township 35 South, Range 2 East, all in Sumner County, Kansas.

(2) Approximately 10,500 feet of 14-inch O. D. pipeline to replace a like amount of 12¾-inch pipeline now installed in that portion of Applicant's interstate pipeline system extending northerly from a point near the southwest corner of Section 33, Township 34 South, Range 1 East, Sumner County, Kansas.

Applicant states that the proposed facilities described in paragraph (1) above, will be used to deliver gas into and withdraw gas from a proposed small gas storage reservoir located on a 160-acre leasehold estate owned by Applicant and located in the Southwest Quarter of Section 29, Township 34 South, Range 3 East, Sumner County, Kansas. The maximum capacity of the proposed facilities is stated to be approximately 10,000 Mcf. per day.

Applicant states that the existing pipeline to be replaced by the proposed facilities described in paragraph (2) above, has deteriorated due to rusting, pitting and corrosion to such an extent that adequate and dependable service cannot longer be rendered through the same, and replacement is necessary.

Applicant states that no new service is proposed to be rendered with the new facilities, all such new facilities being needed in rendering service to Applicant's existing markets.

The total over-all capital cost of the proposed construction described in paragraph (1) above is estimated to be $87,378, and that of the proposed facilities described in paragraph (2) is estimated to be $38,515, all to be financed out of Applicant's funds. Fixed charges in connection with the facilities described in paragraph (1) are estimated to be $2,000 annually.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Consolidated Gas Utilities Corporation is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-984]

SEABOARD AIR LINE RAILROAD CO.

ORDER GRANTING PERMISSION TO EXTEND UNLISTED TRADING PRIVILEGES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 11th day of July A. D. 1947.

In the matter of application by the Boston Stock Exchange for unlisted trading privileges in Seaboard Air Line Railroad Company voting trust, expiring April 1, 1951. Voting Trust Certificates for Common Stock, No Par Value.

The Boston Stock Exchange has made application to the Commission pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 for permission to extend unlisted trading privileges to the Voting Trust Certificates for Common Stock, No Par Value, of the Seaboard Air Line Railroad Company Voting Trust, Expiring April 1, 1951.

After appropriate notice and opportunity for hearing and in the absence of any request by any interested person for hearing on this matter, the Commission on the basis of the facts submitted in the application makes the following findings:

(1) That this security is listed and registered on the New York Stock Exchange; that the geographical area deemed to constitute the vicinity of the Boston Stock Exchange is the New England States exclusive of Fairfield County, Connecticut; that out of a total of voting trust certificates outstanding covering 817,356 shares, voting trust certificates covering 97,980 shares are outstanding in the vicinity of the Boston Stock Exchange; and that in the vicinity of the Boston Stock Exchange there were 1,898 transactions involving voting trust certificates covering 173,196 shares from February 28, 1946 to February 28, 1947;

(2) That sufficient public distribution of, and sufficient public trading activity in, this security exist in the vicinity of the applicant exchange to render the extension of unlisted trading privileges thereto appropriate in the public interest and for the protection of investors; and

(3) That the extension of unlisted trading privileges on the applicant exchange to this security is otherwise appropriate in the public interest and for the protection of investors.

Accordingly, *It is ordered*, Pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934, that the application of the Boston Stock Exchange for permission to extend unlisted trading privileges to the Voting Trust Certificates for Common Stock, No Par Value, of the Seaboard Air Line Railroad Company Voting Trust, Expiring April 1, 1951, be, and the same is, hereby granted.

PUBLIC SERVICE CO. OF NEW MEXICO

SUPPLEMENTAL ORDER RELEASING JURISDICTION AND GRANTING APPLICATIONS AND DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 10th day of July A. D. 1947.

Public Service Company of New Mexico, a subsidiary of Federal Light & Traction Company, a registered holding company, having filed an application and declaration and amendments thereto, pursuant to the Public Utility Holding Company Act of 1935, with respect to, among other things, the issue and sale, pursuant to the competitive bidding provisions of Rule U-50, of $6,800,000 principal amount of First Mortgage Bonds, --% Series due 1977, and 20,000 shares of $100 par value --% Cumulative Preferred Stock; and

The Commission having, by order dated June 26, 1947, granted the application and permitted the declaration, as amended, to become effective, subject to the condition, among others, that the proposed issue and sale of such securities shall not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in these proceedings and a further order shall have been entered by the Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate, jurisdiction being reserved for this purpose; and

Public Service Company of New Mexico having filed a further amendment herein stating that the First Mortgage Bonds and Cumulative Preferred Stock have been offered for sale pursuant to the competitive bidding requirements of Rule U-50, that no bids were received for the Cumulative Preferred Stock, and that the following bids for the First Mortgage Bonds have been received:

FIRST MORTGAGE BONDS

Bidding group headed by—	Interest rate	Price to company (percent of principal amount)[1]	Cost to company
	Per cent		
Graham, Parsons & Co.	2¾	100.252	2.8[illegible]
Blyth & Co., Inc., and Kidder, Peabody & Co.	3	101.41	2.9[illegible]
Glore, Forgan & Co.	3	100.8956	2.[illegible]
Halsey, Stuart & Co., Inc.	3	100.6899	2.[illegible]

Salomon Bros. & Hutzler	3	100.2197	2.[illegible]

[1] Plus accrued interest.

Said amendment having further stated that Public Service Company of New Mexico has accepted the bid of Graham, Parsons & Co. for the First Mortgage Bonds as set out above, and that the said bonds will be offered for sale to the public at a price of 100.625% of the principal amount thereof, plus accrued interest, resulting in an underwriting spread equal to 0.373% of the principal amount of the bonds.

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to the price to be paid for said bonds or the underwriters' spread; and it appearing to the Commission that the jurisdiction heretofore reserved with respect to the sale at competitive bidding of Preferred Stock by Public Service Company of New Mexico should be continued;

It is ordered, That the jurisdiction heretofore reserved with respect to the matters to be determined as a result of competitive bidding in connection with the said bonds under Rule U-50 be, and the same hereby is, released and that said applications and declarations, as further amended, be, and the same hereby are, granted and permitted to become effective, subject, however, to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved with respect to the sale at competitive bidding of Preferred Stock by Public Service Company of New Mexico as prescribed in said order of June 26, 1947 be, and the same hereby is, continued.

By the Commission.

ELECTRIC BOND AND SHARE CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 11th day of July A. D. 1947.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Electric Bond and Share Company ("Bond and Share"), a registered holding company. Applicant-declarant has designated sections 6 (a) (2), 12 (c), 14 and 15 of the act and Rules U-23 and U-46 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than July 22, 1947 at 11:00 a. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues, if any, of fact or law raised by said application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after July 22, 1947, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application-declaration which is on file in the office of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Bond and Share proposes to restate its accounts as of January 1, 1945 and to set up on its books an "Accounting Reorganization Account" in the total amount of $160,571,680. This account will be created by the transfer of (a) the stated value of the $5 and $6 Preferred Stock as of January 1, 1945, amounting to $107,540,000; (b) Capital Surplus (including reserve created therefrom) as of January 1, 1945, amounting to $328,067,986; and (c) Earned Surplus as of January 1, 1945, amounting to $24,963,694 (after provision for preferred stock dividends or equivalent to date of retirement). From this account $280,000,000 is proposed to be allocated to Investment Reserves as follows: (a) United States Utilities $80,000,000 and (b) Foreign Utilities $200,000,000. The balance of the Accounting Reorganization Account amounting to $180,571,680 together with Capital Surplus additions to December 31, 1946, resulting from the reacquisition and retirement of preferred stocks, amounting to $27,617, will be transferred to a Capital Adjustment and Contingency Reserve, which will include provisions for (a) the payment to Bond and Share's preferred stocks of $70 per share in the aggregate amount of $73,029,600; (b) an amount not in excess of $30,000,000 to be available for adjustment of Investment Reserves—Foreign Utilities and (c) all other charges in connection with action taken by Bond and Share towards compliance with section 11 of the act. Any balance in said account remaining upon consummation of the program for conformance with section 11 of the act and other related matters will be transferred to Capital Surplus.

Applicant-declarant states that its program for conformance with the act as evidenced by various plans heretofore filed by it pursuant to section 11 (e) of the act provides for disposal of the company's investment in domestic public utilities; that the amounts realizable by the company upon sale or disposal of such investments is substantially lower than the ledger value of such investments; and that the plan of reorganization dated October 25, 1944 and amended May 22, 1947 which was filed by its subsidiary, American & Foreign Power Company Inc. ("Foreign Power"), and joined in by Bond and Share, provides for the surrender of Bond and Share's interests in Foreign Power and in the latter's subsidiary, Cuban Electric Company, for securities of a substantially different nature, the value of which is estimated by the applicant-declarant to be considerably lower than the ledger value of its present holdings in Foreign Power.

Applicant-declarant further states that as a result of its joinder in the plan of reorganization of Foreign Power and the required provision for other adjustments in the ledger value of Investment Securities and Advances of the company, an accounting reorganization is necessary.

In addition, by order of this Commission dated July 18, 1946, Bond and Share was ordered to record its investments in the common stocks of Birmingham Electric Company, Carolina Power & Light Company, and Pennsylvania Power & Light Company and its remaining investment in National Power & Light Company, a registered holding company, at such amounts and in such manner as the Commission may approve or direct. The applicant - declarant states that the transactions hereinbefore described will in effect meet the requirements of such order inasmuch as such common stocks are required to be disposed of subject to further order of the Commission by October 6, 1947.

The applicant-declarant has requested that the Commission's order herein be issued as soon as practicable and become effective forthwith.

By the Commission.

WISCONSIN PUBLIC SERVICE CORP.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 11th day of July 1947.

Notice is hereby given that Wisconsin Public Service Corporation ("Wisconsin"), a public utility company and an exempt holding company and a subsidiary of Standard Gas and Electric Company, a registered holding company, has filed an application and declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act"). The applicant-declarant has designated sections 9, 10 and 12 (c) of the act and Rules U-41 and U-46 thereunder as applicable to the transactions proposed.

Notice is further given that any interested person may, not later than July 22, 1947 at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after July 22, 1947, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the Rules and Regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application-declaration, which is on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Wisconsin proposes to purchase, pursuant to contracts and options now in effect, all of the 240 shares of issued and outstanding capital stock of Coleman-Pound Light and Power Company ("Coleman-Pound"), an electric public utility company which distributes electric energy purchased from Wisconsin and serves approximately 335 customers in the villages of Pound and Coleman, Marinette County, Wisconsin. The consideration to be paid for said shares of capital stock is stated to be $254.23 per share, or a total of $61,015.20. As soon as possible after acquisition of all of the outstanding shares of capital stock of

Coleman-Pound, the applicant-declarant proposes to acquire all the assets of Coleman-Pound and to dissolve said Coleman-Pound. The Public Service Commission of Wisconsin, in which State both Wisconsin and Coleman-Pound are incorporated and doing business, has approved the acquisition of the shares of stock of Coleman-Pound by Wisconsin. An application for the approval of the merger of Coleman-Pound into Wisconsin is now pending before said Public Service Commission of Wisconsin. In accordance with the Order of the Public Service Commission of Wisconsin approving the acquisition of the capital stock of Coleman-Pound, Wisconsin proposes to charge to its earned surplus the excess of the purchase price applicable to utility plant over the original cost depreciated of Coleman-Pound.

The applicant-declarant requests that the Commission's order granting said application and permitting said declaration to become effective be issued on or before July 24, 1947 and that it shall at that time become effective forthwith.

By the Commission.

POTOMAC ELECTRIC POWER CO. AND WASHINGTON RAILWAY AND ELECTRIC CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 11th day of July 1947.

Notice is hereby given that Potomac Electric Power Company ("Pepco"), a subsidiary of Washington Railway and Electric Company ("Washington Railway"), a registered holding company, which in turn is a subsidiary of The North American Company, also a registered holding company, and Washington Railway have filed a joint application-declaration pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 ("act") and the rules and regulations promulgated thereunder. Applicants-declarants have designated Sections 6, 7, 9, 10, 11 and 12 of the act and Rules U-23, U-42, U-43, U-50 and U-64 as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than July 25, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing on such matters, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by the application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such application-declaration, as filed or as amended, may be granted or permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transactions or part of such transactions as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. All interested persons are referred to said application-declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which transactions applicants-declarants represent consist of certain proposed transactions set forth in the application (File No. 54-98) filed by Washington Railway pursuant to section 11 (e) of the Act proposing a plan to comply with section 11 (b) of the act, and approved by order of this Commission dated May 15, 1947 (Holding Company Act Release No. 7410) and approved by order dated June 16, 1947, of the United States District Court for the District of Columbia. The proposed transactions are summarized below. Pepco proposes:

(1) To exchange or redeem on September 1, 1947, all of its outstanding preferred stock (the "Old Preferred Stock"), consisting of 20,000 shares of 6% Cumulative Preferred Stock, Series 1925, of the par value of $100 per share, and 50,000 shares of 5½% Cumulative Preferred Stock, Series of 1927, of the par value of $100 per share. For this purpose Pepco will issue 140,000 shares of --% Preferred Stock ("New Preferred Stock") of the par value of $50 per share, and will offer to the holders of its presently outstanding Old Preferred Stock the right to exchange their shares of Old Preferred Stock for shares of the New Preferred Stock on the basis of 2 shares of New Preferred Stock for 1 share of Old Preferred Stock, plus a cash adjustment. Such cash adjustment will represent the difference between the price to be paid to Pepco for the shares of New Preferred Stock not issued pursuant to the exchange offer and the redemption price of the Old Preferred Stock (exclusive of accrued dividends) less a dividend adjustment. The exchange offer is to be open for acceptance for a period of approximately 10 days. All shares of Old Preferred Stock so acquired will be retired.

In connection with the proposed exchange and redemption, Pepco proposes pursuant to Rule U-50 to invite sealed written proposals for services in obtaining exchanges of shares of Old Preferred Stock and for the purchase of such of the 140,000 shares of New Preferred Stock as are not required to effect exchanges. Each proposal shall specify (a) the price per share (exclusive of accrued dividends) to be paid Pepco for the unexchanged shares, which price shall not be less than the par value ($50 per share) of the New Preferred Stock, after deduction of underwriter's compensation; (b) the aggregate amount of the compensation to be paid to the bidder for the services in connection with the exchanges and the purchases of the unexchanged shares; and (c) the annual dividend rate of New Preferred Stock, which dividend rate shall be in multiples of 1/20 of 1% and shall be not less than 3.60% of the par value of such New Preferred Stock. Pepco reserves the right to reject any and all bids.

(2) To make a short term bank loan in the principal amount of $7,490,000 in order to provide itself with funds to finance the redemption of its Old Preferred Stock, pending the consummation of the sale of the New Preferred Stock. The bank loan will be made pursuant to a bank loan agreement between Pepco and The Chase National Bank of the City of New York and Chemical Bank & Trust Company, New York, under the terms of which Pepco will borrow the $7,490,000 for a period of six days at a cost of $7,500, with the option of extending said loan for a period of 90 days at an interest cost of 1½% per annum.

(3) To increase, after the proposed redemption of its Old Preferred Stock, its authorized capital stock from $30,000,000 to $75,000,000, consisting of 400,000 shares of --% Preferred Stock, par value of $50 per share (the New Preferred Stock) and 5,500,000 shares of New Common Stock, par value $10 per share. As part of such recapitalization the presently outstanding 90,000 shares of Pepco common stock, par value $100 per share, all of which is owned by Washington Railway, will be reclassified into 85,000 shares of the proposed New Preferred Stock and 2,961,250 shares of the proposed New Common Stock.

(4) To make appropriate amendments to its charter to effectuate the proposed transactions, which amendments will contain the provisions of the New Preferred Stock, including certain provisions for the protection of the holders of the New Preferred Stock, as more fully set forth in the application-declaration.

Washington Railway proposes:

(1) To acquire the 85,000 shares of New Preferred Stock and the 2,961,250 shares of New Common Stock of Pepco upon the recapitalization of Pepco as aforesaid.

(2) To acquire, upon the dissolution of its two subsidiaries, The Washington and Rockville Railway Company of Montgomery County (Washington Rockville) and Great Falls Power Company (Great Falls), pursuant to the provisions of Washington Railway's aforesaid section 11 (e) plan, the remaining assets of Washington Rockville and Great Falls and to convey to Pepco all of the real property conveyed by Great Falls to Washington Railway.

Applicant-declarant requests that the Commission's order approving said application and permitting said declaration to become effective be issued on or before August 1, 1947.

It appearing to the Commission that it is appropriate that a copy of this notice be served upon all persons who have participated in the proceedings in connection with the said section 11 (e) plan (File No. 54-98) filed by Washington Railway.

It is hereby ordered, That the Secretary of this Commission shall serve notice of the aforesaid Notice by mailing a copy thereof, to Washington Railway and Electric Company, The North American Company, Potomac Electric Power Company, The Washington and Rockville Railway Company of Montgomery County, Capital Transit Company, Braddock Light & Power Company, Incorporated, Great Falls Power Company, Montgomery Bus Lines, Incorporated, The Glen Echo Park Company, the Public Utilities Commission of the District of Columbia, The Public Service Commission of Maryland, and the State Corporation Commission of Virginia; to all parties who have previously participated in any phase of these proceedings, including the Attorney General, Department of Justice, Washington, D. C., the Administrator, Federal Works Agency, Washington, D. C., The Commissioner of Public Buildings, Washington, D. C., The Director of Procurement, United States Treasury Department, Washington, D. 1. That Jenny Christine Wilhelmine Rathke, nee Schlichting, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the person named in subparagraph 1 hereof in and to the estate of Frederick Limskau Rathke, deceased, and in and to the trust created under the will of Frederick Limskau Rathke, deceased, is property payable or deliverable to, or claimed by, the aforesaid national of a designated enemy country (Germany);

3. That such property is in the process of administration by Mary E. Rathke, as Administratrix D. B. N. C. T. A., acting under the judicial supervision of the Circuit Court of Noble County, Indiana;

and it is hereby determined:

4. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 9, 1947.

For the Attorney General.

[SEAL] DAVID L. BAZELON,
Assistant Attorney General,
Director, Office of Alien Property.

Chapter I—Civil Service Commission

PART 20—RETENTION PREFERENCE REGULATIONS FOR USE IN REDUCTIONS IN FORCE

ACTIONS

Effective upon publication in the FEDERAL REGISTER, paragraphs (c) (d) and (e) of § 20.9 are amended to read as follows:

§ 20.9 *Actions* • • •

(c) *Exceptions; status employees.* No employee in retention group A–2, A–3, or A–4 with competitive status and serving in a position in the competitive service may be separated or furloughed in a reduction in force if there is a position in the competitive service in the department in any other competitive area or competitive level within the geographic area, which may reasonably be expected to continue for 3 months or more, not filled by a retention group A employee which he could fill without undue interruption to the activity involved unless he refuses a reasonable offer of transfer to a position meeting these requirements, including reduction in pay if necessary. Subject to the other requirements set forth above, agencies shall consider such group A–2 employee with competitive status who is reached in a reduction and who has had five or more years of Federal Government service including active military service, for reassignment to a position either vacant or occupied by a war service or a temporary employee in the agency at another geographic area where reassignment within his present geographic area cannot be made and the employee desires to be considered for a position in such other area. Offers of reassignment of status employees in subgroup A–2 shall be made prior to the expiration of the first sixty days of nonduty status.

(d) *Exceptions; veterans preference employees.* No employee in subgroup A–1 with competitive status and serving in a position in the competitive service may be separated or furloughed in a reduction in force if there is a position in the competitive service in the department in any other competitive area or competitive level within the geographic area which may reasonably be expected to continue for 3 months or more not filled by an employee in subgroup A–1 which he could fill without undue interruption to the activity involved, unles he refuses a reasonable offer of transfer to a position meeting these requirements, including reduction in pay if necessary. Subject to the other requirements set forth above, agencies shall consider such veteran preference career employee in group A–1 with

In F. R. Doc. 47–6248, appearing at page 4257 of the issue for Wednesday, July 2, 1947, in § 251.126 (a) (1) the rate per bushel for wheat in San Francisco, Los Angeles, Stockton, and Oakland, California, should read "$2.08."

[1947 C. C. C. Flaxseed Bulletin 1, Supp. 1]

PART 271—FLAXSEED LOANS

SUBPART 1947

Pursuant to the provisions of Article Third, paragraphs (b) and (j) of the Corporate Charter of Commodity Credit Corporation; sec. 7 (a), 49 Stat. 4 as amended, sec. 4 (a), 55 Stat. 493, 56 Stat. 768; 15 U. S. C., Sup., 713 (a), 713a–8, 50 U. S. C. App., Sup., 969, Commodity Credit Corporation and the Production and Marketing Administration have issued regulations (12 F. R. 4747) governing the making of loans and purchase agreements on flaxseed produced in 1947. Such regulations are hereby supplemented as follows:

§ 271.126 *Loan rates and purchase price.* The purchase price for flaxseed under the purchase agreement program shall be the loan rate determined in accordance with this section plus $1.00 per bushel. If and when CCC takes title to flaxseed placed under loan, an additional payment of $1.00 per bushel will be made to the producer.

(a) *Basic loan rates at terminal markets.* The 1947 loan rates per bushel for No. 1 flaxseed stored in approved public grain warehouses at the following terminal markets shall be as follows:

Market	*Loan rate (per bushel)*
Minneapolis, Minn., Chicago, Ill., and Portland, Oreg.	$5 00
Los Angeles and San Francisco, Calif.	5. 25
Fredonia, Kans.	4. 85
Corpus Christi, Harlingen and Houston, Tex.	4. 80

Flaxseed containing more than 30 percent damage or which contains more than 11 percent moisture, or which is musty, sour, heating, hot, or which has any commercially objectionable odor, or which is otherwise low quality, is not eligible for loan or purchase.

For loan at the full basic rates shown in the above schedule the flaxseed must have been shipped on a domestic interstate freight rate basis. The loan rate at the designated terminal market will be reduced by the difference between the freight paid and the domestic freight rate on any flaxseed shipped at other than the domestic freight rate.

The foregoing schedule of loan rates applies to flaxseed delivered to any of the above designated terminal markets in carload lots which have been shipped by rail from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges and other documents as required under the instructions (§§ 271.101 to 271.125, inclusive); *Provided*, That, in the event the amount of paid-in freight is insufficient to guarantee minimum proportional freight rate from the terminal market, there shall be deducted from the applicable terminal loan rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee out bound movement at the minimum proportional freight rate. The warehouse receipts must be accompanied by the registered freight bills, or by (1) a statement in the following form signed by the warehouseman, (2) a certificate of such warehouseman containing such an undertaking, or, (3) such other form of certification as may be approved by CCC

FREIGHT CERTIFICATE FOR TERMINALS

The Flaxseed represented by attached warehouse receipt No. _____ were received by rail freight from _____ (Town) _____ point of origin, _____ (County) _____ (State) as evidenced by freight bill described as follows:

Way Bill, Date _____ No. _____ Car No. _____ Init. _____ Freight Bill, Date _____ No. _____ Carrier _____ Transit Weight _____ Freight Rate In _____ Amount Collected _____ Number Unused Transit Stops _____

The above-described paid freight bills have been officially registered for transit and will be held in accordance with the provisions of paragraph 22 of the Uniform Grain Storage Agreement.

_____ Date of Signature

_____ Warehouseman's Signature

_____ Address

Flaxseed stored at a designated terminal market (including trucked-in flaxseed) for which neither registered freight bills nor such freight certificates are presented, shall have a loan rate equal to the higher of (i) the terminal loan rate minus 6 cents per bushel, or (ii) the county loan rate for the county in which the flaxseed is stored.

(b) *Basic loan rates at other than designated terminal points.* CCC will determine county loan rates on flaxseed in storage on the farm or in country warehouses by deducting from the designated terminal market loan rate an amount equal to 8 cents more than the applicable county average freight rate, plus freight tax, to such terminal market.

Each approved warehouse will be advised as to the loan rate applicable to flaxseed stored in such warehouse. Producers may obtain from their respective county committees the loan rates applicable to flaxseed stored on farms and in the public warehouses. County loan rates determined in accordance with this section are set forth in 1947 CCC Flaxseed Bulletin 1, Supplement 2.

The loan rate for eligible flaxseed stored in approved warehouses (other than those situated in the designated terminal markets) which was shipped by rail from country shipping points will be determined by deducting from the appropriate designated terminal market loan rate an amount equal to the transit balance of the through freight rate from point of origin for such flaxseed to such terminal market plus freight tax on such transit balance: *Provided*, That in the case of flaxseed stored at any railroad transit point, taking a penalty by reason of out-of-line movement, or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line or other costs, as determined by Commodity Credit Corporation, incurred in storing loan flaxseed in such position.

The warehouse receipts, in addition to other required documents, must be accompanied by the original paid freight bills duly registered for transit privileges, or by a statement in the following form, signed by the warehouseman, or by a warehouseman's supplemental certificate containing such information:

FREIGHT CERTIFICATE FOR OTHER THAN TERMINAL POINTS

The flaxseed represented by attached warehouse receipt No. _____ was received by rail freight from _____ (Town) _____ (County) _____ point of origin, as evidenced by _____ (State) freight bill described as follows:

Way Bill, Date _____ No. _____ Car No. _____ Init. _____ Freight Bill, Date _____ No. _____ Carrier _____ Transit Wt. _____ Freight Rate in _____ Amt. Collected _____ Transit Balance, if, any, of through freight rate to _____ of _____ @ per 100 pounds. Number Unused Transit Stops _____

The above-described paid freight bill has been officially registered for transit and will be held in accordance with the provisions of paragraph ____ of the Uniform Grain Storage Agreement.

_____ Date of Signature

_____ Warehouseman's Signature

_____ Address

(c) *Variations for grades.* The loan rate for No. 2 flaxseed shall be 5 cents per bushel less than the loan rate for No. 1 flaxseed. PART 910—FRESH PEAS AND CAULIFLOWER GROWN IN ALAMOSA, RIO GRANDE, CONEJOS, COSTILLA, AND SAGUACHE COUNTIES IN COLORADO

DETERMINATION RELATIVE TO BUDGET OF EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1947-48 FISCAL YEAR

On June 13, 1947, notice of proposed rule making was published in the FEDERAL REGISTER (12 F. R. 3864) regarding the budget of expenses and the fixing of the rate of assessment for the 1947-48 fiscal year under Marketing Agreement No. 67, as amended, and Order No. 10, as amended (7 CFR, Cum. Supp., 910.1 et seq.), regulating the handling of fresh peas and cauliflower grown in the Counties of Alamosa, Rio Grande, Conejos, Costilla, and Saguache, in the State of Colorado. This regulatory program is effective pursuant to the agricultural Marketing Agreement Act of 1937, as amended. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, which were submitted by the Administrative Committee (established pursuant to the amended marketing agreement and order), it is hereby found and determined that:

§ 910.201 *Budget of expenses and rate of assessment for the 1947-48 fiscal year.* (a) The expenses necessary to be incurred by the Administrative Committee, established pursuant to the provisions of the aforesaid amended marketing agreement and order, for the maintenance and functioning of such committee during the fiscal year beginning June 1, 1947, and ending May 31, 1948, both dates inclusive, will amount to $2,500, and the rate of assessment to be paid, in accordance with the aforesaid amended marketing agreement and order by each handler who first handles fresh peas or cauliflower shall be: (1) $1.25 per straight car of peas or cauliflower or per mixed car of peas and cauliflower, and (2) when less than a carload is shipped, one-half ($0.005) cent per bushel of peas or crate of cauliflower or the respective equivalent quantities thereof, but in no event shall the assessment be in excess of $1.25 on a shipment of peas or cauliflower less than a carload lot, or mixed shipment thereof less than a carload lot; and the respective rate of assessment is hereby approved as each such handler's pro rata share of the aforesaid expenses.

(b) Compliance with the effective date requirements of the Administrative Procedure Act (60 Stat. 237; Pub. Law 404, 79th Cong., 2d sess.) is impracticable, unnecessary, and contrary to the public interest in that: (1) The respective rate of assessment is applicable, pursuant to the amended marketing agreement and order, to fresh peas and cauliflower handled during the fiscal year beginning June 1, 1947, and ending May 31, 1948, both dates inclusive; (2) the expenses of operating this regulatory program since June 1, 1947, have, in accordance with the applicable provisions of the amended marketing agreement and order, been paid with funds representing assessments collected, which were in excess of expenses incurred, during previous fiscal years; (3) the unexpended balance of such funds does not constitute a reasonable amount on the basis of which current operations may be carried on satisfactorily; and (4) in order for the regulatory assessments to be collected, it is essential that the specification of the assessment rate be issued immediately so as to enable the Administrative Committee to perform its duties and functions under the aforesaid amended marketing agreement and order.

(c) As used in this section, the terms, "handler," "shipped," "peas," "cauliflower" and "fiscal year" shall have the same meaning as is given to each such term in said amended marketing agreement and order. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 7 CFR, Cum. Supp., 910.6)

Issued this 14th day of July 1947.

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

[WFO 63-24]

PART 1596—FOOD IMPORTS

RICE

Pursuant to the authority vested in me by War Food Order No. 63, as amended (12 F. R. 459), Appendix A is further revised as follows:

1. By adding the designation "2" to the item "Rice" and all the varieties of rice listed thereunder, so that such items shall read as follows:

Item	Commerce import class No.
Rice: [1] [2]	
Paddy [1] [2]	1051.000
Uncleaned or brown rice [1] [2]	1051.000
Cleaned or milled rice [1] [2]	1053.000
Patna rice, cleaned for use in canned soups [1] [2]	1054.000
Rice meal, flour, polish and bran [1] [2]	1059.100
Broken [1] [2]	1059.200

[1] See paragraph (b) (4) (ix).
[2] See paragraph (b) (5) (i).

2. By deleting the first two footnote items immediately following Appendix A and substituting in lieu thereof the following two items:

3. By changing the reference "(b) (5) (IX)" which appears in the third footnote item following Appendix A to read "(b) (4) (IX)."

This amendment shall become effective at 12:01 a. m., e. s. t., July 15, 1947. With respect to violations, rights accrued, liabilities incurred, or appeals taken prior to said date, under War Food Order No. 63, as amended, all provisions of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

This amendment, which will prohibit imports of rice into Puerto Rico from foreign countries except as specifically authorized, is necessary to implement allocations of rice by the International Emergency Food Council. In order to insure equitable distribution of a scarce commodity in accordance with such allocations, it is necessary that the controls imposed by this amendment go into effect at the earliest possible date. Accordingly, I hereby find that compliance with the notice and procedure requirements of sections 4 (a) and 4 (b) of the Administrative Procedure Act (60 Stat. 237) in connection with the issuance of this amendment is impracticable and contrary to the public interest, and there is good cause for not complying with the publication requirements of section 4 (c) of the said act.

(E. O. 9280, Dec. 8, 1942, 7 F. R. 10179; E. O. 9577, July 3, 1945, 10 F. R. 8087)

Issued this 15th day of July 1947.

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

APPEALS FROM ORDERS ISSUED BY COMMISSIONER OF IMMIGRATION AND NATURALIZATION

MISCELLANEOUS AMENDMENTS TO CHAPTER

JULY 14, 1947.

The following amendments to Title 8, Chapter I, Code of Federal Regulations are hereby prescribed.

PART 1—GENERAL INFORMATION REGARDING IMMIGRATION AND NATURALIZATION SERVICE

In the list in § 1.42 of the final powers and authorities delegated to the Commissioner by the Attorney General, paragraph (d) is amended to include the 7th proviso, so that paragraph (d) will read as follows:

(d) Applications for admission under the 7th or 9th proviso to section 3 of the Immigration Act of 1917;

PART 90—DEPARTMENTAL ORGANIZATION AND AUTHORITY

Sections 90.1, 90.2, 90.3, 90.4, 90.5, 90.9, 90.10, 90.11, and 90.12 are amended to read as follows:

§ 90.1 *Commissioner of Immigration and Naturalization and other selected officers; powers.* Under the general direction of the Attorney General, the Commissioner of Immigration and Naturalization (hereinafter called the Commissioner) shall supervise and direct the administration of the Immigration and Naturalization Service and, subject to the limitations of § 90.3 and other provisions of this part, shall have authority to exercise all powers of the Attorney General relating to the administration of that Service and the administration of the immigration, nationality and all other laws administered by that Service and shall designate such officers of the Service as he may select, with the approval of the Attorney General, to exercise any power or authority of the Attorney General in the administration of any designated specific provision of such laws. In any instance in which any officer so selected shall be in doubt as to the construction of the applicable law or as to the proper principle covering the exercise of discretion, he shall refer the matter to the Commissioner for his consideration.

CROSS REFERENCE: For a full description of the organization of the Immigration and Naturalization Service, including delegation of authority, see Part 1 of this chapter, particularly §§ 1.10-1.23 and §§ 1.40-1.49.

§ 90.2 *Board of Immigration Appeals.* There shall be in the Office of the Attorney General a Board of Immigration Appeals. It shall be under the supervision and direction of the Attorney General and shall be responsible solely to him. The Board of Immigration Appeals shall consist of a chairman and four other members and shall have attached to it such number of attorneys and other employees as the Attorney General, upon the recommendation of the Board, shall from time to time direct. In the absence of the chairman, a member designated by him shall act as chairman. The Board shall have authority, with the approval of the Attorney General, to promulgate rules of practice governing the proceedings before it, including rules as to the admission and conduct of attorneys practicing before it, and to disbar any attorney or other person from appearing in a representative capacity before the Board or before any officers of the Immigration and Naturalization Service.

§ 90.3 *Cases appealable to the Board of Immigration Appeals; powers of Board; finality of Board decisions.* (a) When the Commissioner, or officers designated by him in accordance with § 90.1, exercise the power and authority of the Attorney General delegated to them by § 90.1 or other provisions of this chapter by entering orders in proceedings under the immigration, nationality, or other laws administered by the Service, such orders shall be final except that appeals shall lie to the Board of Immigration Appeals where the orders, whatever their nature (excluding mitigation of fines or penalties), arise in:

(1) Exclusion or preexamination proceedings;

(2) Deportation proceedings, except as provided in § 90.10 (b);

(3) Proceedings involving administrative fines and penalties;

(4) Applications for admission under provisions of the 7th or 9th proviso to section 3 of the act of February 5, 1917;

(5) Petitions filed in accordance with section 9 (c) of the Immigration Act of 1924 for nonquota or preference quota status;

(6) Proceedings for revocation of nonquota or preference quota status previously granted.

(b) The Commissioner may, in any case arising under subparagraphs (1) to (6), inclusive, of paragraph (a) of this section in which no appeal has been taken in accordance with § 90.9, certify such case to the Board of Immigration Appeals for final decision.

(c) In considering and determining such appeals, the Board of Immigration Appeals shall exercise such discretion and power conferred upon the Attorney General by law as is appropriate and necessary for the disposition of the case. The decision of the Board shall be in writing and shall be final except in those cases reviewed by the Attorney General in accordance with § 90.12.

(d) Except as may be modified or overruled by the Board of Immigration Appeals or the Attorney General, decisions of the Board of Immigration Appeals shall be binding on all officers and employees of the Immigration and Naturalization Service in the administration of the immigration and nationality laws, and except as such decisions may be deemed confidential, shall serve as precedents in all proceedings involving the same issue or issues.

§ 90.4 *Board of Immigration Appeals; sessions.* The Board of Immigration Appeals will convene for the purpose of hearing oral argument at its offices in Washington, D. C., at 2 p. m. on every day except Saturdays, Sundays, and legal holidays. In computing the time within which oral argument may be fixed pursuant to §§ 90.5 and 90.9, Saturdays, Sundays, and legal holidays shall be disregarded.

§ 90.5 *Board of Immigration Appeals: oral argumnt; representation by Service.* Oral argument shall be heard by the Board of Immigration Appeals, upon request, in any appeal arising under § 90.3 (a). Requests for oral argument shall be directed to the Board of Immigration Appeals, Department of Justice, Washington 25, D. C. The Board shall have authority to fix any date or change the date upon which oral argument is to be heard. The Immigration and Naturalization Service may be represented in argument before the Board of Immigration Appeals by any officer or employee designated by the Commissioner.

§ 90.9 *Service of Commissioner's decision and order; manner of filing appeals*—(a) *Service of Commissioner's decision and order.* In those proceedings in which an appeal may be taken to the Board of Immigration Appeals pursuant to § 90.3 (a), a copy of the Commissioner's decision and order shall be served upon the counsel or representative of the party against whom the order is effective, or, in the absence of such counsel or representative, upon the party himself, by personal service or by registered mail. If the party does not have counsel or a representative, the decision and order shall be served upon him by the appropriate field office of the Immigration and Naturalization Service; otherwise the decision and order shall be served by the Commissioner on the party's counsel or representative. The service shall be accompanied by a written notice of the party's right to appeal to the Board of Immigration Appeals.

(b) *Appeals to the Board of Immigration Appeals; how filed.* All notices of appeal shall be filed in triplicate within 15 business days after the date of notification of the Commissioner's order except that, if the party against whom the order is effective is detained in the custody of the Immigration and Naturalization Service, such appeal shall be filed within five business days after the date of notification of such order. All notices of appeal to the Board of Immigration Appeals shall be filed by the party against whom the order is effective or by his counsel or representative. Two copies of the notice of appeal shall be filed with the Commissioner of Immigration and Naturalization or with the local field office. One copy shall be filed directly with the Board of Immigration Appeals. Filing of an appeal shall operate to stay the execution of the Commissioner's order until action on the appeal has been completed. Upon the filing of a notice of appeal, the Commissioner shall promptly transmit to the Board the entire record of the proceeding, including notice of appeal.

(c) *Waiver of appeal.* If the party against whom the order is effective or his counsel or representative waives, in writing, the filing of an appeal, the order of the Commissioner may be executed without awaiting the expiration of the time stated in paragraph (b) of this section.

§ 90.10 *Reconsideration or reopening of case after Commissioner's order has become final; stay of deportation.* (a) Reconsideration or reopening of any case in which the Commissioner's order is or has become final shall be only upon written motion addressed to the Commissioner in triplicate and submitted to him directly or through the field office handling the case. The Commissioner may, in his discretion, grant or deny such motion. A motion to reopen shall state the new facts to be proved at the reopened hearing and shall be supported by affidavits or other evidentiary material. A motion to reconsider shall state the reasons for reconsideration and shall be supported by such precedent decisions as are pertinent. The Commissioner shall serve a copy of his decision and order upon the party against whom the order is effective or his counsel or representative, as provided in paragraph (a) of § 90.9. An appeal from such an order of the Commissioner shall lie to the Board of Immigration Appeals and notice of such appeal shall be filed in accordance with paragraph (b) of § 90.9.

(b) A request for a stay of deportation shall be in writing and shall state the facts upon which the request is based. No appeal shall lie from the Commissioner's order on a motion for a stay of deportation.

§ 90.11 *Board of Immigration Appeals; transmittal of Board decisions; reconsideration or reopening of case after Board decision.* (a) A copy of the decision and order of the Board of Immigration Appeals shall be transmitted by the Board to the counsel or representative of the party against whom the order is effective, or, in the absence of such counsel or representative, to the party himself.

(b) Reconsideration or reopening of any case in which an order has been entered by the Board of Immigration Appeals (except as provided in § 150.11b of this chapter), whether requested by the Commissioner or by the party against whom the order is effective or his counsel or representative, shall be only upon written motion. The Board may, in its discretion, grant or deny such motion, and pending its consideration of the motion may stay deportation. A motion to reopen shall state the new facts to be proved at the reopened hearing and shall be supported by affidavits or other evidentiary material. A motion to reconsider shall state the reasons for reconsideration and shall be supported by such precedent decisions as are pertinent. Motions shall be filed in triplicate with the Board of Immigration Appeals. If oral argument upon a motion is desired, it shall be so stated. The Board of Immigration Appeals, in its discretion, may grant or deny oral argument. If the party against whom the order is effective is the moving party, the Board of Immigration Appeals may transmit one copy of the motion to the Commissioner, who shall be given a reasonable time, not exceeding 10 days or any extension thereof, within which to be heard, if oral argument is granted, or to file such briefs or memoranda as he deems appropriate. If the Commissioner is the moving party, he shall serve a copy of his motion upon the counsel or representative of the party against whom the order is effective, or, in the absence of such counsel or representative, upon the party himself, and shall make proof of service thereof. The party shall be given a reasonable time, not exceeding 10 days from the date of service of the Commissioner's motion or any extension thereof, within which to be heard, if oral argument is granted, or to file such briefs or memoranda as he deems appropriate.

§ 90.12 *Board of Immigration Appeals; reference of cases to the Attorney General.* The Board of Immigration Appeals shall refer to the Attorney General for review of the Board's decision all cases which:

(a) The Attorney General directs the Board to refer to him.

(b) The chairman or a majority of the Board believes should be referred to the Attorney General for review of its decision.

(c) The Commissioner requests be referred to the Attorney General by the Board and it agrees.

In any case in which the Attorney General shall review the decision of the Board, his decision shall be stated in writing and shall be transmitted to the party against whom the order is effective or to his counsel or representative, as provided in § 90.11 (a).

PART 130—BOARDS OF SPECIAL INQUIRY

Section 130.6 is amended to read as follows:

§ 130.6 *Excluded alien; informed of rights.* Where an alien is excluded by a board of special inquiry, he shall be advised of the decision of said board and the reason therefor, and when entitled to appeal to the Commissioner of Immigration and Naturalization, he shall be so advised: *Provided*, That the exact language employed in advising the alien of his right to appeal, together with a full and accurate transcript of the alien's reply, shall be inserted in the record and made a part thereof. An excluded alien shall be informed that the return voyage is at the expense of the transportation company which brought him and that such transportation company must return him in the same class in which he came. The fact that he has been so informed shall be entered into the record. (Secs. 16, 17, 18, 39 Stat. 885, 887, 58 Stat. 816; 8 U. S. C. and Sup., 152, 153, 154)

PART 136—APPEALS FROM DECISIONS BY BOARD OF SPECIAL INQUIRY

Part 136 is amended by inserting a new section immediately preceding § 136.1 and by amending §§ 136.3a, 136.4, 136.5, 136.6, and 136.7 as follows:

§ 136.0 *Definitions.* The term "appeal" when used in §§ 136.1 to 136.6, inclusive, means an appeal taken from the decision of a board of special inquiry. The term "appeal" when used in § 136.7 means an appeal taken from the decision of a board of special inquiry or an appeal taken from an order of the Commissioner entered in exclusion proceedings whichever is indicated.

§ 136.3a *Manner of taking an appeal.* An alien may, except as prohibited by § 136.2, take an appeal from the excluding decision of a board of special inquiry and shall be informed that he may appeal merely by stating for the record, as prescribed in § 130.6 of this chapter, that he desires to appeal. If, during the examination by the board of special inquiry, he states that he does not desire to appeal or that he will decide later whether to appeal, he shall be informed that any subsequent notice of appeal shall be sufficient if made in writing and made in accordance with the applicable provisions of this part and Part 130 of this chapter. A notation of any such notice shall be entered in the record of the examination.

§ 136.4 *Forwarding appeal record.* The complete appeal record, including the immigration visa or permit to reenter the United States, and any brief or argument filed by the appellant, his attorney, or his representative shall be forwarded promptly to the Commissioner of Immigration and Naturalization. The officer in charge shall in his discretion allow whatever time is reasonable, as indicated by the nature of the case, for the preparation and filing of briefs or arguments. (Sec. 17, 39 Stat. 887; 8 U. S. C. 153)

§ 136.5 *Cases reopened by Central Office or Department.* Whenever a case is referred back to a board of special inquiry in order that additional evidence may be taken, such case is thereby reopened; and after the new evidence has been taken, the board of special inquiry shall render a new decision, in which it may, in its discretion, reaffirm, alter, or reverse its previous decision. The mere action of referring back a case under such circumstances is not to be taken as an indication of any disapproval of the decision of the board of special inquiry or of what the new decision should be. (Sec. 17, 39 Stat. 887; 8 U. S. C. 153)

§ 136.6 *Reopening of hearing.* (a) After a final order by either the Commissioner or the Board of Immigration Appeals, the hearing shall be reopened only in accordance with § 90.10 (a) or § 90.11 (b) of this chapter, except that where a final order affirming an excluding decision has been entered, local immigration officials may stay deportation and request permission to reopen the case upon learning of new evidence which in their opinion is of such relevancy and materiality as, in justice to the alien or the United States, requires consideration by the board of special inquiry. Any such request of the local immigration officials shall contain a brief statement of the general nature of the new evidence and shall be submitted to the Commissioner. He shall act upon the request unless the final order has been entered by the Board of Immigration Appeals, in which event the request shall be acted upon by the Board.

(b) Where a final order has not been entered, either the alien, his counsel or representative, or the local immigration officials may request reopening of the hearing. Any such requests shall contain a brief statement of the general nature of the new evidence. The request shall be acted upon by the officer in charge if the record has not been forwarded to the Commissioner. If the record has been forwarded, the Commissioner shall act upon the request if the case is pending before him. If the case is pending before the Board of Immigration Appeals, the Commissioner shall forward the request to the Board. The Board shall consider the request and either remand the case for further hearing or deny the request and render a decision on the record. Upon receipt of permission to reopen the hearing, the board of special inquiry shall again acquire full control of the case as provided in § 136.5. (Sec. 17, 39 Stat. 887; 8 U. S. C. 153)

§ 136.7 *Notice of decision on appeal; appeal from order of Commissioner; abandoned applications for admission.* (a) The Commissioner, or officers designated by him in accordance with § 90.1 of this chapter, shall consider and determine all appeals entered from decisions of boards of special inquiry. The Commissioner shall notify the appropriate field office of his decision and shall, in accordance with § 90.9 of this chapter, serve his decision and order upon the alien or his counsel or representative. Further proceedings shall be had in accordance with the provisions of Part 90 of this chapter.

(b) If the decision on appeal provides for the reopening of the case or for the admission of the alien and he is in contiguous territory and does not appear for the reopened hearing or for admission to the United States within whatever period of time is specified in the decision or, where no such period is specified, within 60 days after the date of the notice addressed to him at his last known address, he shall be regarded as having abandoned his application for admission to the United States and the proceedings in his case shall be closed without prejudice to any future application. Any subsequent application for admission shall be considered as a new application. (Sec. 17, 39 Stat. 887; 8 U. S. C. 153)

PART 142—PREEXAMINATION OF ALIENS WITHIN THE UNITED STATES

Part 142 is amended by amending §§ 142.5, 142.14, and 142.15 as follows and by revoking § 142.6.

§ 142.5 *Preexamination; authorization.* The Commissioner or a designated official in the Central Office shall have authority to authorize the preexamination of any eligible under the provisions of § 142.2.

§ 142.14 *Preexamination; where alien found inadmissible.* Where an alien is held inadmissible by a board of special inquiry in preexamination proceedings (for cause other than the lack of an unexpired immigration visa), the alien may appeal from the decision to the Commissioner of Immigration and Naturalization and further proceedings shall be had in accordance with the provisions of Part 90 of this chapter: *Provided, however*, That the decision of a board of special inquiry shall be based upon the certificate of the examining medical officer and, except as provided in section 21 of the Immigration Act of 1917, shall be final as to the rejection of aliens afflicted with tuberculosis or with a loathsome or dangerous contagious disease, or with any mental or physical defect which would bring such aliens within any of the classes excluded from admission to the United States under section 3 of that act.

§ 142.15 *Preexamination; appeal by dissenting inspector.* Subject to the limitations in the proviso in § 142.14, a dissenting inspector may appeal from the decision of a board of special inquiry to the Commissioner of Immigration and Naturalization and further proceedings shall be had in accordance with the provisions of Part 90 of this chapter. In the event of an appeal by a dissenting inspector, no further proceedings shall be taken in the case pending the outcome of the appeal.

PART 150—ARREST AND DEPORTATION

Part 150 is amended by amending §§ 150.8, 150.9, 150.10 (h), 150.11 (d), and 150.11 (e); by revoking §§ 150.11 (f) and 150.14; and by inserting a new section between §§ 150.11a and 150.12, as follows:

§ 150.8 *Reopening the hearing.* At any time prior to the forwarding of the record of hearing to the Commissioner, the officer in charge of a district or suboffice may direct that a case be reopened for proper cause. The Commissioner may direct a reopening of the record of hearing for proper cause at any time prior to such time as an appeal from his

order may be entered in accordance with the provisions of § 90.3 (a) of this chapter. Requests by aliens or their representatives for a reopening of a hearing prior to entry of a final order shall be in writing, state the new facts to be proved, and be supported by affidavits or other evidentiary material. All requests for reopening must be filed with the appropriate field office of the Immigration and Naturalization Service. If the record of hearing has been forwarded to the Commissioner from that office, the request for reopening shall be forwarded to the Commissioner. The Commissioner shall grant or deny the request if the case is pending before him. If the case is pending before the Board of Immigration Appeals, the request shall be forwarded to the Board. The Board shall consider the request and either remand the case for further hearing or deny the request and render a decision on the record.

§ 150.9 *Forwarding record to Central Office.* Upon receipt of exceptions and brief, if any, of the alien or his counsel, or upon the expiration of the time allowed for the submission of exceptions or brief, the entire record, including all copies of Forms I–55 and I–255 filed by the alien, the presiding inspector's proposed findings, conclusions, and order, exceptions and brief, including the exceptions of the examining inspector, if any, shall be forwarded to the Commissioner.

§ 150.10 *Special procedure; application by an alien prior to arrest for suspension of deportation.* * * *

(h) *Termination of special procedure.* The special procedure provided for in paragraphs (f) and (g) of this section may be terminated forthwith (1) by the officer in charge of the district at any time prior to the transmittal of the record to the Commissioner, upon a determination that the alien may leave for parts unknown, or is failing without cause to prosecute his application, or that the alien's eligibility for suspension of deportation is questionable; or (2) by the Commissioner at any time. If such special procedure has been terminated as herein provided, the alien may be released under bond or on his own recognizance and his case shall be handled as other deportation cases under §§ 150.4 to 150.9, inclusive, commencing with the proceedings immediately following the service of the warrant of arrest. The removal of any case from the procedure provided in this section shall be without prejudice to the alien's application for suspension of deportation.

(Sec. 19 (c), 39 Stat. 889, 54 Stat. 671; 8 U. S. C. 155 (c))

§ 150.11 *Special deportation procedure.* * * *

(d) *In cases involving recent illegal entrants and alien seamen; hearing and procedure thereunder.* The hearing and all further proceedings in the case of an alien arrested upon a warrant issued and executed in accordance with paragraph (c) of this section shall be conducted in the manner prescribed in §§ 150.6 and 150.7 with the following exceptions:

(1) Any alien who desires the privilege of departure in lieu of deportation may make such request at any time during the hearing and such request may be acted upon without the necessity of filing Forms I–55 and I–255. The presiding inspector shall require the alien to furnish such information as may be available in support of such request.

(2) The presiding inspector, immediately before the hearing is concluded, shall state for the record in the presence of the alien his findings of fact, conclusions of law, and recommendation as to the disposition of the case, and

(3) The alien shall be required then and there to state whether or not he takes exception to such findings of fact, conclusions of law, and recommendation as to the disposition of the case; and he shall be informed that if he does take exception, the record will be submitted to the Commissioner for decision, and

(4) The transcript of the record, including the findings of fact, conclusions of law, and proposed order of the presiding inspector as stated in the record shall be presented to the officer in charge of the district in which the hearing is held.

(e) *In cases involving recent illegal entrants and alien seamen; issuance of warrant of deportation.* In any case conducted in accordance with the provisions of this section, in which the alien has made an exception to the proposed findings, conclusions, and order of the presiding inspector, or in which the alien has applied for suspension of deportation under the provisions of section 19 (c) of the Immigration Act of 1917, as amended, or in which the recommendation of the presiding inspector is for any action other than the deportation of the alien, the transcript of the record shall be forwarded to the Commissioner for decision. Any other case shall be referred for determination to the officer in charge of the district. If such officer in charge is not satisfied beyond a doubt that the alien is subject to deportation and that his case falls within the provisions of paragraph (a) of this section, he shall forward the record to the Commissioner, with a statement of his reasons for so doing. If the officer in charge of the district is satisfied beyond a doubt that the alien is subject to deportation and that the case falls within the provisions of paragraph (a) of this section, he may issue a warrant directing the deportation of the alien upon the charges which have been established by the record. In all cases where a warrant of deportation is issued, a complete copy of the record and of the order of deportation shall be forwarded to the Commissioner within two business days. Deportation of an alien ordered deported by an officer in charge of a district shall be effected in the same manner as though deportation had been directed by the Commissioner. Any alien who has been ordered deported by an officer in charge of a district may, within five days after such order, if deportation has not been sooner effected, file an exception to the order of deportation giving his reasons in support thereof, and may request that his case be referred to the Commissioner for decision. Upon the filing of such exception and request, deportation of the alien shall be stayed and the request of the alien, accompanied by the entire record if not previously transmitted, shall be forwarded to the Central Office for review and decision by the Commissioner. If the warrant of deportation issued by the officer in charge of the district is confirmed by the Commissioner, deportation shall proceed upon the warrant issued by the officer in charge unless the respondent appeals to the Board of Immigration Appeals within the time specified in § 90.9 of this chapter. If, on appeal, the Board of Immigration Appeals affirms the order of the Commissioner, deportation shall proceed upon the warrant issued by the officer in charge of the district as soon as notification of such affirmance is received.

§ 150.11b *Requests for extension of time within which to depart voluntarily from the United States.* (a) Where an order has been entered by the Commissioner or by the Board of Immigration Appeals granting an alien permission to depart voluntarily from the United States at his own expense, a request for extension of time within which to effect departure shall be addressed to the Commissioner and filed in triplicate with the appropriate field office. The Commissioner shall act upon the request and, if denied, shall serve notice of his order and decision upon the alien or his counsel or representative, as provided in § 90.9 (a) of this chapter. Further proceedings shall be conducted in accordance with §§ 90.3 and 90.9 (b) of this chapter.

(b) If an alien does not depart from the United States within the time granted or any extension thereof, the field office shall serve a notice upon the alien and his counsel or representative, if any, advising him that it proposes to recommend to the Commissioner that an order of deportation be entered. The notice to the alien and his counsel or representative shall further advise him of his right to file exceptions within such time, but not less than five business days, as the field office deems reasonable. At the expiration of the period granted or any extension thereof, a copy of the notice together with the exceptions filed, if any, shall be forwarded to the Commissioner. The Commissioner shall act upon the recommendation and serve notice of his decision and order upon the alien or his counsel or representative, as provided in § 90.9 (a) of this chapter. Further proceedings shall be conducted in accordance with §§ 90.3 and 90.9 (b) of this chapter.

PART 160—IMPOSITION AND COLLECTION OF FINES

Part 160 is amended by amending §§ 160.18 (b) and 160.19 as follows:

§ 160.18 *Mitigation or remission of fines.* * * *

(b) *Seamen not detained on board or deported.* The fine prescribed by section 20 (a) of the Immigration Act of 1924, as amended (43 Stat. 164, 58 Stat. 817; 8 U. S. C. and Sup., 167 (a)), for failure to detain a seaman on board until inspection or for failure after inspection to carry out any order to detain and deport, may be mitigated in the discretion of the Attorney General. An application for such mitigation shall be submitted in triplicate to the officer in charge at the port where the violation is alleged to have occurred and he shall forward the original and duplicate to the Commissioner. Such application shall include information as to what diligence was exercised in detaining the seaman in compliance with the requirements of said section 20 (a) and what efforts were made to apprehend and return him to the vessel, and any other information pertinent to a showing that imposition of the full penalty would be unjust or inequitable. The application may be submitted in conjunction with a protest. After a final order as to liability for fine has been entered, any application solely for mitigation shall be decided by the Commissioner.

§ 160.19 *Notice of decisions; appeal from Commissioner's order.* The Commissioner shall furnish notice of the decision in all cases to the appropriate field office, and shall, in accordance with § 90.9 of this chapter, serve a copy of his decision and order upon the party against whom the proceedings were instituted or his counsel or representative. The field office shall inform the collector of customs promptly in the event no penalty is imposed, and in all other cases upon the disposition of any appeal, or at the expiration of the time in which an appeal may be entered. The responsibility for such action as may be appropriate in carrying out the provisions of the decision lies with the collector of customs.

This order shall become effective on July 28, 1947. The requirements of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C., Sup., 1003) relatives to notice of proposed rule making and delayed effective date are inapplicable for the reason that the rule prescribed by this order pertains to organization, particularly to delegation of authority, and to procedure.

(R. S. 161, 360, sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 327, 54 Stat. 1150, sec. 1, 54 Stat. 1238; 5 U. S. C. 22, 311; 8 U. S. C. 102, 222 458, 727; 5 U. S. C. 133t)

TOM C. CLARK,
Attorney General.

Approval recommended: June 20, 1947.

611.10 Limitations on representative activities by former employees of Philippine Alien Property Administration.

AUTHORITY: §§ 611.1 to 611.10, inclusive, issued under 40 Stat. 411, 55 Stat. 839, 60 Stat. 50 Pub. Laws, 485, 671, 79th Cong.; 50 U. S. C. App. and Sup. 1, 616; E. O. 9142, April 21, 1942, E. O. 9193, July 6, 1942, E. O. 9325, April 7, 1943, 3 CFR, Cum. Supp., E. O. 9567, June 8, 1945, 3 CFR 1945 Supp., E. O. 9725, May 16, 1946, E. O. 9747, July 3, 1946, E. O. 9760, July 23, 1946, 3 CFR 1946 Supp.

§ 611.1 *Time of effectiveness of vesting orders.* (a) Any property or interest shall be deemed to have vested at the time of the filing with the Official Gazette published in Manila, Philippine Islands, of an order vesting such property or interest: *Provided*, That any property or interest, the conveyance, transfer or assignment of which may be filed, registered or recorded in the office designated by law for the filing of such documents, shall be deemed to have vested at the time of the filing, registering, or recording in such office of the order vesting such property or interest, or at the time of the filing of such order with the Official Gazette, whichever is earlier: *Provided further*, That, as to subsequent purchasers or lienors without actual notice, an order vesting real property or an interest in such property shall be deemed effective from the time of the recordation of such order in the public office designated by law for the recordation of a conveyance, transfer or assignment of such property or interest.

(b) Actual notice, by service or otherwise, of the execution of an order vesting any property or interest shall be deemed (1) notice that the Philippine Alien Property Administrator has undertaken supervision of such property or interest, and (2) notice of the vesting of such property or interest as of the time specified in paragraph (a) of this section.

§ 611.2 *Valuation of rates of exchange of monetary units of enemy countries.* (a) That for the purpose and solely for the purpose of discharging claims and rights of foreign countries and nationals thereof against citizens and residents of the United States and the Philippine Republic, which by contract or agreement made or entered into by the parties prior to vesting are dischargeable by payment in monetary units of certain enemy countries and which heretofore have been or hereafter shall be vested by the Administrator, the equivalent of the monetary units of such enemy countries shall be determined by the Administrator after considering the reasonable value in United States currency of the enemy monetary units at the time the indebtedness was incurred.

(b) All persons now indebted or who shall hereafter be indebted to the Administrator on any claim as aforesaid are hereby ordered and directed to pay such debts, as they become due and payable, in United States currency, computed as above set forth, or the Philippine peso fixed at the rate of two (2) pesos for one (1) dollar United States currency.

(c) Any payment made and computed pursuant to this regulation shall be and constitute a full acquittance and discharge for all purposes of the person making the same for the obligation paid thereby.

(d) Nothing herein shall be deemed in any way to effect or alter any provisions of any contract or agreement made or entered into by the parties prior to vesting by the Administrator whereby there is established a method of computing such equivalents.

(e) The Administrator reserves the right to vary or modify the foregoing basis of computation from time to time by general order or by amendments hereto, or in specific cases upon a finding by the Administrator that application of this regulation would be inequitable.

§ 611.3 *Prohibition of transactions and appointment of agents and delegates.* (a) The following transactions are prohibited unless authorized by the Philippine Alien Property Administrator, or by an agent delegate appointed by the Philippine Alien Property Administrator, or by a supervisor designated by the Philippine Alien Property Administrator or by one of his said agents and delegates as hereinafter provided:

(1) All transactions involving any property, control of which has been released by the Secretary of the Treasury pursuant to Executive Order 9095, as amended, subject to the power and authority conferred upon the Philippine Alien Property Administrator; and

(2) All transactions by, or with, or on behalf of, or pursuant to the direction of, any business enterprise of which the Philippine Alien Property Administrator has undertaken the supervision, or which he has vested, or assets of or interests in which he has vested, or involving any property in which such business enterprise has any interest, control of such property or business enterprise having been released by the Secretary of the Treasury pursuant to Executive Order 9095, as amended.

(b) The Chief of the Division of Business Management and Control, the Chief of the Property Division, the Chief of the Division of Investigation, the Chief of the Division of Real Estate and Liquida-

tion, and the Secretary of the Office of the Philippine Alien Property Administration, are hereby appointed and delegated, severally, as agents and delegates of Philippine Alien Property Administrator to make and to revoke, on behalf of the Philippine Alien Property Administrator, authorization of transactions with respect to any property or business enterprise subject to the authority and power conferred upon the Philippine Alien Property Administrator; and with respect to any such specific property or business enterprise subject to such authority and power, to appoint and designate supervisors for such specific property or business enterprise who shall have authority to make and to revoke on behalf of the Philippine Alien Property Administrator authorizations of transactions.

§ 611.4 *Service of process upon any person within Japan or Germany.* (a) In any court or administration action or proceeding within the United States or within the Republic of the Philippines in which service of process or notice is to be made upon any person in Japan or Germany, the receipt by the Philippine Alien Property Administrator of a copy of such process or notice sent by registered mail to the Philippine Alien Property Administrator, Manila, Philippine Islands, shall be service of such process or notice upon any such persons, if, and not otherwise, the Philippine Alien Property Administrator within sixty days from the receipt thereof shall file with the court or administrative body issuing such process or notice, a written acceptance thereof.

(b) Such process or notice shall otherwise conform to the rules, orders or practice of the court or administrative body issuing such process or notice.

(c) This section shall not be construed to limit the authority of the Philippine Alien Property Administrator to take any measures in connection with representing any such person in any action or proceeding as in his judgment and discretion is or may be in the public interest.

§ 611.5 *Payment, transfer or distribution of property in the process of administration by any person acting under judicial supervision, or in court or administrative actions or proceedings.* (a) No designated person shall pay, transfer, or distribute, or cause to be paid, transferred or distributed, any property of any nature whatsoever to or for the benefit of any designated enemy country or designated national, unless:

(1) The Philippine Alien Property Administrator has issued to the designated person a written consent to the payment, transfer or distribution, or

(2) The Philippine Alien Property Administrator has:

(i) Filed a written statement in the court or administrative action or proceeding in connection with which the payment, transfer or distribution is proposed, that he has determined not to represent the designated national, or

(ii) Represented the designated national in such action or proceeding by the appearance therein of a representative on behalf of the designated national, and such representative has been served by the designated person with written notice of the proposed payment, transfer or distribution, and ninety days have expired without the exercise of any other power or authority by the Philippine Alien Property Administrator with respect to such property.

(b) Any payment, transfer, or distribution pursuant to paragraph (a) of this section may be made only if licensed or otherwise authorized by the Secretary of the Treasury pursuant to the provisions of Executive Order 9095, as amended.

(c) For the purpose of this section, the terms:

(1) "Designated person" shall mean a person or officer acting under judicial supervision, or in any court or administrative action or proceeding, or in partition, libel, condemnation or other similar proceedings, including, but not by way of limitation, (i) executor, (ii) administrator, (iii) guardian, (iv) committee, (v) curator, (vi) trustee under will, deed, or settlement, (vii) receiver, (viii) trustee in bankruptcy, (ix) assignee for the benefit of creditors, (x) United States Marshal, (xi) sheriff, (xii) commissioner, (xiii) person acting under trust agreement, and (xiv) all other persons or officers acting in a similar capacity.

(2) "Designated enemy country" shall mean any foreign country against which the United States has declared the existence of a state of war (Germany, Japan), and any other country with which the United States is at war in the future.

(3) "Designated national" shall mean any person in any place under the control of a designated enemy country.

§ 611.6 *Report of persons under judicial supervision.* (a) All designated persons shall file a report of any property or interest in which there is reasonable cause to believe that Germany or Japan, or a person who is a citizen or subject or under control of Germany or Japan, has an interest.

(b) Such report shall be submitted in duplicate on form provided by the Office of Philippine Alien Property Administration, which shall be executed under oath and shall contain complete information in the manner provided in the form.

(c) For the purposes of this section, the terms:

(1) "Designated persons" shall mean persons or officers acting under judicial supervisions, or in any court or administrative action or proceeding, or in partition, libel, condemnation or other similar proceedings, including, but not by way of limitation (i) executors, (ii) administrators, (iii) guardians, (iv) committee, (v) curators, (vi) trustees under wills, deeds or settlements, (vii) receivers, (viii) trustees in bankruptcy, (ix) assignees for the benefit of creditors, (x) United States Marshals, (xi) sheriffs, (xii) commissioners, (xiii) persons acting under trust agreements, and (xiv) all other persons or officers acting in a similar capacity, or who may become such by appointment, qualification, or otherwise.

(d) Upon the execution of such report it shall be forwarded on or before June 1, 1947, to the Philippine Alien Property Administrator, Manila, Philippine Islands.

(e) Subsequent to June 1, 1947, such report shall be filed within thirty (30) days from the date upon which such designated person qualifies.

§ 611.7 *Report of property owned by persons to be repatriated.* (a) Any person proposed for repatriation to an enemy country shall, upon demand by a duly authorized representative of the Philippine Alien Property Administrator, prepare (or assist the representative of the Philippine Alien Property Administrator in preparing), sign and certify a report on Form PAPA–4, of all property of any nature whatsoever within the Republic of the Philippines, which is owned or controlled by, payable or deliverable to, held on behalf of or for the account of such person or in which such person has any interest of any nature whatsoever.

(b) Such duly authorized representatives of the Philippine Alien Property Administrator are hereby authorized to accept any books of account, records, contracts, letters, documents, memoranda, or other papers held in the custody of any person proposed for repatriation, which are useful in establishing the ownership or control of any suoh property.

(c) For the purposes of this section:

(1) "Persons proposed for repatriation" shall mean any person who has been designated by the Department of State of the United States or by the Republic of the Philippines, as one who may be repatriated to a designated enemy country;

(2) "A duly authorized representative of the Philippine Alien Property Administrator" shall include any person who possesses an identification card (bearing his signature and photograph) certifying that he is employed as an investigator, attorney, examiner, business analyst, or in any other responsible position in the Office of Philippine Alien Property Administration.

§ 611.8 *Report of property of Germany and Japan and any national thereof.* (a) Every person in the United States or in the Republic of the Philippines, who has any knowledge of or interest in or legal title to or custody or control or possession of any property or interest of any nature whatsoever within the Republic of the Philippines on or before December 31, 1946, and believes or has cause to believe that such property or interest is or may be directly or indirectly owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or claimed by, or is evidence of ownership or control of property or interest by, Germany or Japan or any national thereof, shall file with the Philippine Alien Property Administrator on or before June 1, 1947, a report on Form PAPA–5, containing the information called for and in conformity with instructions, whether or not a report with respect to any such property or interest shall have been filed previously with any government agency: *Provided*, That if such belief or cause to believe is acquired after June 1, 1947, such reports shall be filed within 30 days after such belief or cause to believe is acquired. For the purposes of this paragraph, safe deposit boxes shall be deemed to be in the "custody" not only of all lessees thereof and all persons having access thereto, but also of the lessors of such boxes, whether or not such lessors have access thereto.

(b) A report on Form PAPA–5, in accordance with the requirements specified in paragraph (a) of this section, shall be filed by every person with respect to all securities and obligations, including, but not limited to, shares of stock, debentures, notes, bonds, trust certificates, coupons, debts, contracts of insurance, issued or incurred by such persons, which are registered or recorded on the books of such person as, or which such person believes or has cause to believe are or may be, directly or indirectly owned or controlled by, payable to or deliverable to, held on behalf of or on account of, or owing to or claimed by, Germany or Japan or any national thereof.

(c) As used in paragraphs (a) and (b) of this section:

(1) The term "person" shall include, but not by way of limitation, an individual, partnership, association, corporation, company or other incorporated or unincorporated body or body politic.

(2) The term "property" shall include, but not by way of limitation, money, checks, drafts, bullion, bank deposits, savings accounts, obligations, financial securities commonly dealt in by bankers, brokers and investment houses, notes, debentures, stocks, bonds, coupons, bank acceptances, mortgages, pledges, liens, or other rights in the nature of security, warehouse receipts, bills of lading, trust receipts, bills of sale, any other evidence of title, ownership or indebtedness, goods, wares, merchandise, chattels, stock on hand, real estate, vendor's sales agreements, land contracts, lease-holds, ground rents, options, negotiable instruments, trade acceptances, book accounts, accounts payable (to Germany or Japan or any national thereof), patents, copyrights, trademarks, commercial prints and labels, judgments, insurance policies, safe deposit boxes and their contents, annuities, pooling agreements, contracts of any nature whatsoever, interest in trusts.

(3) The term "Japan," when used in a territorial sense, means that territory which constituted Japan on December 7, 1941, including the mandated islands of Japan and Manchuria, but excluding all other areas in China occupied by the military forces of Japan on that date; and when used in a governmental sense, means the Government of Japan or any political subdivision, agency or instrumentality thereof.

(4) The phrase "national of Germany or Japan" means:

(i) Any person who, at the time on or since June 14, 1941, has been domiciled or resident in, or has been a citizen or subject of, Germany or Japan, except (a) persons domiciled or resident in the Republic of the Philippines on December 31, 1945, and (b) members of the armed forces of, and civilians (other than citizens or subjects of Germany or Japan) on official duty for the United States, China, France, the Union of Soviet Socialist Republics, or the United Kingdom, or organization acting officially on behalf of any of such nations.

(ii) Any partnership, association, corporation or other organization, organized under the laws of, or which at any time on or since June 14, 1941, has had its principal place of business in Germany or Japan; and

(iii) Any partnership, association, corporation or other organization, organized under the laws of, or whose principal place of business is located in, any country other than Germany, Japan or the United States, in which at any time on or since January 1, 1939, Germany or Japan or any national thereof has had any direct or indirect interest, or any direct or indirect control other than such control as prevailed solely by virtue of the military occupation by Germany or Japan or the territory in which such partnership, association, corporation or other organization is located.

(d) Philippine Alien Property Administration Form PAPA–5 and instructions may be obtained from Office of Philippine Alien Property Administration, Manila, Philippine Islands.

(e) Reports shall be executed and filed in duplicate with the Office of Philippine Alien Property Administration, Manila, Philippine Islands. The Philippine Alien Property Administrator reserves discretion to grant such extensions of time as he deems advisable for the making of any or all of the reports required by this section.

§ 611.9 *Prohibition of transactions by personnel of the Office of Philippine Alien Property Administrator.* (a) No person connected directly or indirectly with the Philippine Alien Property Administration shall effect, or cause to be effected for personal profit or benefit, any sale or purchase of, or other transaction in, or otherwise deal or participate in any property or interest therein concerning which the Philippine Alien Property Administrator has acted, or may hereafter act under the provisions of the Trading with the Enemy Act, as amended, or pursuant to the powers delegated to the Philippine Alien Property Administrator by the President. *Provided*, That where it is to the benefit of the Philippine Alien Property Administration, employees may act as temporary custodians of property held by the Philippine Alien Property Administration under such conditions as the Administrator may prescribe.

(b) This section shall apply to all transactions of the kind above described whether made directly by, for or on account or behalf of any person connected directly or indirectly with the Office of Philippine Alien Property Administration or in which such person has any beneficial interest. Employees are considered to have a beneficial interest in transactions of their husbands and wives, and therefore such transactions shall be deemed to come within the provisions of this section.

(c) Any person connected directly or indirectly with the Office of Philippine Alien Property Administration who owns or has any interest in any property or interest therein concerning which the Philippine Alien Property Administrator has acted or may hereafter act shall notify the Philippine Alien Property Administrator of such ownership or interest immediately upon the execution of this section or the taking of such action by the Philippine Alien Property Administrator, as the case may be.

§ 611.10 *Limitations on representative activities by former employees of Philippine Alien Property Administration*—(a) *One year bar; former employees.* No person who has served in any capacity as an employee of the Office of the Philippine Alien Property Administration shall act as counsel, attorney or agent for prosecuting in the Office of the Philippine Alien Property Administration any claim against the United States which was pending at the time he was so employed, nor in any manner, nor by any means help in the prosecution of such claim, nor appearing in a representative capacity before the Office of the Philippine Alien Property Administration or an officer, or employer thereof in connection with any matter involving vested property, within one year after the termination of his employment in the office, unless he obtains the prior approval of the Administrator in each matter. To obtain such approval he must file an affidavit stating:

(1) His former connection with the Office of Philippine Alien Property Administrator;

(2) That while he was connected with the Office of Philippine Alien Property Administrator the matter was not pending therein, or if it was so pending;

(i) That he gave no personal consideration to it, and had no knowledge of the facts involved therein while connected, and

(ii) That he is not assisted and will not be assisted by any person who has personally considered it or gained personal knowledge of the facts thereof while connected with the Office of Philippine Alien Property Administrator.

(b) *Continuing bar; confidential material.* Nothing in this section shall be deemed to authorize the disclosure, regardless of the passage of time, of any information in the files and papers of the Office of Philippine Alien Property Administrator within the purview of § 621.2 of this chapter in any manner other than that provided in the said § 621.2.

Executed in Manila, Philippine Islands, June 29, 1947.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter I—Aid of Civil Authorities and Public Relations

PART 111—ASSISTANCE TO RELATIVES AND OTHERS IN CONNECTION WITH DECEASED PERSONNEL

MISCELLANEOUS AMENDMENTS

Amend Part 111, Chapter I, Title 10, Code of Federal Regulations as follows:

1. Delete the word "theater" in the third line of paragraph (c) of § 111.1.

2. Rescind § 111.2 and substitute the following:

§ 111.2 *Letter of sympathy to nearest relative or other person designated to be notified in case of emergency.* (a) When death occurs on a transport, the letter of sympathy will be prepared by:

(1) The commanding officer of the unit of which the deceased was a member;

(2) If there is no unit commander, the commanding officer of troops on board the transport;

(3) If there is no unit commander or commanding officer of troops, the master of the vessel;

and will be turned over to the transportation agent to be mailed to the nearest relative or other person designated to be notified in case of emergency.

(b) In cases of death in oversea commands, except where the nearest relative or other person designated to be notified in case of an emergency resides locally, the letter of sympathy will be prepared by The Adjutant General upon receipt of the report of death. When the nearest relative or other person designated to be notified in case of an emergency resides in the country in which the death occurs the local commander will prepare the letter of sympathy. In every case of death overseas, the emergency addressee or the next of kin will be advised by air mail letter direct of the circumstances surrounding death, including specific cause and place, the grave location, information about the burial service, and all other information of a personal or sentimental nature which may be of comfort to the family.

3. Rescind § 111.3 and substitute the following:

§ 111.3 *Advice to supposed beneficiary: furnishing vouchers.* (a) Inquiries from a supposed beneficiary will be answered to the effect that gratuities (Part 303, §§ 303.1 to 303.3 and AR 35–1540) are paid by the proper disbursing officer as soon as eligibility therefor can be determined by the Finance Officer, U. S. Army, Army Finance Center, OCF, Building 205, St. Louis 20, Missouri, or the finance officers in oversea commands; that if found eligible, information relative to payment may be expected from the disbursing officer as early as practicable; and that no action on his or her part to secure payment is necessary.

(b) Vouchers will not be furnished to a supposed beneficiary by anyone other than the Finance Officer, U. S. Army, St. Louis, except that in oversea commands such vouchers may be furnished by the disbursing officer authorized to make payment of the gratuity.

4. Rescind §§ 111.4 to 111.7, inclusive, and substitute the following:

§ 111.4 *Effects*—(a) *Disposition of effects.* (1) Action will be taken in accordance with instructions contained in War Department directives upon the death of any person subject to military law as shown in the second article of war who dies within the continental limits of the United States, excluding Alaska.

(2) Upon the death of any person subject to military law as defined in the 2d Article of War who dies or is reported as "missing persons" outside the continental limits of the United States, including Alaska, disposition of his effects will be in accordance with the provisions of Army regulations.

(b) *When death occurs on board a transport.* (1) The effects of persons who die aboard a transport will be secured and listed and each lot will be securely boxed and crated. Three copies of the list will be prepared. One copy of the list will be inclosed with the effects in the container and one securely pasted on the outside of the container. The effects will then be turned over to the transportation agent for safekeeping and for delivery to the port transportation officer at a port in the United States for disposition in the manner prescribed in the 112th Article of War.

(2) When part of the effects are stored in the hold of the transport, or when it is impracticable for any reason to secure all the effects, the effects accessible will be secured and listed and turned over to the transportation agent, who will, upon the arrival of the transport at a port of embarkation or debarkation, secure and list all the effects, prepare the list in triplicate, and take the action indicated in subparagraph (1) of this paragraph. The receipts for the effects will be obtained by the transportation agent from the port transportation officer and filed with the record of the transport.

(3) The transportation officer in the United States will dispose of the effects in the manner provided in the 112th Article of War, prepare the inventory in triplicate, and forward the original and first carbon thereof with the final report direct to The Adjutant General.

(c) *Clothing, Government property, not part of decedent's effects.* Issue clothing of deceased personnel, except authorized purchases, and other than necessary for burial, will be collected and turned in to the unit or other supply office with the individual equipment.

(d) *Care against loss of effects.* The greatest care will be exercised at all times against the loss of personal effects. Each package, box, or crate will be plainly marked "Effects deceased person" and will bear the full name, grade, serial number, and organization of the person to whom the effects belonged.

(e) *Effects of deceased civilian employees not subject to military law.* (1) Within continental limits of United States, excluding Alaska: The foregoing provisions of this section do not apply in the case of deceased civilian employees with the Army when they are not subject to military law. In such cases the officer under whom the decedent was serving or such representative of the service in which the decedent has been employed as said officer may designate, will secure the decedent's effects and deliver them to the legal heirs or their representatives. If the effects are not claimed within a reasonable period of time, said officer, or the person designated by him, will deliver the effects, with all available useful information concerning the decedent, to the person designated by the judicial officer of the local civil government having jurisdiction over the estates of deceased persons. In all cases receipts will be obtained and forwarded through chiefs of arms and services to The Adjutant General with complete report of action taken.

(2) Outside continental limits of United States, including Alaska: Outside the continental limits of the United States, including Alaska, local pertinent laws will be complied with.

(f) *Stocks, bonds, bank accounts, and other commercial paper not to be converted into cash.* (1) The disposal of the effects and cash belonging to the estates of persons dying while subject to military laws will be governed by the procedure set forth in the 112th Article of War.

(2) When delivery of the effects cannot be made to any of the persons named in that article of war and the effects are to be converted into cash, the summary court will not include in the sale of effects any stocks, bonds, bank accounts, or other forms of purely commercial paper, but will forward the same to The Adjutant General for transmission to the Soldiers' Home under the provisions of the act of Congress approved February 21, 1931 (46 Stat. 1203; 10 U. S. C. 1584a).

[AR 600–550, June 23, 1947] (R. S. 161; 5 U. S. C. 22)

TITLE 24—HOUSING CREDIT

Chapter VII—National Housing Agency

PART 751—ESTABLISHING THE GENERAL RESPONSIBILITIES AND ORGANIZATION OF THE OFFICE OF THE ADMINISTRATOR, NATIONAL HOUSING AGENCY, INCLUDING DELEGATIONS OF FINAL AUTHORITY

DELEGATION OF AUTHORITY TO FEDERAL PUBLIC HOUSING COMMISSIONER TO TERMINATE OR DISPOSE OF HOUSING DEVELOPED UNDER THE HOMES CONVERSION PROGRAM

§ 751.36 *Delegation to Federal Public Housing Commissioner and to his designees.* (a) The Federal Public Housing Commissioner, and such subordinates as may be designated by him, each are hereby authorized to terminate or dispose of conversion leases on properties developed under the Homes Conversion Program, and to execute the legal instruments necessary thereto.

The Homes Conversion Program includes all properties leased by the Federal Government under authority of the Lanham Act (54 Stat. 1125, as amended, 42 U. S. C. Sup. 1521) and converted into dwelling units by the Home Owners' Loan Corporation, responsibility for the management supervision of which was transferred to the Federal Public Housing Authority on August 1, 1944. It does not include properties converted independently by the FPHA prior to the transfer of this program from the HOLC to the FPHA, which properties are included under the Public War Housing Program (Lanham-constructed).

(b) Nothing in this section shall be construed as obligating the Commissioner or his designees to dispose of such properties prior to the expiration of the lease term, except that the interest of the Federal Government in such properties shall be disposed of as expeditiously as possible consistent with the protection of the investment of the Federal Government in such leases.

(c) Restrictions on eligibility established prior to this date are hereby removed, and in accordance with NHA Regulation 60–5G (Part 703, § 703.3 [1]) eligibility for vacancies shall be determined by the Federal Public Housing Commissioner: *Provided, however,* That no family other than a distressed family of a veteran or serviceman shall be admitted when a vacancy occurs if there is a qualified distressed family of a veteran or serviceman available to occupy the vacant accommodations.

(d) Present tenants in Homes Conversion Program properties, managed by the FPHA, shall not be evicted except for violation of the terms of their tenancy.

When the FPHA terminates a Homes Conversion Program lease, the terms of the agreement with the owner shall provide that the termination is subject to the rights of existing tenancies.

(e) This delegation shall be effective immediately and supersedes NHA General Order 30–9B.[2]

Redesignation of § 751.14. Part 751, § 751.14 [3] is hereby redesignated § 751.37. (54 Stat. 1125, as amended, sec. 1, 55 Stat. 838; 42 U. S. C. Sup. 1521, 50 U. S. C. App., Sup. 601, E. O. 9070, Feb. 24, 1942, 3 CFR Cum. Supp.)

Issued this 18th day of July 1947.

Chapter VIII—Office of International Trade, Department of Commerce

Subchapter B—Export Control

[Amdt. 340]

PART 802—GENERAL LICENSES

GIFT PARCELS

Section 802.29 *General license for gift parcels* is hereby amended to read as follows:

§ 802.29 *General license for gift parcels*—(a) *General license.* There is hereby granted a general license authorizing the exportation of gift parcels, as defined in paragraph (b) of this section, to all destinations to which parcel post service is available; *Provided,* That such exportation is in accordance with the following provisions of this section.

(b) *Definition.* For the purpose of this general license, a gift parcel is defined as a parcel containing commodities donated free of cost to an individual in a foreign country for the personal use of such individual or his immediate family. Exportations under this general license are confined to parcels mailed by parcel post to an individual and shall conform to Post Office Department regulations as to size and weight.

(c) *General license designation.* The legend "gift parcel" shall be plainly written on the address side of the parcel and on any Customs declaration required by the Bureau of Customs. The inscription of the legend "gift parcel" on the parcel shall constitute a certification by the donor that the shipment complies with the provisions of this general license.

(d) *Destinations*—(1) *Shipments to destinations other than Germany and Japan.* Gift parcels may be sent to individuals in all destinations to which parcel post service is available, except Germany and Japan, in accordance with the following provisions:

(i) The combined total domestic retail value of all soap, butter and other edible fats and oils included in each gift parcel shall not exceed $5; and the combined total domestic retail value of al, streptomycin, quinine sulfate, and quinine hydrochloride included in each gift parcel shall not exceed $5.

(ii) Not more than one gift parcel may be sent by the same donor to the same donee in any one calendar week.

(2) *Shipments to Germany and Japan.* Gift parcels may be sent to persons in all of the occupied zones of Germany including Berlin and to persons located in the islands of Honshu, Kyushu, Shikoku, or Hokkaido in occupied Japan in accordance with the following provisions:

(i) No gift parcel shall contain commodities other than clothing, nonperishable foodstuffs, medicinals and vitamins, soaps and shaving creams.

(ii) The combined total domestic retail value of all soap, butter and other edible fats and oils included in each gift parcel shall not exceed $5; and the combined total domestic retail value of all streptomycin, quinine sulfate, and quinine hydrochloride included in each gift parcel shall not exceed $5.

(iii) Not more than one gift parcel may be sent from the same donor to the same donee in any one calendar week. (Sec. 6, 54 Stat. 714, 55 Stat. 206, 56 Stat. 463, 58 Stat. 671, 59 Stat. 270, 60 Stat. 215, Pub. Law 145, 80th Cong.; 50 U. S. C. App. & Sup. 701, 702; E. O. 9630, September 27, 1945, 10 F. PART 3293—CHEMICALS

CINCHONA BARK AND CINCHONA ALKALOIDS

Section 3293.131 *Conservation Order M–131* is amended by inserting the following at the beginning of paragraph (c):

Nothing contained in this order shall apply, after July 15, 1947, to any cinchona bark, quinine, or quinidine not held by any Government agency, not acquired, prior to, on, or after July 15, 1947, from any Government agency (either directly or through intermediate distributors, processors, or other channels of distribution), or not made from any of such materials so acquired. Persons buying cinchona bark, quinine, or quinidine after July 15, 1947, for acceptance, delivery, or use without authorization under this order should first satisfy themselves, in some reasonable manner, that the material is within the exception stated in the preceding sentence. They may, but need not, require a statement in writing as to the source of the material.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Bureau of Entomology and Plant Quarantine

[7 CFR, Part 322]

IMPORTATION OF ADULT HONEYBEES INTO THE UNITED STATES

NOTICE OF PROPOSED RULE MAKING

Consideration is being given to the revocation of regulation 4 (7 CFR 322.4) of the regulations issued May 12, 1923, by the Secretary of the Treasury and the Secretary of Agriculture, under the authority contained in section 1 of the act of August 31, 1922 (42 Stat. 833; 7 U. S. C. 281 et seq.), regulating the importation of adult honeybees into the United States, and the special rules (7 CFR 322.7–322.10, inclusive), issued by the Secretary of Agriculture June 19, 1923, relating thereto.

The proposed revocation of the above-mentioned regulation and rules is based upon the increased danger of the introduction into the United States of the so-called Isle of Wight or acarine disease, caused by the parasitic mite, Acarapis woodi, which infests adult honeybees in foreign countries and which has greatly increased in such countries during the recent war.

There are no positive symptoms of this disease, and the only method of determining its presence is through dissection and microscopic examination of the bee, which entails its destruction. The present regulations and rules are inadequate to safeguard against the introduction of the disease.

The introduction of such disease into the United States might well endanger the American beekeeping industry with attendant dangers to American agriculture in view of the increased dependence now placed on the honeybee in the pollination of legume and other important seed crops.

Importation of adult honeybees into the United States for experimental or scientific purposes by the United States Department of Agriculture, as provided in the above-mentioned act, will not be affected by the proposed revocation.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid consideration shall file the same with the Chief of the Bureau of Entomology and Plant Quarantine, Agricultural Research Administration, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 15th day after the publication of this notice in the FEDERAL REGISTER. All documents should be filed in quadruplicate.

(42 Stat. 833; 7 U. S. C. 281 et seq.)

Issued this 14th day of July 1947.

Acting Secretary of Agriculture.

CIVIL AERONAUTICS BOARD

[14 CFR, Part 241]

TERMS, CONDITIONS AND LIMITATIONS ATTACHED TO FOREIGN AIR CARRIER PERMITS, AND FILING AND SERVICE OF NOTICES REQUIRED THEREBY

NOTICE OF PROPOSED REVISION OF REGULATIONS

JULY 8, 1947.

The Civil Aeronautics Board has under consideration the proposed addition of §§ 241.2 and 241.3 to its Economic Regulations. The proposed § 241.2 sets forth the terms, conditions and limitations to be attached to all permits issued by the Board authorizing foreign air carriers to engage in foreign air transportation as defined in the act. The proposed § 241.3 sets forth the requirements as to filing and service of notices which foreign air carriers would be required to give under the proposed § 241.2. It has been the practice to date to specify in the order authorizing the issuance of a foreign air carrier permit that the permit shall be subject to the terms, conditions, and limitations prescribed by § 238.4 of the Economic Regulations. Section 238.4, however, relates primarily to the certificated United States air carriers engaging in foreign air transportation, and contains material which is inappropriate for foreign air carriers. The proposed regulations are designed to prescribe terms, conditions and limitations for foreign air carriers' permits only.

The statutory authority for these proposed regulations is sections 402 (f) and 205 (a) of the Civil Aeronautics Act, as amended. (52 Stat. 932, 984, as amended; 49 U. S. C. 482, 425.)

Consideration will be given to written comments on the proposed regulations which are received by the Secretary, Civil Aeronautics Board, Washington 25, D. C., not later than September 1, 1947.

1. Proposed addition of § 241.2 to the Economic Regulations is as follows:

§ 241.2 *Terms, conditions, and limitations attached to foreign air carrier permits*—(a) *Applicability.* Unless the order authorizing the issuance of a particular permit shall otherwise provide, there shall be attached to each permit authorizing a foreign air carrier to engage in foreign air transportation issued pursuant to section 402 of the Civil Aeronautics Acts of 1938, as amended, the terms, conditions, and limitations hereinafter set forth, and such other terms, conditions, and limitations as may from time to time be prescribed by the Board and approved by the President of the United States.

(b) *Airport authorization.* If at any time the holder of a permit desires to serve regularly a point in the United States named in the permit through an airport not then regularly used by the holder, the holder shall file with the Board written notice of its intention so to do. Such notice shall be filed at least 30 days prior to inaugurating the use of such airport. Such notice shall be conspicuously entitled "Airport Notice by Foreign Air Carrier," shall clearly describe such airport and its location, and shall state the reasons why the holder deems the use of such airport to be desirable. At the time such notice is filed with the Board a copy thereof shall be served by the holder upon such persons as the Board may require. The use of such airport may be inaugurated upon the expiration of 30 days after the filing of such notice, unless the Board notifies the holder within said 30-day period that it appears to the Board that such use may adversely affect the public interest, in which event such use shall not thereafter be inaugurated (except as may be expressly permitted by such notification) unless and until the Board finds, upon application filed by the holder that the public interest would not be adversely affected by such use. The Board may permit the use of an airport at any time after the filing of the "Airport Notice by Foreign Air Carrier" whenever the circumstances warrant such action.

(c) *Revocation of permit.* It shall be a condition upon the holding of a permit that any of the following contingencies occurring while the permit is in effect may, after notice and hearing, be deemed sufficient cause for cancellation or revocation of the permit within the meaning of section 402 (g) of the act:

(1) Any intentional contravention in fact by the holder of any of the applicable provisions of Title IV or VI of the act or of the orders, rules, or regulations issued thereunder;

(2) Any intentional contravention in fact by the holder of any of the terms, conditions, or limitations contained in the permit, or contained in any international treaty, convention, or agreement to which the permit is declared by its terms to be subject;

(3) The failure of the holder to be substantially owned and effectively controlled in the manner described in any treaty, convention, or agreement affecting international air transportation then in effect between the United States and the country of which the holder is a national.

(d) *Requirements of other laws and regulations.* Nothing contained in this section, and no permission or authorization granted by the Board pursuant to this section, shall be deemed to relieve a holder from any requirements of, or obligations imposed by, laws or regulations of the United States or of any political subdivision thereof, including but not limited to laws and regulations relative to entry, clearance, immigration, passports, customs, and quarantine. (52 Stat. 992, 934, as amended; 49 U. S. C. 482, 425)

2. Proposed addition of § 241.3 to the Economic Regulations is as follows:

§ 241.3 *Filing and service of notices required by terms, conditions, and limitations attached to foreign air carrier permits*—(a) *Persons upon whom papers shall be served.* A copy of each "Airport Notice by Foreign Air Carrier", filed with the Board pursuant to § 241.2 of the Economic Regulations by the holder of a foreign air carrier permit, shall be served upon the following:

(1) The Secretary of State of the United States, marked for the attention of the Chief, Aviation Division;

(2) The Secretary of the Treasury of the United States marked for the attention of the Commissioner of Customs;

(3) The Attorney General of the United States, marked for the attention of the Commissioner of Immigration and Naturalization;

(4) The Postmaster General of the United States, marked for the attention of the Second Assistant Postmaster General;

(5) The Secretary of Agriculture of the United States, marked for the attention of the Chief, Division of Foreign Plant Quarantine;

(6) The Surgeon General of the Public Health Service of the United States, marked for the attention of the Chief, Foreign Quarantine Division;

(7) The chief executive of the municipality intended to be served through the proposed airport; and

(8) Such other persons as the Board may specifically designate in a particular case.

(b) *Manner of filing and serving papers.* Service of a copy of a notice upon any person pursuant to this section may be made by personal service, by registered mail addressed to such person, or by other safe and expeditious means. Whenever service is made by registered mail, posted from a point within the continental United States, the date of mailing shall be considered as the time when service is made, otherwise, the date of receipt by the party upon whom service is made shall be deemed the date of service. Each copy of a notice served pursuant to this section shall be accompanied by a letter of transmittal stating that such service is being made pursuant to §§ 241.2 and 241.3 of the Economic Regulations of the Civil Aeronautics Board. An executed original and nine copies of each such notice shall be filed with the Board, and each such copy shall be accompanied by a statement to the effect that the foreign air carrier has served a copy thereof upon each such person required to be served hereunder. Such statement shall include the names and addresses of the persons upon whom a copy of such notice was served.

(52 Stat. 992, 984, as amended; 49 U. S. C. 482, 425)

SECURITIES AND EXCHANGE COMMISSION

[17 CFR, Part 270]

BONDING OF OFFICERS AND EMPLOYEES OF REGISTERED MANAGEMENT INVESTMENT COMPANIES; CUSTODY OF SECURITIES MAINTAINED BY MANAGEMENT COMPANY

NOTICE OF PROPOSALS WITH RESPECT TO ADOPTION AND REVISION OF RULES

Notice is hereby given that the Securities and Exchange Commission has under consideration the adoption of § 270.17g–1 (Rule N-17G–1) which relates to the bonding of officers and employees of management investment companies registered under the Investment Company Act of 1940 and the revision of the existing § 270.17f–2 (Rule N-17F–2) relating to the manner in which registered management investment companies may maintain portfolio securities and similar investments in their own custody.

The proposed bonding rule is intended to implement the provisions of section 17 (g) of the act. It should be noted that the rule permits management to determine initially the amount of any required bond with the proviso that the Commission may, after appropriate notice and opportunity for hearing, fix the minimum reasonable amount including the type, form and coverage of any such bond.

The purpose of the proposed revision of the custody rule is to permit the maintenance by registered management companies of securities and similar investments in their own custody under a safekeeping arrangement, subject to the same safeguards as in the case of a deposit in a vault or other depositary, with a bank or other company subject to supervision by State or Federal authority. The revision would also make clear that securities and similar investments deposited with a bank or other company, whether in a vault or for safekeeping, under an arrangement which permits the withdrawal of such securities and investments by directors, officers or employees, upon mere receipt, are deemed to be in the custody of the registered company.

The Director of the Corporation Finance Division of the Commission has previously circulated for comment earlier drafts of the proposed new bonding rule and revision of the existing custody rule. As a result of comment received by him, the proposals have been modified to incorporate certain suggested changes. Thus, for example, it is proposed that paragraph (9) of the existing Rule N-17F–2 be deleted so as to permit registration or recording of the securities held by a management investment company in the name of a nominee.

§ 270.17g–1 *Bonding of officers and employees of registered management investment companies.* (a) Each registered management investment company shall provide and maintain a bond issued by a fidelity insurance company, authorized to do business in the place where the bond is issued, against larceny and embezzlement, as defined in section 37 of the act, covering each officer and employee of the registered company, who may singly, or jointly with others, have access to securities or funds of the company, either directly or through authority to draw upon such funds or to direct generally the disposition of such securities. Such bond may be in the form of an individual bond for each such person, or a schedule or blanket bond covering all such persons.

(b) Each such bond shall be in such reasonable amount as a majority of the board of directors of such registered company who are not such officers or employees thereof, with due consideration to the value of the aggregate assets of such company, shall determine. Notwithstanding any such determination the Commission may in any case, by order after appropriate notice and opportunity for hearing, prescribe minimum reasonable amounts, including the type, form, and coverage, of a bond or bonds for each such officer and employee or each class of such officers and employees.

(c) One copy of the resolution of the board of directors of the company determining the amount, type, form and coverage of each such bond and one true copy thereof shall be filed with the Commission within ten days after the execution of each bond together with a statement by an officer of the company as to the period for which the premiums for such bond have been paid. Each company shall notify the Commission immediately upon cancellation or termination of each such bond unless contemporaneously with or prior to such cancellation or termination, a new bond or bonds have been provided and are effective.

§ 270.17f–2 *Custody of securities maintained by management company.* (a) Securities and similar investments of a registered management company, maintained by such company with a bank or other company under any arrangement whereunder the directors, officers, agents or employees of such registered management company may withdraw or are authorized to withdraw such securities and similar investments upon mere receipt, are deemed to be in the custody of such management company and may be so maintained upon compliance with the provisions of paragraph (b) of this section.

(b) The securities and similar investments of a registered management company may be maintained in the custody of such company upon the following conditions:

(1) Except as provided in subparagraph (2) of this paragraph, all such securities and similar investments shall be deposited in the safekeeping of, or in a vault or other depository maintained by, a bank or other company whose functions and physical facilities are supervised by Federal or State authority.

(2) The provisions of subparagraph (1) of this paragraph shall not apply to securities on loan which are collateralized to the extent of their full market value, or to securities hypothecated, pledged, or placed in escrow for the account of such registered company in connection with a loan or other transaction authorized by specific resolution of its board of directors, or to securities in transit in connection with a sale, an exchange pursuant to a plan of reorganization, recapitalization or otherwise, redemption, maturity or conversion, the exercise of warrants or rights, assents to changes in terms of the securities, or other transactions necessary in the ordinary routine relating to the management of securities.

(3) The securities and investments deposited pursuant to subparagraph (1) of this paragraph shall be physically segregated at all times from those of any other person.

(4) The securities and investments deposited pursuant to subparagraph (1) of this paragraph shall be withdrawn only in connection with transactions of the character described in subparagraph (2) of this paragraph.

(5) Except as otherwise authorized or permitted by law, no person shall be authorized or permitted to have access to the securities and investments deposited pursuant to subparagraph (1) of this paragraph except pursuant to resolution of the board of directors of such registered company. Each such resolution shall designate not more than five persons who shall be either officers or responsible employees of such company, and shall provide that access to such securities and investments shall be had only by two or more such persons jointly, at least one of whom shall be an officer, except that access to such securities and investments shall be permitted (i) to properly authorized officers and employees of the bank or other company in whose safekeeping the securities and investments are placed under a safekeeping arrangement for the purposes of such safekeeping agreement only and (ii) for the purpose of subparagraph (7) of this paragraph to the independent public accountant jointly with any two persons so designated or with such officer or employee of such bank or such other company.

(6) Each person designated pursuant to subparagraph (5) of this paragraph, when depositing in or withdrawing or ordering the withdrawal and delivery from the safekeeping of the bank or other company or from the depository securities and investments, shall sign a notation in respect of such deposit or withdrawal, or order to withdraw and deliver, which shall show (i) the date and time of the deposit or withdrawal, or order to withdraw and deliver, (ii) the name and amount of the securities and other investments deposited and withdrawn or to be withdrawn and delivered, and an identification thereof by certificate numbers or otherwise, (iii) the manner of acquisition of securities and investments deposited or the purpose for which securities and investments have been withdrawn, or to be withdrawn and delivered, and (iv) if the securities are to be withdrawn and delivered to another person the name of such person. Such notation shall be transmitted promptly to an officer or director of the registered company designated by its board of directors who shall not be a person designated for the purpose of subparagraph (5) of this paragraph. Such notation shall be on forms serially numbered, and shall be preserved for at least one year.

(7) Such securities and investments shall be verified by complete examination by an independent public accountant retained by such registered company or by receipt of a confirmation from such bank or such other company at least three times during the fiscal year, at least two of which shall be chosen by such accountant without prior notice to such company. A certificate of such accountant, stating that he has made an examination of such securities and investments and describing the nature and extent of the examination or that he has received a confirmation from such bank or such other company and accompanied by a copy of such confirmation, shall be transmitted to the Commission promptly after each such examination.

(8) Such securities and investments shall at all times be subject to inspection by the Commission through its authorized employees or agents accompanied, unless otherwise directed by order of the Commission, by one or more of the persons designated pursuant to subparagraph (5) of this paragraph.

All interested persons may submit data, views and comment in writing to the Securities and Exchange Commission at its main office, 18th and Locust Streets, Philadelphia 3, Pennsylvania on or before August 10, 1947.

[Docket No. 8465]

MACKAY RADIO AND TELEGRAPH CO.

ORDER PROVIDING OPPORTUNITY FOR ORAL ARGUMENT

In the matter of Mackay Radio and Telegraph Company, Docket No. 8465, File Nos. T1–SA–680, T1–SA–658, T1–SA–659, and T1–SA–657. Applications for special temporary authorizations to communicate with Helsinki, Finland; Lisbon, Portgual; Paramaribo, Surinam; and The Hague, Netherlands.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 11th day of July 1947;

The Commission, having under consideration its order of June 14, 1947, denying the subject applications, and also having under consideration a petition filed by Mackay Radio and Telegraph Company, on July 7, 1947, as supplemented by letter dated July 9, 1947, requesting that the Commission reconsider its action of June 14, 1947, denying the subject applications, and grant the applications without hearing, or in the alternative, that the Commission afford the petitioner an opportunity to be heard through oral argument on August 7, 1947, at the same time and place as is now designated for the oral argument in Dockets Nos. 7094 and 7412; and

It appearing, that the disposition of the petition for reconsideration, insofar as it seeks a grant of the subject applications without a hearing, should be deferred until petitioner has had an opportunity to present oral argument;

It is ordered, That leave be granted to the petitioner to be heard in this matter through oral argument on August 8, 1947, following the oral argument now scheduled in Dockets Nos. 7094 and 7412;

It is further ordered, That leave is hereby granted to all other United States carriers engaged in international telegraph communications also to present oral argument with respect to the matters raised by the aforementioned petition.

By the Commission.

[No. 29785]

SOUTHERN RAILROADS

INCREASED PASSENGER FARES

JULY 11, 1947.

By petition dated July 3, 1947, the common carriers operating in the south, listed in the appendix hereto (including those parts of the lines of the Louisville and Nashville Railroad Company, Gulf, Mobile and Ohio Railroad Company, and Southern Railway Company east and south of and including St. Louis, Mo.) request this Commission to authorize petitioners to increase between stations on their lines their interstate basic one-way passenger fares in parlor or sleeping cars by 6.06 percent or to approximately 3.5 cents per mile, with a minimum one-way fare of 15 cents, and to increase such fares between stations on their lines and stations on connecting lines sufficiently to reflect the proposed increases on their lines.

Petitioners state that if authority is granted to increase the basic one-way fares as sought in the petition, it is the intention of petitioners to increase their round-trip fares in parlor or sleeping cars to the following basis: 180 percent of the one-way fares (approximately 3.15 cents per mile in each direction) adding when necessary to make the resulting fare end in "0" or "5".

The Commission is further asked to modify its order of February 28, 1936, in No. 26550, *Passenger Fares and Surcharges*, 214 I. C. C. 174, as subsequently modified, sufficiently to permit the establishment and maintenance of the proposed increased fares on interstate traffic. Petitioners Louisville and Nashville Railroad Company, Gulf, Mobile and Ohio Railroad Company, and Southern Railway Company further ask the Commission to modify its order of November 13, 1920, in No. 11703, *Intrastate Rates within Illinois*, 59 I. C. C. 350, as subsequently modified sufficiently to permit the establishment and maintenance of like increased intrastate fares within Illinois on those portions of the lines of said petitioners above referred to.

The Commission is further asked to grant such fourth-section relief as may be necessary to permit the establishment and maintenance of such increased fares, and to permit such establishment on five days' notice, without suspension, by simple forms of tariff publication.

The petition above described has been docketed as No. 29785, Increased Passenger Fares—Southern Railroads, and is assigned for public hearing before Commissioner John L. Rogers and Examiner Burton Fuller on August 26, 1947, 9:30 o'clock a. m. United States Standard time (or 9:30 o'clock a. m., Daylight Saving Time if that time is observed) at Atlanta Biltmore Hotel, Atlanta, Georgia.

A copy of this notice has, on the date hereof, been sent by regular mail to the said petitioners, the Governors and the rate regulatory authorities of the States traversed by petitioners, and at the same time copies have also been posted in the office of the Secretary of the Commission at Washington, D. C., and filed with the Director, Division of Federal Register, Washington, D. C.

By the Commission.

W. P. BARTEL,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1509]

WILLIAM H. AND JOHN M. TAYLOR

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 11th day of July 1947

Notice is hereby given that an application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by William H. Taylor and John M. Taylor.

Notice is further given that any interested person may, not later than July 29, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, raised by the said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said application, which is on file in the office of the Commission, for a statement of the transactions therein contained and proposed, which are summarized below:

William H. Taylor and John M. Taylor have requested approval of the acquisition by each of them of the capital stock of Allied Gas Company ("Allied"), distributable to them pursuant to the terms of the section 11 (e) plan of dissolution of Great Lakes Utilities Company ("Great Lakes"), formerly a registered holding company, which plan was approved by this Commission and the District Court of the United States for the Eastern District of Pennsylvania on March 19, 1947, and March 25, 1947, respectively. Allied is a public utility company and just prior to the dissolution of Great Lakes, was Great Lakes only remaining subsidiary. The aforementioned section 11 (e) plan of Great Lakes provides, among other things, that Great Lakes will distribute all of the outstanding capital stock of Allied, consisting of 10,052 shares of such stock with a par value of $10 per share, to the holders of the outstanding Voting Trust Certificates for common stock of Great Lakes, in exchange for such Voting Trust Certificates on the basis of one share of the common stock of Allied for each 15 shares of common stock of Great Lakes.

Allied, an Illinois corporation, distributes propane-air gas to approximately 1,507 customers in its Paxton Division, which serves the communities of Paxton, Gibson City and Rantoul, Illinois, and distributes manufactured gas to approximately 1,253 customers in Rochelle, Illinois.

The filing indicates that the applicants, William H. Taylor and John M. Taylor, own both direct and indirect interests in Voting Trust Certificates for common stock of Great Lakes. Their direct interest consists of Certificates for 50,286 and 1,095 shares, respectively, of a total of 150,780 shares of common stock of Great Lakes formerly outstanding. Their indirect interest is derived through Taylor Fibre Company which owns Certificates for 19,826 shares of common stock of Great Lakes or about 13% of the total number of shares of such stock formerly outstanding. According to the filing William H. Taylor and John M. Taylor own, respectively, 1,887 and 1,770 shares or 27.4% and 25.7%, respectively, of a total of 6,886 shares presently outstanding of the capital stock of Taylor Fibre Company.

The filing further indicates that Taylor Fibre Company, a Pennsylvania corporation which is not registered as a holding company, is primarily engaged in the manufacture and sale of fibre, fibrous materials, bakelite and bakelite materials, and that it also owns and operates farm lands, orchards and real estate, and sells, buys, invests and reinvests its surplus funds in stocks and other securities. In addition, the filing indicates that Taylor Fibre Company does not directly or indirectly own, control or hold with power to vote as much as five percent of the outstanding voting securities of any public utility company or public utility holding company other than Great Lakes and Allied.

By the Commission.

Secretary.

COMMONWEALTH & SOUTHERN CORP. (DELAWARE) AND ALABAMA POWER CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 11th day of July 1947.

The Commonwealth & Southern Corporation ("Commonwealth"), a registered holding company and Alabama Power Company ("Alabama Power"), a public utility company and a subsidiary of Commonwealth, having filed a declaration pursuant to the Public Utility Holding Company Act of 1935 and the rules thereunder regarding the proposed sale by Alabama Power to Phenix Natural Gas Company, the assignee of a contract between Alabama Power and George H. Stubbs, Jr., an investment banker of Birmingham, Alabama, of all of Alabama Power's gas properties, comprising the natural gas distribution system serving the City of Phenix City, Alabama, and adjacent territoy, exclusive of automotive equipment, office furniture or equipment, warehouse or warehouse equipment, and materials and supplies, for a base cash consideration of $271,156 plus the cost per books of all additions between December 31, 1946 and the date of transfer, subject to closing adjustments; and

Said declaration having been filed on June 5, 1947, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

Commonwealth and Alabama Power having requested that the effective date of the declaration be accelerated; and

The Commission observing no basis for adverse findings under section 12 (d) of the act and Rule U-44 thereunder with respect to the proposed sale and deeming it appropriate in the public interest and in the interest of investors and consumers to permit said declaration to become effective, and the Commission also deeming it appropriate that the request for acceleration of the effective date of said declaration be granted;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act and subject to the terms and conditions prescribed in Rule U-24, that said declaration be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

PACIFIC POWER & LIGHT CO. AND AMERICAN POWER & LIGHT CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regulation session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 11th day of July A. D. 1947.

American Power & Light Company ("American"), a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, and Pacific Power & Light Company ("Pacific"), an electric utility subsidiary of American, having filed a joint application-declaration, and amendments thereto, pursuant to sections 6 (a), 7, 9 (a), 10 and 12 of the Public Utility Holding Company Act of 1935 and Rules U-42, U-43, and U-50 thereunder regarding the following proposed transactions:

Pacific proposes (a) to issue $29,000,000 principal amount of First Mortgage Bonds, --% Series due 1977, of which $26,900,000 principal amount will be sold pursuant to the competitive bidding requirements of Rule U-50 and $2,100,000 principal amount will be exchanged for a like principal amount of Northwestern Electric Company 4½% Debentures due 1959, owned by American and assumed by Pacific; and (b) to issue and sell at private sale $4,000,000 principal amount of 2% ten-year Serial Notes payable in twenty equal semi-annual installments.

The proceeds from the sale of the securities described above will be applied (a) to the redemption of $20,500,000 principal amount of Pacific's outstanding First Mortgage and Prior Lien Gold Bonds, 5% Series due 1955, at 101½% of the principal amount thereof plus ac-

crued interest; (b) to the payment of the balance due on Pacific's 6% note, due November 25, 1940, in the amount of $1,794,500; (c) to the redemption of $6,700,000 principal amount of Northwestern Electric Company First Mortgage Bonds, 4% Series due 1969, assumed by Pacific, at 104% of the principal amount thereof plus accrued interest; and (d) the balance will be used in connection with Pacific's construction program.

Said joint application-declaration having filed on June 18, 1947, and the last amendment thereto on July 8, 1947, and notice of filing thereof having been given in the manner and form prescribed by Rule U-23 promulgated under said act, and the Commission not having received a request for a hearing within the time specified in said notice, or otherwise, and not having ordered a hearing with respect to said joint application-declaration, as amended; and

American and Pacific having requested that the Commission's order with respect to said joint application-declaration, as amended, issue at the earliest date possible and become effective upon issuance, and the Commission deeming it appropriate to grant such request; and

The Commission finding with respect to said joint application-declaration, as amended, that the requirements of the applicable provisions of the act and the rules and regulations thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application-declaration, as amended, be permitted to become effective forthwith subject to certain reservations of jurisdiction:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Public Utility Holding Company Act of 1935 that said joint application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and subject to the further condition, to which the applicants-declarants have expressly assented, that the proposed sale of bonds by Pacific shall not be consummated until the results of competitive bidding have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record as so completed, which order shall contain such further terms and conditions, if any, as may then be deemed appropriate, jurisdiction being reserved for the imposition thereof;

It is further ordered, That jurisdiction be, and the same hereby is, reserved over the payment of all counsel fees and expenses in connection with the proposed transactions, including the fees and expenses of counsel for the successful bidder.

By the Commission.

PACIFIC POWER & LIGHT CO. AND AMERICAN POWER & LIGHT CO.

SUPPLEMENTAL ORDER SHORTENING PERIOD OF TIME FOR BIDS

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 14th day of July A. D. 1947.

The Commission having, on July 11, 1947, issued its order granting and permitting to become effective, subject to certain conditions, a joint application-declaration, as amended, filed pursuant to the Public Utility Holding Company Act of 1935, by American Power & Light Company ("American"), a registered holding company, and its electric utility subsidiary, Pacific Power & Light Company ("Pacific"), regarding, among other things, the issuance by Pacific of $29,000,000 principal amount of First Mortgage Bonds, --% Series due 1977, of which $26,900,000 principal amount will be sold pursuant to the competitive bidding requirements of Rule U-50; and

American and Pacific having, on July 14, 1947, requested that the ten day period for publicly inviting bids as provided in Rule U-50 be shortened so that bids may be opened on July 22, 1947 and the Commission having considered such request and deeming it appropriate that it be granted:

It is ordered, That the ten day period for the public invitation of bids for the bonds proposed to be sold by Pacific, prescribed by Rule U-50, be, and the same hereby is, shortened to permit the opening of bids on July 22, 1947.

By the Commission.

ATLANTIC CITY ELECTRIC CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 11th day of July A. D. 1947.

Atlantic City Electric Company ("Atlantic City"), an electric utility subsidiary of American Gas and Electric Company ("American Gas"), a registered holding company, having filed an application-declaration and amendments thereto pursuant to sections 6, 7 and 12 (c) of the Public Utility Holding Company Act of 1935 and Rule U-42 thereunder with respect to the following transactions:

Atlantic City has entered into a credit agreement whereby the banks named below will make loans to Atlantic City in the aggregate amounts shown below during the period from the effective date of said agreement to September 1, 1950. Of the aggregate amount of $3,600,000 which the banks are obligated to lend, $2,000,000 will be borrowed and notes will be issued therefor, within 10 days after the effective date of the agreement in the amounts shown below. The remaining $1,600,000 may be borrowed as needed and notes issued therefor subject to approval by the Board of Public Utility Commissioners of the State of New Jersey and this Commission.

Name of bank	Amount of commitment	Amount of maximum date loan
Guaranty Trust Co. of New York	$1,800,000	$1,[illegible]
Irving Trust Co.	1,800,000	1,[illegible]
Total	3,600,000	2,[illegible]

The proposed loans will be evidenced by promissory notes maturing December 31, 1950 and are to bear interest from their respective issue dates at the rate of 1½% per annum for the period from the effective date of the agreement to a date two years from such effective date, and at the rate of 1¾% per annum during the period commencing two years from the effective date to maturity. Atlantic City will pay to each bank a commitment fee of ¼ of 1% per annum until August 31, 1950 on the daily average unused amount which such bank is obligated to lend. Loans shall be made simultaneously from the banks on three days' notice, and may be prepaid on 10 days' notice, such loans and prepayments to be borne by or made ratably to both banks. Atlantic City may, on 10 days' notice to the banks, terminate or reduce pro-rata in the aggregate amount of $100,000 or multiples thereof, the obligations of the bank to make the loans provided for in the agreement.

Applicant-declarant states that from the proceeds of the immediate borrowing in the amount of $2,000,000 it will repay its outstanding 1½% note, due September 11, 1947, in the amount of $1,000,000. It is further stated that the balance of the proposed loans is necessary to provide funds to enable applicant-declarant to proceed with its construction program and that any plan for long-term financing will provide for payment of the then outstanding notes issued under the credit agreement.

The proposed transactions have been approved by the Board of Public Utility Commissioners of the State of New Jersey, the State in which Atlantic City was organized and is doing business.

The application-declaration having been filed on June 19, 1947 and amendments thereto having been filed on June 27, 1947 and July 9, 1947, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said application-declaration as amended within the period specified in said notice or otherwise and not having ordered a hearing thereon; and

The Commission finding with respect to the application-declaration as amended that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and that no adverse findings are necessary thereunder and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that the said application-declaration as amended be granted and permitted to become effective, and deeming it appropriate to grant the request of the applicant that the order become effective at the earliest date possible.

It is ordered, Pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that said application-declaration as amended, be, and the same hereby is, granted and permitted to become effective forthwith.

By the Commission.

ARKANSAS POWER & LIGHT CO.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 11th day of July A. D. 1947.

Arkansas Power & Light Company ("Arkansas"), a utility subsidiary of Electric Power & Light Corporation, a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, having filed an application and amendment thereto pursuant to sections 6 (b) and 7 of the Public Utility Holding Company Act of 1935 and Rule U-50 of the rules and regulations promulgated thereunder with respect to the following transactions:

Arkansas proposes to issue and sell pursuant to the competitive bidding requirements of Rule U-50, $11,000,000 principal amount of First Mortgage Bonds --% Series, due 1977, to be issued under and secured by the company's presently existing Mortgage and Deed of Trust dated as of October 1, 1944, as supplemented by a First Supplemental Indenture to be dated as of July 1, 1947. The proceeds from the sale of the bonds will be applied as follows: (a) $4,000,000 will be retained by the Trustees pending withdrawal by Arkansas under the terms of the Mortgage and Deed of Trust dated October 1, 1944, as supplemented, on the basis of property additions; (b) $1,750,000 will be used to repay Arkansas' outstanding short-term note of like principal amount; and (c) the balance will be added to Arkansas' general cash funds to be used for construction of new facilities, extension and improvement of present facilities, and other corporate purposes.

Arkansas has requested that the ten-day period for inviting bids as provided in Rule U-50 be shortened so that bids may be opened on July 21, 1947.

The proposed transaction has been approved by the Public Service Commission of the State of Arkansas, the State in which Arkansas was organized and is doing business.

The application having been filed on June 19, 1947, and an amendment thereto having been filed on July 8, 1947, and notice of said filing, as amended, having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said application, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the application, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and that it is not necessary to impose any terms and conditions other than those set forth below, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that the said application, as amended, be granted and deeming it appropriate to grant the request of applicant that the order become effective at the earliest date possible:

It is ordered, Pursuant to said Rule U-23 and the applicable provisions of said act that said application, as amended, be, and the same hereby is, granted, effective forthwith, subject to the terms and conditions contained in Rule U-24, and subject to the following additional conditions, the imposition of which has been assented to by the company:

(1) That the proposed sale of bonds of Arkansas shall not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate.

(2) That jurisdiction be reserved with respect to all legal fees and expenses to be paid in connection with said application.

It is further ordered, That the ten day period for the reception of bids with respect to the bonds proposed to be sold, prescribed by Rule U-50, be, and the same hereby is shortened so that bids may be opened on July 21, 1947.

By the Commission.

DETROIT EDISON CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 11th day of July A. D. 1947.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") by The Detroit Edison Company ("Detroit Edison"), a utility subsidiary of American Light & Traction Company ("American Light"), a registered holding company, designating sections 6 (a) and 7 of the act and Rules U-20, U-21, U-22, U-23, U-24, U-42 (b) (2) and U-50 promulgated thereunder as applicable to the proposed transactions.

All interested parties are referred to the declaration which is on file in the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Detroit Edison proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $60,000,000 principal amount of --% General and Refunding Mortgage Bonds, Series I, dated as of October 1, 1924, bearing interest from September 1, 1947, and due September 1, 1982, and it is proposed that the interest rate on, and the price to be received for, said bonds are to be determined by the competitive bidding. It is stated that the proceeds received from the sale of the bonds will be used to redeem, at 105% of the principal amount, $30,000,000 principal amount of outstanding 4% General and Refunding Mortgage Bonds, Series F, the accrued interest on which will be paid out of other funds of the company, to pay notes payable to banks in a principal amount estimated to be $12,000,000 at the time of the sale of the Series I bonds, and to finance the current construction program of the company.

The declaration states that the issuance and sale of the bonds are subject to the jurisdiction of the Michigan Public Service Commission and that the requisite authorization from such Commission will be procured and proper evidence thereof supplied by amendment.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the matters set forth in said declaration, and that said declaration shall not be permitted to become effective except pursuant to the further order of this Commission;

It is ordered, That a hearing on the declaration pursuant to the applicable provisions of the act and the rules and regulations thereunder, be held on July 29, 1947, at 10:00 a. m., e. d. s. t., at the offices of this Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held.

Any persons desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of this Commission, on or before July 25, 1947, a written request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Allen MacCullen, or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing, and is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Public Utility Division of the Commission having advised the Commission that it has made a preliminary examination of the declaration and that, upon the basis thereof, the following matters and questions are presented for consid-

eration without prejudice to its specifying additional matters or questions upon further examination:

1. Whether the proposed issue and sale of bonds meet the requirements of section 6 (a) and 7 of the act;

2. Whether the indentures securing the bonds contain adequate protective provisions for the benefit of the security holders;

3. Whether the fees, commissions and other remuneration to be paid in connection with the proposed transactions are for necessary services and are reasonable in amount;

4. Whether the accounting treatment with respect to the proposed transactions is in conformity with sound accounting principles;

5. What terms or conditions should be prescribed with respect to the proposed transactions in the public interest or for the protection of investors or consumers.

It is further ordered, That the Secretary of the Commission shall serve a copy of this notice and order by registered mail on the declarant herein, The Detroit Edison Company, The Michigan Public Service Commission, and the City of Detroit, and that notice of said hearing shall be given all other persons by publication of this notice and order in the FEDERAL REGISTER, and by general release of this Commission which shall be distributed to the press.

By the Commission.

[Dissolution Order 62]

A. W. LOTZ, INC.

Whereas, by Vesting Order No. 4726, dated March 7, 1945 (10 F. R. 3566, April 3, 1945), there were vested all the issued and outstanding shares of the capital stock of A. W. Lotz, Inc., a New York corporation; and

Whereas, A. W. Lotz, Inc. has been substantially liquidated;

Now, under the authority of the Trading with the Enemy Act, as amended, and Executive Orders 9095, as amended, and 9788, and pursuant to law, the undersigned, after investigation:

1. Finding that the claims of all known creditors have been paid, except such claims, if any, as the Attorney General of the United States may have for monies advanced or services rendered to or on behalf of the corporation.

2. Having determined that it is in the national interest of the United States that said corporation be dissolved, and that its assets be distributed, and a Certificate of Dissolution having been issued by the Secretary of State of the State of New York;

hereby orders, that the officers and directors of A. W. Lotz, Inc. (to wit, Stanley B. Reid, President and Director, M. S. Watts, Vice-President, Robert Kramer, Secretary and Director, and Francis J. Carmody, Treasurer and Director and their successors, or any of them), continue the proceedings for the dissolution of A. W. Lotz, Inc.; and further orders, that the said officers and directors wind up the affairs of the corporation and distribute the assets thereof coming into their possession as follows:

(a) They shall first pay the current expenses and reasonable and necessary charges of winding up the affairs of said corporation and the dissolution thereof; and

(b) They shall then pay all known Federal, state and local taxes and fees owed by or accruing against the said corporation; and

(c) They shall then pay over, transfer, assign and deliver to the Attorney General of the United States all of the funds and property, if any, remaining in their hands after the payments as aforesaid, the same to be applied by him, first, in satisfaction of such claims, if any, as he may have for monies advanced or services rendered to or on behalf of the corporation, and second, as a liquidating distribution of assets to the Attorney General of the United States as holder of all the issued and outstanding stock of the corporation; and

further orders, that nothing herein set forth shall be construed as prejudicing the right under the Trading with the Enemy Act, as amended, of any person who may have a claim against said corporation to file such claim with the Attorney General of the United States against any funds or property received by the Attorney General of the United States hereunder; *Provided, however,* That nothing herein contained shall be construed as creating additional rights in such person; *Provided, further,* That any such claim against said corporation shall be filed with or presented to the Attorney General of the United States within the time and in the form and manner prescribed for such claims by the Trading with the Enemy Act, as amended, and applicable regulations and orders issued pursuant thereto; and further orders, that all actions taken and acts done by the said officers and directors of A. W. Lotz, Inc. pursuant to this order and the directions contained herein shall be deemed to have been taken and done in reliance on and pursuant to paragraph numbered (2) of subdivision (b) of section 5 of the Trading with the Enemy Act, as amended, and the acquittance and exculpation provided therein.

Executed at Washington, D. C., this 15th day of July 1947.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Division of the Federal Register, the National Archives, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

1946 SUPPLEMENT

to the

CODE OF FEDERAL REGULATIONS

The following books are now available:

Book 1: Titles 1 through 8, including, in Title 3, Presidential documents in full text with appropriate reference tables and index.

Book 2: Titles 9 through 20.

These books may be obtained from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., at $3.50 per copy.

A limited sales stock of the 1945 Supplement (4 books) is still available at $3 a book.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Lemon Regulation 231]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.338 *Lemon Regulation 231*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 53 (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., July 20, 1947, and ending at 12:01 a. m., P. s. t., July 27, 1947, is hereby fixed at 600 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said marketing agreement and order. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 17th day of July, 1947.

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.333 *Orange Regulation 187*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66 (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other

available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., July 20, 1947, and ending at 12:01 a. m., P. s. t., July 27, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* (a) Prorate District No. 1, unlimited movement; (b) Prorate District No. 2, 1,500 carloads; and (c) Prorate District No. 3, unlimited movement.

(ii) *Oranges other than Valencia oranges.* (a) Prorate Districts Nos. 1, 2, and 3, no movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 17th day of July 1947.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter IX—Transport

PART 903—TRANSPORTATION OF INDIVIDUALS

CHECKABLE PERSONAL BAGGAGE

Rescind paragraph (d) of § 903.7 and substitute the following:

§ 903.7 *Checkable personal baggage.* * * *

(d) *On transoceanic or Alaska voyages*—(1) *Allowance by the rail carriers and certain steamship lines.* Under the terms and conditions set forth in the Joint Military Passenger Agreement (W D Commercial Traffic Bulletin 6, of current year), with the rail carriers and certain steamship lines in the continental United States, exclusive of Alaska, a free allowance of 350 pounds of personal baggage on an adult ticket and 175 pounds on a child's half-fare ticket, of all classes, except special coach tickets, will be transported by the carriers parties to that agreement, for the following classes of traffic presenting tickets purchased for cash or issued in exchange for War Department transportation requests, when traveling in the United States on such tickets to or from ports en route to or from oversea points as indicated in subdivisions (i), (ii), (iii), of (iv) of this subparagraph, regardless of whether the passengers use Government or commercial facilities between such ports and oversea points:

(i) En route to or from trans-Pacific points via Atlantic or Gulf ports, or via Pacific ports: All military personnel; authorized dependents of military and civilian personnel for whom transportation is authorized by the War Department; civilian employees (including laborers) of the War Department; and employees of the American Red Cross transported at the expense of the War Department.

(ii) Ordered to or detached from duty at stations in Alaska when traveling to or from a Pacific port: Commissioned officers and warrant officers.

(iii) Ordered to or detached from duty at trans-Atlantic stations when traveling to or from an Atlantic port (see subdivision (vi) of this subparagraph. Commissioned officers and warrant officers.

(iv) En route to or from all points outside the continental limits of the United States not covered by subdivision (i) of this subparagraph, via Atlantic or Gulf ports, or en route to or from points in Alaska via Pacific, Atlantic, or Gulf ports (see subdivision (vi) of this subparagraph). Authorized dependents of military and civilian personnel for whom transportation is authorized by the War Department.

(v) Provisional reduction: The foregoing is based upon the commercial allowance in connection with trans-Pacific transportation, as prescribed in current tariffs, and if such allowance is hereafter reduced, the baggage allowance authorized above will be correspondingly reduced.

(vi) Expiration date of provisions covering free allowance via Atlantic or Gulf ports: Under the terms and conditions of the above-mentioned Joint Military Passenger Agreement, the provisions outlined in subdivisions (iii) and (iv) of this subparagraph covering free allowance via Atlantic or Gulf ports will expire 6 months after the termination of the war as officially proclaimed by the President or the Congress of the United States.

(2) *Allowance by bus carriers.* Under the terms and conditions set forth in the Joint Bus Military Agreement (W D Commercial Traffic Bulletin 6, of current year) with certain commercial bus carriers in the continental United States, exclusive of Alaska, the same amounts of personal baggage, for the same classes of traffic and under the same conditions as authorized by the rail carriers and set forth in subparagraph (1) of this paragraph, will be transported by the bus carriers parties to that agreement, and on all classes of trans-Atlantic or trans-Pacific traffic not included in subparagraph (1) of this paragraph, free allowance of 200 pounds of personal baggage will be allowed by the bus carriers on an adult ticket and 75 pounds on a child's half-fare ticket, as prescribed in current tariffs, and if such allowance is hereafter reduced, the baggage allowance authorized by the agreement will be correspondingly reduced.

(3) *Method of obtaining the free allowance.* In order to obtain the weight allowance of baggage authorized in subparagraphs (1) or (2) of this paragraph, outbound passengers will present to the baggage agent, at the time the baggage is offered for checking, a through ticket to the port of embarkation and a copy of travel orders or other official document issued by competent United States Government authority, under the authority of which the person is traveling, showing that the traveler is en route to the applicable points designated in subparagraphs (1) (i), (ii), (iii), or (iv) of this paragraph, as the case may be, by Government or commercial facilities beyond such port. Similarly, inbound passengers will present to the baggage agent, at the time the baggage is offered for checking, a through ticket from the port of entry to destination and a copy of travel orders or other official document issued by competent United States Government authority, under the authority of which the person is traveling, showing that the traveler has arrived by Government or commercial facilities en route from the applicable points designated in subparagraphs (1) (i), (ii), (iii), or (iv) of this paragraph, as the case may be.

(4) *Restrictions.* The foregoing provisions are subject to any restrictions of the War Department which may be currently applicable regarding personal property or equipment which may be taken to or from oversea points or Alaska. [AR 55-120, April 26, 1943, as amended by C 19, July 1, 1947]

TITLE 15—COMMERCE

Chapter I—Bureau of the Census, Department of Commerce

[Foreign Commerce Statistical Decision 63]

PART 30—FOREIGN TRADE STATISTICS

SHIPPER'S EXPORT DECLARATIONS CURRENTLY IN USE

Basic statutes require the filing of Shipper's Export Declarations for shipments of merchandise from the United States. The Foreign Commerce Statistical Decision below prescribes the general categories of shipments which are to be reported on the three export declaration forms currently in use. The requirements indicated are substantially in accord with established practice. As no additional burden is being imposed upon respondents, notice and public procedure within the meaning of section 4 of the Administrative Procedure Act (Pub. Law 404, 79th Cong.) are deemed unnecessary, and the decision is made effective immediately:

1. Paragraph (e) of § 30.7 is amended to read as follows:

§ 30.7 *Shipper's Export Declarations.*
* * *

(e) Shipper's Export Declarations may be purchased for a nominal price from Collectors of Customs, Department of Commerce Field Offices, and the Superintendent of Documents, Government Printing Office, Washington 25, D. C. Declarations may be printed by private parties provided they conform strictly to the official form in size, wording, color and arrangement, including the instructions printed on the reverse side and also the Budget Bureau Approval Number printed in the upper righthand corner on the face of the form.

2. Paragraphs (f), (g), and (h) are added to § 30.7 to read as follows:

(f) Commerce Form 7525-V (Shipper's Export Declaration) (yellow) is prescribed for use in declaring United States exports of domestic and foreign merchandise not provided for in paragraph (g) and (h) of this section.

(g) Commerce Form 7525 DA-V (Defense Aid Shipper's Export Declaration) (white) is prescribed for use in declaring United States exports of domestic and foreign merchandise shipped:

(1) Under the Lend-Lease Program.

(2) Under the U. N. R. R. A. Program.

(3) Under the program covering relief assistance to the people of countries devastated by war.

(4) Under the program to provide for assistance to Greece and Turkey.

(h) Commerce Form 7513 (Shipper's Export Declaration for In-Transit Goods) (pink) is prescribed for use in reporting in-transit shipments as defined in §§ 30.29 and 30.37. Commerce Form 7513 should also be used for in-transit shipments of merchandise made under programs enumerated in paragraph (g) of this section.

3. Foreign Commerce Statistical Decisions 31, 37, 38, 42, 45, 50, 53 and 55 are rescinded.[1]

TITLE 32—NATIONAL DEFENSE

Chapter VII—Sugar Rationing Administration, Department of Agriculture

[Sugar Rationing Administration Delegation Order 2,[2] Amdt. 1]

PART 705—ADMINISTRATION

Delegation Order 2 is amended in the following respects:

1. The title of Delegation Order 2 (§ 705.202) is amended to read as follows: *"Delegation of authority to sign and issue sugar rationing subpoenas and inspection orders."*

2. Paragraph (a) (1) is amended to read as follows:

(a) (1) In connection with any investigation related to the administration or enforcement of the allocation or rationing authority of the Secretary of Agriculture and the Administrator of the Sugar Rationing Administration under the Sugar Control Extension Act of 1947 with respect to sugar, or any regulation or order issued or continued in force and effect pursuant to that authority, the several Directors of the Field Offices of the Sugar Rationing Administration, Department of Agriculture are each authorized within their respective areas or localities to sign and issue: (i) subpoenas requiring any person to appear and testify, or to appear and produce books or records or any other documentary or physical evidence, or both; and (ii) inspection orders for the inspection of the books, records, and other writing, premises, and property of any person. However, any action taken with respect to such subpoenas and inspection orders by the several Regional Sugar Executives and Branch Office Directors within their respective regions or branches prior to the effective date hereof shall remain in full force and effect.

3. Paragraph (a) (2) is amended to read as follows:

(2) The authority conferred upon the several Directors of the Field Offices of the Sugar Rationing Administration, Department of Agriculture, by this paragraph (a) shall be exercised in conformity with the provisions of subparagraphs (3) and (4) of section 2 (a) of the act of June 28, 1940.

(54 Stat. 676, as amended by the act of May 31, 1941 (Public Law No. 89, 77th Cong.) and by Title III of the Second War Powers Act, 1942 (act of March 27, 1942, Public Law No. 507, 77th Cong.), as amended)

This amendment shall become effective July 9, 1947.

Chapter XXIII—War Assets Administration

[Reg. 2,[1] Order 12]

PART 8302—DISPOSAL OF SURPLUS PERSONAL PROPERTY TO PRIORITY CLAIMANTS

SURPLUS PROPERTY LOCATED ON THE ALEUTIAN ISLANDS

Application has been made to the Administrator by the disposal agency that surplus property located on the Aleutian Islands, because of remote geographical location, lack of transportation, and climatic conditions, should be disposed of immediately without prior offering to priority claimants.

The disposal agency has advised that since there are no regular airlines or shipping facilities between the Aleutian Islands and the Alaskan mainland, and since the distances involved are so great, that to offer this property first to priority claimants will make disposal impracticable and uneconomical in view of the short summer shipping season to the Aleutian Islands.

The disposal agency has further advised that the military services involved do not have personnel available to segregate, crate, move, or load on shipboard such property and that any offerings must be made on an "as-is, where-is" basis.

The disposal agency has further advised that the interest shown to date by priority claimants in surplus property located on the Aleutian Islands has been small and that to properly offer such surpluses to priority claimants will necessitate shipping such property from the Aleutian Islands to the mainland, which budgetary limitations preclude.

Accordingly, the War Assets Administrator finds that an exemption should be granted from the provisions of this part for any surplus property located on the Aleutian Islands on the ground that it is impracticable and uneconomical for the disposal agency to be required to dispose of surplus property according to the provisions of this part.

In view of all of the foregoing, it is hereby ordered that:

§ 8302.62 *Surplus property located on the Aleutian Islands.* Pursuant to the provisions of § 8302.3 (b) (4) of this part, the War Assets Administration, as disposal agency, is hereby authorized to dispose of any surplus property located on the Aleutian Islands at a fair and reasonable price without regard to any other provisions of this part.

This section shall become effective July 11, 1947.

TITLE 34—NAVY

Chapter I—Department of the Navy

PART 26—ORGANIZATION AND FUNCTIONS OF THE NAVAL ESTABLISHMENT

NAVAL SENTENCE REVIEW AND CLEMENCY BOARD

Amend § 26.4 (c) (2) to read as follows:

§ 26.4 *Executive Office of the Secretary.* • • •

(c) *Boards, offices, committees and divisions under the direct supervision of the Under Secretary.* • • •

(2) *Naval Sentence Review and Clemency Board.* The Naval Sentence Review and Clemency Board was convened by precept of the Acting Secretary of the Navy dated April 17, 1947, and on that date assumed the functions of the Naval Clemency and Prison Inspection Board. The Board reviews General Courts Martial sentences and other disciplinary matters requiring action of the Secretary of the Navy. The Board considers applications of Naval prisoners for clemency and for restoration to duty. Members of the Board make inspections of Naval places of confinement for Naval prisoners. The Board make recommendations to the Secretary who has final action in all matters coming under the cognizance of the Board.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

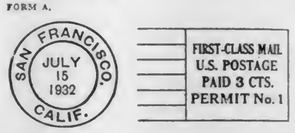
Subchapter C—Procedures and Forms

PART 50—PROCEDURES OF THE POST OFFICE DEPARTMENT

METERED AND NONMETERED MAIL

The following amendments to Part 50 (11 F. R. 177A-125) are effective at once.

1. Paragraph (p) of § 50.2006 is amended to read as follows:



(p) *Cancellation of permit.* If no mailing is made for 12 months the permit is subject to cancellation.

2. Paragraph (b) of § 50.2007 is amended to read as follows:

(b) *Application for permit.* Persons or concerns desiring permits for mailing nonmetered matter should apply to the local postmaster on Form 3612 (see § 55.2014 of this chapter). Each application must be accompanied with a fee of ten dollars as prescribed by 6.4 (c) of this chapter (see paragraph 3 (b) section 579, Postal Laws and Regulations, Postmaster General, 1940) and, unless otherwise instructed, be sent by the postmaster to the Third Assistant Postmaster General, Division of Letter and Miscellaneous Mail, endorsed to show that the fee has been paid.

3. Paragraph (c) of § 50.2007 is amended by changing Forms A and B to the following:

FORM A.

FORM B.

and by adding the following material:

On first-class matter the indicia shall be printed in one of the forms A or B indicated above, and approximately the same size. An hour may be shown in connection with the date when the matter is presented for mailing in ample time to be dispatched at such hour. On second-, third-, and fourth-class matter the forms prescribed for first-class matter may be used by omitting the date and words "First-Class Mail," or form C may be used, in which case the figure representing the amount paid in money shall be printed from type not smaller than 14-point nor larger than 36-point and the other indicia not smaller than 10-point nor larger than 24-point. The amount of postage paid may be omitted from indicia on third-class matter mailed under section 562, Postal Laws and Regulations, but the inscription "Sec. 562, P. L. & R." must be printed adjacent to the indicia on matter mailed under § 5.63 of this chapter.

4. Paragraph (e) of § 50.2007 is amended by inserting before the first sentence of subparagraph (1) the following material:

Each mailing of nonmetered first-class matter must consist of not less than 300 pieces. When, however, in occasional instances a mailer whose mailings of such first-class matter ordinarily consist of 300 pieces or more may have a smaller quantity, or when in order to cooperate with the Postal Service, a mailer whose total daily mailings may not be much in excess of 300 pieces, presents a portion thereof early in the day, such mailings will be accepted, provided it will be to the mutual advantage of the mailer and the Postal Service to do so.

The individual pieces of nonmetered first-class matter must be identical as to weight. Second- and third-class matter mailed under this section must be presented in quantities of not less than 300 identical pieces and fourth-class matter in quantities of not less than 250 identical pieces. When a mailing of first-, second-, third-, or fourth-class matter under this section extends over two or more consecutive days and the number of pieces presented on the last day to complete the mailing is less than the minimum number of pieces prescribed, such number will be accepted and an explanatory endorsement made on receipt form 3603, as contemplated by paragraph 7, section 579, Postal Laws and Regulations (§ 6.4 (f) of this chapter).

5. Paragraph (e) of § 50.2007 is amended by adding the following to subparagraph (2):

(2) *Separation.* • • •

Matter of the first class should, as a means of cooperation, also be so separated by the mailer in cases where this is practicable, and such separation will expedite its handling and dispatch.

The pieces comprising a mailing of first-class matter must be separated according to postage paid, i. e., those subject to 3 cents each to be in one lot, those subject to 6 cents in another lot, and so on.

6. Paragraph (g) of § 50.2007 is amended to read as follows:

(g) *Place of mailing.* Nonmetered matter is mailable only at the post office that issues the permit, the name of which appears in the indicia. The postmaster shall designate a point at the main office or station thereof where nonmetered mail may be deposited and such mail must not be accepted at any other point. In no case may it be deposited in street letter boxes.

7. Paragraph (i) of § 50.2007 is amended to read as follows:

(i) *Registration.* When matter of the first, second, or third class mail without stamps affixed, is accepted for registration, it shall bear on the address side the complete indicia prescribed in paragraph (c) of this section, except that in the case of first-class matter the circle containing the name of the post office and State shall be omitted, and the matter shall be postmarked on the back of the envelope, as provided in paragraph (b) of § 6.13 of this chapter.

AUTHORITY: §§ 52.1 to 52.18, inclusive, issued under secs. 215 and 402 (f), 58 Stat. 690, 707, as amended, and by the Federal Security Agency Appropriation Act, 1948, approved July 8, 1947, Pub. Law 165, 80th Cong.; 42 U. S. C. Sup. 216, 282.

§ 52.1[1] *Definitions.* As used in this part:

(a) "Act" means the "Public Health Service Act" approved July 1, 1944, 58 Stat. 682, as amended.

(b) "Allotment" means funds allotted to a State on the basis of the formula prescribed in these regulations and to be expended under plans submitted by the State health authority. (§§ 52.2 to 52.13, inclusive, relate to allotted funds).

(c) "Exception" means the amount of Federal funds expended contrary to this part or the State plan.

(d) "Federal funds" means funds appropriated by Congress for carrying out the purposes of Title IV of the act.

(e) "Extent of cancer problem" means the ratio which the average annual number of deaths from cancer during the years 1940–44, inclusive, in each State bears to the total cancer mortality in the United States.

(f) "Financial need" as applied to any State means the relative per capita income, as shown by data supplied by the Bureau of Foreign and Domestic Commerce for the period 1941–1945, inclusive.

(g) "Grantee" includes any State agency administering a cancer program and any university, hospital, laboratory, institution, or professional nonprofit organization whether public or private dealing with the cancer problem which receives a grant of Federal funds under the regulations in this part.

(h) "Official forms" means forms and instructions supplied by the Public Health Service to the State health authority for use in the submittal of State plans or information required with respect to the operation of such plans.

(i) "Political subdivision" includes counties, health districts, municipalities, and other subdivisions of the State established for governmental purposes.

(j) "Population" as applied to any State or political subdivision, means the total population thereof, as of July 1, 1945, according to the estimates of the Bureau of the Census.

(k) "Program" means the activities and services planned for the prevention, control and eradication of cancer.

(l) "Project grant" means funds allotted to a grantee for carrying out special projects. (§§ 52.14 to 52.17, inclusive, relate specifically to projects.)

(m) "Public Health Service" means the Public Health Service in the Federal Security Agency.

(n) "Special projects" means specific programs of a noncontinuing nature relating to the prevention, control and eradication of cancer, including training. Research projects other than for statistical research are excluded.

(o) "State" includes any State, the District of Columbia, Hawaii, Alaska, Puerto Rico, or the Virgin Islands.

(p) "State health authority" means the official State agency administering the State health program.

(q) "State plan" refers to the information and proposals, including budgets, submitted by the State health authority pursuant to the regulations in this part for activities of the States and political subdivisions thereof for the prevention, control and eradication of cancer.

§ 52.2 *Basis of allotments.* Of the total sum determined by the Surgeon General to be available for the fiscal year 1948 for grants to States on a formula basis, allotments to the several States shall be as follows:

60 percent on the basis of population weighted by financial need.

35 percent on the basis of the extent of the cancer problem.

5 percent on the basis of relative population density.

§ 52.3 *State plans; submission and amendments.* (a) Each State making application for grants for a cancer control program shall submit plans through its State health authority. A State making such an application may consolidate its plan with the plans submitted in accordance with section 314 of the act provided that the information specifically required for a State plan is distinguished with respect to each purpose.

(b) The State plan and amendments thereto shall be prepared in accordance with official forms supplied by the Public Health Service for the purpose.

(c) The State plan may be amended with the approval of the Surgeon General or his designee. Amendments shall state the period they are to be in effect.

§ 52.4 *State plans; contents.* A State plan for a cancer control program shall consist of two parts:

(a) Part I shall describe the current organization and functions of health services for the program and the proposals of the State health authority for extending, improving and otherwise modifying such organization and functions. It shall include a description of the services and a statement that the plan if approved shall be carried out as described and in accordance with the regulations in this part.

(b) Part II shall consist of proposed budgets for carrying out the activities described in Part I, and shall specify the period for which such budgets are submitted.

§ 52.5 *State plans; time of submission and approval.* Review and approval of

Part I shall precede review and approval of Part II. Part II of a plan shall not be approved unless each item thereof relates to activities specifically described in Part I. Part II of a plan shall not be approved for any period antedating receipt of such part by the Public Health Service except that in the event of emergencies involving expenditures not capable of prediction, telegraphic requests for approval of emergency expenditures may be tentatively approved pending submission of necessary amendments to Parts I and II (and justification thereof) at a later date prescribed at the time of such tentative approval.

§ 52.6 *Payments to States.* Payments from allotments to a State having an approved plan shall not exceed the allotment to such State or the total estimated expenditure necessary for carrying out the State plan, whichever is less. Subject to the foregoing limitations, payments shall be made as follows:

(a) The payment for the first quarter shall equal 35 percent of the total amount allotted to each State for the fiscal year.

(b) Payment for subsequent quarters from the allotments for the final three-quarter period shall be made once in each quarter and shall be based upon an application for funds showing the estimated requirements for such quarter and the estimated unencumbered balance of the respective fund in the State Treasury at the beginning of the quarter for which payment is to be made. All such payments shall be in the amount of the difference between the estimated requirement and the estimated unencumbered cash balance adjusted for exceptions, except that the amount paid together with such estimated unencumbered balance shall not exceed 35 percent of the total amount available to the State for the year. Except with respect to the first payment in the first quarter, payments from allotments shall not be certified unless all reports and documents prescribed by the regulations in this part to be due have been received. Any amount in excess of 35 percent of the total allotment to a State remaining unpaid after the third quarter payment shall be placed in the fund for special projects and will be allotted on a project basis for the current year. Any unpaid balance in the allotment account of a State remaining unpaid after the final payment to a State shall be available for allotment on a project basis during the remainder of the current year.

§ 52.7 *Required expenditure of State and local funds.* Federal funds paid to a State for its cancer control program shall not be used to conserve State and local funds otherwise available for such purpose.

§ 52.8 *Required administrative standard; State plans; expenditures.* (a) Federal funds paid to a State shall be expended solely for the purposes specified in plans approved by the Surgeon General or his designee, and in accordance with the regulations in this part.

(b) State laws and regulations governing the custody and disbursement of State funds shall govern the custody and disbursement of Federal funds paid to the State, subject to such modification as may be determined by the Surgeon General.

§ 52.9 *Required administrative standard; State plans; cancer services.* The State plan shall provide for cancer services in substantial accordance with nationally accepted standards. Compliance with standards of performance by health agencies receiving Federal funds shall be evaluated on the basis of criteria prescribed by the Surgeon General.

§ 52.10 *Required administrative standard; State plans; personnel administration on a merit basis.* A system of personnel administration on a merit basis shall be established and maintained for personnel employed in the program, the budget of which provides for the expenditure of Federal funds. Standards for evaluating compliance with this requirement shall be contained in "Merit System Policies of the Public Health Service" in effect at the time of the expenditure.

§ 52.11 *Required administrative standard; State plans; training of personnel.* Use of Federal funds for training personnel for State and local health work shall be authorized by the State health authority in accordance with "Minimum Standards for Sponsored Training of the Public Health Service." Records of authorized training shall be maintained in the State health agency and shall be audited for compliance with these standards.

§ 52.12 *Required administrative standard; fiscal affairs.* (a) A separate and distinct fund account shall be maintained for Federal cancer funds by the principal State accounting officer.

(b) An efficient method for the conduct of fiscal affairs (including financial and property controls) shall be established and maintained with respect to State and local public health agencies receiving financial assistance through grants pursuant to the regulations in this part.

§ 52.13 *Required information and reports; audits.* (a) The Surgeon General may require the submission of information pertinent to the operation of the State plan and to the purpose of the grant, including the following, which wherever possible may be consolidated with data furnished in accordance with section 314 of the act: *Provided*, That the information specifically required for the cancer control program is identified:

(1) A certification on an official form as to the amount of State and local funds available for carrying out the State plan shall be due in duplicate prior to October 1, 1947.

(2) Quarterly reports on official forms showing total receipts, expenditures, unliquidated encumbrances and balances of Federal funds, and total quarterly expenditures from Federal grants and other sources for each budget shall be due in duplicate 45 days after the close of the quarter.

(3) A detailed annual report on an official form showing expenditures for each budget and item for the fiscal year 1948 shall be due in duplicate on October 1, 1948.

(4) A report on an official form showing personnel, facilities and services for each local health organization included in the current State plan shall be due in duplicate on September 15, 1947.

(b) Audit of the activities and program described in the State plan may be made after prior consultation with the State health authority. Records, documents, and information available to the State health authority pertinent to the audit shall be accessible for purposes of audit.

§ 52.14 *Project grants; eligibility; submission of plan; approval.* State health agencies, universities, hospitals, laboratories, institutions, or professional nonprofit organizations, public or private will be eligible to apply for funds for projects relating to cancer control. The applicant shall submit plans for such projects through the State health authority.

§ 52.15 *Project plans; contents.* A project plan with respect to a cancer grant shall describe:

(a) The current organization and functions of the applicant, personnel available for cancer activities, objectives of the project and techniques for operation; and

(b) The amount of funds available to the applicant for the project, the amount of Federal funds required, the personnel needed, the cost of permanent equipment, consumable supplies and travel, and the period during which the project will be operated.

§ 52.16 *Payment to project grantees; unused funds.* Upon the approval of a project plan the total amount of the project will be paid directly to the grantee. A separate and distinct fund account shall be maintained by the grantee for the Federal funds paid hereunder. Any balances of the grant remaining unspent at the close of the project shall be returned to the Treasury of the United States.

§ 52.17 *Project expenditures; required reports; audits.* Federal funds paid to a project grantee shall be expended solely for the purposes specified in the project plan approved by the Surgeon General and in accordance with the regulations in this part. A monthly report of expenditures listing personnel employed and salaries, cost and nature of permanent equipment, cost and type of consumable supplies and cost of travel shall be submitted to the Surgeon General by the grantee. Audit of the activities described in the project plan may be made after prior consultation with the grantee. Records, documents and information available to the grantee pertinent to the audit shall be accessible for purposes of audit.

§ 52.18 *Effective date.* The regulations in this part shall become effective upon the date of their publication in the FEDERAL REGISTER.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 901]

HANDLING OF WALNUTS IN CALIFORNIA, OREGON, AND WASHINGTON

DECISION WITH RESPECT TO PROPOSED FURTHER AMENDMENTS TO MARKETING AGREEMENT AND MARKETING ORDER

Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.), (hereinafter referred to as the "act"), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Supps., 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), a public hearing was held at San Francisco, California, on April 28, 1947, pursuant to notice thereof which was published in the FEDERAL REGISTER on April 10, 1947 (12 F. R. 2369), upon certain proposed further amendments to the marketing agreement, as amended, and to the marketing order, as amended, (7 CFR, 901.1 et seq., as amended, 7 CFR, Cum. Supp., 901.4, 901.17, 901.19), regulating the handling of walnuts grown in California, Oregon, and Washington. This regulatory program became effective on October 15, 1935, but its operation was suspended for the period from October 2, 1943, to March 31, 1947, both dates inclusive. The proposed further amendments upon which the recent hearing was held are designed to adopt this program to present-day conditions, as well as to incorporate therein certain other desirable changes.

Upon the basis of the evidence introduced at such hearing and the record thereof, the Assistant Administrator, Production and Marketing Administration, on June 11, 1947, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of the filing of such recommended decision, affording opportunity to file written exceptions thereto, was published in the FEDERAL REGISTER on June 14, 1947 (12 F. R. 3894). However, no written exception was filed within the prescribed time.

The material issues presented on the record of the hearing are:

(1) The redefining of "Secretary", "act", "merchantable walnuts", "cull walnuts", "pack", "credit value", "sheller", "crop year", and "surplus referable", and the deletion of the definitions of "quality" and "Federal standard".

(2) The rewording of that portion of the provisions relating to the duties of the Walnut Control Board involving the Administration of the provisions of section 32 of the act to amend the Agricultural Adjustment Act, and for other purposes (Pub. Law 320), so as to show the current legal reference to such act.

(3) A change in the method of prescribing pack specifications and minimum requirements so as to authorize the Walnut Control Board to take such action, subject to the approval of the Secretary of Agriculture.

(4) A change in the method of fixing the salable and surplus percentages on merchantable walnuts for each year so as to authorize the Secretary of Agriculture to take such action on the basis of pertinent data, including recommendations furnished him by the Walnut Control Board.

(5) The exclusion from the application of the salable and surplus percentages of any separate pack of walnuts of which not over 12 percent by count will pass through a round opening 96/64 inches in diameter.

(6) A change of the phrase "or to be handled" wherever it appears in the agreement and order following the word "handled", to read "or certified for handling".

(7) A change in the form of certification of shipments so as to require indication whether the walnuts are to be shipped interstate or intrastate, or if for export, the country of destination.

(8) The inclusion of provision for assessments to cover expenses in the event no salable and surplus percentages are fixed for any crop year, and of provision for refunding any surplus of assessment collections remaining after all expenses for any crop year have been paid.

Findings and conclusions. The findings and conclusions on the aforementioned material issues, all of which are based on the evidence introduced at the hearing and the record thereof, and which are substantially the same as the findings and conclusions which were set forth in connection with the respective issues in the recommended decision, are as follows:

(1) The term "Secretary" should be redefined to recognize the fact that such official actually performs many of his functions through subordinates, and to insure that any such subordinates who perform any of his functions relating to this program pursuant to authority delegated to them by the Secretary, are covered under this term.

The term "act" should be redefined so as to show the current appropriate legal citation therefor.

The term "merchantable walnuts" should be redefined so as (a) to delete reference thereinto "Federal Standard", the reason for the deletion of the term last referred to being discussed below, and (b) to recognize the proposed change in the method of determining pack specifications and minimum requirements as discussed in (3) of these findings and conclusions. The term "cull walnuts" should likewise be redefined so as to delete reference therein to "Federal Standard" and to insert, in lieu thereof, reference to "minimum specifications". The existing definition of the term "Federal Standard" refers to a regulation effective on and after September 1, 1933, issued by the Secretary under the authority of the Federal Food, Drug, and Cosmetic Act (21 U. S. C., 301 et seq.). However, since such time, authority for the administration of that act was transferred to the Federal Security Agency, and there appears to be some question as to whether such regulation is now being followed or used by that agency. The substitute standard is proposed to be the minimum requirements discussed in (3) of these findings and conclusions, which, it is believed, will accomplish a similar objective. For the same reasons the definition of the term "Federal Standard" should be deleted.

The term "pack" should be redefined so as to include, in addition to requirements as to size, variety, or type, requirements as to internal quality and external appearance and condition. The added requirements are now contained under the definitions of the term "quality." However, it is believed that the inclusion of all such requirements under one term, i. e., "pack," is desirable from the standpoint of clearness and simplicity. Such a change, makes the definition of the term "quality" unnecessary, and it should be deleted.

The term "credit value" should be redefined so as to add the words "per pound" after the reference to the value to be established by the Walnut Control Board. This addition does not change the present meaning, but the statement that it is a value per pound is more specific and is in accordance with past practice. Also, the phrase "any pack and quality" in such definition should be changed to read "each pack." The deletion of "quality" is in conformity with the proposed definition of "pack" and the proposed deletion of the definition of "quality." The change from "any" to "each" makes the meaning more specific.

The term "sheller" should be redefined so as to add the word "commercial" before the word "purpose." This will exclude any implication or inference that such term might include shellers producing walnuts only for their own home use.

The term "crop year" should be redefined to cover the period from August 1 through July 31 of the following year, instead of the present period of September 1 through August 31 of the following year. Carryover stocks are customarily reported each year as of August 1. It is desirable that the crop year begin at the same time, since carryover stocks are important in fixing the salable and surplus percentages for the crop year. The use of a uniform crop year would simplify and reduce the amount of both accounting and statistical work. The change also appears advisable for the reason that beginning with August 1 of each year, the Walnut Control Board's activities have to do primarily with preparing for the new crop year, and, therefore, the expenses are properly chargeable to the new crop year.

The term "surplus referable" should be redefined so as to delete the words "and

quality" from the phrase "pack and quality" and to change the phrase "to be handled" so as to read "certified for handling." The reason for the deletion of the words "and quality" is the same as the reason for the deletion of the definition of "quality," discussed above. The reasons for the other change are discussed, in detail, in (6) of these findings and conclusions.

(2) That portion of the provisions relating to the duties of the Walnut Control Board involving the administration of section 32 of the act to amend the Agricultural Adjustment Act, and for other purposes (Pub. Law 320), should be reworded so as to show the current appropriate legal citation for such act, i. e., "the act of Congress of August 24, 1935, as amended (7 U. S. C. 612c)." Similar changes in the legal citation for such act should be made wherever it is referred to in other portions of the agreement and order.

(3) Pack specifications and minimum requirements should be prescribed by the Walnut Control Board, subject to the approval of the Secretary, in order to tend to effectuate the declared policy of the act. Under the present provisions, pack specifications are set forth in exhibits which are attached to, and made parts of, the agreement and order, and any change therein can be effected only through formal amendment procedure in connection with such agreement and order, which procedure is too time consuming and expensive. This has resulted, in the past, in the failure to make changes as frequently as might be desirable to keep the pack specifications in line with changes in grading practices. The present proposed method will allow needed changes to be made effective in considerably less time than is practicable under the existing provisions, but, at the same time, it will give interested parties an opportunity to participate in their formulation, through the submission of written data, views, and arguments in connection therewith, in the manner contemplated by the Administrative Procedure Act (60 Stat. 237, Pub. Law 404, 79th Cong., 2d sess., approved June 11, 1946).

(4) The salable and surplus percentages for each crop year should be fixed by the Secretary, after consideration of the recommendations, and the information upon which such recommendations are based submitted to him by the Walnut Control Board, and other pertinent data. Under the existing provisions, such percentages are required to be fixed through formal amendment procedure, including public hearing, and the percentages so fixed for each year are specifically incorporated in the agreement and order. Such a method is unduly expensive and, under existing procedural requirements relating to a public hearing, it will be impracticable, after crop production information becomes available, to make an amendment effective by the time shipments start early in October. In this connection, crop production estimates are not available until about August 12, and the Walnut Control Board will not be able to make findings with respect to carryover and production until after that time. Even when salable and surplus percentage recommendations are made late in August, heat and other weather damage often reduce the prospective crop and require changes in estimates. The percentages must be made effective early in October at the latest. It is believed that the proposed procedure will allow the salable and surplus percentages to be fixed within the necessary time, and, at the same time, it will give interested parties an opportunity to participate in the determining of such percentages, through the submission of written data, views, and arguments in connection therewith, in the manner contemplated by the Administrative Procedure Act. The provisions relating to estimated carryover, consumptive demand, and production should be redrafted so that they will conform with the aforementioned changes.

Testimony presented at the hearing indicates that the current prices are not, and the anticipated prices for the coming crop year will not be in excess of the parity level specified in the act.

(5) The salable and surplus percentages fixed for any crop year should not apply to separate packs of walnuts of which not over 12 percent by count will pass through a round opening 96/64 inches in diameter. Walnuts of such a size are produced under special and expensive cultural practices (often including, among other things, the whitewashing of the exposed walnuts on the trees to prevent sunburn). They represent less than one-tenth of one percent of the total production of merchantable walnuts in the area, and they are sold primarily as gift packages and as novelties. Walnuts of such a size have, during the past several years, brought a price at least twice as high as that of the average large-size commercial walnuts. By reason of their extraordinary size, they have a special and different type of outlet from that of ordinary merchantable walnuts, and generally, production is not sufficient to meet the demand. They represent the largest size of commercial walnuts which has been recognized under this regulatory program.

The proponents of this change previously raised the mattter with the Walnut Control Board, which is composed of representatives of all segments of the commercial walnut industry, which at a regularly called meeting, passed a resolution recommending, in effect, that such proposal be presented at the hearing. The testimony of the Manager of the Walnut Control Board, as well as the testimony of representatives of various segments of the walnut industry, was generally favorable to the adoption of the proposal. In fact, no adverse testimony with respect to such proposal was presented.

(6) The phrase reading "or to be handled" should, wherever it appears in the agreement and order following the word "handled," be changed to read "or certified for handling." Previous experience under this regulatory program has demonstrated that some walnuts have to be certified in advance of shipment in order to accommodate packers, to facilitate off-season distribution or to minimize inspection costs. It was originally believed that this situation would be covered adequately by the use of the phrase "to be handled." It now appears, however, that the phrase last referred to is too broad, in that there is no way to anticipate exactly the quantity of walnuts to be handled during the entire season by any packer, but, after lots of walnuts are certified for handling, they may easily be identified as to both quantities and packs. A request for certification is actually a declaration of future shipment. It is believed that the change is more accurate in terminology, and reflects the operational practice which it has been necessary to follow in that regard. On the other hand, the phrase "or to be handled" should be added after the word "handled" in the provisions relating to certification of shipment, inasmuch as such provisions specify the merchantable walnuts which must be so certified. It is obvious that the provisions should apply to walnuts which are to be handled, as well as to walnuts handled.

(7) The form of certification of shipment which is required for each lot of merchantable walnuts handled or to be handled by any packer, or delivered by him to the Walnut Control Board, should contain provision for the reporting of whether the particular lot will move interstate or intrastate, or, if such lot is to be exported, the name of the country to which it is to be shipped. It was proposed in this regard, in the notice of hearing, that such form should contain provision for the reporting of destination. However, it developed at the hearing that the intended purpose would be served by the requirement proposed to be adopted.

(8) In addition to providing for the collection of assessments in instances where salable and surplus percentages are fixed, provision should be made for the collection from each handler of assessments to defray expenses of operation in the event no salable and surplus percentages are fixed for any crop year. Such assessment should be in an amount (adjusted to the next higher one-hundredths of a cent) per pound of merchantable walnuts handled, or certified for handling, by him during such crop year computed as follows: The amount resulting from dividing the expenses for such crop year as approved by the Secretary by the total aggregate pounds of merchantable walnuts which the Walnut Control Board estimates will be handled by all handlers during that crop year. The provisions with respect to assessments for expenses in the existing agreement and order do not cover such a situation, and it seems reasonable to anticipate that there may be a crop year for which no salable and surplus percentages are fixed and the average seasonal prices are not in excess of parity. Even though, in such an event, there will need to be no delivery of merchantable walnuts to the Walnut Control Board and no accounting in that regard, the regulatory provisions will still require the inspection and certification of all merchantable walnuts handled, or to be handled, by the several handlers. The performance of the functions last referred to will, in the circumstances, be appropriate and in accordance with the provisions of the act. The method of assessment proposed to cover the cost of performing these functions is believed to be obviously fair and equitable. Testimony in the hearing record indicates that the continuance of these inspection and certification functions are very desirable, even though other restrictions should not be operative.

Provision should also be made for the refunding of any money collected to cover expenses of operation for any crop year which is not expended for that purpose in connection with such crop year's operations. No specific provision to that effect is contained in the existing agreement and order, and it is believed that the inclusion of a specific authorization to make such refund would be desirable.

The proposed amendments hereinafter set forth also omit certain provisions of the agreement and order which are not relevant to administration of this program. These recommended changes are proposed for the purpose of simplifying the agreement and order since such omitted matter is merely historical or obsolete and will serve no useful purpose in the future administration of the program. Changes in the provisions of certain other sections which are necessary to make them conform with the changes indicated above should be made.

General. (a) The marketing agreement, as amended and as hereby proposed to be further amended, and the marketing order, as amended and as hereby proposed to be further amended, and all of the terms and conditions of each such document, will tend to effectuate the declared policy of the act;

(b) The marketing agreement, as amended and as hereby proposed to be further amended, and the marketing order, as amended and as hereby proposed to be further amended, regulate the handling of wanuts grown in California, Oregon, and Washington, in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in the proposals upon which the hearing was held; and

(c) There are no differences in the production and marketing of said commodity in the production area covered by said marketing agreement, as amended and as hereby proposed to be further amended, and of the marketing order, as amended and as hereby proposed to be further amended, that make necessary different terms applicable to different parts of such area.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "agreement amending the marketing agreement, as amended, regulating the handling of walnuts grown in California, Oregon, and Washington" and "order amending the order, as amended, regulating the handling of walnuts grown in California, Oregon, and Washington," which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision, except the attached agreement amending the marketing agreement, as amended, be published in the FEDERAL REGISTER. The regulatory provisions of the said agreement amending the marketing agreement, as amended, are identical with those contained in the attached order amending the order, as amended, which will be published with the decision.

This decision filed at Washington, D. C., this 15th day of July 1947.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Walnuts Grown in California, Oregon, and Washington

§ 901.0 *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, (7 U. S. C., 601 et seq.), (hereinafter referred to as the "act"), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Supps., 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), a public hearing was held at San Francisco, California, on April 28, 1947, upon certain proposed further amendments to the marketing agreement, as amended, and to the marketing order, as amended (7 CFR, 901.1 et seq., as amended, 7 CFR, Cum. Supp., 901.4, 901.17, 901.19), regulating the handling of walnuts grown in California, Oregon, and Washington. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(a) The said order, as amended and as hereby further amended, and all of the terms and conditions of the said order, as amended and as hereby further amended, will tend to effectuate the declared policy of the act;

(b) The said order, as amended and as hereby further amended, regulates the handling of the aforementioned walnuts in the same manner as the aforementioned marketing agreement, as amended and as further amended effective as of the same time as the further amendment of the said marketing order, as amended, and the said marketing order, as amended and as hereby further amended, is applicable only to persons in the respective classes of industrial and commercial activity specified in the proposals upon which the hearing was held; and

(c) There are no differences in the production and marketing of said commodity in the production area covered by the said marketing order, as amended and as hereby further amended, that make necessary different terms applicable to different parts of such area.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

It is, therefore, ordered, That, on and after the effective date hereof, the handling of walnuts grown in California, Oregon, and Washington shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as amended and as hereby further amended; and such order, as amended, is hereby further amended as follows:

1. Delete the provisions of paragraph 1, section 1 of Article I (§ 901.2 (a)) and insert, in lieu thereof, the following:

(a) "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the United States Department of Agriculture who is, or who may be, authorized to perform the duties of the Secretary of Agriculture of the United States.

2. Delete the provisions of paragraphs 9, 10, 11, 12, 13, 14, and 15 of section 1 of Article I (§§ 901.2 (i), (j), (k), (l), (m), (n), (o), and (p)) and insert, in lieu thereof, the following:

(i) "Act" means Public Act No. 10 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.).

(j) "Walnuts" means only walnuts of the "English" (Juglans Regia) varieties grown in the States of California, Oregon, and Washington.

(k) "Merchantable walnuts" means all unshelled walnuts meeting the pack specifications and minimum requirements prescribed pursuant to section 1 of Article III (§ 901.4 (a)).

(l) "Cull walnuts" means all lots of unshelled walnuts which do not meet the minimum specifications for merchantable walnuts and which cannot be brought up to such minimum specifications by standard commercial grading practices.

(m) "Pack" means a specific commercial classification according to size, variety or type, internal quality, and external appearance and condition, of merchantable walnuts, packed in accordance with the pack specifications prescribed pursuant to section 1 of Article III (§ 901.4 (a)).

(n) "Credit value" means that value per pound for each pack established by the Control Board, subject to the approval of the Secretary, pursuant to section 1 of Article IV (§ 901.5 (a)).

(o) "Sheller" means any person engaged in the business of shelling walnuts for any commercial purpose.

3. Delete the provisions of paragraphs 17 and 18 of section 1 of Article I (§§ 901.2 (r) and (s)) and insert, in lieu thereof, the following:

(r) "Crop year" means the twelve months from August 1 to the following July 31, both inclusive.

(s) "Surplus referable" to any walnuts handled or certified for handling or sold

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

to the Control Board means a quantity of walnuts of like pack which bears the same ratio to such quantity of walnuts handled or certified for handling or sold to the Control Board as the surplus percentage bears to the salable percentage.

4. Delete the provisions of paragraph 5 of section 3 of Article II (§ 901.3 (c) (9)) and insert, in lieu thereof, the following:

(9) To perform such duties in connection with the administration of section 32 of the act of Congress of August 24, 1935, as amended (7 U. S. C. 612c), as may from time to time be assigned to it by the Secretary.

5. Delete the provisions of sections 1, 2, and 3 of Article III (§§ 901.4 (a), (b), and (c)) and insert, in lieu thereof, the following:

(a) *Authorized packs.* Except as otherwise provided in Article VII (§ 901.8) hereof for the sale of cull walnuts, no packer shall handle any unshelled walnuts except those packed in accordance with such pack specifications and minimum requirements as the Control Board may prescribe, subject to the approval of the Secretary, in order to tend to effectuate the declared policy of the act. To aid the Secretary in determining whether to grant or withhold such approval, the Control Board shall furnish to the Secretary the data upon which it acted in prescribing such pack specifications and minimum requirements and such other data pertaining thereto as the Secretary may request.

(b) *Salable percentage and surplus percentage.* On the basis of the carryover, estimated consumptive demand, and estimated production of merchantable walnuts, the salable and surplus percentages of merchantable walnuts for each crop year shall be fixed by the Secretary, after consideration of the recommendations submitted to him by the Control Board, and other pertinent data: *Provided*, That the salable and surplus percentages so fixed shall not apply to separate packs of walnuts, of which not over 12 percent by count pass through a round opening 96/64 inches in diameter. The total of the salable and surplus percentages fixed for each crop year shall equal one hundred (100) percent. The Secretary may, subsequently, on request of the Control Board (or if the Control Board shall fail so to request, on request of two or more packers who have handled during the immediately preceding crop year at least ten (10) percent of the total tonnage handled by all packers during such crop year), and after a finding of fact, based on such revised and current information as may be pertinent, that the merchantable walnuts, available for sale will not be sufficient to supply the consumptive demand, increase the said salable percentage to conform with such new relation as may be found to exist between consumptive demand and available supply: *Provided, however*, That an increase of the salable percentage shall not be made after January 15 of any crop year unless the quantity of walnuts held unsold by the Control Board is sufficient to permit full delivery to packers as required by section 2 of Article V (§ 901.6 (b)) hereof. The merchantable walnuts handled by any packer in accordance with the provisions hereof shall be deemed to be that packer's quota fixed by the Secretary within the meaning of section 8a (5) of the act.

(c) *Estimated carryover, consumptive demand, and production.* To aid the Secretary in fixing the salable and surplus percentages, the Board shall furnish to the Secretary, not later than September 1 of each year, the following information; its estimate of the quantity of merchantable walnuts to be produced during such year, herein referred to as the "estimated production," such estimate to be approved by at least a two-thirds (⅔) vote of the Control Board; and, likewise, its estimate of the total consumptive demand in the United States for merchantable walnuts for the coming crop year (on the basis of prices not exceeding the maximum prices contemplated in section 2 of the act), such estimate to be approved by at least a two-thirds (⅔) vote of the Control Board; and also a report on the total carryover of merchantable walnuts from preceding crop years held by packers on the preceding August 1. The Board shall also furnish to the Secretary a complete report of the proceedings of the Board meeting to recommend the salable and surplus percentages to be fixed by the Secretary.

6. In section 4 of Article III (§ 901.4 (d)), change the phrase "of each year after 1935" to read "of each year"; and change the phrase "quantity, pack, quality and location thereof" to read "quantity, pack and location thereof."

7. In section 5 of Article III (§ 901.4 (e)), change the phrase "the surplus referable to each pack and quality of such merchantable walnuts handled or to be handled" to read "the surplus referable to each pack of such merchantable walnuts handled or certified for handling."

8. In section 6 of Article III (§ 901.4 (f)), delete the words "or to be handled" and insert, in lieu thereof, the words "or certified for handling."

9. In section 7 of Article III (§ 901.4 (g)), delete the words "and quality" wherever they now appear in said section.

10. In section 11 of Article III (§ 901.4 (k)), change the phrase "the quantity of each pack and quality handled or to be handled" so as to read "the quantity of each pack handled or certified for handling"; and, in subparagraph (1) thereof, change the phrase "or a total weight equal to the surplus referable to such walnuts so handled or to be handled" to read "of a total weight equal to the surplus referable to such walnuts so handled or certified for handling."

11. Delete the provisions of sections 1 and 2 of Article IV (§ 901.5 (a) and (b)) and insert, in lieu thereof, the following:

(a) *Credit values.* The Control Board shall, on or before October 15 of each year, establish, subject to the approval of the Secretary, credit values for each pack of merchantable walnuts. The establishment of credit values shall require a vote of at least two-thirds (⅔) of the members of the Control Board. To aid the Secretary in determining whether to grant or withhold such approval, the Control Board shall furnish to the Secretary the data upon which it acted in establishing such credit values and such other data pertaining thereto as the Secretary may request. Such credit values shall provide reasonable differentials to the different packs as will reflect the normal differences in market prices thereof.

(b) *Interest of packers in holdings of Control Board.* The equitable interest of each packer in the holdings of the Control Board shall be in the proportion of the net credits of such packer to the total net credits of all packers. For the purpose of this section, "holdings of the Control Board" means the merchantable walnuts held by or for it and the net proceeds from the sale, exchange, or other disposition thereof by the Control Board, and all cash received by the Control Board pursuant to Article III (§ 901.4) hereof, which has not been expended or refunded in accordance with the provisions of said Article III; but shall not include such moneys, if any, as may be received by the Control Board as diversion payments in connection with the encouragement of exportation or encouragement of domestic consumption pursuant to the provisions of section 32 of the act of Congress of August 24, 1935, as amended (7 U. S. C. 612c). The Control Board shall, from time to time, distribute the cash "holdings of the Control Board," ratably to the packers in accordance with their respective interests therein, except that no cash which under the provisions of Article III (§ 901.4) is to be, or may be, used to effect purchases from packers or which, under the provisions of said article, is to be held undistributed until the end of a crop year shall be distributed before the end of such crop year.

12. Delete the provisions of section 1 Article VI (§ 901.7 (a)) and insert, in lieu thereof, the following:

(a) *Certification of shipments.* Every packer, at his own expense, shall obtain a certificate for each lot of merchantable walnuts handled or to be handled by him and all lots of merchantable walnuts which he delivers to the Control Board. Said certificates shall be issued by inspectors designated by the Control Board. All such certificates shall show, in addition to such other requirements as the Control Board may specify, the identity of the packer, whether domestic shipments will move interstate or intrastate and if for export, the country of destination, the quantity and pack of merchantable walnuts in such lot, and that the walnuts covered by such certificate conform to the minimum specifications for quality and soundness prescribed pursuant to section 1 of Article III (§ 901.4 (a)).

The Control Board may direct that such certificate be not issued to any packer who has failed to deliver or otherwise account for his surplus obligation in accordance with the terms of this paragraph.

13. Delete the provisions of section 1 of Article VIII (§ 901.9) and insert, in lieu thereof, the following:

§ 901.9 *Expenses.* Each packer shall pay to the Control Board, upon demand and on the applicable basis provided for hereinafter in this section, his pro rata share of the expenses necessarily incurred by the control Board for its maintenance and functioning under this order for the crop year ending July 31, 1948, and for each crop year thereafter. The amount of such expenses which will necessarily be incurred by the Control Board during the crop year ending July 31, 1948, and each crop year thereafter, shall be fixed by the Secretary on the basis of recommendations by the Control Board and such other pertinent information as may be available to him. Such approved amount for any such crop year may later be adjusted, from time to time, by the Secretary. The recommendation of the Control Board as to the expenses for each such crop year, together with all data supporting such recommendation, shall be submitted to the Secretary on or before September 1 of the crop year in connection with which such recommendation is made.

In the event a surplus percentage of merchantable walnuts is fixed for any crop year, each packer's pro rata share of the expenses of the Control Board for such crop year shall be that proportion thereof which the total credit value of his surplus obligation with respect to merchantable walnuts handled or certified for handling by him and merchantable walnuts sold by him to the Control Board, during such crop year, is of the total credit value of the surplus obligations of all the packers with respect to merchantable walnuts handled or certified for handling by them and merchantable walnuts sold to the Control Board by them during that crop year; *Provided*, That an initial assessment for any such crop year may be levied on each packer of one (1) percent of the total credit value of such packer's estimated surplus obligation for such crop year.

In the event no surplus percentage of merchantable walnuts is fixed for any crop year, each packer shall pay, as his pro rata share of the expenses of the Control Board for that crop year, an amount (adjusted to the next higher one-hundredths of a cent) per pound of merchantable walnuts handled, or certified for handling, by him during such crop year computed as follows: The amount resulting from dividing the approved expenses by the total aggregate pounds of merchantable walnuts which the Board estimates will be handled by all handlers during that crop year.

Any money collected to cover the expenses of the Control Board for any crop year and not expended for that purpose in connection with such crop year's operations shall be refunded to the packers who paid it on the basis of, in the case of each individual packer, the proportion that the amount of the assessment paid by him bears to the total amount of the assessments paid by all packers for the particular crop year.

14. In paragraph 3, section 2, Article XVI (§ 901.17 (third paragraph)), change the phrase "on or before August 1" to read "on or before July 1."

15. Delete Exhibits A and B (§§ 901.19 and 901.20).

HANDLING OF LEMONS GROWN IN CALIFORNIA AND ARIZONA

AMENDED NOTICE OF HEARING ON PROPOSED AMENDMENTS TO MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure (7 CFR and Supps. 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), notice was given (12 F. R. 4516) of a public hearing to be held at Room 212, United States Court House, First Avenue and Van Buren Street, Phoenix, Arizona, beginning at 10:00 a. m., P. s. t., August 4, 1947, and continued in Room 324, Federal Building, Los Angeles, California, beginning at 10:00 a. m., P. s. t., August 7, 1947.

The Arizona Orange-Lemon Growers Association, Phoenix, Arizona, has requested that the aforesaid notice of hearing be amended to include proposed amendments, as hereinafter set forth, for the purpose of receiving evidence with respect to economic or marketing conditions relating to all aspects of such additional proposed amendments to the marketing agreement and order. The proposed amendments have not received the approval of the Secretary of Agriculture.

The aforesaid notice of hearing is hereby amended by adding the following paragraphs immediately after paragraph numbered 12 thereof:

Proposals submitted by the Arizona Orange-Lemon Growers Association, Phoenix, Arizona:

13. Delete the words "or in the State of Arizona" from paragraph (d) of section 1 of the marketing agreement and from § 953.1 (d) of the order.

14. Delete the words "or between the State of Arizona and any point outside thereof in the United States or in Canada" from paragraph (g) of section 1 of the marketing agreement and from § 953.1 (g) of the order.

15. Delete the words "or Arizona" from the provisions of paragraph (a) (iii) of section 6 of the marketing agreement and from § 953.6 (a) (3) of the order.

Copies of this amendment to the notice of hearing (12 F. R. 4516) may be obtained from the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., or from the Fruit and Vegetable Branch, Production and Marketing Administration, 1206 Santee Street, Los Angeles, California.

Done at Washington, D. C., this 15th day of July 1947.

CIVIL AERONAUTICS BOARD

[14 CFR, Parts 40 and 61]

AIR CARRIER OPERATING CERTIFICATES

ISSUANCE TO PERSONS HOLDING TEMPORARY CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY AND SUBSEQUENT MODIFICATIONS THEREOF

JULY 16, 1947.

The Safety Bureau of the Civil Aeronautics Board is presenting a proposed special civil air regulation the purpose of which is to authorize the issuance and modification of air carrier operating certificates for scheduled air carriers where safety will not be adversely affected. This regulation will be applicable to air carriers holding temporary certificates of convenience and necessity which because of the aircraft and equipment used, the navigational facilities available on the routes flown, and the types of services offered are unable to meet all the requirements of the Civil Air Regulations presently applicable to scheduled air carriers. This regulation is necessary to enable such air carriers to operate and continue operation where safety is not adversely affected.

The following is the text of the proposed Special Civil Air Regulation:

An air carrier operating certificate may be issued by the Administrator to an air carrier holding a temporary certificate of public convenience and necessity, issued by the Board, authorizing such carrier to engage in scheduled air carrier operations, although the carrier does not fully comply with all the requirements of Parts 40 and 61 of the Civil Air Regulations, if the Administrator finds that any of such requirements can be omitted or modified without adversely affecting safety. Such omissions or modifications, when approved by the Administrator, shall be listed in the air carrier operating certificate and the Administrator shall promptly notify the Board of the omissions or modifications approved by him and the reasons therefor.

It is proposed that this regulation shall be effective for one year.

This regulation is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Bureau that those interested submit written comments or suggestions regarding the proposed regulation, addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt within 15 days from the date of this public notice.

FLIGHT RECORDERS FOR SCHEDULED AIR CARRIER OPERATIONS

JULY 16, 1947.

The use of flight recorders was required by regulation prior to June 9, 1944. On that date the Civil Aeronautics Board found it necessary to repeal the pertinent requirement because of the wartime shortage of material and personnel which made proper maintenance of flight recorders by the air carriers impossible. It was also apparent at that time that the instruments then available were not entirely adequate for the purpose intended, and that new designs would have to be developed in order that practical use could be made of them for safety purposes.

It now appears that new flight recording instruments have been developed and service tested, and they can be made available to the air carriers for installation within a short period of time. Since the use of flight recorders by scheduled air carriers in both passenger and cargo service will promote safety of operation, it is considered in the public interest to require their use at the earliest possible time.

Therefore, the Safety Bureau gives notice that it intends to propose to the Civil Aeronautics Board the adoption of the following amendments to Parts 41 and 61 of the Civil Air Regulations:

§ 41.24 *Flight recorder.* No aircraft shall be operated in scheduled air transportation after June 30, 1948, unless it is equipped with properly functioning instrumentation to record continuously during flight the altitude of the aircraft and the vertical accelerations to which the aircraft may be subjected, the values of both these items to be recorded against a time scale of at least 2 inches to the hour. The recording device shall be substantially protected from jarring and from the effects of fire and shall be located as far back in the fuselage as practicable, in any case at least aft of the most rearward bulkhead.

§ 61.341 *Flight recorder.* No aircraft shall be operated in scheduled air transportation after June 30, 1948, unless it is equipped with properly functioning instrumentation to record continuously during flight the altitude of the aircraft and the vertical accelerations to which the aircraft may be subjected, the values of both these items to be recorded against a time scale of at least 2 inches to the hour. The recording device shall be substantially protected from jarring and from the effects of fire and shall be located as far back in the fuselage as practicable, in any case at least aft of the most rearward bulkhead.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

The Safety Bureau invites those interested to offer comments regarding the proposed amendment. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt within 15 days from the date of this public notice.

ABSOLUTE TERRAIN PROXIMITY INDICATOR REQUIREMENT ON ALL SCHEDULED AIRCRAFT DURING HOURS OF DARKNESS OR UNDER INSTRUMENT FLIGHT RULE CONDITIONS

JULY 14, 1947.

Air carrier accidents in which aircraft have just failed to clear the terrain have established the need for an additional safeguard. The Civil Aeronautics Board proposes to amend the Civil Air Regulations to require the installation of absolute terrain proximity indicators on all scheduled air carrier aircraft after January 1, 1948, which are to be operated during the hours of darkness or under instrument flight conditions. Since the reliability of absolute terrain proximity indicators has not been completely proved in air carrier operations, the device is to be used only as an auxiliary instrument and will not replace or supersede other presently required navigational instruments.

The proposed regulation will be a Special Civil Air Regulation reading as follows:

On and after January 1, 1948, aircraft operated in scheduled air carrier service during the hours of darkness or under instrument flight rule conditions shall be equipped with one absolute terrain proximity indicator, approved by the Administrator, which will warn the pilot of the altitude of the aircraft above the terrain at altitudes of 2,000 feet, 1,000 feet, and any predetermined altitude between 300 feet and 500 feet inclusive.

This special regulation shall terminate January 1, 1950.

During the interim period the Administrator and the Board will determine the effectiveness of this device and, if it is proven effective, will incorporate the requirement in the air carrier operating rules of the Civil Air Regulations.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It appears that the public interest requires this special regulation be made effective with the least delay practicable, and the Board will act on this proposal as soon as possible after July 31, 1947. Any comment concerning this proposal should be submitted in writing to the Secretary, Civil Aeronautics Board, Washington 25, D. C., on or before July 31, 1947.

AIR CARRIER FLIGHT ALTITUDE RULES

JULY 14, 1947.

Notice is hereby given that the Civil Aeronautics Board has under consideration a proposed amendment of the air carrier operation rules which under the specified conditions will raise the minimum altitude for air carrier operations.

Air carrier accidents in which aircraft have failed to clear mountainous terrain have pointed to the desirability of raising the minimum en route altitudes to provide for a greater margin of safety in those cases where miscalculations, altimeter errors, or unusual weather conditions may permit insufficient clearance at the presently required altitudes.

It is proposed to amend the air carrier operation rules by inserting the following paragraphs where applicable:

Flight altitude rules; night and instrument operations. Except during takeoffs or landings or when operating in accordance with specific procedures for definite localities approved by the Administrator, no aircraft shall be flown at less than the following altitudes above the highest obstacle located within a horizontal distance of 5 miles from the center line of the ground track being flown.

(a) *Night operations.* (1) Areas of hazardous mountainous terrain, unlighted airways—2,000 feet; (2) areas of hazardous mountainous terrain, lighted airways—1,000 feet; (3) all other terrain—1,000 feet.

(b) *Instrument operations.* (1) Areas of hazardous mountainous terrain—2,000 feet.

(2) All other terrain—1,000 feet.

Within the meaning of this section the term "areas of hazardous mountainous terrain" shall be deemed to be areas specified as such by the Administrator.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Board that those interested offer suggestions and comments regarding the proposed amendment. Comments in writing should be addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C., for receipt within 30 days from the date of this public notice.

(52 Stat. 984, 1007; 49 U. S. C. 425, 551)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Misc. 811627]

WASHINGTON

ORDER PROVIDING FOR THE OPENING OF PUBLIC LANDS RESTORED FROM YAKIMA PROJECT

JULY 11, 1947

An order of the Bureau of Reclamation dated November 29, 1946, concurred in by the Director, Bureau of Land Management, March 13, 1947, revoked Departmental Order of November 26, 1918, so far as it withdrew in the first form prescribed by section 3 of the Reclamation Act of June 17, 1902 (32 Stat. 388), the lands hereinafter described in connection with the Yakima Project, Washington, and provided that such revocation shall not affect the withdrawal of any other lands by said order or affect any other order withdrawing or reserving the lands described.

At 10:00 a. m. on September 12, 1947, the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 13, 1947, to December 12, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from August 24, 1947, to September 12, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 13, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on Dec. 13, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from November 23, 1947, to December 12, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 13, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Spokane, Washington, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Spokane, Washington.

The lands affected by this order are described as follows:

WILLIAMETTE MERIDIAN, WASHINGTON

T. 15 N., R. 17 E., Sec. 2, Lot 4.

The area described aggregates 40.09 acres. The land has a hilly surface with the dominant vegetative type comprising bunch grass.

[Docket No. G-918]

MICHIGAN CONSOLIDATED GAS CO.

NOTICE OF APPLICATION

JULY 15, 1947.

Notice is hereby given that on June 27, 1947, an application was filed with the Federal Power Commission by Michigan Consolidated Gas Company (Applicant), a Michigan corporation with its principal place of business in Detroit, Michigan, requesting a finding by the Commission that the matters involved therein are not subject to the requirements of section 7 (c) of the Natural Gas Act, as amended, and that Applicant does not require the Commission's authorization therefor, or, in the alternative, the issuance of a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant:

(1) To operate, pending completion of the Michigan-Wisconsin Pipe Line Company (Michigan-Wisconsin) project (Docket No. G-669), the following facilities, which are to be constructed by Austin Field Pipe Line Company pursuant to the latter's application for a certificate, which application is pending before the Commission in Docket No. G-834:

(a) A 26-inch O. D. pipeline, approximately 140 miles in length, extending southeasterly from a point at the Austin Storage Field near the common corner of Sections 3, 4, 9 and 10 in Austin Township, Mecosta County, Michigan, to a point near the southwest corner of Section 35, Township 1 North, Range 10 East, Southfield Township, Oakland County, Michigan;

(b) A metering station at Evergreen, the eastern terminus of the Austin-Detroit line;

(c) A gas compressor station on the Austin-Detroit line at the Austin Storage Field with an initial installation of 3,000 h. p.;

(2) To construct and operate a 26-inch O. D. pipeline connection to extend some 14½ miles from eastern terminus of the above-described Austin-Detroit Line at Evergreen to Melvindale, Michigan, where natural gas is delivered to Applicant by Panhandle Eastern Pipe Line Company (Panhandle); and to change the gas cylinders on the pumps at Applicant's existing River Rouge Station at Melvindale and to continue the operation of such pumps at higher pressures;

(3) To continue the operation, pending completion of the Michigan-Wisconsin project, of Applicant's Austin Storage Field insofar as such operation will involve the storage in and subsequent withdrawal from such field of gas which Applicant shall have obtained from Panhandle.

Applicant proposes to operate the facilities described above for the purpose of transporting to Austin Field and storing therein "off peak" natural gas which Applicant obtains from Panhandle at Melvindale and subsequently returning such gas to Detroit for distribution and sale to Applicant's consumers in its Detroit District. Applicant states that pending completion of the Michigan-Wisconsin project, such facilities will be used to provide some relief in the critical gas supply situation in Applicant's Detroit District.

Pending completion of the Michigan-Wisconsin project, Applicant proposes to lease the facilities described in paragraph (1) above from Austin Field Pipe Line Company and states that it will submit a supplementary Tri-Partite Agreement between Applicant, Michigan-Wisconsin and Austin Field Pipe Line Company providing therefor.

Applicant proposes to undertake the construction of the facilities described in paragraph (2) above as soon as the requisite governmental authorization can be obtained. Applicant further proposes to begin the storage program upon the completion of the facilities required for that purpose, and in any event to begin the storage of gas obtained from Panhandle not later than April 1, 1948.

Applicant states that under its contract, and the amendments thereto, with Panhandle, on file with the Commission as rate schedules, Applicant is entitled to take and Panhandle is obligated to deliver, a daily maximum of 125 million cubic feet of natural gas, and that Applicant proposes to take this amount at substantially a 100% load factor.

Applicant estimates the total overall capital cost of the facilities which it proposes to construct to be $1,014,400, all of which amount Applicant proposes to finance by the use of treasury funds.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Michigan Consolidated Gas Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the Rules of Practice and Procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

[Docket No. G-920]

IROQUOIS GAS CORP.

NOTICE OF APPLICATION

JULY 15, 1947.

Notice is hereby given that on June 30, 1947, Iroquois Gas Corporation (Applicant), a New York corporation having its principal place of business at Buffalo, New York, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of approximately 15.2 miles of 12¾-inch O. D. pipeline, as a loop section in Applicant's main transmission system, from Applicant's Zoar By-pass, located in the Town of Collins, Erie County, New York, and running northerly to Eckert Road junction near the boundary line of the Towns of Eden and Hamburg, Erie County, New York.

Applicant states that the purpose of the proposed loop section is to eliminate excessive pressure drop which now occurs in the transmission system north of Zoar By-pass, particularly between Zoar By-pass and Eckert Road junction. The application recites that the capacity of the existing lines between Zoar By-pass and the city gate stations of Buffalo, with pressures of 110 pounds at Zoar By-pass and 65 pounds at the city gate stations is approximately 68,000 Mcf per day. Applicant estimates that the proposed loop line will provide an additional 11,000 Mcf on peak days. Applicant states that its estimated deficiency on the 1946–1947 peak days was 10,000 Mcf, of which a substantial portion was for domestic customers. No main line industrial customers exist or are contemplated.

Applicant estimates the total over-all cost of the proposed construction at $310,000. Applicant proposes to pay for the proposed construction partly with its own funds and partly with a loan by short-term notes from its parent, National Fuel Gas Company. A joint application for approval of these loans has been filed with the Securities and Exchange Commission.

Applicant recites that prior to the war it served 900 Btu. gas in its Mixed Gas Area, but that with the shortage of natural gas in the Appalachian area during the war, the mixed gas ranged from 840–860 Btu. Applicant states that it desires to resume the serving of 900 Btu. mixed gas as soon as conditions permit.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Iroquois Gas Corporation is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

INTERSTATE COMMERCE COMMISSION

[Nos. 29663, 29664]

TRANSCONTINENTAL RAIL RATES AND INTERCOASTAL WATER RATES

JULY 15, 1947.

Upon consideration of the motion filed by respondents in No. 29664 May 12, 1947, the Commission has broadened the scope of these proceedings to include rates on the additional commodities named in that motion. The motion has been denied in so far as it sought inclusion of certain practices outlined therein.

In accordance with the third paragraph of the Commission's notice of March 17, 1947, and for the same purposes as set forth therein, the respondents in these proceedings are hereby directed to confer for mutual consideration of proposals of adjustment of the rates involved in these proceedings as broadened by the orders of July 7, 1947, and to make public for information of interested shippers and others concerned, at the earliest practicable date, any proposals so arrived at.

By the Commission.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9874

CREATING AN EMERGENCY BOARD TO INVESTIGATE DISPUTES BETWEEN THE SOUTHERN PACIFIC COMPANY (PACIFIC LINES), THE NORTHWESTERN PACIFIC RAILROAD COMPANY, AND THE SAN DIEGO & ARIZONA EASTERN RAILWAY COMPANY, AND CERTAIN OF THEIR EMPLOYEES

WHEREAS disputes, consisting of approximately 531 cases listed in "Official ballot" dated January 6, 1947, exist between the Southern Pacific Company (Pacific Lines), the Northwestern Pacific Railroad Company, and the San Diego & Arizona Eastern Railway Company, carriers, and certain of their employees represented by the Brotherhood of Locomotive Engineers, a labor organization; and

WHEREAS these disputes have not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS these disputes, in the judgment of the National Mediation Board, threaten substantially to interrupt interstate commerce within the States of Arizona, California, Louisiana, Nevada, New Mexico, Oregon, Texas, Utah, and Washington to a degree such as to deprive that portion of the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U. S. C. 160), I hereby create a board of three members, to be appointed by me, to investigate the said disputes. No member of the said board shall be pecuniarily or otherwise interested in any organization of railway employees or any carrier.

The board shall report its findings to the President with respect to the said disputes within thirty days from the date of this order.

As provided by section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by any of the above-named carriers or their employees in the conditions out of which the said disputes arose.

EXECUTIVE ORDER 9875

PROVIDING AN INTERIM ADMINISTRATION FOR THE TRUST TERRITORY OF THE PACIFIC ISLANDS

WHEREAS the Trust Territory of the Pacific Islands (hereinafter referred to as the trust territory) has been placed under the trusteeship system established in the Charter of the United Nations by means of a trusteeship agreement (hereinafter referred to as the agreement), approved by the Security Council of the United Nations on April 2, 1947, and by the United States Government on July 18, 1947, after due constitutional process; and

WHEREAS the United States of America, under the terms of the agreement, is designated as the administering authority of the trust territory and has assumed obligations for the government thereof; and

WHEREAS it is necessary to establish an interim administration of the trust territory, pending the enactment of appropriate legislation by the Congress of the United States providing for the future government thereof:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States, it is ordered as follows:

1. The military government in the former Japanese Mandated Islands is hereby terminated, and the authority and responsibility for the civil administration of the trust territory, on an interim basis, is hereby delegated to the Secretary of the Navy.

2. The Secretary of the Navy shall, subject to such policies as the President may from time to time prescribe, and, when appropriate, in collaboration with other departments or agencies of the Federal Government, carry out the obligations which the United States, as

Chapter VII—Sugar Rationing Administration, Department of Agriculture

[Gen. Order 2, Amdt. 1]

PART 705—ADMINISTRATION

AUTHORIZATION TO FIX COMMUNITY CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the authority conferred on the Secretary of Agriculture by the Sugar Control Extension Act of 1947, *It is ordered*, That paragraph (a) of General Order No. 2 be amended to read as follows:

(a) The Administrator of the Sugar Rationing Administration and any Director of a field office of the Sugar Rationing Administration, Department of Agriculture, may, by order, fix community dollar-and-cents ceiling prices, in any area or locality within their respective jurisdictions, for sales at retail by all sellers (including "retail route sellers" and "health food stores") of any food item subject to price control under the jurisdiction of the Secretary of Agriculture. If an area for which it is deemed appropriate to fix community dollar-and-cents ceiling prices lies within the jurisdiction of more than one field office of the Sugar Rationing Administration, Department of Agriculture, the Administrator may authorize the Field Office Director for the area or locality in which the majority of the sellers to be covered by the order is located to issue an order establishing or adjusting community dollar-and-cents ceiling prices for all sellers in the marketing area.

This amendment shall become effective July 9, 1947.

Issued this 18th day of July 1947.

N. E. DODD,
Acting Secretary of Agriculture.

Opinion Accompanying Amendment No. 1 to General Order No. 2

The accompanying amendment to General Order No. 2 transfers the authority to fix community dollar-and-cents ceiling prices from Regional Sugar Executives and Deputy Regional Sugar Executives of the Sugar Rationing Administration, Department of Agriculture to Field Office Directors of the Sugar Rationing Administration, Department of Agriculture.

This change is necessitated by changes in the field organization of the Sugar Rationing Administration, Department of Agriculture.

PART 705—ADMINISTRATION

DISTRIBUTION OF BASES TO CERTAIN FORMER MEMBERS OF THE ARMED FORCES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Revised General Ration Order 18 is amended in the following respects:

1. Section 8.1 (e) is amended to read as follows:

(e) "District Office" means a Field Office of the Sugar Rationing Administration, Department of Agriculture.

2. Section 8.1 (f) is amended to read as follows:

(f) "Sugar Branch Office" means a Field Office of the Sugar Rationing Administration, Department of Agriculture.

This amendment shall become effective July 9, 1947.

Issued this 18th day of July 1947.

N. E. DODD,
Acting Secretary of Agriculture.

Rationale Accompanying Amendment No. 63 to Third Revised Ration Order 3, Amendment No. 8 to Revised General Ration Order 18, and Amendment No. 3 to General Ration Order 19

By a reorganization of the Sugar Rationing Administration, the present Regional and Sugar Branch Offices are consolidated and in their stead eight Field Offices of the Sugar Rationing Administration, Department of Agriculture, are established in Boston, New York, Cleveland, Atlanta, Dallas, Chicago, Denver and San Francisco. These eight Field Offices encompass the remaining functions of the former Regional and Sugar Branch Offices.

Third Revised Ration Order 3, Revised General Ration Order 18 and General Order 19 are therefore amended to incorporate the changes effected in the organization of the Sugar Rationing Administration as a result of this consolidation.

PART 705—ADMINISTRATION

DISTRIBUTION OF BASES TO CERTAIN NEW USERS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

General Ration Order 19 is amended to read as follows:

1. The first sentence of section 5.1 is amended to read as follows: "Any person may appeal from any action of the Field Office of the Sugar Rationing Administration, Department of Agriculture, adverse to such person."

2. Section 6.1 (b) is amended to read as follows:

(b) "Branch Office" means a Field Office of the Sugar Rationing Administration, Department of Agriculture.

3. Section 6.1 is amended by adding a new paragraph (f) to read as follows:

(f) "Regional Office" means a Field Office of the Sugar Rationing Administration, Department of Agriculture.

This amendment shall become effective July 9, 1947.

Issued this 18th day of July 1947.

N. E. DODD,
Acting Secretary of Agriculture.

Rationale Accompanying Amendment No. 63 to Third Revised Ration Order 3, Amendment No. 8 to Revised General Ration Order 18, and Amendment No. 3 to General Ration Order 19

By a reorganization of the Sugar Rationing Administration, the present Regional and Sugar Branch Offices are consolidated and in their stead eight Field Offices of the Sugar Rationing Administration, Department of Agriculture, are established in Boston, New York, Cleveland, Atlanta, Dallas, Chicago, Denver and San Francisco. These eight Field Offices encompass the remaining functions of the former Regional and Sugar Branch Offices.

Third Revised Ration Order 3, Revised General Ration Order 18 and General Order 19 are therefore amended to incorporate the changes effected in the organization of the Sugar Rationing Administration as a result of this consolidation.

PART 707—RATIONING OF SUGAR

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Third Revised Ration Order 3 is amended in the following respects:

1. Section 17.1 (b) is amended by revoking subparagraph (4) and redesignating subparagraph (5) as subparagraph (4).

2. Section 17.3 (e) is revoked.

3. Section 17.5 (c) is amended by amending the last sentence thereof to read as follows: "In all other cases applications must be forwarded to the Washington Office of the Sugar Rationing Administration."

4. Section 17.7 is amended by revoking paragraph (g) and redesignating paragraph (h) as paragraph (g).

5. Section 17.7 (d) (3) is revoked.

6. Section 17.8 is amended by revoking paragraph (f) and redesignating paragraph (g) as paragraph (f).

7. Section 22.17 is amended to read as follows:

SEC. 22.17 *Emergency power of Field Office Director.* (a) If a Field Office Director finds that an emergency exists in any area in his region because of the occurrence or imminence of a public disaster (such as a flood, fire or tornado) he may, with the approval of the Administrator of the Sugar Rationing Administration, declare that a public emergency exists in such area.

(b) A Field Office Director who has pursuant to paragraph (a) declared that a public emergency exists in an area, is authorized to take such action with respect to sugar rationed under this order, as he shall deem necessary or advisable to meet or alleviate such emergency, including without limitation, the granting of individual or blanket waivers of or exceptions to this order under such terms and conditions as he shall deem necessary. The authority of the Field Office Director shall continue until he (or the Administrator of the Sugar Rationing Administration) decides that the state of public emergency has ceased to exist.

8. Article XXIII is amended to read as follows:

SEC. 23.1 *Appeals.* (a) Any person may appeal from any action of a Field Office which is adverse to such person. Such appeal shall be brought in accordance with the terms and provisions of this article.

SEC. 23.2 *Appeal to Washington Office: How brought.* (a) An appeal to

[1] 11 F. R. 177, 14281.

the Washington Office from an adverse decision of a Field Office shall be brought by the person entitled to bring such appeal in the following manner:

(1) A written statement of appeal shall be filed with the SRA Field Office. The statement of appeal shall state the basis for the appeal and any other facts deemed by the appellant to be pertinent. The statement of appeal may be accompanied by documentary evidence supporting the appeal.

(2) Within five days of such filing, the Field Office Director shall forward the statement of appeal together with his decision and all other pertinent records or papers to the Washington Office, unless the Field Office Director shall, within such five-day period, upon reconsideration, reverse his decision.

(b) The Washington Office may require the appellant to furnish additional pertinent information.

(c) The Washington Office shall notify the appellant and the Field Office Director in writing of its decision affirming, modifying or reversing the decision of the Field Office Director. It shall, if it modified or reversed the decision, direct the Field Office Director to take such action as may be necessary to give effect thereto.

(d) When the Washington Office has acted upon the appeal, the record of the case shall be returned to the Field Office where it is to be filed. Thereafter there shall be no further right of appeal.

SEC. 23.3 *Time within which appeal must be brought.* (a) A Field Office shall give notice of its decision, except as otherwise provided by this order, to the person who has the right of appeal or to his agent, at its office or by mail. The appeal from such decision must be received in the Field Office within 30 days after such mailing or the giving of such other notice. However, if the appellant shows good cause for his failure to file his appeal within the time prescribed by this section, such thirty day period may be waived.

9. Section 25.1 (c) (10) is amended to read as follows:

(10) "District Office" means a Field Office of the Sugar Rationing Administration, Department of Agriculture.

10. Section 25.1 (c) (30) is amended to read as follows:

(30) "Sugar Branch Office" means a Field Office of the Sugar Rationing Administration, Department of Agriculture.

11. Section 25.1 (c) is amended by adding new subparagraphs (32), (33), and (34) to read as follows:

(32) "Regional Office" means a Field Office of the Sugar Rationing Administration, Department of Agriculture.

(33) "D.V.I. Center" means a Field Office of the Sugar Rationing Administration, Department of Agriculture.

(34) "Field Office" means a Field Office of the Sugar Rationing Administration, Department of Agriculture.

This amendment shall become effective July 9, 1947.

Issued this 18th day of July, 1947.

N. E. DODD,
Acting Secretary of Agriculture.

Rationale Accompanying Amendment No. 63 to Third Revised Ration Order 3, Amendment No. 8 to Revised General Ration Order 18, and Amendment No. 3 to General Ration Order 19

By a reorganization of the Sugar Rationing Administration, the present Regional and Sugar Branch Offices are consolidated and in their stead eight Field Offices of the Sugar Rationing Administration, Department of Agriculture, are established in Boston, New York, Cleveland, Atlanta, Dallas, Chicago, Denver and San Francisco. These eight Field Offices encompass the remaining functions of the former Regional and Sugar Branch Offices.

Third Revised Ration Order 3, Revised General Ration Order 18 and General Order 19 are therefore amended to incorporate the changes effected in the organization of the Sugar Rationing Administration as a result of this consolidation.

[1] This table does not apply to baby food.

2. The heading of section 19.11 is amended to read as follows:

[1] 11 F.R. 177, 14281.

SEC. 19.11 *Provisional allowance for pickling cucumbers, cauliflower, onions or watermelon, including relishes made from these products.*

3. Section 19.11 (a) is amended to read as follows:

(a) *General.* An industrial user may obtain a provisional allowance of sugar for pickling cucumbers, cauliflower, onions and watermelon, including relishes made from these products. (Wherever the words "cucumbers, cauliflower, onions and watermelon" are used in this section, they shall include and have reference to relishes made from these products.)

4. Section 19.11 (b) (1) (i) is revoked and subparagraphs (ii), (iii) and (iv) are redesignated subparagraphs (i), (ii) and (iii) respectively.

5. Section 19.11 (b) (1) (iii) as redesignated is amended to read as follows:

(iii) The average amount of sugar which he used per pound for each product during 1941.

6. Section 19.11 (b) (2) is amended to read as follows:

(2) The application must be made on SRA Form R–359 to the Field Office with which the industrial user is registered. The applicant must give all of the information required by that form except that the number of pounds of each product to be packed without sugar need not be stated.

7. The first sentence of section 19.11 (e) is amended to read as follows: "An industrial user who, during a calendar month, has sugar for pickling cucumbers, cauliflower, onions or watermelon, including relishes made from these products, must, before the sixteenth day of the following month, file with the Field Office with which he is registered, a report on SRA Form R–359–A giving all of the information required by that form, except that the number of pounds of each product packed without sugar need not be stated."

This amendment shall become effective July 18, 1947.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 18th day of July 1947.

N. E. DODD,
Acting Secretary of Agriculture.

Rationale Accompanying Amendment No. 64 to Third Revised Ration Order 3

It has been found that fruits packed in light syrup and in water have been accumulating in the warehouses because of the buyer's preference to fruits packed in heavy or extra heavy syrup. It is felt, therefore, that since the sugar allocations have increased this year and since the issuance of sugar on the provisional allowance program on the West Coast alone is 86 million pounds less in the first six months of 1947 than in the corresponding period last year, packers of fruit should be permitted to utilize sufficient sugar per case to enable them to pack their fruit so that it will be salable under the present market conditions. This amendment, therefore, provides that an industrial user may now obtain for canning and bottling fruit the amount of sugar required to pack fruit in extra heavy syrup as set forth in the Table, or 100 percent of his 1941 use of sugar per case, whichever is higher.

This amendment also permits picklers to obtain increased quantities of sugar for the pickling of cucumbers, cauliflower, onions and watermelons including relishes made from these products. This is accomplished by the elimination of pickles packed without sugar in arriving at his average usage. This action is also necessitated by a large accumulation of dills and sours for which the market has diminished.

PART 707—RATIONING OF SUGAR

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Third Revised Ration Order 3 is amended in the following respects:

1. Section 2.10 (a) (5) is amended to read as follows:

(5) Cheese; other dairy products not included in other items; frozen eggs; and sugared egg yolks.

2. Section 19.6 (b) (1) (i), (ii) and (iii) are amended to read as follows:

(i) The total number of cases of 24 No. 2 cans (or equivalent) of each kind of soup produced by him during 1941 or during the period from August 1, 1943 through June 30, 1944;

(ii) The total amount of sugar used by him for each kind of soup during 1941 or during the period from August 1, 1943 through June 30, 1944;

(iii) The average number of pounds of sugar which he used per case of 24 No. 2 cans (or equivalent) of each kind of soup during 1941 or during the period from August 1, 1943 through June 30, 1944.

3. Section 19.6 (c) (2) (i) is amended to read as follows:

(i) For each kind of soup, the number of cases of 24 No. 2 cans (or equivalent) of soup which the applicant expects to can or bottle during the quarter is multiplied by the average number of pounds of sugar which he used for each case of 24 No. 2 cans (or equivalent) during 1941 or during the period from August 1, 1943 through June 30, 1944.

4. The second sentence of section 19.6 (d) is amended to read as follows: He may not use more sugar for any case of 24 No. 2 cans (or equivalent) of that kind of canned or bottled soup than the average number of pounds of sugar he used for each case of 24 No. 2 cans (or equivalent) of that kind of soup during 1941 or during the period from August 1, 1943 through June 30, 1944.

5. The heading of section 19.8 is amended to read as follows:

SEC. 19.8 *Provisional allowance for manufacturing condensed milk.*

6. Section 19.8 (a) is amended to read as follows:

(a) *General.* An industrial user may apply for a provisional allowance of sugar to manufacture condensed milk.

7. Section 19.8 (b) is amended to read as follows:

(b) *How to apply.* Application for such provisional allowance must be made in duplicate on SRA Form R–360 and must be filed with the Washington Office of the Sugar Rationing Administration, Department of Agriculture. The applicant must give all of the information required by that form. The application may be made on and after the first day of the second month preceding the month in which the sugar is to be used. An industrial user who has not previously applied for a provisional allowance of sugar to make sweetened condensed milk, must at the time he files his first application on SRA Form R–360, file OPA Form R–361 with the Washington Office.

8. Section 19.8 (e) is amended to read as follows:

(e) *Records.* An industrial user who obtains sugar under this section must keep records of his use of such sugar at his principal business office as long as this order remains in effect. Such records shall consist of a copy of all of his applications filed on SRA Form R–360 and a copy of OPA Form R–361.

This amendment shall become effective July 21, 1947.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 18th day of July 1947.

N. E. DODD,
Acting Secretary of Agriculture.

Rationale Accompanying Amendment No. 65 to Third Revised Ration Order 3

This amendment permits an industrial user to apply for a provisional allowance of sugar to manufacture condensed milk whether or not the condensed milk is packaged in containers holding more than one gallon. Prior to this amendment, a provisional allowance of sugar for the manufacture of condensed milk was granted only if such condensed milk would be packaged in containers holding more than one gallon. This action permits manufacturers to obtain a provisional allowance of sugar in order to utilize their excess milk in the production of sweetened condensed milk in bulk, or in the production of sweetened condensed milk in case goods.

This amendment also permits an industrial user to obtain and use for each case of 24, No. 2 cans (or equivalent) of soup which he will bottle or can during the quarter a provisional allowance of sugar equal to 100 percent of his average use of sugar for each case of 24 No. 2 cans (or equivalent) during 1941 or during the period from August 1, 1943 through June 30, 1944. Amendment 51 changed the base period from August 1, 1943 through June 30, 1944 to 1941 for soup manufacturers. This change to 1941 base period use enabled manufacturers to obtain a provisional allowance for many kinds of soups for which there is no historic usage from August 1, 1943 through June 30, 1944. However, many manufacturers during the war because of Army requirements, tin restrictions and other reasons shifted from the production of ready-to-eat soups to condensed soups which they had not manufactured previously. Therefore, requiring industrial users to use 1941 instead of the period from August 1, 1943 through June 30, 1944, as their base period for soup places some of them in a hardship position.

This amendment, therefore, permits an industrial user to obtain for canning or bottling soup either 100 per cent of his 1941 use of sugar per case for each kind of soup or 100 per cent of his use of sugar per case for each kind of soup during the period from August 1, 1943 through June 30, 1944.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, War Department

PART 204—DANGER ZONE REGULATIONS

LAGUNA MADRE AND CORPUS CHRISTI BAY, TEXAS

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), section 204.93b is hereby prescribed to provide a restricted area for use by the Naval Air Training Bases, Corpus Christi, Texas:

§ 204.93b *Laguna Madre and Corpus Christi Bay, Texas; Restricted Area, Naval Air Training Bases, Corpus Christi, Texas*—(a) *The area.* Beginning at a point on the south shore of Corpus Christi Bay at the "North Gate" of the Naval Air Station in approximate latitude 27°42'20" north, longitude 97°17'15" west, thence 19°19', 4,000 yards, to a beacon located in Corpus Christi Bay in latitude 27°44'12" north, longitude 97°16'31" west, thence 111°22', 11,286 yards, to a beacon located on the west shore of Mustang Island in latitude 27°42'10" north, longitude 97°10'40" west, thence 245° to a point on Encimal Peninsula in latitude 27°40' north, longitude 97°16'15" west, thence generally northerly along the west shore line of Laguna Madre to Flower Bluff Point, and thence westerly along the south shore of Corpus Christi Bay to the point of beginning.

(b) *The regulations.* (1) No person, vessel, or craft of any type, except vessels operating along the route of the Gulf Intracoastal Waterway, shall enter or remain in the restricted area at any time, day or night, except as provided in this section.

(2) Clearance for water craft operating in the restricted area on set schedules and on prescribed routes may be granted upon written application to the enforcing officer.

(3) Changes in schedules and routes may be made upon written application to the enforcing officer.

(4) Off schedule operation of craft or operation over unprescribed routes may, in cases of necessity, be authorized upon special application in each case. These applications shall be made in writing to the enforcing officer, except as provided for in paragraph (b) (5) of this section.

(5) Commercial fishermen and personnel of oil companies holding leases within the restricted area will not be required to operate on set schedules or over prescribed routes but, in order to enter the restricted area, either day or night, they shall have proper identification and the approval of the enforcing officer.

(6) Every practicable effort will be made by Naval activities, aerial, ground, or water, which are operating in the area to remain clear of any navigation authorized by these regulations but all navigation of private craft, except vessels and craft operating along the Gulf Intracoastal Waterway, shall be conducted at the operator's or owner's risk.

(7) These regulations will be enforced by the Commander, Naval Air Training Bases, Corpus Christi, Texas, through the use of such equipment and personnel as may properly be designated by him for the purpose. LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wages lower than the minimum rate applicable under section 6 of the act are issued under section 14 thereof and Part 522.5 (b) of the regulations issued thereunder (August 16, 1940, 5 F. R. 2862) to the employers listed below effective as of the date specified in each listed item below.

The employment of learners under these certificates is limited to the terms and conditions as designated opposite the employer's name. These certificates are issued upon the employers' representations that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided for in the regulations and as indicated on the certificates. Any person aggrieved by the issuance of the certificates may seek a review or reconsideration thereof.

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rate applicable under section 6 of the act have been issued to the firms hereinafter mentioned under section 14 of the act, Part 522 of the regulations issued thereunder (August 16, 1940, 5 F. R. 2862, and as amended June 25, 1942, 7 F. R. 4725), and the determinations, orders and/or regulations hereinafter mentioned. The names and addresses of the firms to which certificates were issued, industry, products, number of learners, learner occupations, wage rates, learning periods, and effective and expiration dates of the certificates are as follows:

Independent Telephone Learner Regulations, July 17, 1944 (9 F. R. 7125). The special learner certificate(s) issued to the following company(ies) under the above regulations provide for the employment of learners in the occupation of commercial switchboard operator for a period not in excess of 480 hours at not less than 30 cents per hour for the first 320 hours and 35 cents per hour for the remaining 160 hours of the learning period. The number of learners authorized to be employed depends on the number of operators in the exchange, i. e., one learner if the exchange employs 8 operators or less, two learners if the exchange employs from 9 to 18 operators, etc. See regulations, Part 522, § 522.083.

Public Utilities Company, Crossett, Arkansas; effective July 18, 1947, expiring July 17, 1948. (This certificate makes special provision for the payment of learners at a rate not less than 35 cents per hour for 480 hours.)

Fayette County Mutual Telephone Company, Fayette, Iowa; effective July 9, 1947, expiring July 8, 1948.

Regulations, Part 522, Regulations Applicable to the Employment of Learners.

Imprenta Venezuela, San Juan, Puerto Rico; to employ one (1) learner in the printing industry as a typesetter at not less than 16 cents an hour for the first 690 hours; not less than 21 cents an hour for the second 690 hours; and not less than 26 cents an hour for the third 690 hours; and for every hour thereafter, not less than the minimum established by any applicable wage order that may be in effect at the termination of the learning period. If, however, no applicable wage order is in effect at the time of the termination of the learning period, the statutory minimum required by section 6 of the Fair Labor Standards Act must be paid. This certificate is effective June 25, 1947 and expires June 24, 1948.

El Mundo, Inc., San Juan, Puerto Rico; to employ eight (8) learners in the newspaper printing industry, as follows: five (5) learners as linotypists and three (3) learners as typesetters at not less than 21 cents an hour for the first 690 hours; not less than 27 cents an hour for the second 690 hours; and not less than 33 cents an hour for the third 690 hours; and for every hour thereafter, not less than the minimum established by any applicable wage order that may be in effect at the termination of the learning period. If, however, no applicable wage order is in effect at the time of the termination of the learning period, the statutory minimum required by section 6 of the Fair Labor Standards Act must be paid. This certificate is effective July 2, 1947 and expires July 1, 1948.

The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of the applicable determinations, orders and/or regulations cited above. These certificates have been issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of regulations, Part 522.

Signed at Washington, D. C., this 14th day of July 1947.

UNITED CORP.

NOTICE OF FILING OF AMENDMENT TO PLAN AND ORDER RECONVENING HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 11th day of July 1947.

Notice is hereby given that the United Corporation ("United"), a registered holding company, has filed an amendment to a plan heretofore filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 in respect to

the retirement of its $3 Cumulative Preference Stock (Holding Company Act Release No. 7496). All interested persons are referred to said amendment which is on file in the offices of this Commission for a statement of the transactions therein proposed. The amendment implements the plan as heretofore filed in respect to the matter summarized as follows:

The amendment proposes that each share of the outstanding $3 Cumulative Preference Stock of United, together with the right to any accrued dividends thereon, and all other rights and claims represented thereby, be cancelled and retired by paying to the holder thereof a package consisting of the following:

(a) One share of common stock of Public Service Electric and Gas Company and one-tenth of a share of the common stock of South Jersey Gas Company, provided the Management's amended plan in the matter of Public Service Corporation of New Jersey, and Its Subsidiary Companies, File Nos. 59–86 and 54–148, (Holding Company Act Release Nos. 7336 and 7478), shall, meanwhile, have become effective; otherwise, one share of the common stock of the Public Service Corporation of New Jersey;

(b) One share of the common stock of Columbia Gas & Electric Corporation;

(c) One-fourth share of the common stock of The Cincinnati Gas & Electric Company; and

(d) $6.00 in cash.

The amendment states that this proposal is made on the basis of present operating and financial conditions of the issuing companies, the present condition of the securities markets, and political, financial, and economic conditions generally prevailing as of the date of the amendment, and provides that United may withdraw or amend the plan in any respect prior to or subsequent to final approval by the Commission or by any Court of competent jurisdiction to which application may be made by the Commission for approval and enforcement of the plan and before the plan shall have been consummated pursuant to the order or decree of such Court; subject, however, to approval by the Commission or the Court, or both.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that the hearing heretofore held with respect to the plan and adjourned on July 9, 1947, should be reconvened for the purpose of adducing further evidence and affording all interested persons further opportunity to be heard with respect to the matters and questions relating to the plan as filed and any amendment thereto as heretofore specified in this Commission's order of June 17, 1947 issued in the above-entitled matter (Holding Company Act Release No. 7496):

It is ordered, That the hearing in the above entitled proceeding be reconvened on September 9, 1947, at 10 a. m., e. d. s. t., before the same Hearing Officer heretofore designated, in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such date, the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. Any person not heretofore having appeared in these proceedings and now desiring to be heard or proposing to intervene herein shall file with the Secretary of the Commission, on or before September 5, 1947, his request and application therefor as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid reconvened hearing by mailing copies of this order by registered mail to The United Corporation, and that notice be given to all other persons by general release of the Commission distributed to the press and mailed to the mailing list for release issued pursuant to the Public Utility Holding Company Act of 1935, and that further notice be given to all persons by publication of this notice and order in the FEDERAL REGISTER; and that The United Corporation give notice of this hearing to all holders of its common and preference stocks (insofar as the identity of such stockholders is known and available to The United Corporation) by mailing to each of said stockholders a copy of this notice and order at least 30 days prior to September 9, 1947.

By the Commission.

[File Nos. 59–11, 59–17, 54–25]

UNITED LIGHT AND RAILWAYS CO. ET AL.

NOTICE OF FILING OF PLAN AND NOTICE OF AND ORDER FOR HEARING AND ORDER OF CONSOLIDATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 14th day of July A. D. 1947.

In the matter of The United Light and Railways Company and American Light & Traction Company, et al., respondents and applicants; File Nos. 59–11, 59–17 and 54–25, Application No. 31.

Notice is hereby given that The United Light and Railways Company ("Railways"), a registered holding company, and its subsidiary holding company, American Light & Traction Company ("American Light"), filed a joint appplication, numbered 31, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") for approval of a plan designed to effectuate compliance with that portion of an order issued by the Commission on August 5, 1941 directing, inter alia, that Railways sever its relationship with American Light and its subsidiaries, and directing American Light to dispose of its interests in all properties outside Michigan and adjoining States and its minority investments including that in The Detroit Edison Company ("Detroit Edison"). The plan is also stated to be designed to effectuate compliance by American Light with section 11 (b) (1) and (b) (2) of the act.

In general, the plan provides for (1) the continuance, without change in its capital stock structure, of American Light as a registered holding company owning the gas utility system consisting of the properties owned by Michigan Consolidated Gas Company, Milwaukee Gas Light Company and Milwaukee Solvay Coke Company, and also owning the properties to be owned and operated by Michigan-Wisconsin Pipe Line Company and Austin Field Pipe Line Company and such additional properties as may hereafter be acquired by American Light or its subsidiaries with the approval of State and Federal regulatory bodies having jurisdiction over such acquisitions; (2) the sale or other disposition by American Light of Madison Gas and Electric Company stock and its minority interest in Detroit Edison; and (3) the sale or other disposition by Railways of its interests, direct or indirect, in, and its holdings of stock of, American Light and its subsidiaries, including Madison Gas and Electric Company and Detroit Edison.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed, which are described by applicants as follows:

1. When the plan is approved, American Light will discontinue the payment of cash dividends on its common stock and commence the payment of dividends in Detroit Edison stock. It is contemplated that the market value of Detroit Edison stock distributed (plus cash paid in lieu of fractional shares) will approximate the corporate net income applicable to the common stock of American Light during the period in which dividends are paid in this manner.

2. To the extent which may be necessary, resources and credit of American Light will be utilized to assist in financing the new pipe line system. The common stock to be issued by the two pipe line companies will be retained in the integrated system and senior securities of those companies will be issued to others. Construction funds will be needed by the pipe line companies at various intervals and the funds to be invested by American Light in the pipe line enterprise will be provided (a) from cash now on hand, (b) from cash accumulated by virtue of the discontinuance of cash dividends on common stock and (c) from the sale of shares of Detroit Edison stock.

3. Applicants state that in order to protect the preferred stockholders of American Light by maintaining at all times a high ratio of earnings to preferred stock dividend requirements, the shares of Detroit Edison stock not distributed as dividends or sold for pipe line purposes and the stock of Madison Gas and Electric Company will be retained during the period the pipe line is under construction and no earnings are accruing from that source. When earnings from the pipe line commence to accrue, an additional amount of Detroit Edison stock will be sold to provide funds to meet the reasonably foreseeable needs of American Light and its subsidiaries, and such stock of Detroit Edison as may then remain, together with the common stock of Madison Gas and Electric Company, will be distributed pro rata to the common stockholders of American Light.

4. As soon as practicable after the plan is approved, Railways will sell or otherwise dispose of all shares of preferred stock of American Light held by it. Railways will also promptly sell or otherwise dispose of all shares of Detroit Edison and Madison Gas and Electric Company received by it in distributions made by American Light. The manner in which such sales or other dispositions are to be made shall be subject to the approval of the Commission.

5. When the plan is approved, Railways will discontinue the payment of cash dividends on its common stock and commence the payment of dividends in common stock of American Light. It is contemplated that dividends will be paid in this manner until earnings from the pipe line commence to accrue and that the market value of American Light common stock distributed (plus cash paid in lieu of fractional shares) will approximate the corporate net income of Railways available for common stock during the period in which dividends are paid in this manner. The then remaining American Light common stock held by Railways will be offered for sale to the common stockholders of Railways or otherwise disposed of upon terms and conditions to be submitted to the Commission for approval.

6. In all distributions of common stock of Detroit Edison and Madison Gas and Electric Company made by American Light and in all distributions of common stock of American Light made by Railways, cash may be paid to common stockholders of American Light and Railways in lieu of distributing fractional shares or scrip. The number of shares to be distributed, the basis of distribution, and the method of determining the amount of cash to be paid in lieu of fractional shares or scrip shall be subject to the approval of the Commission.

7. When the Commission may determine that it is desirable to segregate the management of American Light from the management of Railways, the interlocking of officers and directors and the contractual relations between the American Light system and the Railways system shall be terminated to the extent deemed necessary by the Commission.

8. To obtain funds needed for pipe line purposes and to expedite the financing of the pipe line companies, separate applications will be filed requesting prompt approval of the financing program.

Applicants state that Application 21, as amended, and the plan set forth therein providing for the liquidation and dissolution of American Light, heretofore filed in these proceedings, are withdrawn.

Applicants also state that approval and consummation of the plan will effect full compliance by both Railways and American Light with the provisions of the Commission's order of August 5, 1941; and, insofar as American Light is concerned, it is stated that there will remain no questions for determination under subsections (b) (1) or (b) (2) of section 11, and that approval of the plan will enable Railways and American Light to complete compliance with the order of August 5, 1941 in a feasible and expeditious manner.

The Commission being required by the provisions of section 11 (e) of the act, before approving any plan submitted, to find after notice and opportunity for hearing that the plan, as submitted or as modified, is necessary to effectuate the provisions of subsection (b) of section 11, and is fair and equitable to the persons affected thereby; and it appearing appropriate that notice of the filing of the plan be given and a hearing held with respect to the plan, and that said plan shall not become effective except pursuant to further order of the Commission; and

The Commission having heretofore instituted proceedings under sections 11 (b) (1) and 11 (b) (2) of the act and applicants having heretofore submitted, pursuant to section 11 (e) of the act, a plan to effectuate compliance with the Commission's order of August 5, 1941, and public hearings having been held in said proceedings and the record therein closed and the issues involved having been submitted to the Commission for its determination; and

It appearing to the Commission that the evidence in the consolidated proceedings under sections 11 (b) (1), 11 (b) (2) and 11 (e) of the act with respect to applicants and their subsidiaries (File Nos. 54–11, 54–17 and 54–25) is or may be relevant to the issues presented by the proposed plan and that the prior proceedings and the proceedings in respect of the proposed plan may involve common questions of law and fact and should be consolidated;

It is ordered, That the consolidated proceedings under File Nos. 59–11, 59–17 and 54–25 and the proceedings with respect to the instant application be, and the same hereby are, consolidated without prejudice, however, to the Commission's right upon its own motion or the motion of any interested party, to strike such portions of the record of the prior proceedings as may be deemed irrelevant, and without prejudice to the Commission's right upon its own motion or the motion of any interested party to separate for determination any of the issues involved in the consolidated proceedings.

It is further ordered, That a hearing under the applicable provisions of the act and the rules and regulations thereunder be held at 10:00 a. m., e. d. s. t., on August 12, 1947, in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as may be designated on that day by the hearing room clerk in Room 318; and that any person desiring to be heard in connection with this proceeding or proposing to intervene herein, shall file with the Secretary of the Commission on or before August 8, 1947, his request and application therefor as provided in Rule XVII of the rules of practice of the Commission.

It is further ordered, That William W. Swift, or any other officer or officers of the Commission designated by it for that purpose, shall preside at any such hearing and is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of the application and that, upon the basis thereof, the following matters and questions are presented for consideration without prejudice to its specifying additional matters and questions upon further examination:

(1) Whether the plan, as submitted or as modified, is necessary to effectuate the provisions of section 11 (b) of the act and constitutes an appropriate step toward compliance with the Commission's order of August 5, 1941;

(2) Whether the plan, as submitted or as modified, is fair and equitable to the persons affected thereby;

(3) Whether the terms of the plan are sufficiently definite and specific to constitute a plan within the meaning of section 11 (e) and, if not, in what respects the plan should be amended or modified;

(4) Whether and to what extent the plan should be amended or modified or terms and conditions imposed to ensure more expeditious compliance by American Light and by Railways with the Commission's order of August 5, 1941;

(5) Whether the gas utility properties which American Light proposes to retain under the plan constitute an integrated public-utility system and whether the other properties proposed to be retained or acquired are properly retainable under the standards specified in section 11 (b) (1) of the act;

(6) Whether the plan, as submitted or as modified, should be approved, or, if disapproved, whether the plan set forth in Application 21, as submitted or as it may be modified by the Commission, or a plan proposed by the Commission, or by any person having a bona fide interest in accordance with the provisions of section 11 (d) of the act, should be approved for the purpose of effectuating the order of the Commission dated August 5, 1941, and for the purpose of effectuating compliance with the provisions of subsections (b) (1) and (b) (2) of section 11 of the act, and if a plan proposed by the Commission or a person having a bona fide interest is to be approved, what the terms and conditions of such plan should be;

(7) Whether and to what extent the plan should be amended or modified, or terms and conditions imposed, to ensure adequate protection of the public interest and the interests of investors and consumers and to prevent circumvention of the act and the rules and regulations thereunder;

(8) Whether or not applicants should be permitted to withdraw Application 21 and the plan set forth therein providing for the liquidation of American Light and, if so, upon what terms and conditions;

(9) Whether the transactions proposed in any such plan comply with all the requirements of the applicable provisions of the act and the rules and regulations promulgated thereunder;

(10) Whether the accounting treatment to be accorded the proposed trans-

actions conforms to sound accounting principles and the Uniform System of Accounts for Public Utility Holding Companies;

(11) Whether the plan should be amended to provide for the payment by applicants of such fees, expenses and other remuneration, in connection with the plan, as amended or as modified, and any transactions incident thereto, as the Commission may approve, determine, award or allocate;

(12) Whether the fees, expenses and other remuneration which may be claimed in connection with the plan and transactions incident thereto are necessary services and are reasonable in amount.

It is further ordered, That at said hearing particular attention be directed to the foregoing matters.

It is further ordered, That the Secretary the Commission shall serve notice of the aforesaid hearing by mailing copies of this notice and order by registered mail to applicants herein (Railways and American Light), Michigan Public Service Commission, Wisconsin Public Service Commission, City of Detroit, Federal Power Commission, and all persons who entered appearances at the hearing upon Application 21, and that notice to all other persons shall be given by publication of this notice and order in the FEDERAL REGISTER, and by a general release of the Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935.

It is further ordered, That Railways shall give further notice of this hearing to its common stockholders of record and American Light shall give further notice of this hearing to its preferred and common stockholders of record by mailing to each of said persons at his last known address a copy of this notice and order for hearing, at least fifteen days prior to the date of said hearing.

By the Commission.

PUBLIC SERVICE CO. OF INDIANA, INC., AND MIDDLE WEST CORP.

ORDER GRANTING APPLICATION

At a regular meeting of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 10th day of July A. D. 1947.

Public Service Company of Indiana, Inc. ("Public Service"), a public utility subsidiary of The Middle West Corporation ("Middle West"), a registered holding company, having filed an application with an amendment thereto pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 requesting an exemption from the provisions of sections 6 (a) and 7 thereof with respect to an issue of $11,077,800 principal amount of fifteen-year 2¾% convertible debentures, due May 1, 1962; and

Middle West having filed an application pursuant to sections 9 (a), 10 and 12 (d) of said act requesting permission to acquire the subscription warrants for said debentures to which it will be entitled under its preemptive rights as a stockholder and to sell them at the current market price during the subscription period; and

Public Service having further requested the termination of a condition imposed by the Commission, after proceedings heretofore had (File Nos. 70-1101 and 70-1102), restricting the payment of dividends on the common stock of said company; and

A public hearing having been held after appropriate notice and the Commission having been duly advised and having this day issued its findings and opinion herein;

It is ordered, On the basis of said findings and opinion, that said applications, as amended, be and the same are hereby granted, subject, however, to the terms and conditions prescribed in Rule U-24, and to the following additional conditions:

1. That the period during which the said debentures shall be convertible into shares of Public Service common stock shall terminate on December 31, 1951.

2. That jurisdiction be reserved over the payment of any fees or expenses to Continental Illinois National Bank and Trust Company of Chicago and to Chase National Bank of the City of New York by reason of their services in acting as agents in the execution of orders for the purchase or sale of warrants on behalf of stockholders.

By the Commission.

GENERAL PUBLIC UTILITY CORP. AND NEW YORK STATE ELECTRIC & GAS CORP.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 11th day of July 1947.

Notice is hereby given that a joint application-declaration has been filed with the Commission, pursuant to the Public Utility Holding Company Act of 1935, by General Public Utilities Corporation ("GPU"), a registered holding company, and New York State Electric & Gas Corporation ("New York State"), a subsidiary of GPU. Applicants-declarants have designated sections 6, 7, 9, 10 and 12 of the act and Rules U-42 and U-43 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than July 23, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues, if any, of fact or law raised by said joint application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after July 23, 1947, said joint application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said joint application-declaration, which is on file in the office of the Commission, for a statement of the transaction therein proposed which is summarized below:

The authorized common stock of New York State consists of 50,000 shares without par value, of which 46,484 shares are issued and outstanding; all of such shares are held by GPU. The stated capital applicable to such 46,484 shares of common stock is $22,000,000. New York State proposes to eliminate the 3,516 shares of unissued common stock and to reclassify its issued and outstanding 46,484 shares of common stock without par value into 880,000 shares of common stock of a par value of $25 per share. Thus, after the reclassification, the par value of New York State's issued and outstanding common stock will be $22,000,000. Pursuant to such reclassification, GPU proposes to surrender to New York State the 46,484 shares of common stock without par value of New York State now held by it and to receive in exchange therefor the 880,000 shares of $25 par value common stock of New York State which will result from the reclassification.

The joint application-declaration states that the New York State Public Service Commission has jurisdiction over the proposed transaction, and that on April 30, 1947, such commission consented to a reclassification of the common stock.

By the Commission.

b. Every copyright, claim of copyright and right to copyright in the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number,

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to the foregoing,

d. All monies and amounts, and all rights to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to the foregoing,

e. All rights of renewal, reversion or revesting, if any, in the foregoing, and

f. All causes of action accrued or to accrue at law or in equity with respect to the foregoing, including but not limited to the rights to sue for and recover all damages and profits and to request and receive the benefit of all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting the foregoing,

is property of, and is property payable or held with respect to copyrights or rights related thereto in which interests are held by, and such property itself constitutes interests held therein by, the aforesaid nationals of foreign countries.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2 hereof (excepting, however, all right, title, interest and claim in, to and under the property described therein which has been acquired since December 7, 1945, by persons, including individuals who are residents of, and partnerships, associations, corporations or other business organizations which are organized under the laws of, or have their principal places of business in, Bulgaria, Hungary or Rumania), to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The term "national" as used herein shall have the meaning prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 31, 1946.

For the Attorney General.

1. That the persons (including individuals, partnerships, associations, corporations or other business organizations) referred to or named in Column 5 of Exhibit A attached hereto and made a part hereof and whose last known addresses are listed in said Exhibit A as being in a foreign country (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and covering works the titles of which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are residents of, or are organized under the laws of, or have their principal places of business in, such foreign country and are nationals thereof;

2. That all right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of the persons referred to in Column 5 of said Exhibit A, and also of all other persons (including individuals, partnerships, associations, corporations or other business organizations), whether or not named elsewhere in this Order including said Exhibit A, who are residents of, or which are organized under the laws or have their principal places of business in, Germany, Japan, Bulgaria, Hungary or Rumania and are nationals of such foreign countries, in, to and under the following:

a. The copyrights, if any, described in said Exhibit A,

b. Every copyright, claim of copyright and right to copyright in the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number,

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to the foregoing,

d. All monies and amounts, and all rights to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to the foregoing,

e. All rights of renewal, reversion or revesting, if any, in the foregoing, and

f. All causes of action accrued or to accrue at law or in equity with respect to the foregoing, including but not limited to the rights to sue for and recover all damages and profits and to request and receive the benefit of all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting the foregoing.

is property of, and is property payable or held with respect to copyrights or rights related thereto in which interests are held by, and such property itself constitutes interests held therein by, the aforesaid nationals of foreign countries.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2 hereof (excepting, however, all right, title, interest and claim in, to and under the property described therein which has been acquired since December 7, 1945, by persons, including individuals who are residents of, and partnerships, associations, corporations or other business organizations which are organized under the laws of, or have their principal places of business in, Bulgaria, Hungary or Rumania), to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The term "national" as used herein shall have the meaning prescribed in section 10 of Executive Order 9193, as amended.

ALFRED H. SCHOLZ

In re: Bank account owned by Alfred H. Scholz. F-28-25949-E-1.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Alfred H. Scholz, whose last known address is Dresden, Germany is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation owing to Alfred H. Scholz, by The Chase National Bank of the City of New York, 18 Pine Street, New York 15, N. Y., arising out of a Compound Interest, account number 6879, entitled Alfred H. Scholz, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 10, 1947.

For the Attorney General.

[SEAL] DAVID L. BAZELON,
Assistant Attorney General
Director, Office of Alien Property.

MONTANA (WESTERN COUNTIES)

The applicable rate on a lot of wheat in the following counties of Western Montana shall be determined as follows:

1. Substract all applicable discounts from the rate based on Minneapolis and from the rate based on Portland.

2. If 10 percent or more protein is shown, add the Minneapolis protein premium, if any, derived from the protein schedule shown in subsection (a) of section 251.126 to the rate based on Minneapolis; then add the Portland protein premium derived from the same schedule to the rate based on Portland.

3. The rate on the lot of wheat will be the highest rate as determined above.

PART 251—WHEAT LOANS AND PURCHASE AGREEMENTS

1947 WHEAT LOAN AND PURCHASE AGREEMENT PROGRAM (PORTLAND AREA)

Pursuant to the provisions of Article Third, paragraphs (b) and (j) of the Corporate Charter of Commodity Credit Corporation; sec. 7 (a), 49 Stat. 4 as amended, sec. 8, 56 Stat. 767 as amended; 15 U. S. C. Sup., 713 (a), 50 U. S. C. App., Sup., 968, Commodity Credit Corporation and the Production and Marketing Administration have issued, in 1947 C. C. C. Wheat Bulletin 1 and Supplement 1 thereto (12 F. R. 4167, 4257), regulations governing the making of loans and purchase agreements on wheat produced in 1947, and listing the rates applicable to wheat in eligible warehouse storage at designated terminal markets. Such regulations are hereby further supplemented as follows:

§ 251.130 *Station rates, discounts, and premiums (Portland area)*—(a) *Schedule of rates.* The 1947 wheat loan and purchase rates listed herein for stations in the Portland area are determined and established in accordance with the provisions of paragraph (b) of § 251.126 (1947 C. C. C. Wheat Bulletin 1, Supplement 1). The rates per bushel on No. 1 dark hard winter, No. 1 hard winter, No. 1 yellow hard winter, No. 1 red winter, No. 1 western red, No. 1 soft white, No. 1 white club, No. 1 western white, No. 1 hard white, No. 1 heavy dark northern spring, No. 1 heavy northern spring, No. 1 heavy red spring, No. 1 hard amber durum, No. 1 amber durum, and No. 1 durum shall be as follows:

264.121 Release of the barley under loan.
264.122 Purchase of notes.
264.123 Field offices of CCC.
264.124 Loan and purchase rates.

AUTHORITY: §§ 264.101 to 264.124, inclusive, issued pursuant to Article Third, par. (b) of Corporate Charter of Commodity Credit Corporation; sec. 7 (a), 49 Stat. 4 as amended, sec. 302 (a), 52 Stat. 48, as amended, sec. 4 (b) 55 Stat. 498, 56 Stat. 768; 15 U. S. C., and Sup., 713 (a), 713a–8 (b), 7 U. S. C. 1302 (a).

§ 264.101 *Administration.* The program will be administered in the field by the county agricultural conservation committees under the general supervision of the State PMA Committee.

Forms may be obtained from county committees in areas where loans and purchase agreements are available, or from other field offices of PMA. County committees will determine or cause to be determined the quantity and grade of the barley, the amount of the loan, and the value of the barley delivered under a loan or purchase agreement. All purchase and loan documents will be completed and approved by the county committee, which will retain copies of all such documents. The county committee may designate in writing certain employees of the county agricultural conservation association to approve forms on behalf of the committee.

The county committee will furnish the borrower with the names of local lending agencies approved for making disbursements on loan documents or with the address of the CCC field office to which loan documents may be forwarded for disbursement.

§ 264.102 *Availability of loans and purchase agreements*—(a) *Area.* (1) Loans shall be available on eligible barley stored on farms in the States and counties for which loan rates are shown in § 264.124.

(2) Loans shall be available on eligible barley stored in approved public grain warehouses in all areas.

(3) Purchase agreements shall be available on eligible barley in all areas where loans are available.

(b) *Time.* Loans and purchase agreements shall be available through December 31, 1947.

§ 264.103 *Approved lending agencies.* An approved lending agency shall be any bank, cooperative marketing association, corporation, partnership, individual, or other legal entity with which the CCC has entered into Lending Agency Agreement (Form PMA–97) or other forms prescribed by the Administrator.

§ 264.104 *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, or other legal entity producing barley in 1947, as landowner, landlord, tenant, or sharecropper.

§ 264.105 *Eligible barley.* Eligible barley shall be barley which was produced in 1947, of any class grading No. 5 or better (except class III Western barley having a test weight of less than 40 pounds per bushel), the beneficial interest in which is now in the producer, and always has been in him, or in him and a former producer whom he succeeded before the barley was harvested; provided such barley does not grade weevily, tough, stained, blighted, bleached, garlicky, ergoty, or smutty, and if offered as security for a farm storage loan, has been stored in the granary at least 30 days prior to its inspection for measurements, sampling, and sealing, unless otherwise approved by the State PMA committee.

§ 264.106 *Eligible storage.* Eligible storage for barley shall meet the following requirements:

(a) Under the loan program, eligible farm storage shall consist of farm bins and granaries which, as determined by the county committee, are of such substantial and permanent construction as to afford safe storage of the barley, permit effective fumigation for the destruction of insects, and afford protection against rodents, other animals, thieves, and weather.

(b) Under the loan and purchase agreement program, eligible warehouse storage shall consist of (1) public grain warehouses, situated at terminal, subterminal, or country points, for which a Uniform Grain Storage Agreement (CCC Form H) is in effect. (Warehousemen desiring approval should communicate with the CCC field office serving the area in which the warehouse is located); or (2) warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission.

(c) Under the purchase agreement program, barley stored in other than eligible warehouse storage will be purchased on delivered basis.

§ 264.107 *Approved forms.* The approved forms constitute the loan and purchase agreement documents which, together with the provisions of this bulletin, govern the rights and responsibilities of the producer, and should be read carefully. Any fraudulent representation made by a producer in obtaining a loan or purchase agreement or in executing any of the loan or purchase documents, will render him subject to prosecution under the United States Criminal Code.

Notes and chattel mortgages, and note and loan agreements, must be dated prior to January 1, 1948, and be executed in accordance with these instructions, with State and documentary revenue stamps affixed thereto where required by law. Purchase agreements must be signed and dated by the producer and mailed or delivered to the county committee prior to January 1, 1948. Notes and chattel mortgages, note and loan agreements, and purchase agreements executed by an administrator, executor, or trustee will be acceptable only where legally valid.

(a) *Farm storage loans.* Approved forms shall consist of producer's note on CCC Commodity Form A, secured by a chattel mortgage on CCC Commodity Form AA.

(b) *Warehouse storage loans.* Approved forms shall consist of note and loan agreement on CCC Commodity Form B, secured by negotiable warehouse receipts representing the barley stored in approved warehouses. All barley pledged as security for a loan on a single CCC Commodity Form B must be stored in the same warehouse.

(c) *Purchase agreement program.* The approved forms shall consist of the Purchase Agreement (Purchase Form 1) signed by the producer and approved by the county committee, negotiable warehouse receipts, and such other forms as may be prescribed by the Director, Grain Branch, PMA.

(d) *Warehouse receipts.* Barley stored in eligible warehouse storage in connection with a loan or purchase agreement must be represented by warehouse receipts which satisfy the following requirements:

(1) Warehouse receipts must be issued in the name of the producer properly endorsed in blank so as to vest title in the holder, and be issued by an approved warehouseman.

(2) Each warehouse receipt should set forth in its written terms that the barley is insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone, and tornado, or in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(3) Liens for warehouse charges will be recognized by CCC, but only from May 15, 1947, or the date of the warehouse receipt, whichever is later.

(4) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt, must show the gross weight and grade, dockage, test weight and all special grading factors.

(5) In the case of warehouse receipts issued for barley delivered by rail or barge, CCC will accept inbound weight and inspection certificates properly identified with the barley covered thereby in lieu of the information required by subparagraph (4) of this paragraph. In areas where licensed inspectors are not available at terminal and subterminal warehouses, CCC will accept inspection certificates based on representative samples which have been forwarded to and graded by licensed grain inspectors.

§ 264.108 *Determination of quantity.* A bushel shall be 48 pounds of clean barley free of dockage when determined by weight, or 1.25 cubic feet of barley testing 48 pounds per bushel when determined by measurement. A deduction of ¾ of a pound for each sack will be made in determining the net quantity of the barley when stored as sacked barley. In determining the quantity of barley in farm storage by measurement, fractional pounds of the bushel test weight will be disregarded, and the quantity determined as above will be the following percentages of the quantity determined for 48-pound barley:

For barley testing	Percent
48 pounds or over	100
47 pounds or over, but less than 48 pounds	98
46 pounds or over, but less than 47 pounds	96
45 pounds or over, but less than 46 pounds	94
44 pounds or over, but less than 45 pounds	92
43 pounds or over, but less than 44 pounds	90
42 pounds or over, but less than 43 pounds	88
41 pounds or over, but less than 42 pounds	85
40 pounds or over, but less than 41 pounds	83
39 pounds or over, but less than 40 pounds	81
38 pounds or over, but less than 39 pounds	79
37 pounds or over, but less than 38 pounds	77
36 pounds or over, but less than 37 pounds	75
35 pounds or over, but less than 36 pounds	73

§ 264.109 *Determination of dockage.* The percentage of dockage shall be determined in accordance with the Official Grain Standards of the United States, and the weight of such dockage shall be deducted from the gross weight of the barley in determining the net quantity available for loan or purchase.

§ 264.110 *Liens.* The barley must be free and clear of all liens and encumbrances, or if liens or encumbrances exist on the barley, proper waivers must be obtained.

§ 264.111 *Service fees*—(a) *Loans.* Where the barley under loan is farm-stored the producer shall pay a service fee of 1 cent per bushel, and where the barley under loan is warehouse-stored the producer shall pay a service fee of ½ cent per bushel.

(b) *Purchase agreement.* At the time the producer applies for a purchase agreement he shall pay a preliminary minimum service fee of $1.50. In addition, where delivery of barley is made under the purchase agreement, the producer shall pay a service fee of ½ cent per bushel on each bushel of barley delivered in excess of 300 bushels.

§ 264.112 *Set-offs.* A producer who is listed on the county debt register as indebted to any agency or corporation of the United States Department of Agriculture shall designate the agency or corporation to which he is indebted as the payee of the proceeds of the loan or purchase agreement to the extent of such indebtedness, but not to exceed that portion of the proceeds remaining after deduction of the service fees and amounts due prior lien-holders. Indebtedness owing to the CCC shall be given first consideration after claims of prior lien-holders.

§ 264.113 *Interest rate.* Loans shall bear interest at the rate of 3 percent per annum; and interest shall accrue from the date of disbursement of the loan, notwithstanding the printed provisions of the note.

§ 264.114 *Transfer of producer's equity.* The right of the producer to transfer either his right to redeem the barley under loan or his remaining interest may be restricted by CCC.

§ 264.115 *Safeguarding of the barley.* The producer obtaining a farm-stored loan is obligated to maintain the farm storage structures in good repair, and to keep the barley in good condition.

§ 264.116 *Insurance.* CCC will not require the producer to insure the barley placed under farm-storage loan; however, if the producer does insure such barley such insurance shall inure to the benefit of CCC to the extent of its interest, after first satisfying the producer's equity in the barley involved in the loss.

§ 264.117 *Loss or damage to the barley.* The producer is responsible for any loss in quantity or quality of the barley placed under farm-storage loan, except that uninsured physical loss or damage occurring without fault, negligence, or conversion on the part of the producer resulting solely from an external cause other than insect infestation or vermin will be assumed by CCC, provided the producer has given the county committee immediate notice in writing of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan.

§ 264.118 *Personal liability.* The making of any fraudulent representation by the producer in the loan documents, or in obtaining the loan, or the conversion or unlawful disposition of any portion of the barley by him, shall render the producer personally liable for the amount of the loan and for any resulting expense incurred by any holder of the note.

§ 264.119 *Maturity, delivery, and satisfaction*—(a) *Loans.* Loans mature on demand but not later than April 30, 1948. In the case of farm-storage loans, the producer is required to pay off his loan on or before maturity, or to deliver the mortgaged barley in accordance with instructions of the county committee. Credit will be given for the total quantity delivered, provided it was stored in the bins in which the barley under loan was stored, at the applicable loan rate, according to grade and/or quality. If the settlement value of the barley delivered exceeds the amount due on the loan, the amount of the excess shall be paid to the producer. If the settlement value of the barley is less than the amount due on the loan, the amount of the deficiency, plus interest, shall be paid by the producer to CCC, or may be set off against any payment which would otherwise be made to the producer under any agricultural programs administered by the Secretary of Agriculture, or any other payments which are due or may become due to the producer from CCC or any other agency of the United States. In the event the farm is sold or there is a change of tenancy, the barley may be delivered before the maturity date of the loan upon prior aproval by the county committee. In the case of warehouse storage loans, if the producer does not repay his loan upon maturity CCC shall have the right to sell or pool the barley in satisfaction of the loan in accordance with the provisions of the note and loan agreement and § 264.120.

(b) *Purchase agreements.* The producer who signs a purchase agreement (Purchase Form 1) shall not be obligated to deliver any specified quantity of barley to CCC. If the producer who signs a purchase agreement desires to sell barley to CCC he shall, during the month of May 1948, submit warehouse receipts representing eligible barley stored in eligible warehouse storage to the county committe for the quantity of such barley he elects to sell to CCC, or, in the case of barley stored in other than eligible warehouse storage, he shall notify the county committee of his intention to sell and request delivery instructions. The producer must then complete delivery within a 15-day period immediately following the date the county committee issues delivery instructions, unless the county committee determines more time is needed for delivery. Delivery shall be made to an approved warehouse, or as otherwise directed by the Administrator of PMA or his authorized representative. When delivery is completed, payment shall be made as prescribed by the Administrator. The producer shall direct to whom payment of the purchase price shall be made.

In the case of barley stored in eligible warehouse storage, purchases will be made on the basis of the weight, grade, and other quality factors shown on the warehouse receipts and accompanying documents. Barley delivered from other than eligible warehouse storage will be purchased on the basis of official weights, grades and other quality factors at destination, or official weights at destination and official grades and other quality factors at the inspection point shown on the shipping order furnished the producer, which unless otherwise agreed shall be the customary location, on the route of shipment, of an inspector licensed under the U. S. Grain Standards Act; or, if such barley is delivered to a local CCC bin site, on the basis of the weight, grade and quality determinations made by the county committee (in accordance with instructions for the determination of such factors under the loan program) and approved by the producer at the time of delivery.

§ 264.120 *Removal of the barley under loan.* If the loan is not satisfied upon maturity by payment or delivery, the holder of the note may remove the barley and sell it, either by separate contract or after pooling it with other lots of barley similarly held. The producer has no right of redemption after the barley is pooled, but shall share ratably in any overplus remaining upon liquidation of the pool. CCC shall have the right to treat the pooled barley as a reserve supply to be marketed under such sales policies as CCC determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of the barley, even though part or all of such pooled commodity is disposed of under such policies at prices less than the current domestic price for such commodity. Any sum due the producer as a result of the sale of the barley or of insurance proceeds thereon, or any ratable share resulting from the liquidation of a pool, shall be payable only to the producer without right of assignment by him.

§ 264.121 *Release of the barley under loan.* A producer may at any time obtain release of the barley remaining under loan by paying to the holder of the note, or note and loan agreement, the principal amount thereof, plus interest. If the note is held by an out-of-town lending agency or by CCC, the producer may request that the note be forwarded to a local bank for collection. In such case, where CCC is the holder of the note, the local bank will be instructed to return the note if payment is not effected within 15 days. All charges in connection with the collection of the note shall be paid by the producer. Upon payment of a farm-storage loan, the county committee should be requested to release the mortgage by filing an instrument of release or by a marginal release on the county records. Partial release of the barley prior to maturity may be arranged with the county committee by paying to the holder of the note the amount of the loan, plus charges and accrued interest, represented by the quantity of the barley to be released. In the case of warehouse-storage loans, each partial release must cover all of the commodity under one warehouse receipt number.

§ 264.122 *Purchase of notes.* CCC will purchase, from approved lending agencies, notes evidencing approved loans which are secured by chattel mortgages or negotiable warehouse receipts. The purchase price to be paid by CCC will be the principal sums remaining due on such notes, plus accrued interest from the date of disbursement to the date of purchase at the rate of 1½ percent per annum. Lending agencies are required to submit a weekly report to CCC and to the county committees on 1940 C. C. C. Form F, or such other form as the Corporation may prescribe, of all payments received on producer's notes held by them, and are required to remit promptly to CCC an amount equivalent to 1½ percent interest per annum, on the amount of the principal collected, from the date of disbursement to the date of payment. Lending agencies should submit notes and reports to the CCC field office serving the area.

§ 264.123 *Field offices of CCC.* The field offices of CCC, and the areas served by them, are shown below:

Address and Area
623 South Wabash, Chicago 3, Ill.: Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Maine, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, West Virginia.

328 McKnight Building, Minneapolis 1, Minn.: Minnesota, Montana, North Dakota, South Dakota, Wisconsin.
Eastern Building, 515 Southwest Tenth and Washington Streets, Portland 5, Oreg.: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington.

§ 264.124 *Loan and purchase rates.* Loan and purchase rates for No. 1 barley are set forth below:

(a) *Basic loan and purchase rates at terminal markets.* 1947 barley loan and purchase rates per bushel for No. 1 barley, stored in approved public grain warehouses at the following terminal markets, shall be as follows:

Market	*Loan and purchase rate per bushel*
Chicago, Ill., and St. Louis, Mo.	$1.20
Kansas City, Mo., Omaha, Nebr., Minneapolis and Duluth, Minn., and Superior, Wis.	1.16
Memphis, Tenn.	1.26
San Francisco and Los Angeles, Calif., and Portland, Oreg.	1.23
Baltimore, Md., and Philadelphia, Pa.	1.31

For loan or purchase at the full rates shown in the above schedule, the barley must have been shipped by rail at the domestic interstate freight rate. The rate at the designated terminal market will be reduced by the difference between the freight paid and the domestic interstate freight rate, on any barley shipped at other than such freight rate.

The foregoing schedule of rates applies to barley delivered to any designated terminal market in carload lots which has been shipped by rail from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges: *Provided*, That in the event the amount of paid-in freight is insufficient to guarantee minimum proportional freight rate from the terminal market, there shall be deducted from the applicable terminal rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional freight rate. The warehouse receipts must be accompanied by the registered freight bills, or by (1) a statement in the following form signed by the warehouseman, (2) a certificate of the warehouseman containing such a certification, or (3) such forms as may hereafter be approved by CCC.

Barley stored at a designated terminal market (including trucked-in barley) for which neither registered freight bills nor such freight certificates are presented shall have a loan or purchase rate equal to the higher of (1) the terminal rate minus 6 cents per bushel, or, (2) the county rate for the county in which the barley is stored.

(b) *Basic loan and purchase rates at other than designated terminal points.* CCC will determine the loan and purchase rate for barley in storage on the farm or in country warehouses by deducting from the designated terminal market rate an amount equal to (1) the receiving and loading-out charges computed in accordance with the schedule of rates of the Uniform Grain Storage Agreement (CCC Form S) plus (2) the average all-rail interstate freight rate (plus tax), from all shipping points in the county.

Upon request by the county committee, the Branch office of CCC will determine the loan and purchase rate for barley stored in approved warehouses (other than those situated in the designated terminal markets) which is shipped by rail from country shipping points, by deducting from the appropriate designated terminal market rate an amount equal to the transit balance of the through freight from point of origin for such barley to such terminal market, plus freight tax on such transit balance; *Provided*, That in the case of barley stored at any railroad transit point, taking a penalty by reason of out-of-line movement, or for any other reason ,to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line or other costs incurred in storing barley in such position.

The warehouse receipts, in addition to other required documents, must be accompanied by the original paid freight bills duly registered for transit privileges or by a statement in the following form signed by the warehouseman, or a warehouseman's supplemental certificate containing such information:

FREIGHT CERTIFICATE FOR OTHER THAN TERMINAL POINTS

(c) *Variations for grades.* The loan and purchase rate for barley which grades No. 2 shall be discounted 2 cents per bushel; No. 3, 5 cents per bushel; No. 4, 8 cents per bushel; and No. 5, 15 cents per bushel. In addition a discount of two cents per bushel shall apply to "mixed" barley.

(d) *Storage allowance.* There shall be no storage allowance on barley under either the loan or purchase agreement program.

A deduction of 7¢ per bushel shall be made from the applicable loan rate on barley being placed under loan in a warehouse, unless evidence is submitted with the warehouse receipt that all warehouse charges except receiving charges have been prepaid through April 30, 1948.

A deduction of 7¢ per bushel shall be made from the applicable purchase rate on warehouse-stored barley offered under the purchase agreement program unless evidence is submitted with the warehouse receipt that all warehouse charges except receiving charges have been paid through the date the warehouse receipts are tendered to the county committee.

(e) *County loan and purchase values.* Loan and purchase values per bushel of eligible barley for the respective States and counties basis No. 1 barley free of dockage are listed below:

PART 277—TOBACCO LOANS

SUBPART—1947

Statement with respect to flue-cured tobacco loan program for the 1947-48 marketing year—1947 crop—formulated by the Commodity Credit Corporation and Production and Marketing Administration. Also, announcement of the schedule of advance rates by grades for the 1947 crop of flue-cured tobacco.

Sec.
277.21 Legal authority and level of loans
277.22 Administration.
277.23 Advances to growers.
277.24 Interest rates, recourse, and distribution of net gains.
277.25 1947 Crop—flue-cured tobacco advance schedule (Types 11-14).

AUTHORITY: §§ 277.21 to 277.25, inclusive issued under sec. 8, 56 Stat. 765, 58 Stat. 642, 784, 59 Stat. 306; 50 U. S. C. App. Sup. 968.

§ 277.21 *Legal authority and level of loans.* Section 8 of the Stabilization Act of 1942, as amended (50 U. S. C. App. sec. 968), authorizes and directs Commodity Credit Corporation to make loans to cooperating producers at 90 percent of parity as of the beginning of the marketing year with respect to flue-cured tobacco, and to noncooperators at rates equal to 60 percent of the rate for cooperators with respect to so much of the tobacco as would be subject to penalty if otherwise marketed (excess production above the marketing quota).

§ 277.22 *Administration.* The Tobacco Branch, Production and Marketing Administration, supervises the execution of the operation. Field execution of the operation will be carried out by a producer cooperative organization operating under contract with Commodity Credit Corporation. The name of the contracting organization may be obtained from the Director of the Tobacco Branch. The services include receiving, redrying, packing, storing, and marketing the tobacco. The contracting organization is authorized to enter into sub-contracts subject to the approval of the Tobacco Branch for the performance of certain of these services. Loan rates by official standard grades are established by the Tobacco Branch to reflect quality and other differences among the various kinds, types, and grades and loans are made to the contracting organization which in turn makes advances to growers.

§ 277.23 *Advances to growers.* The contracting organization will make the advances to growers at or through auction warehouses where growers normally offer their tobacco for sale.

§ 277.24 *Interest rates, recourse, and distribution of net gains.* The loans made to the contracting organization bear interest at the rate of 3 percent per annum and are fully nonrecourse both as to principal and interest except in the case of violation of or failure to carry out the terms of the contract. Net gains accruing from the final marketing of the tobacco acquired by the contracting organization will be distributed to the growers of the tobacco.

[1] The advance rates quoted above are applicable to tied flue-cured tobacco. Rates for untied flue-cured tobacco are four dollars ($4) per hundred pounds less for each grade. The Cooperative Association through which the loans are made is authorized to deduct from the amount paid to the grower 12 cents per hundred pounds to apply against the overhead costs to the Association of the loan operation. Tobacco can be placed under loan only by the original producer and at these rates only if produced on a cooperating farm. Tobacco graded "W" (wet), "U" (unsound), "DAM" (damaged), N2L, N2R, or N2G will not be accepted.

TITLE 7—AGRICULTURE

Subtitle A—Office of the Secretary, Department of Agriculture

PART 1—ADMINISTRATIVE REGULATIONS

DELEGATION OF AUTHORITY TO CARRY OUT RESPONSIBILITIES OF DEPARTMENT OF AGRICULTURE UNDER GREEK-TURKISH AND RELIEF FOR DEVASTATED COUNTRIES PROGRAMS

In carrying out the authority conferred by the act of May 22, 1947, entitled "An Act to Provide Assistance to Greece and Turkey"; the joint resolution of May 31, 1947, entitled "Joint Resolution Providing for Relief Assistance to the People of Countries Devastated by War"; and Executive Orders 9857 and 9864, the Administrator of the Production and Marketing Administration is hereby authorized in behalf of this Department to cooperate with the Department of State to the extent he deems feasible in keeping with other established Departmental responsibilities and to the extent that funds may be made available therefor and in connection therewith to enter into such contracts and to perform such services as may be necessary to effectuate the commodity purchase and delivery programs under the authority of the aforementioned acts of Congress. In carrying out the authority hereunder, the Administrator of the Production and Marketing Administration may redelegate any of his authority to such employees of the Production and Marketing Administration as he may deem advisable, and may coordinate activities, pursuant to his authorization, within the Department with those of the Commodity Credit Corporation under its Supply Program.

This delegation of authority shall be effective as of July 1, 1947.

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices)

PART 30—TOBACCO STOCKS AND STANDARDS

ESTABLISHMENT OF CLASS 3, TYPE 31-V, AIR-CURED TOBACCO

On June 26, 1947, a notice of proposed rule-making was published in the FEDERAL REGISTER (12 F. R. 4144), relative to a proposed amendment of the description of Class 3, air-cured types and groups (7 CFR 30.5), of the standards for tobacco established pursuant to section 2 of the Tobacco Stocks and Standards Act, as amended (45 Stat. 1079; 47 Stat. 662; 49 Stat. 893; 7 U. S. C. 501 et seq.), which proposed amendment is designed to establish a type of tobacco to be known as Type 31-V, under Class 3, air-cured tobacco. Consideration having been given to all relevant matter presented, including the proposal set forth in the aforesaid notice, the standards for tobacco above referred to are hereby amended as follows:

Insert in § 30.5, *Class 3: Air-cured types and groups*, between the descriptions of Type 31 and Type 32, a new paragraph providing as follows:

Type 31-V. Notwithstanding the definitions of "Type" and "Type 31", any tobacco having the general visual characteristics of quality, color, and length of Class 3, Type 31, air-cured tobacco, but which is a low-nicotine strain or variety, produced and to be marketed under such restrictions or controls as shall be specified by the Director of the Tobacco Branch, Production and Marketing Administration, United States Department of Agriculture, and which in its cured state is found by an authorized representative of the Department to have a nicotine content of not more than eight-tenths of one per centum (8/10 of 1%), oven-dry weight, shall not be classified as Type 31 but shall be classified and designated upon certification by the Department as Type 31-V. No groups are applicable to Type 31-V.

Compliance with the effective date requirements of the Administrative procedure Act (60 Stat. 237; Pub. Law No. 404, 79th Cong., 2d Sess.) is impracticable, unnecessary, and contrary to the public interest in that tobacco for the 1947 crop is currently being produced, it is essential to the proper application of the standards for tobacco established under the Tobacco Stocks and Standards Act, as amended, that tobacco of Type 31-V be distinguished from all other types of tobacco recognized and defined in such standards, and delay in the establishment of Type 31-V will prevent the application of such standard to the 1947 tobacco crop. Accordingly, the aforesaid amendment shall become effective immediately upon publication thereof in the FEDERAL REGISTER.

(45 Stat. 1079, 47 Stat. 662, 49 Stat. 893; 7 U. S. C. 501 et seq.)

Done at Washington, D. C., this 18th day of July 1947.

Secretary of Agriculture.

Chapter VII—Production and Marketing Administration (Agricultural Adjustment)

PART 701—NATIONAL AGRICULTURAL CONSERVATION PROGRAM

MISCELLANEOUS AMENDMENTS

State Bulletins (Subpart—1947) issued December 17, 1946 (11 F. R. 14339), and amendments issued March 19, 1947 (12 F. R. 1831), and May 3, 1947 (12 F. R. 2977), are hereby further amended as follows:

1. Section 701.843 *California*, paragraph (j) (33), (ii), (b), is amended by deleting the language "$0.25" and inserting therefor "$0.30."

2. Section 701.844 *Colorado*, paragraph (j) (36), (i), (a), is amended by deleting the language "$1.50" and inserting therefor "$150."

3. Section 701.844 *Colorado*, paragraph (j) (50) is amended by deleting the language "Payment will be made only for eradication completed in 1947" and substituting therefor the following: "Payment will be made only for eradication completed in 1947, except that eradication is not required where 2,4–D is properly used under adequate supervision and a satisfactory control of the weeds is obtained."

4. Section 701.853 *Kansas*, paragraph (j) is amended by adding the following subparagraph (48):

(48) *Rock phosphate.* Application of rock phosphate in an approved manner in connection with a full seeding of perennial or biennial legumes. Rock phosphate applied to an established stand of perennial or first-year biennial legumes will also be approved, provided the eligible crop is not destroyed by tillage within 60 days after the phosphate is applied. This practice is eligible only in the following counties: Jewell, Mitchell, Lincoln, Ellsworth, Rice, Reno, Pratt, Barber, and all counties east thereof.

Payment rate: $0.50 per 100 pounds of rock phosphate containing at least 28 percent P_2O_5.

5. Section 701.868 *New Mexico*, paragraph (j) is amended by deleting the entire paragraph and substituting therefor the following:

(j) *Conservation practices and rates of payment.* Prior approval by the county committee is required for all practices. Each practice must be carried out in accordance with specifications which may be obtained in the office of the county or State committee. No payment will be made for the practices contained in subparagraphs (23) to (31), inclusive, of this paragraph on any ranching unit containing 640 acres or more of grazing land unless a range-management plan for each unit is approved by the county committee and all requirements met; all prairie dogs are controlled; at least one check plot is available on the unit for the purpose of comparing the grazed area with the production in the ungrazed plot; and the producer complies with the utilization standards approved by the Field Service Branch. No payment will be made for the practices contained in subparagraphs (23), (24), (25), (29), (30), and (31) of this paragraph unless the performance of such practices will contribute to a better distribution of grazing of livestock no the unit.

6. Section 701.868 *New Mexico*, paragraph (j) (32) is amended by deleting all of the subparagraph except the *Payment rates*, and substituting therefor the following:

(32) *Eradication or control of bindweed by the use of chemicals* on cropland, along ditch banks, or on any eligible land in a watershed furnishing water for irrigation. Payment will be made only when complete eradication is obtained, except where 2, 4–D is used and a satisfactory control is obtained.

7. Section 701.871 *North Dakota*, paragraph (i) (11) (iv) is amended by adding the language "pipes" immediately after the language "siphons" in the heading of the subdivision.

8. Section 701.873 *Oklahoma*, paragraph (i) (15) is amended by deleting the entire subparagraph and substituting therefor the following:

(15) *Contouring drilled crops.* Payment will not be made for this practice on any acreage for which payment is made under subparagraph (16) of this paragraph, nor if the distance between the drill rows exceeds 20 inches. Payment may be made for contouring a crop seeded in the fall of 1947 for harvest in 1948 following the contouring of a crop in the spring of 1947.

Payment rates. (i) Performing all cultural operations for the preparation of the seedbed and drilling the seed on the contour, $0.75 per acre.

(ii) Seeding crops on the contour with a drill where the tillage operations are not carried out on the contour, $0.25 per acre.

9. Section 701.881 *Utah*, paragraph (j) (9) is amended by deleting the figure "5" in the last sentence and inserting therefor the figure "3."

10. Section 701.884 *Washington*, paragraph (j) (23) (iv) is amended by adding the language "pipes" immediately after the language "siphons" in the heading of the subdivision.

11. Section 701.884 *Washington*, paragraph (j) (6) (i) is amended by inserting the language "grapevines" immediately following the language "orchard tree prunings."

(49 Stat. 1148, 16 U. S. C. 590g–590q; 1947 National Agricultural Conservation Program Bulletin, as amended (11 F. R. 9467, 11266, 14339))

Approved: July 11, 1947.

PART 729—PEANUTS

NATIONAL MARKETING QUOTA FOR 1948 CROP

§ 729.601 *Purpose and basis.* The Agricultural Adjustment Act of 1938, as amended, provides that between July 1 and December 1 of each calendar year the Secretary of Agriculture shall proclaim a national marketing quota for peanuts for the crop produced in the next succeeding calendar year. Section 729.602 hereof establishes and announces the national marketing quota for the 1948 crop of peanuts. The determinations contained in § 729.602 are based on the latest available statistics of the Federal Government and the proclamation is made after due consideration of recommendations submitted in response to public notice of the proposed action (12 F. R. 4233).

§ 729.602 *Proclamation and determination, with respect to the national marketing quota, normal yield per acre and national acreage allotment for peanuts for the crop produced in the calendar year 1948*—(a) *National marketing quota.* The amount of the national marketing quota for peanuts for the crop produced in the calendar year 1948 is 1,520,000,000 pounds.

(b) *Normal yield per acre.* The normal yield per acre of peanuts for the United States for the crop produced in the calendar year 1948 is 654 pounds.

(c) *National acreage allotment.* The national acreage allotment for peanuts for the crop produced in the calendar year 1948 is 2,324,159 acres.

(55 Stat. 88, 89; 7 U. S. C. Sup. 1358)

Issued at Washington, D. C., this 17th day of July 1947.

Chapter VIII—Office of Housing Expediter

[Suspension Order S-22, Amdt.]

PART 807—SUSPENSION ORDERS

RANCHO ROYALE HOTEL CO. AND SAMUEL H LEVIN

In view of the revocation of Veterans' Housing Program Order 1 and issuance of Construction Limitation Regulation by the Office of the Housing Expediter, the Chief Compliance Commissioner has directed that the Suspension Order S–22 heretofore issued on May 1, 1947, be amended as to its terms as hereinafter set forth.

It is therefore ordered, That paragraph (a) of Suspension Order S–22 be amended to read as follows: Effective July 21, 1947. *Provided; however*, That this does not affect any liabilities incurred for violations of the suspension order prior to its amendment:

§ 807.22 *Suspension Order No. S–22.* (a) Neither the Rancho Royale Hotel Company, a corporation, nor Samuel H. Levin, its or his successors or assigns, nor any other person shall do any further construction of a swimming pool or bar or any other construction for recreational or amusement purposes prohibited by the Construction Limitation Regulation on the premises located approximately three miles southeast of Palm Springs, California, on Highway 111, the Indio-Palm Springs Road, including putting up, completing or altering any such structure located thereon unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

In all other respects, the Suspension Order S–22 shall be in full force and effect in accordance with its terms as of May 1, 1947, the date of issuance.

Issued this 21st day of July 1947.

OFFICE OF THE HOUSING EXPEDITER,
By JAMES V. SARCONE,
Authorizing Officer.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5573]

PART 190—RECTIFICATION OF SPIRITS AND WINES

MISCELLANEOUS AMENDMENTS

1. On April 5, 1947, notice of proposed rulemaking regarding rectification of spirits and wine was published in the FEDERAL REGISTER (12 F. R. 2290)

2. After consideration of all such relevant matter as was presented by interested persons regarding the proposal, the following added § 190.9a and amendments to §§ 190.42, 190.153, 190.203, 190.279, 190.280, 190.281, 190.414 and 190.416 of Regulations 15, approved May 20, 1940 (26 CFR, Part 190) are hereby adopted.

3. These amendments are designed to regulate the use by rectifiers of alcoholic flavoring material subject to drawback under section 3250 (1), I. R. C., to provide for more practicable operation of rectifying plants by eliminating unnecessary requirements relative to construction and operation, to provide a more efficient method of determining proof of sweetened spirits and wines, and to permit the gauging by weight of rectified products containing solids.

4. Regulations 15, approved May 20, 1940 (26 CFR, Part 190), as amended, are hereby amended as follows:

§ 190.9a *Use of alcoholic flavoring materials*—(a) *Limitation.* The use of alcoholic flavors or flavoring extracts manufactured on premises other than a rectifying plant must be limited by the rectifier, so that the quantity of alcohol (proof gallons) contained therein will not represent more than $2\frac{1}{2}$ percent of the quantity of alcohol (proof gallons) contained in the finished product, except as provided in paragraph (b) of this section. For example, one hundred gallons of a finished cordial, fifty degrees of proof, contain fifty proof gallons. As $2\frac{1}{2}$ percent of fifty equals 1.25, the cordial could contain not more than 1.25 proof gallons of alcohol derived from such flavors or flavoring extracts used in its manufacture.

(b) *Exception to limitation.* In any case where the use of flavors or flavoring extracts in quantities in excess of the $2\frac{1}{2}$ percent limitation prescribed in paragraph (a) of this section is required, such limitation shall not apply to the use of any flavors or flavoring extracts in excess thereof if the flavoring material used is purchased directly from the manufacturer and, as to each lot of purchased flavors or flavoring extracts containing alcohol, the rectifier has available for examination by the storekeeper-gauger an affidavit of the manufacturer showing: (1) the quantity; (2) the date of manufacture; (3) the kind and brand of each flavor or flavoring extract; and (4) that drawback under section 3250 (1), I. R. C., has not been nor will be claimed on any alcohol or distilled spirits contained in the flavor or flavoring extract.

(c) *New formulas required.* The manufacture of rectified products in which are used alcoholic flavors or flavoring extracts to an extent not consistent with the provisions of this section and § 190.153, as amended, shall be discontinued within ninety days after the effective date of this regulation. New formulas, submitted for the purpose of showing the use of alcoholic flavors or flavoring extracts in the manufacture of rectified products, must furnish the information required by section 190.153, as amended. (Secs. 2801 (e) (1), 3176, 3250 (1), I. R. C.)

§ 190.42 *Stills.* All stills in the rectifying plant shall be located in the rectifying room and shall be of substantial construction and must have a clear space of not less than one foot around them. Every still must have plainly and legibly painted thereon words indicating its use, or uses, as "gin still," "cordial still," "water still," etc., followed by its serial number and capacity in wine gallons. All stills, except water stills and cordial stills of not more than 250 wine-gallon capacity, shall be connected with the receiving tanks by continuous permanent pipe lines: *Provided*, That, where such receiving tank is mounted on scales, the pipe line may be connected with the tank by means of flexible connections with the ends permanently attached and secured by means of Government cap seals, or by brazing or welding, to the inlet of the tank and to the pipe line. If the gin still is equipped with a pipe line to bypass the berry basket, such pipe line must be equipped with a valve for locking with a Government lock. (Secs. 2801 (e) (1), 3176, I. R. C.)

§ 190.153 *Description of formula.*

* * *

(a) *Flavoring materials.* Formulas providing for the use of alcoholic flavors or flavoring extracts under the provisions of § 190.9a, in addition to showing the kind of and percentage (by volume) of such material used, must specify the percentage of alcohol (by volume) contained therein. Any formula requiring the use of flavoring materials in excess of the $2\frac{1}{2}$ percent limitation provided in § 190.9a (a) shall show the quantity of alcohol in the finished product derived from (1) flavors or flavoring extracts subject to drawback under section 3250 (1), I. R. C., and (2) flavors or flavoring extracts on which drawback has not been nor will be claimed, and, as to the latter, shall show whether such material is manufactured on rectifying plant premises or obtained from a manufacturer, and if obtained from a manufacturer, whether there will be on file at the rectifying plant a sworn statement by the manufacturer that drawback under section 3250 (1), I. R. C., has not been nor will be claimed on such material. (Secs. 2801 (e) (1), 3176, I. R. C.)

§ 190.203 *Production.* Gin may be produced exempt from the rectifying tax, by the redistillation of a pure spirit over juniper berries and other aromatics. Gin so produced must be run into a receiving tank from which it must be promptly (a) drawn into packages, gauged, stamped, and removed to the finished products room or (b) transferred to a bottling tank, gauged, and (1) bottled and removed to the finished products room or (2) conveyed by pipe line to a contiguous tax-paid bottling house or rectifying plant for bottling. (See §§ 190.313 to 190.339.) (Secs. 2800 (a) (5), 2801 (e) (1), 3176, I. R. C.)

§ 190.279 *Determining proof of sweetened spirits, wines, etc.* The alcoholic content (a) of blended whiskies containing more than 0.6 gram or 600 milligrams of solids per 100 milliliters derived from blending materials such as sherry wine, prune juice, caramel, glycerine, etc., and (b) of wines, cordials, liqueurs, and other rectified products containing saccharine or other solid matter will be determined by the use of an approved ebulliometer or a small laboratory still, provided by the rectifier in accordance with §§ 190.313 to 190.331, inclusive. When using such instruments rectifiers must follow closely the instructions furnished therewith, in order that accurate determinations may be made. Instructions relative to the use of small laboratory stills (or wine sets) and the following ebulliometers: Arnaldo-Sala (with shield), Braun, Juerst, Lefco, L'Ebulliometer Levesque (with shield), Malligand (with shield), Salleron-Dujardin, "TAG" (with shield), and E. B. Torino (with shield), are also set forth in the appendix to Regulations 7, Wine—1945 (26 CFR, Part 178). The alcoholic content of blended spirits containing not more than 0.6 gram or 600 milligrams of solids per 100 milliliters derived from blending materials will be determined by the use of a standard hydrometer or a small still. If determined by a standard hydrometer an obscuration correction factor may be added to the apparent proof in order to obtain the true proof of the blended spirits. Experience has shown that 0.1 gram or 100 milligrams of solids per 100 milliliters will obscure the true proof 0.4 of 1° of proof. For example, if a blended whisky contains 0.25 gram or 250 milligrams of solids per 100 milliliters and the apparent proof corrected to 60° Fahrenheit is found to be 89° proof by a standard hydrometer, a correction factor of 1° of proof (2.5 times 0.4) due to the solids may be added to the apparent proof, hence the true proof would be 90°. The solids in blended spirits due to blending materials will be determined by evaporating 25 milliliters of the blended spirits in a weighed dish on a steam bath and then heating for 30 minutes at the temperature of boiling water in a drying oven. The solids thus determined, multiplied by 4, will give the solids in 100 milliliters of blended spirits. The correction factor to be

used then will be determined on the basis that every 100 milligrams of solids will obscure the proof 0.4 of 1° of proof. The ebulliometer should not be used in determining the alcoholic content of blended spirits containing not more than 0.6 gram or 600 milligrams of solids per 100 milliliters. (Secs. 2801 (e) (1), 2861, 3176, I. R. C.)

§ 190.280 *Determining contents by weight.* Rectified spirits containing not more than 0.6 gram or 600 milligrams of saccharine or other solid matter per 100 milliliters which are transferred to portable packages or to a bottling tank mounted on scales may be gauged by weight in accordance with the official Gauging Manual. To this end accurate scales must be provided. Government officers will frequently test, by means of the test weights provided in accordance with § 190.32, the accuracy of the scales used for weighing packages. Scales used for weighing spirits in lots of not over 500 gallons in bottling tanks will be tested from time to time under the supervision of the storekeeper-gauger by means of the test weights provided in accordance with § 190.32. Such scales will be tested by placing the prescribed test weights upon the scales and checking the weight registered on the beam of the scales. The test weights will then be removed without disturbing the beam and the bottling tank filled with spirits or water to the same weight, whereupon the test weights will again be placed upon the scales, the spirits or water being retained in the tank, and the weight registered on the beam checked. This operation will then be continued until the scales have been checked in 500-pound notches at all weights for which the scales are used. Rectifiers will have scales used for weighing spirits in larger lots tested and their accuracy certified by State, county, or city departments of weights and measures at intervals of not more than six months. The storekeeper-gauger will not permit the use of any scales not so tested or which upon testing are found to be inaccurate. (Secs. 2801 (e) (1), 2861, 3176, I. R. C.)

§ 190.281 *Determining contents by measure.* Rectified spirits transferred to a bottling tank not mounted on scales, and spirits, wines, cordials, liqueurs, and other rectified products containing saccharine and other solid matter will be gauged by measure to determine the wine-gallon content (corrected to volume in accordance with Table 7 of the Gauging Manual); the proof-gallon content will then be determined by multiplying the wine-gallon content by the proof (pointed off in two decimal places) of the spirits. If the spirits, wines, cordial, liqueurs, and other rectified products containing saccharine or other solid matter are transferred to packages, the capacity of each package must be ascertained before the liquors are placed therein, or the quantity to be placed in each package must first be ascertained by actual measure in another vessel provided for that purpose: *Provided, however,* That the quantity in wine gallons of any liquor placed in packages may be determined by weight if the specific gravity of the liquor is ascertained and used in calculating the volume. Secs. 2801 (e) (1), 2861, 3176, I. R. C.)

§ 190.414 *Packages of distilled spirits.* In addition to the serial number, there shall be plainly and durably burned, cut, imprinted, or stenciled, on the Government head of each barrel or similar container of distilled spirits (a) the kind of spirits; (b) the wine gallon content; (c) the proof of the spirits; (d) the proof gallon content; (e) the tare of the container; (f) the date of filling; (g) the number of the approved formula under which rectified; (h) the name (or trade name or style) of the rectifier; (i) the location (city or town, and State) of the rectifying plant; and (j) the number of the rectifier's basic permit issued under the Federal Alcohol Administration Act: *Provided,* That if the spirits were rectified by such rectifier, or if the spirits are unrectified spirits which were produced by such rectifier at a distillery, he may use in connection with his name the designation "Rectifier" or "Distiller," respectively. (Secs. 2801 (e) (1), 2861, 3176, I. R. C.)

§ 190.416 *Packages and cases of wine.* The rectifier shall place marks upon packages and cases of wine similar to the marks required by §§ 190.414 and 190.415 to be placed upon packages and cases of distilled spirits, except: The tare need not be marked on the packages; the alcoholic content of the wine will be shown in percentage by volume in lieu of the proof; and, in the case of unrectified wine, the proof gallons may be omitted. (Secs. 2801 (e) (1), 3040, 3176, I. R. C.)

2. This Treasury decision shall be effective on the 31st day after the date of its publication in the FEDERAL REGISTER.

PART 197—DRAWBACK OF TAX ON DISTILLED SPIRITS USED IN THE MANUFACTURE OF NONBEVERAGE PRODUCTS

MISCELLANEOUS AMENDMENTS

1. On April 23, 1947, notice of proposed rule-making regarding drawback of tax on distilled spirits used in the manufacture of nonbeverage products was published in the Federal Register (12 F. R. 2610).

2. After consideration of all such relevant matter as was presented by interested persons regarding the proposal, §§ 197.8, 197.24 (c) (2), 197.26, 197.33 and 197.34 of Regulations 29, approved November 30, 1944 (26 CFR, Cum. Sup., Part 197) are hereby revoked and the following amendments to §§ 197.2, 197.3, 197.5, 197.17, 197.18, 197.21, 197.22, 197.23 (d), 197.24 (d), 197.24 (e), 197.25 and 197.28 of Regulations 29, approved November 30, 1944 (26 CFR, Cum. Supp., Part 197) are hereby adopted.

3. These amendments are designed to eliminate obsolete provisions of the regulations, to provide a more efficient procedure for the filing of claims, and to provide accounting procedure pursuant to the provisions of section 309 of the Revenue Act of 1943 amending section 3250 (1), Internal Revenue Code.

4. Regulations 29, approved November 30, 1944 (26 CFR, Cum. Sup., Part 197) as amended, are hereby amended as follows:

§ 197.2 *Definitions.* As used in the regulations in this part, the following terms shall have the meaning as defined herein:

(a) "Domestic distilled spirits" and "Distilled spirits" shall mean that substance known as ethyl alcohol produced at industrial alcohol plants operated under Regulations 3 (26 CFR, Cum. Sup., Part 182), and those substances known as whisky, brandy, rum, or other spirits, produced at registered distilleries or fruit distilleries operated under Regulations 4 (26 CFR, Cum. Sup., Part 183) and 5 (26 CFR, Cum. Sup., Part 184).

(b) "Year" shall mean the period which begins July 1 and ends on the following June 30.

(c) "Intermediate products" shall mean products containing distilled spirits which are not subject to drawback until used in a nonbeverage product eligible for drawback.

§ 197.3 *Terms used in the statute.*

* * *

(c) *Time.* The "time" at which distilled spirits shall be deemed to have been used is when the product contains the ingredients called for by an approved formula, or formulas prescribed by the United States Pharmacopoeia, the National Formulary, or the American Institute of Homeopathy, as the case may be. (Sec. 3250 (1), I. R. C.)

(d) *Filed.* A claim for drawback shall be deemed to have been "filed" when it is delivered to the office of the proper district supervisor, Alcohol Tax Unit, and by that office received.

(e) *Total annual withdrawals.* The term "total annual withdrawals" shall mean the total quantity of distilled spirits (proof gallons), which are used in the manufacture or production of nonbeverage products during a year.

§ 197.5 *Payment and rates of special tax.* Each person who uses distilled spirits in the manufacture or production of medicines, medicinal preparations, food products, flavors, or flavoring extracts which are unfit for beverage purposes, in order to be eligible to claim the drawback on the distilled spirits so used, must pay special tax at the rate of $25 per annum for total annual withdrawals not exceeding 25 proof gallons of distilled spirits; $50 per annum for total annual withdrawals not exceeding 50 proof gallons; or $100 per annum for total annual withdrawals of more than 50 proof gallons. Where a claim is filed in the first quarter of a year, covering distilled spirits used during the last quarter of the preceding year, and special tax has not been paid for the preceding year, special tax for such preceding year must be paid in the appropriate amount prior to or at the time of filing the claim. Special tax, based upon estimated withdrawals, may be paid in advance of actual withdrawals. Adjustments of the special tax where improperly paid will be made in accordance with § 197.17. The manufacturer is not required to pay the special tax if he does not claim drawback on the distilled spirits used by him. Secs. 3250 (1) and 4041 (a), I. R. C.)

§ 197.17 *Change to higher or lower rate of special tax—*(a) *Change to higher rate.* A manufacturer of nonbeverage products who pays special tax of $25 per annum and has filed or intends to file a claim or claims for drawback covering distilled spirits in excess of 25 proof gallons used during the year for which the special tax was paid, must pay special tax of $50 or $100, as the case may be, and obtain a stamp therefor. The manufacturer may thereupon submit the special tax stamp of $25 to the collector of internal revenue to whom the special tax was paid with a claim on Form 843 for refund of the value thereof. Similar procedure will govern in the case of a manufacturer of nonbeverage products who pays special tax of $50 and has filed or intends to file claim for drawback covering distilled spirits used in excess of 50 proof gallons.

(b) *Change to lower rate.* A manufacturer of nonbeverage products who pays special tax of $100 or $50 per annum, as the case may be, and, during the year for which the special tax was paid, files claim or claims for drawback covering the use of not more than 50 or 25 proof gallons of distilled spirits, as the case may be, may file a claim on Form 843 for refund of the difference between the special tax paid and the special tax due. The special tax stamp shall be attached to the claim. (Secs. 3250 (1), 3304, 3770, and 4041 (a), I. R. C.)

§ 197.18 *Refund of special tax.* Refund of special tax may be made if it is established that the taxpayer did not file a claim for drawback for the period covered by the special tax stamp. Where claim for drawback was filed, refund of special tax may be made if it is established that no drawback was allowed or paid for the period covered by the stamp. (Secs. 3250 (1) and 3770, I. R. C.)

§ 197.21 *Claims.* The claim for drawback shall be filed on Form 843, "Claim," in duplicate, with the district supervisor, Alcohol Tax Unit, for the district in which the place of manufacture is located, and shall pertain only to distilled spirits used in the manufacture or production of nonbeverage products during any one quarter of the year, and only one claim may be filed for each quarter. (Sec. 3250 (1), I. R. C.)

§ 197.22 *Date of filing claim.* The claim for drawback must be filed with the district supervisor, Alcohol Tax Unit, within the three months next succeeding the quarter in which the distilled spirits covered by the claim were used in the manufacture of nonbeverage products. (Sec. 3250 (1), I. R. C.)

§ 197.23 *Information to be shown by the claim.* * * *

(d) That the nonbeverage products were manufactured in compliance with (1) quantitative formulas filed with the Commissioner on Form 1678 prior to or at the time of manufacture, or (2) formulas prescribed by the United States Pharmacopoeia, the National Formulary, or the American Institute of Homeopathy.

§ 197.24 *Supporting data.* Each claim will be accompanied by statements of supporting data which shall be prepared in duplicate. One copy shall be attached to the original and one copy shall be attached to the duplicate of the claim.

* * * * *

(d) *Summaries—*(1) *Summary of distilled spirits.* A statement showing in proof gallons the quantity of all distilled spirits on hand at the beginning of the quarter, quantity in process beginning of the quarter, quantity received during the quarter, quantity used during the quarter in the manufacture of nonbeverage products subject to drawback, quantity used in the manufacture of intermediate products, quantity otherwise used not subject to drawback, quantity in process at the end of the quarter, and the quantity remaining on hand at the end of the quarter. Distilled spirits in process will include distilled spirits represented in unfinished nonbeverage products, mixtures, menstruums, etc. Any discrepancy between the amount of distilled spirits on hand at the end of the quarter as disclosed by actual inventory and the amount shown by the manufacturer's records must be reported in the summary with an explanation of the cause thereof.

(2) *Summary of distilled spirits recovered from the dregs or marc of percolation, or extraction, of products eligible for drawback under section 3250 (1), Internal Revenue Code.* A statement showing in proof gallons the quantity of all recovered distilled spirits on hand at the beginning of the quarter, quantity in process beginning of the quarter, quantity recovered during the quarter, quantity used not subject to drawback, quantity in process at the end of the quarter, and the quantity remaining on hand at the end of the quarter. Any discrepancy between the amount of recovered distilled spirits on hand at the end of the quarter as disclosed by actual inventory and the amount shown by the manufacturer's records must be reported in the summary with an explanation of the cause thereof. Any distilled spirits recovered from the dregs or marc of percolation, or extraction, of intermediate products as defined in the regulations in this part are eligible for drawback of tax only when used in the manufacture of a nonbeverage product.

(e) *Statement of intermediate products.* A statement showing the quantity in wine gallons of each intermediate product and the quantity of distilled spirits (proof gallons) used therein: (1) On hand at the beginning of the quarter, (2) produced during the quarter, and (3) on hand at the end of the quarter, and showing the quantity in wine gallons of each intermediate product and the quantity of the distilled spirits contained therein (proof gallons): (1) Used during the quarter in eligible products, (2) used during the quarter in other intermediate products, and (3) otherwise disposed of during the quarter. Any discrepancy between the amount of intermediate products on hand at the end of the quarter as disclosed by actual inventory and the amount shown by the manufacturer's records must be reported in the statement with an explanation of the cause thereof. Only the distilled spirits remaining in an intermediate product at the time of its use in the manufacture of an approved nonbeverage product are eligible for drawback.

§ 197.25 *Handling of claims.* The district supervisor, Alcohol Tax Unit, will date-stamp each copy of the claim on Form 843, and, after recording, will examine the claim for the purpose of determining whether it is properly executed and that all supporting data have been submitted and will conduct such inquiries and investigations as may be necessary to verify that drawback is allowable on the distilled spirits covered by the claim. After completion of such verification he will forward the original copies of the claim and supporting data, and a copy of the report of investigation, with his recommendation as to the merit of the claim to the Commissioner. (Sec. 4041 (a), I. R. C.)

§ 197.28 *Statement of process.* The Commissioner, at his discretion, may at any time require any person claiming drawback under the regulations in this part to file a statement of process in addition to that required by Form 1678 and such other data as he may deem necessary for consideration of such person's claim for drawback. When such

additional data are required, the statement of process should be submitted in triplicate with copies of the commercial labels used on the finished products.

5. This Treasury decision shall be effective on the 31st day after the date of its publication in the FEDERAL REGISTER.

Chapter VII—Sugar Rationing Administration, Department of Agriculture

[Sugar Rationing Administration Delegation Order 1, Revocation]

PART 705—ADMINISTRATION

DELEGATION OF AUTHORITY TO REGIONAL SUGAR EXECUTIVES AND DEPUTY REGIONAL SUGAR EXECUTIVES TO ISSUE ORDERS FIXING COMMUNITY DOLLAR-AND-CENTS CEILING PRICES

Pursuant to the authority conferred upon the Administrator of the Sugar Rationing Administration by the Secretary of Agriculture in General Orders No. 1 and 2, and by the Sugar Control Extension Act of 1947, *It is ordered*, That Sugar Rationing Administration Delegation Order No. 1 (§ 705.201) be and the same hereby is revoked.

This revocation shall become effective July 9, 1947.

Issued this 9th day of July 1947.

NOTE: Area quotas as set forth in this section will continue in effect for the same area even though the Branch Office having jurisdiction over such area is discontinued.

This amendment shall become effective July 18, 1947.

Issued this 18th day of July 1947.

[SEAL] N. E. DODD,
Acting Secretary of Agriculture.

Rationale Accompanying Amendment No. 4 to General Ration Order 19

This amendment revises the quotas allotted to Branch Offices which were established for industrial and institutional user refreshment bases under this order. Since institutional users are no longer rationed in their use of sugar for institutional use and do not need a base in order to make and serve refreshments in their establishments, the quotas originally established for institutional user refreshment bases are being added to the quotas established for industrial users.

This amendment, therefore, makes available to industrial users the entire quantity of sugar which the Sugar Control Extension Act of 1947 required should be set aside for new sugar users.

[3d Rev. RO 3,[1] Amdt. 66]

PART 707—RATIONING OF SUGAR

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

1. Section 22.13 is amended by adding a new paragraph (c) to read as follows:

(c) Notwithstanding the terms of any contract, agreement or commitment, regardless of when made, no person shall deliver sugar to any retailer, wholesaler or industrial user against whom he knows or has reason to know there is in operation an administrative suspension order prohibiting the acquisition of sugar.

2. Section 25.1 (c) 27 (iii) is amended to read as follows:

(iii) Any grade or type of saccharine product derived from sugarcane or sugar beets, which is principally of non-crystalline structure and, regardless of the percentage amount of non-sugar solids, contains soluble non-sugar solids (exclusive of any foreign substance that may have been added or developed in the product) consisting of less than 20 percent sulphated ash, excluding, however, any saccharine product, irrespective of the ash content thereof, which, under written authority granted to the producer of such product by the Director of the Sugar Branch, Production and Marketing Administration, of the Department of Agriculture, and upon compliance with the labeling and record-keeping requirements of the Department of Agriculture, contains soluble non-sugar solids equal to 6 percent or more of the total soluble solids and which results from reprocessing final beet molasses or blackstrap molasses or edible molasses.

This amendment shall become effective June 18, 1947.

Issued this 18th day of July 1947.

[SEAL] N. E. DODD,
Acting Secretary of Agriculture.

Rationale Accompanying Amendment No. 66 to Third Revised Ration Order 3

The present regulations exclude from the definition of sugar certain saccharin products which are produced under written authority granted to the producer of such products by the Department of Agriculture under the provisions of War Food Order No. 51 and which meet certain specified standards. Owing to the termination of War Food Order No. 51 this amendment provides that the Director of the Sugar Branch, Production and Marketing Administration, of the Department of Agriculture shall exercise the authority hitherto exercised in connection with the sugar rationing regulations by the Order Administrator of War Food Order No. 51 with respect to such saccharine products.

This amendment also removes the requirement that a saccharine product, to be excluded from the definition of sugar, must be produced in accordance with the

[1] 11 F. R. 177, 14281.

commercially recoverable sugar formula determined by the Secretary of Agriculture under the provisions of section 302 (a) of the Sugar Act of 1937, as amended, and must be classified by the Order Administrator of War Food Order No. 51, as amended, as edible molasses. The remaining requirements in the regulations for the exclusion of such a product from the definition of sugar continue in effect.

The requirement which this amendment removes was established in order to prevent an unreasonable diversion of sugar into this type of product. The improved sugar supply situation, as reflected in the increase in rationing levels and the removal of rationing controls over consumers and institutional users, coupled with the improved availability of nonrationed sugar substitutes, has reduced this danger of a diversion of sugar into such a product. In view of these improved conditions, it is deemed desirable to remove this requirement at this time.

This amendment further adds a provision to the rationing regulations which specifically prohibits a person from delivering sugar to any retailer, wholesaler, or industrial user against whom he knows or has reason to know that there is in operation an administrative suspension order prohibiting the acquisition of sugar. It is desirable to implement the restrictions of an administrative suspension order so that a person who knows or has reason to know that a retailer or wholesaler or industrial user is prohibited from acquiring sugar will also be prohibited from delivering sugar to such suspended unit or user.

PART 710—FOOD PRICES

DIRECT CONSUMPTION SUGAR

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 60 issued by the Office of Price Administration and amended by the Office of Temporary Controls under § 1334.51 of Title 32, Chapter XI is redesignated Maximum Price Regulation No. 60 issued under § 710.60, Title 32, Chapter VII pursuant to the authority vested in the Secretary of Agriculture by the Sugar Control Extension Act of 1947 and is amended in the following respects:

Section 10 (b) is amended to read as follows:

(b) "Direct consumption sugars" means any grade, or type of saccharine product derived from sugar beets or sugarcane, which is not to be, and which shall not be, further refined or otherwise improved in quality; and which is principally of crystalline structure containing sucrose, dextrose or levulose; or liquid sugar as herein defined. "Liquid sugar" means:

(i) Any syrup of cane juice, produced from sugarcane grown in the continental United States, which contains less soluble non-sugar solids (exclusive of any foreign substances that may have been added or developed in the product) than 4.5 percent of the total soluble solids; or

(ii) Any other grade or type of saccharine product derived from sugarcane or sugar beets, which is principally of non-crystalline structure and which contains less soluble non-sugar solids (exclusive of any foreign substances that may have been added or developed in the product) than 6 percent of the total soluble solids; or

(iii) Any grade or type of saccharine product derived from sugarcane or sugar beets, which is principally of non-crystalline structure and, regardless of the percentage amount of non-sugar solids, contains soluble non-sugar solids (exclusive of any foreign substance that may have been added or developed in the product) consisting of less than 20 percent sulphate ash, excluding, however, any saccharine product, irrespective of the ash content thereof, which under written authority granted to the producer of such product by the Director of the Sugar Branch, Production and Marketing Administration, of the Department of Agriculture and upon compliance with the labeling and record-keeping requirements of the Department of Agriculture, contains soluble non-sugar solids equal to 6 percent or more of the total soluble solids and which results from reprocessing final beet molasses or blackstrap molasses or edible molasses.

This amendment shall become effective June 18, 1947.

(Pub. Law 30, 80th Cong., 1st session.)

Issued this 18th day of July 1947.

[SEAL] N. E. DODD,
Acting Secretary of Agriculture.

Statement of the Considerations Involved in the Issuance of Amendment 11 to MPR 60

The accompanying amendment changes the definition of "direct consumption sugars" so that it will be consistent with the definition of sugar contained in Third Revised Ration Order 3, as amended by Amendment 66 to that order. The rationale accompanying that amendment explains the changes made in the definition and the reasons therefor.

For the purpose of clarity the entire definition of "direct consumption sugars" is given in the amendment although the only change in wording is in subdivision (iii) of section 10 (b) in that portion of the definition which defines the term "liquid sugar." "Liquid sugar" is included in the definition of sugar under the regulation except for those products which are specifically excluded.

Subdivision (iii) excludes from the definition of "liquid sugar" any saccharine product which is produced under written authority granted to the producer of such product by the Director of the Sugar Branch, Production and Marketing Administration, Department of Agriculture, upon compliance with the prescribed labeling and record-keeping requirements of the Department. This does not mean, however, that such a saccharine product is exempt from price control. Such a product although excluded from MPR 60 remains subject to price control as a syrup under the provisions of the General Maximum Price Regulation. Similar products have in many instances been priced by individual orders issued under the procedure established by Order 375 to that regulation.

SUSPENSION OF FOLLOW-LOT RULE AND TWO-FOR-ONE RULE

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 17th day of July A. D. 1947.

Upon further consideration of the provisions of Service Order No. 68 (8 F. R. 8513), as amended (8 F. R. 8513, 14224, 16265; 9 F. R. 7206, 14306; 10 F. R. 6040, 8142, 9720, 12090; 11 F. R. 562, 6983; 12 F. R. 46, 3837, 4719), and good cause appearing therefor: It is ordered, that:

Section 95.15 *Suspension of follow-lot rule and two-for-one rule*, of Service Order No. 68, as amended, be, and it is hereby, further amended by substituting the following paragraph (c) for paragraph (c) thereof:

(c) *Loading by carriers.* When two or more cars are to be loaded by the carriers with import freight each of such cars, except the final one, shall be loaded full or to its safe loading limit.

It is further ordered, that each railroad, or its agent, shall file and post a supplement to each of its tariffs affected hereby, publishing the provisions of this amendment.

It is further ordered, that this amendment shall become effective at 12:01 a. m., July 20, 1947; that a copy of this order and direction be served upon the State railroad regulatory bodies of each State, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

[Rev. S. O. 758]

PART 95—CAR SERVICE

FREE TIME AT PORTS ON GONDOLA CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 17th day of July A. D. 1947.

It appearing, that there is a critical shortage of gondola cars and that free time published in tariffs for unloading such cars at ports aggravates the shortage thereof; in the opinion of the Commission an emergency exists requiring immediate action at all ports of the country. It is ordered, that:

§ 95.758 *Free time at ports on gondola cars*—(a) *Free time reduced on gondola cars.* No common carrier by railroad, subject to the Interstate Commerce Act, shall allow, grant or permit more than a total of 7 days' free time on gondola cars held for unloading in coastwise, intercoastal or foreign commerce at the point of transshipment from car to vessel or when held short of such transfer point. The provisions of this paragraph shall not be constructed to require or permit the increase of any free time published in tariffs lawfully on file with this Commission.

(b) *Computation of free time.* (1) All Sundays and legal holidays shall be included in computing the free time provided in paragraph (a) of this section.

(2) The free time provided in paragraph (a) of this section shall be computed continuously from the first 7:00 a. m. after notice of arrival is sent, or after actual or constructive placement (whichever occurs first) until final release, less actual time required to move a constructively placed car to point of unloading.

(c) *Description of cars.* This section shall apply to cars suitable for interchange described under the heading Class G-Gondola Car Type.

(d) *Exemptions.* This section shall not apply to cars described in paragraph (c) of this section loaded with bulk freight. Bulk freight means any carload freight consisting of any non-liquid, nongaseous commodity shipped loose or in mass and which in the unloading thereof is ordinarily shoveled, scooped, forked, or mechanically conveyed, or which is not in containers or in units of such size as to permit piece by piece unloading.

(e) *Extreme weather.* During the period when weather conditions exist as described in Rule 8, Section A, Agent B. T. Jones' Tariff I. C. C. No. 3963, the provisions of this order are suspended. In lieu thereof the rules, regulations, and charges provided in lawfully published tariffs shall apply.

(f) *Effective date.* This section shall become effective at 7:00 a. m., July 21, 1947.

(g) *Expiration date.* This section shall expire at 7:00 a. m., December 1, 1947, unless otherwise modified, changed, suspended or annulled by order of this Commission.

(h) *Tariff provisions suspended.* The operation of all tariffs, rules and regulations, insofar as they conflict with the provisions of this order is hereby suspended.

(i) *Announcement of suspension.* Each railroad, or its agent shall publish, file, and post a supplement to each of its tariffs affected thereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of the operation of any of the provisions therein, and establishing the substituted provisions set forth herein.

It is further ordered, that this order shall vacate and supersede Service Order No. 758 on the effective date hereof; that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as Agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Subchapter B—Carriers by Motor Vehicle

[Dockets MC-C-542, and MC-C-543]

PART 204—CHARGES ON SMALL SHIPMENTS

TRAFFIC INQUIRY DATA

Pick-up and Delivery Services by Motor Carriers, Docket MC-C-542; Charges on Small Shipments by Motor Carriers, Docket MC-C-543.

The matter of the lawfulness of the rates, charges and practices in connection with small shipments by common carriers by motor vehicle being under consideration: It is ordered, that:

§ 204.1 *Traffic inquiry data.* Each class I common carrier by motor vehicle engaged in intercity service as a carrier of general commodities and subject to Part II of the Interstate Commerce Act, which had an annual gross operating revenue for the year ended December 31, 1946 of $400,000, or more, and every receiver, trustee, executor, administrator, or assignee of any such motor common carrier, is hereby required to compile and furnish to this Commission, the data called for in Traffic Table No. 1 which is attached hereto and made a part hereof. The Traffic Table shall be filed in duplicate with the Bureau of Transport Economics and Statistics, Interstate Commerce Commission, Washington 25, D. C., on or before the 15th day of October 1947.

It is further ordered, that a copy of this order and attachment thereto shall be served upon each common carrier of general freight, defined in § 204.1, and notice hereof shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

(49 Stat. 563, 54 Stat. 926; 49 U. S. C. 320).

NOTE: The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Dated at Washington, D. C., this the 10th day of July, A. D. 1947.

GENERAL INSTRUCTIONS AND FOOTNOTES

Traffic to be included in study. Include all intercity traffic moving, origin to destination, on all motor rates originated by your company on Wednesday, August 20, 1947, for which: (1) the shipper presents the original bill of lading to your company with the shipment; and (2) the destination on the bill of lading presented is a point within the United States.

Include both Local and Interline traffic and both Intrastate and Interstate traffic. Exclude all local cartage traffic and any traffic handled under contract carrier operations.

In determining the revenue of interline shipments, the entire interline revenue without regard to its division between motor carriers is to be used. In determining the appropriate mileage and territorial assignment of interline shipments, the entire motor carrier movement from origin to destination shown on the bill of lading will govern.

Where no through rates are applicable on interline shipments, revenues based on the combination of local rates are to be computed so that the revenue shown will correspond with the territorial and mileage-block assignment.

Procedure to be followed by individual motor carriers. Traffic Table 1 is to be filled out by each reporting motor carrier. Use a separate sheet for each territorial movement and for each mileage group within each territorial movement.

[1] Insert appropriate code number based on movements within and between the following territories:

Code No.	Movement
1	Between New England and New England.
2	Between East, excl. New England and East, excl. New England.
3	Between South and South.
4	Between West and West.
5	Between New England and East, excl. New England.
6	Between East incl. New England and South.
7	Between East, incl. New England and West.
8	Between South and West.

For purposes herein New England refers to territory in which intraterritorial tariffs of New England Motor Rate Bureau and Eastern Motor Freight Conference apply; East, excluding New England, to territory in which intraterritorial tariffs of Middle Atlantic States Motor Carrier Conference and Central States Motor Freight Bureau apply; and South to territory in which intraterritorial tariffs of Southern Motor Carriers Rate Conference apply. West includes the territory of tariff bureaus covering points and areas West of those described above.

[2] Insert appropriate code number based on following mileage blocks or lengths of haul:

Code:	*Length of haul (miles)*
11	0- 50
12	51- 100
21	101- 150
22	151- 200
31	201- 300
41	301- 400
51	401- 500
61	501- 600
62	601- 800
63	801-1,000
71	1,001-1,200
72	1,201-1,400
73	1,401-1,600
74	1,601-2,000
75	2,001-2,400
76	2,401-2,800
77	Over 2,800

NOTE: In grouping the shipments by the above lengths of haul use the Rate-making miles, i. e., the miles upon which the class rates are based. If not available, use Short-line highway miles, i. e., miles computed over the most direct highway route feasible for motor freight operations between origin and destination regardless of the actual handling of the shipment.

[3] After all shipments (both local and interline) have been tabulated in columns (3), (4), and (5), interline shipments are to be segregated and a separate tabulation of such shipments is to be made in columns (6), (7), and (8).

[4] Insert in columns (4) and (7) the actual weight and not the billed weight. In addition thereto insert in the

space provided at the foot of the table the Billed weight on shipments of 10,000 pounds and over.
[4] Sum of codes 100-110, inclusive.
[5] The purpose of showing totals is to facilitate verification in the subsequent machine tabulation work.
[6] Includes those shipments subject to the minimum-charge per shipment rule which are billed at a Flat charge per shipment. (Example: Shipments billed at the flat charge of $1.05.)
[7] Sum of codes 200-212, inclusive.
[8] Includes all shipments subject to the minimum-charge per shipment rule other than those described in footnote 7. (Example: Shipments billed at 100 pounds at first class or 100 pounds at the applicable rate.)
[9] Sum of codes 300-312, inclusive.

HANDLING OF MILK IN DESIGNATED MARKETING AREA

PROPOSED AMENDMENTS TO TENTATIVELY APPROVED MARKETING AGREEMENTS, AS AMENDED, AND MARKETING ORDERS, AS AMENDED

Notice of hearing on handling of milk in St. Louis, Missouri, Greater Boston, Massachusetts, Dubuque, Iowa, Greater Kansas City, La Porte County, Indiana, New York Metropolitan, Toledo, Ohio, Ft. Wayne, Indiana, Lowell-Lawrence, Massachusetts, Omaha-Council Bluffs, Chicago, Illinois, New Orleans, Louisiana, Quad Cities, Louisville, Kentucky, Fall River, Massachusetts, Sioux City, Iowa, Duluth-Superior, Philadelphia, Pennsylvania, Cincinnati, Ohio, St. Joseph County, Indiana, Wichita, Kansas, Suburban Chicago, Clinton, Iowa, Dayton-Springfield, Ohio, Tri-State, Minneapolis-St. Paul, Minnesota, Columbus, Ohio, and Cleveland, Ohio marketing areas.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure (7 CFR, Cum. Supp., 900.1 et seq.; 11 F. R. 7737, 12 F. R. 1159), as amended, notice is hereby given of a hearing to be held in the Jefferson Memorial Auditorium, South Building, United States Department of Agriculture, Washington, D. C., beginning at 10 a. m., e. d. s. t., July 30, 1947, for the purpose of receiving evidence with respect to proposed amendments to the tentatively approved marketing agreements, as amended, the marketing agreements and the marketing orders, as amended, regulating the handling of milk in the following specified marketing areas: St. Louis, Missouri, Greater Boston, Massachusetts, Dubuque, Iowa, Greater Kansas City, La Porte County, Indiana, New York Metropolitan, Toledo, Ohio, Ft. Wayne, Indiana, Lowell-Lawrence, Massachusetts, Omaha-Council Bluffs, Chicago, Illinois, New Orleans, Louisiana, Quad Cities, Louisville, Kentucky, Fall River, Massachusetts, Sioux City, Iowa, Duluth-Superior, Philadelphia, Pennsylvania, Cincinnati, Ohio, St. Joseph County, Indiana, Wichita, Kansas, Suburban Chicago, Clinton, Iowa, Dayton-Springfield, Ohio, Tri-State, Minneapolis-St. Paul, Minnesota, Columbus, Ohio, and Cleveland, Ohio. Such proposed amendments have not received the approval of the Secretary of Agriculture.

The amendments, which have been proposed by the Dairy Branch, Production and Marketing Administration, United States Department of Agriculture, and with respect to which evidence will be received at the said hearing, are as follows:

1. Amend each of the agreements and orders listed above by inserting appropriate provisions whereby any money claim thereunder shall be terminated or canceled after three years from its accrual, or after some other appropriate time, unless proper action has been instituted or taken within such period of time to enforce or present such claim, with appropriate provisions for an extension of such time in the event of fraud or nondisclosure of material facts or because of some other proper contingency. The addition of the following section to each such agreement and order is suggested as the detailed means of accomplishing this purpose:

Late claims. (a) Any claim against a handler for monies due by him under this order to the market administrator, or to any producer or to a cooperative association shall terminate and become void at the expiration of three years after the end of the delivery period in which the milk involved in the claim was received if an underpayment is claimed or three years after the date of the original payment if a refund is sought, unless a written demand therefor has been made against the handler within such period of time: *Provided*, That in the event of the handler's fraud, concealment of fact, failure to report material facts or failure to permit proper audit, any such claim against the handler shall not be so terminated or voided.

(b) Any claim by a handler against the market administrator for monies allegedly due under any provision hereof shall terminate and become void (1) at the expiration of three years after the end of the delivery period in which the milk involved in the claim was received, if an underpayment is claimed, or three years after the date of the original payment if a refund is sought, unless a written claim therefor has been filed by the handler with the market administrator within such period of time or (2) at the expiration of one year following the date of filing of such claim by the handler unless a proper administrative proceeding or court action based on such claim has been instituted by the handler.

2. Amend the existing record-keeping provisions of each such agreement and order by providing a specific period of time during which such records shall be maintained, which period should be coordinated and related to whatever period may be fixed for filing of claims and institution of proceedings as a result of proposal No. 1, with proper provision for an extension of that time as to specific records upon demand by the market administrator in proper cases.

3. Make such other changes in other existing provisions of each such agreement and order as may be required to effectuate fully the foregoing proposals.

Dated: July 18, 1947.

CIVIL AERONAUTICS BOARD

[14 CFR, Part 41]

SIGNING OF CLEARANCE FORMS, LOADING OF AIRCRAFT, AND SIGNING OF LOAD MANIFEST FORMS BY QUALIFIED PERSONNEL OTHER THAN THAT OF AIR CARRIER OPERATING AIRCRAFT

JULY 17, 1947.

The Safety Bureau of the Civil Aeronautics Board hereby gives notice that the Bureau will recommend that the Civil Aeronautics Board amend Part 41 of the Civil Air regulations to provide that qualified personnel other than that of the air carrier operating the aircraft may sign clearance forms, load aircraft, and sign load manifest forms. The proposed amendment does not change the present method of preparing and signing the maintenance release forms.

The proposed amendment is the same as that adopted for Part 61. The Safety Bureau will give careful consideration to all replies received and, after making any changes which appear to be appropriate, will present the proposed amendment to the Board for adoption. Any substantial objections to this proposal will be brought to the attention of the Board.

It is proposed to amend § 41.406 to read as follows:

§ 41.406 *Maintenance release, load manifest, and clearance forms.* All maintenance release, clearance, and load manifest forms used shall be approved by the Administrator. The original copies of such forms shall be given to the first pilot and duplicate copies kept in the station file for at least 90 days.

§ 41.4060 *Preparation of maintenance release form.* A maintenance release form shall be prepared for each aircraft delivered by the maintenance department to the operations department. This form must be signed by personnel of the air carrier charged with the duty of supervising the maintenance of the aircraft.

§ 41.4061 *Preparation of clearance form.* A clearance form shall be prepared for each flight between specified clearance points. The information for such clearance shall be prepared by the authorized aircraft dispatcher of the air carrier operating the aircraft. This form shall be signed by the first pilot and by the authorized aircraft dispatcher only when both believe the flight may be made with safety. The authority to sign such clearance may be delegated for a particular flight by the authorized aircraft dispatcher, but the authority to dispatch cannot be delegated, and such dispatcher remains responsible for the dispatch and continued supervision of the flight.

§ 41.4062 *Preparation of load manifest form.* A load manifest form showing the loading of the aircraft shall be prepared and signed for each flight by properly qualified personnel of the air carrier charged with the duty of supervising the loading of the aircraft and the preparation of the load manifest forms, or by qualified persons authorized by the air carrier. The aircraft when loaded shall not exceed the center of gravity limits or maximum allowable weight limits set forth in the aircraft certificate for the particular aircraft.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Bureau that those interested offer suggestions and comments regarding the proposed amendments. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt within 15 days from the date of this public notice.

AIR CARRIER FLIGHT RADIO OPERATORS

MINIMUM RECENT EXPERIENCE REQUIREMENTS

JULY 17, 1947.

The Safety Bureau of the Civil Aeronautics Board is presenting proposed amendments to Parts 41 and 61 of the Civil Air Regulations specifying the minimum recent experience a flight radio operator is required to have before he may serve in air carrier operation.

A proposal to amend was originally published in the FEDERAL REGISTER on May 1, 1947, requiring that the airman demonstrate his competency to the Administrator or his designee.

After further considering this proposal, the Safety Bureau has concluded that it would be preferable to place the responsibility of checking the airman, on the air carrier rather than on the Administrator. The Safety Bureau plans, therefore, to present to the Board the proposed amendments hereinafter set forth. Any substantial objections to the proposal will be brought to the attention of the Board.

The proposed amendment is as follows:

Qualification for duty. An airman shall not serve as a flight radio operator unless, within the preceding 12-month period, he has had at least 4 months of satisfactory experience as a radiotelegraph operator and 25 hours of experience in the operation of aircraft radio during flight; or until the air carrier has checked the airman and determined that he is (1) familiar with all current radio information pertaining to the routes to be flown, and (2) is competent with respect to the operating procedures and radio equipment to be used.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Bureau that those interested offer suggestions and comments regarding the proposed amendments. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt within 15 days from the date of this public notice.

AIR CARRIER NAVIGATORS

MINIMUM RECENT EXPERIENCE REQUIREMENTS

JULY 17, 1947.

The Safety Bureau of the Civil Aeronautics Board is presenting proposed amendments to Parts 41 and 61 of the Civil Air Regulations specifying the minimum recent experience a flight navigator is required to have before he may serve in air-carrier operation.

A proposal to amend was originally published in the FEDERAL REGISTER on May 1, 1947, requiring that the airman demonstrate his competency to the Administrator or his designee.

After further considering this proposal, the Safety Bureau has concluded that it would be preferable to place the responsibility of checking the airman, on the air carrier rather than on the Administrator. The Safety Bureau plans, therefore, to present to the Board the proposed amendments hereinafter set forth. Any substantial objections to the proposal will be brought to the attention of the Board.

The proposed amendment is as follows:

Qualifications for duty. An airman shall not serve as a flight navigator unless he has served in that capacity for at least 50 hours within the preceding 12-month period; or until the air carrier has checked the airman and determined that he is (1) familiar with all current navigational information pertaining to the routes to be flown, and (2) is competent with respect to the operating procedures and navigational equipment to be used.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Bureau that those interested offer suggestions and comments regarding the proposed amendments. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt within 15 days from the date of this public notice.

AIR CARRIER FLIGHT ENGINEERS

MINIMUM RECENT EXPERIENCE REQUIREMENTS

JULY 17, 1947.

The Safety Bureau of the Civil Aeronautics Board is presenting proposed amendments to Parts 41 and 61 of the Civil Air Regulations specifying the minimum recent experience a flight engineer is required to have before he may serve in air carrier operation.

A proposal to amend was originally published in the FEDERAL REGISTER on June 3, 1947, requiring that the airman demonstrate his competency to the Administrator or his designee.

After further considering this proposal, the Safety Bureau has concluded that it would be preferable to place the responsibility of checking the airman, on the air carrier rather than on the Administrator. The Safety Bureau plans, therefore, to present to the Board the proposed amendments hereinafter set forth. Any substantial objections to the proposal will be brought to the attention of the Board.

The proposed amendment is as follows:

Qualification for duty. An airman shall not serve as a flight engineer unless, within the preceding 12-month period, he has had at least 50 hours of experience as a flight engineer on the make and model aircraft on which he is to serve; or until the air carrier has checked the airman and determined that he is (1) familiar with all current information and operating procedures relating to the make and model aircraft to which he is to be assigned, and (2) is competent with respect to such aircraft.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Bureau that those interested offer suggestions and comments regarding the proposed amendments. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Washing-

ton 25, D. C., for receipt within 15 days from the date of this public notice.

TAKE-OFF LIMITATIONS TO PROVIDE FOR ENGINE FAILURE

JULY 18, 1947.

Notice is hereby given that the Civil Aeronautics Board has under consideration proposed amendments to Parts 41 and 61 of the Civil Air Regulations which will require that any gradient of the take-off surface shall be taken into account when computing the take-off limitations of aircraft certificated under the transport category.

Parts 41 and 61 now require that in applying take-off requirements to aircraft certificated under the transport category, a correction shall be made for any appreciable gradient of the take-off surface. Since the word "appreciable" has no defined limits, this may under certain conditions constitute a hazard to safety in that the gradient may not always be taken into consideration when establishing take-off limitations.

It is proposed to amend §§ 41.271 (c) and 61.7122 (c) as follows:

1. By striking the word "appreciable" from the first sentence of § 41.271 (c).

2. By striking the word "appreciable" from the first sentence of § 61.7122 (c).

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Board that those interested offer suggestions and comments regarding the proposed amendments. Comments in writing should be addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C., for receipt by July 31, 1947.

	Township 55 North, Range 101 West	
48	NE¼NE¼	25.70
	SE¼NE¼	32.26
	NE¼SE¼	20.07

The farm unit plats referred to above have been approved and are on file in the Office of the Superintendent, Bureau of Reclamation, Powell, Wyoming, and in the District Land Office at Cheyenne, Wyoming.

2. *Limit of acreage for which entry may be made or water secured.* The limit of area of public land per entry, representing the acreage which, in the opinion of the Secretary of the Interior, may be reasonably required for the support of a family upon such lands, is fixed in the amounts shown upon the farm unit plats for the respective farm units listed above. The maximum area for which water may be secured for lands in private ownership shall be 160 acres of irrigable land for each landowner. No one can at the same time hold and obtain water rights on a Federal Reclamation Project for both a farm unit of public land and a tract of privately-owned land unless the installations on the water right, either for the farm unit or for the private lands, not exceeding 160 acres, have been paid in full. Until State lands pass to private ownership, water may be secured for such lands on a rental basis.

3. *Application for public lands.* An application for a farm unit listed in this notice must be filed with the Superintendent, Bureau of Reclamation, Powell, Wyoming, if the applicant desires to qualify under the terms of this notice. No advantage will accrue to an applicant presenting his application in person. All applications received prior to 2:00 p. m., October 22, 1947, will be treated as simultaneously filed. Applications for a farm unit received after 2:00 p. m., October 22, 1947, will be considered only as provided in subparagraph (f) (5) of this notice.

(a) *Preference rights of veterans of World War II.* Pursuant to the provisions of the act of Congress of September 27, 1944 (58 Stat. 747), as amended by the acts of June 25, 1946 (Pub. Law 440, 79th Cong.) and May 31, 1947 (Pub. Law 82, 80th Congress) a preference right of application for a period of ninety days will be given to any person, including a person under 21 years of age, who has served in the military or naval forces of the United States for a period of at least ninety days at any time on or after September 16, 1940, and prior to the termination of the present war and who is honorably discharged and

---

[F. R. Doc. 47-6882; Filed, July 22, 1947; 8:47 a. m.]

who makes homestead entry subsequent to such discharge. Such preference right extends to the spouse or in case of death or marriage to the guardian of the minor orphan children of (1) any person who has died as a result of wounds received or disability incurred in line of duty while serving in the military or naval forces of the United States at any time on or after September 16, 1940, and prior to the termination of the present war or (2) any person who, prior to his or her death, had the qualifications set forth in the first sentence of this subparagraph and would have been entitled to a preference right of application had he or she lived.

(1) An honorable discharge within the meaning of the act of September 27, 1944 (58 Stat. 747) as amended, shall mean (a) the separation of the veteran from the service by means of an honorable discharge or a discharge under honorable conditions, (b) the transfer of the veteran from active duty to a reserve or retired status prior to the termination of the war or (c) the ending of the period of the veteran's war service by reason of termination of the war, even though the veteran remains in the military or naval service.

(2) All applicants are required to answer fully Question 1, on the Farm Application Blank, and, if claiming veterans' preference, must attach thereto a photostatic, certified or authenticated copy of an official document of his respective branch of military or naval service which clearly indicates an honorable discharge as described in subsection (1) of this paragraph (a).

(3) Applicants entitled to veterans' preference must satisfy all requirements of entrymen set forth in this notice. They will be rated as prescribed in subparagraph (e) and, if found eligible, will be listed on a preference register in the order of their ratings.

(4) For the purpose of this notice the ninety-day preference right of application for veterans of World War II shall begin with the day lands described herein are opened for entry at 2:00 p. m., July 24, 1947, and continue until the close of the simultaneous filing period, 2:00 p. m., October 22, 1947. Applicants for farm units who do not claim or establish such veterans' preference will not be rated until it is evident that sufficient qualified applicants, who have veterans' preference rights and who have filed application not later than 2:00 p. m., October 22, 1947, are not available to enter all the farm units listed in this notice. Non-preference applicants, if and when rated, will be listed on a non-preference register in the order of their rating. When the preference register has been fully cleared by awards of farm units or withdrawal of applicants or both, awards will be made to applicants on the non-preference register in the manner described in subparagraph (f) (5).

(b) *How to file an application for a farm unit.* Farm Application Blanks on which to make application for a farm unit under this notice may be secured from the Superintendent, Bureau of Reclamation, Powell, Wyoming; the Regional Director, Bureau of Reclamation, Billings, Montana; or the Commissioner, Bureau of Reclamation, Washington, D. C. The first paragraph of the application blank has spaces for the description of farm units for which the applicant wishes to be considered in the event he qualifies for the award of a unit. These blanks need not be filled in until the applicant is called for personal interview as prescribed in subparagraph f. However, he must set forth his preference prior to the interview. During the period set for personal interview, but before the actual interview, the Board will permit the applicant to fill in or change the description of the units which he elects after the applicant has had opportunity to make personal inspection of the farm units. If the Board deems it advisable, it may require the applicant to list, on a suitable form, all the units for which he wishes to be considered in the order of preference and sign a statement to the effect that he does not desire to be considered for any unit not listed. No advantage will accrue to an applicant who inspects the units elected prior to filing application, although each successful applicant must personally inspect the unit awarded prior to filing homestead entry with the District Land Office of the Bureau of Land Management. The choice of the applicant will be given full consideration. Except for the description of farm units in the first paragraph, all other questions on the farm application blank must be fully answered. Irrespective of any preference established under subparagraph (a), there must be strict compliance with the provisions of subparagraph (e).

(c) *Applicants must be qualified.* No entry shall be accepted or allowed by the Register of the District Land Office until the applicant therefor has satisfied the Examining Board appointed as set forth in subparagraph d below, that he is possessed of qualifications of industry, experience, character, and capital, as set forth in subparagraph (e). These qualifications are in addition to those required under the homestead laws. A statement of the qualifications required by the homestead laws may be secured from the District Land Office at Cheyenne, Wyoming, or from the Bureau of Land Management, Washington, D. C.

(d) *Examining Board.* An Examining Board of three members has been approved by the Commissioner of the Bureau of Reclamation to establish qualifications and consider the fitness of each applicant to undertake the development and operation of a farm. If found necessary, the Commissioner reserves the right to appoint additional or alternate members not to exceed a total of five. The Project Superintendent, who is a member of this Board representing the United States, will act as secretary. The statements made by applicants in their farm applications, as corroborated by the persons named as references therein, shall be used by the Board as the basis for determining the relative standing of applicants under subparagraph (e) below. Careful investigations will be made to verify the statements and representations made by applicants both on the farm application blanks and in the course of personal interviews, to the end that no misunderstanding may prevail either regarding the applicant's fitness or his appreciation of the problem before him. Any falsification or fraudulent representation made or discovered at any time will cause an application to be rejected. The Board is authorized to make rules incident to carrying out the provisions of this Public Notice with respect to rating and selection of applicants, and to establish the time for personal interviews. The Board will rate applicants according to standards described in subparagraph (e), and award public land units to successful applicants as set forth in subparagraph (f).

(e) *Determination of relative standing of applicants.* To determine whether an applicant for a farm unit is qualified under the provisions of subsection C of Section 4 of the Act of December 5, 1924 (43 Stat. 702), he will be rated and examined. The relative standings of the applicants will be based upon percentage rating with the following maximum weights given to the four prescribed qualifications:

	Percent
I. Character	10
II. Industry	20
III. Capital	35
IV. Farm Experience	35

Applicants for a farm unit will be rated for each of the above four qualifications according to the following schedules, and no applicants will be considered eligible who fall below the minimum named in any one of the headings of these schedules:

	Percent
I. Character:	
(a) Fair	4 (minimum)
(b) Good	5 to 7
(c) Excellent	8 to 10
II. Industry:	
(a) Fair	5 (minimum)
(b) Good	6 to 10
(c) Excellent	11 to 20
III. Capital:	
(a) $1,000 to $1,499	20 (minimum) to 24
(b) $1,500 to $1,999	25 to 29
(c) $2,000 to $2,499	30 to 34
(d) $2,500 or above	35 (maximum)
(e) One to four percent may be added to items (a), (b), or (c) for guaranteed credit of from $1,000 to $4,000: Provided—that the total percentage allowed for capital shall not exceed 35 percent. The credit must be suitable for the establishment of an economically sound farming operation.	

NOTE: The minimum capital requirement of $1,000 set forth in (a) above must be assets owned by the applicant and credit may not be substituted therefor.

	Percent
IV. Farm experience:	
(a) 2 years of work as a farmer's son after the age of 12 years or as a farm operator or farm hand after the age of 15 years	20
(b) Each additional year's work as farm hand, farmer's son or farm operator	5
(c) Each year of agricultural training in college, or technical experience in field of agriculture, if deemed by the Board to be equivalent to farm experience	2

NOTE: Item (a) is the minimum required for all applicants. The total percent allowed for items (a), (b), and (c), shall not exceed 35%. Farm experience must be of such nature as in the judgment of the Board will qualify the applicant to undertake the development and operation of an irrigated farm by modern methods.

V. Although no rating is provided for the physical condition of the applicant, he must be in such physical condition as to permit satisfactory farm operation. If physically handicapped or afflicted with ailments making the condition questionable, a detailed statement by an examining physician should accompany the application. The examining board will determine from the individual's application blank and from a personal interview, should he be one of those applicants selected as set forth in subparagraph f (4) below, whether the applicant is physically able to operate a farm and shall disqualify him if facts are such as to warrant such disqualification.

(f) *Showing of applicants and selection thereof.* In conformity with the following method, farm units listed in this Public Notice will be awarded by the Board as follows:

(1) Each applicant qualifying for veteran's preference under the act of September 27, 1944 (58 Stat. 747), as amended, who satisfies the minimum requirements set forth in subparagraph (e) shall be given a preliminary rating based upon the showing made by his farm application blank. He will be listed on a preference register in the order of his rating. Applicants who do not fulfill the minimum requirements will be so notified by registered mail with return receipt demanded.

(2) As soon as possible after October 22, 1947, the Examining Board shall select from the preference register referred to in subparagraph (f) (1) above, 62 applicants, in the order of their rating. If the preliminary rating of any remaining applicants is the same as the last selected applicant, the Board will add the names of such additional applicants with the same rating to the list of 62 to participate in the drawing set forth in subparagraph (f) (3) below. Immediately following the selection of this group of 62 or more persons, all other applicants remaining on the preference register shall be notified by registered mail, with return receipt demanded, of their standing. Each such applicant shall also be notified that since the number of qualified applicants exceeds the number of available farms, his application must be suspended and held for further consideration as provided in this notice.

(3) The Board, in a suitable and impartial manner, shall then conduct a drawing of the names of all applicants selected as set forth in subparagraph (f) (2) above; entering their names on a priority list in the order drawn.

(4) The Board shall then call the first 31 applicants for personal interviews, advising each applicant of his standing on the priority list as established by the drawing. He shall be advised of the probability that he will be certified as an entryman, with priority of award in the order drawn if the interview is satisfactory. Ordinarily the applicant will be certified as an entryman after the interview unless he fails to substantiate his showing on the farm application blank or he fails to elect one of the farm units remaining available after higher priority awards have been made. If the interview is satisfactory and the applicant is next on the list to receive a farm unit, the first unit on his preference list established as provided in subparagraph (b) above which is available will be awarded to him. If applicants higher on the priority list remain to be interviewed, definite allocation of a farm unit will be held in abeyance until all such prior award applicants have been allocated farm units. If any applicant is disqualified as set forth in paragraph 3 (e), his name shall be removed from the priority list and the preference register and other applicants on the priority list moved up in the order of their drawing. If any applicant is reduced below the lowest rating of the 62 or more applicants selected to participate in the drawing, his name shall be removed from the priority list and his position on the preference register adjusted in accordance with his revised rating. Additional applicants beyond the first 31, in the order of drawing, shall immediately be called for interview. To avoid the necessity of an applicant making a long journey without a reasonable assurance that he will receive a farm unit, no more applicants shall be called for interviews than there are units available. If the available farm units are all allocated before the names of all applicants on the priority list as provided in subparagraph (f) (3) are exhausted, each remaining applicant shall be notified by registered mail, with return receipt demanded, that all farm units to be opened have been allocated and that his application must be held for rejection. He will, however, retain his place on the priority list for further consideration should any units become available through failure of the entryman to complete his transaction, as provided in paragraph (h) below.

(5) Should the applicants on the priority list be exhausted before the available farm units are allotted, the selection process shall be repeated with the next highest rated group as outlined in subparagraph (f) (2), (3) and (4), immediately above. Should any farm units remain available when the preference register is exhausted, applications of persons who do not have veterans' preference and whose applications were filed prior to 2:00 p. m., October 22, 1947, will be considered as outlined in subparagraphs (f) (2), (3) and (4) immediately above. Should any farm units remain available after all applications filed before 2:00 p. m., October 22, 1947, have been considered, applications received after 2:00 p. m., October 22, 1947, will be considered in the order filed.

(6) Each action of the Board with respect to any individual applicant as provided in this subparagraph (f) is subject to appeal to the Director of Region 6, Bureau of Reclamation, Billings, Montana. Such appeals must be filed in the office of the Project Superintendent, Powell, Wyoming, within 15 days of receipt of notice of any action of the Board with respect to his application. The Superintendent will forward such appeals promptly to the Regional Director.

(g) *Notification of applicants.* (1) The decision of the Board as to the selection of successful applicants and the award of farm units shall be reduced to writing and a copy forwarded to the successful applicant, with return receipt requested. With such notice, the Board shall enclose statement of the minimum water charges due on the farm awarded and water-rental applications. Payment of the minimum water charges and such properly executed water-rental application must be in the office of the Bureau of Reclamation, Powell, Wyoming, within 15 days of receipt of the notice of award. Upon receipt by the Superintendent of the payment of minimum water charges, together with the executed water-rental application, within the period specified, the Secretary of the Examining Board will furnish each such applicant a certificate stating that his qualifications to enter public lands, as required by subsection C of section 4 of the act of December 5, 1924 (43 Stat. 702) have been passed upon and approved by that Board. Such certificate may be delivered personally or by registered mail, but in either case a proper acknowledgment of receipt must be secured. Such certificate must be attached by the applicant to his homestead application when he files such application at the District Land Office at Cheyenne, Wyoming. Such homestead application shall be filed within 30 days from the date of the receipt by the applicant of said certificate. Upon return of receipt indicating applicant has received above certificate, the Secretary of the Examining Board will indicate upon a copy thereof the time upon which the 30-day period for filing homestead application expires and forward same to the District Land Office.

(2) After all farm units have been entered, all applicants whose applications have not been previously rejected will be notified that the farm units listed in Public Notice No. 55 have been entered and all pending applications therefore are held for rejection.

(h) *Failure of selected applicant to complete transaction.* Failure of the selected applicant to pay the water charge or to make homestead application, or to execute and file any required water-rental application, within the time herein or hereafter specified, shall disqualify the applicant and entitle the Board to cancel the award of his farm unit and to award the same farm unit to another applicant selected in the manner prescribed in subparagraph (f).

(i) *Warning against unlawful settlement.* No person shall be permitted to gain or exercise any right under any settlement or occupation of any of the public lands covered by this notice except under the terms and conditions prescribed by this notice, *Provided, however,* That this shall not affect any valid existing right obtained by settlement or entry while the land was subject thereto.

(j) *Oil and gas lease.* Certain of the farm units are covered in whole or in part by oil and gas leases executed through the Bureau of Land Management under the act of February 25, 1920 (41 Stat. 437), as amended. Detailed information concerning these leases may be secured at the Bureau of Land Man-

agement, Washington, D. C., or at the District Land Office, Cheyenne, Wyoming.

(k) *Reservation of rights-of-way for County, State and Federal highways and access roads.* Rights-of-way are reserved for County, State, and Federal highways and access roads to the farm units shown on said plats along sectfon lines and other lines shown in red on the farm plats, said rights-of-way being in general 30 feet in width on each side of said lines for county roads, 20 feet each side of said lines for access roads, and either 40 feet or 50 feet each side of said lines for State and Federal highways.

(l) *Reservation of rights-of-way for telephone, electric transmission, water and sewer lines and water treating and pumping plants.* Rights-of-way are reserved for Government-owned telephone, electric transmission, water and sewer lines and water treating and pumping plants, as now constructed, and the Secretary reserves the right to locate such other Government-owned facilities over and across the farm units above described, as hereafter in his opinion may be necessary for the proper construction, operation or maintenance of said project.

(m) *Waiver of mineral rights.* All homestead entries for any of the above-described farm units will be subject to the laws of the United States governing mineral land, and all homestead applicants under this notice must waive the right to the mineral content of the land, if required to do so by the Land Office; otherwise, the homestead application will be rejected or the homstead entry cancelled.

4. *Application for delivery of water to State lands.* Blanks on which to make water-rental application for the State lands described in paragraph 1, may be secured from the Superintendent, Bureau of Reclamation, Powell, Wyoming; the Regional Director, Bureau of Reclamation, Billings, Montana; or the Commissioner, Bureau of Reclamation, Washington, D. C., and shall be filed on or after October 1, 1947.

5. *Charges payable by all water users.* The Reclamation Law provides that except during a "development period" fixed by the Secretary of the Interior water may not be delivered for the irrigation of lands until an organization, satisfactory in form and powers to the Secretary, has entered into a contract with the United States providing for the repayment of the project construction costs which are allocated to such irrigated lands. Pursuant to section 2 (j) and 7 (b) of the Reclamation Project Act of 1939, lands described in paragraph 1 of this Public Notice are hereby designated a development unit. The development period for the lands so designated is fixed at a period of six years from and including the first year in which water is delivered; provided, that such period may be extended by Supplemental Notice should the Secretary determine that further time is reasonably necessary to bring such lands under irrigation. All lands described in paragraph 1 must, therefore, be included within an organization of the type described and such organization must execute a contract covering the repayment of the construction costs allocated to such lands before the end of the development period.

(a) *Charges payable before execution of the repayment contract.* (1) The minimum water charge for 1948 and thereafter until further notice, shall be one dollar and seventy-five cents ($1.75) per acre for each irrigable acre of land. This charge is due and payable in advance on or before January 1, of the year in which water is to be delivered. Payment of this charge will entitle the entryman or landowner to a farm delivery of 2 acre-feet of water per irrigable acre for each irrigation season.

(2) Additional water will be furnished during the 1948 irrigation season and thereafter until further notice at the rate of seventy-five cents ($0.75) per acre-foot for the third acre-foot per irrigable acre and one dollar and twenty-five cents ($1.25) per acre-foot for each additional acre-foot per irrigable acre thereafter. Charges for the additional water are to be paid on or before December 1, of the year in which used. No water shall be delivered to the water user in subsequent years until all such charges have been paid in full.

(3) In the event any applicant does not receive notice of the award of a farm unit until after July 1, 1948, or July 1 of any subsequent year, the entryman's payment of charges under this subparagraph a shall be applied to payment of water charges for the succeeding year.

(4) The foregoing charges are subject to all provisions of the Federal Reclamation Law relative to collections and penalties for delinquencies. The charges will be paid at the office of the Bureau of Reclamation, Powell, Wyoming.

(b) *Charges payable after execution of the repayment contract.* These charges will be paid by the water users in accordance with the terms of the repayment contract. They will include an annual charge per acre to meet operation and maintenance costs and to repay to the Government that portion of the construction costs allocated to the Heart Mountain Division. On the date of issue of this Public Notice, it is impracticable to determine (1) the total construction cost of the Heart Mountain Division distributary system; (2) the allocation of costs to the Heart Mountain Division of the Shoshone Federal Reclamation Project; and (3) the ultimate water-service area of the Division. Accordingly, no exact statement as to the total and per acre construction charge to be made against lands opened in this Public Notice is practicable. However, total estimated construction costs of the Heart Mountain Division is $6,900,000. When the total construction charge has been determined and allocated by the Secretary of the Interior, and a repayment contract negotiated with the irrigation district, a supplementary notice announcing the total and per acre charges will be issued.

6. *Settler assistance in land development.* The Bureau of Reclamation, as an incident to the completion of the project, will assist entrymen, in appropriate cases, on a reimbursable basis, in development of farm units, including clearing and rough leveling the land and roughing in of farm irrigation and surface drainage systems beyond the farm turnout.

WILLIAM E. WARNE,
Assistant Secretary of the Interior.

FEDERAL POWER COMMISSION

[Project 1971]

IDAHO POWER CO.

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

JULY 17, 1947.

Public notice is hereby given pursuant to the provisions of the Federal Power Act (16 U. S. C. 791–825r) that Idaho Power Company of Boise, Idaho, has made application for preliminary permit for major Project No. 1971 (known as Oxbow development) to be located on Snake River and on lands of the United States in Baker County, Oregon, and Adams and Washington Counties, Idaho. The proposed project is to consist of a concrete dam across Snake River at the Oxbow site approximately 4 miles in a southerly direction from Homestead, Oregon, creating a reservoir about 11 miles long with an area of about 1,000 acres; two tunnels, one of which would be an existing tunnel enlarged, through the Oxbow to the powerhouse site; a powerhouse with installed capacity of approximately 140,000 kilowatts in four units at the outlet of the tunnels on the Oregon bank of the river about 3 miles downstream from the dam; and appurtenant facilities. The proposed project is to replace an existing power plant at the Oxbow site.

Any protest against the approval of this application or request for hearing thereon, with reasons for such protest or request, and the name and address of the party or parties so protesting or requesting, should be submitted before August 22, 1947, to the Federal Power Commission at Washington, D. C.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1448]

IOWA-ILLINOIS GAS AND ELECTRIC CO. AND UNITED LIGHT AND RAILWAYS CO.

SUPPLEMENTAL ORDER PERMITTING APPLICATION AND DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 16th day of July 1947.

Iowa-Illinois Gas and Electric Company ("Iowa-Illinois") and its parent, The United Light and Railways Company ("Railways"), a registered holding company, having filed a joint application and declaration and amendments thereto pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder regarding (1) the issuance and sale at competitive bidding by Iowa-Illinois of $22,000,000 principal amount of First Mortgage Bonds, due 1977 and the issuance and sale by Iowa-Illinois and the purchase by Railways of 35,000 additional authorized but unissued shares of common stock of Iowa-Illinois having a par value of $100 per share for a cash consideration of $3,500,000; and

Iowa-Illinois and Railways having requested that our order conform to the requirements of sections 371 (b), 371 (f), 373 (a) and 1808 (f) of the Internal Revenue Code, as amended, in respect to the expenditure by Railways of the net cash proceeds ($274,095.73) of the sale in 1946 of 2,436 shares of 5% Cumulative Convertible Preferred Stock of International Paper Company to pay a portion of the purchase price of the 35,000 shares of common stock of Iowa-Illinois and in respect of the issuance by Iowa-Illinois of the common shares to be purchased thereby; and

The Commission having by order dated July 2, 1947, granted said application, as amended, and permitted said declaration, as amended, to become effective subject to the terms and conditions prescribed in Rule U-24 and to the further condition that the proposed transactions shall not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, jurisdiction having been reserved for this purpose; and

Iowa-Illinois and Railways having filed a further amendment to said application and declaration setting forth the action taken by Iowa-Illinois to comply with the requirements of Rule U-50 and showing that pursuant to the invitation for competitive bids, five groups of bidders have submitted bids for the bonds as follows:

Bidding group headed by—	Price to company	Interest rate	Cost to company
		Percent	*Percent*
The First Boston Corp.....	100.779	2.75	2.712
Harris Hall & Co. (Inc.)....	100.7599	2.75	2.713
Blyth & Co., Inc.....	100.523	2.75	2.724
Halsey, Stuart & Co., Inc..	100.4099	2.75	2.730
Glore, Forgan & Co.....	100.3521	2.75	2.733

Said amendment having further set forth that Iowa-Illinois has accepted the bid of the group headed by The First Boston Corporation for the First Mortgage Bonds as set out above and that such bonds will be offered for sale to the public at a price of 101.4% of the principal amount thereof plus accrued interest from March 1, 1947 to the date of delivery resulting in an underwriters spread of .621% of the principal amount of the bonds; and

The Commission having examined the record in the light of said amendment and finding no basis for imposing terms and conditions with respect to the price to be paid for said bonds, the redemption prices thereof, the interest rate thereon, and the underwriters spread and its allocation with respect to the bonds;

It is ordered effective forthwith, That said application and declaration, as amended, be and the same hereby is granted and permitted to become effective, respectively, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered and recited, In view of the requirements of sections 371 (b), 371 (f), 373 (a) and 1808 (f) of the Internal Revenue Code, as amended, that the following transactions proposed in the aforesaid application and declaration, as amended, are necessary or appropriate to the integration or simplification of the holding company system of which Railways and Iowa-Illinois are members and necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, 49 Stat. 820 (U. S. C., Title 15, sec. 79K (b)) and that the following transactions be consummated within the time required by Rule U-24 of the general rules and regulations under the Public Utility Holding Company Act of 1935:

1. The expenditure by Railways of the entire net cash proceeds in the amount of $274,095.73, received by it from the sale during 1946, pursuant to prior orders of the Commission, of 2,436 shares of $100 par value 5% Cumulative Convertible Preferred Stock of International Paper Company, for the purchase of common shares of Iowa-Illinois of the par value of $100 per share at the price of $100 per share; and

2. The issuance by Iowa-Illinois of the common shares so to be purchased.

By the Commission.

SOUTHERN NATURAL GAS CO. AND FEDERAL WATER AND GAS CORP.

ORDER MODIFYING CONDITION AND GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 16th day of July A. D. 1947.

Southern Natural Gas Company ("Southern Natural"), a registered holding company and a subsidiary of Federal Water and Gas Corporation ("Federal"), a registered holding company, and Federal, having heretofore filed, respectively, a declaration and an application pursuant to sections 12 (f) and 10 of the Public Utility Holding Company Act of 1935, and Rules U-23 and U-43 promulgated thereunder, with respect to the payment by Southern Natural to its common stockholders of a dividend, consisting of 1,409,212 shares of the common stock of its non-utility subsidiary, Southern Production Company, Inc. ("Production"), on the basis of one share of the common stock of Production for each share of the common stock of Southern Natural, and the acquisition by Federal, as the owner of 765,022 shares of Southern Natural's common stock, of a like number of the common shares of Production; and

The Commission having by order dated May 22, 1947, permitted said declaration to become effective and granted said application subject to the terms and conditions prescribed in Rule U-24, which rule provides in part that, unless otherwise ordered, the proposed transactions be carried out within sixty days of the Commission's order permitting the declaration to become effective and granting the application; and

Southern Natural and Federal having requested that the time within which the transactions set forth in the aforesaid declaration and application may be consummated be extended to July 28, 1947, stating that such extension is necessary by reason of the fact that the aforesaid shares of the common stock of Production are not deliverable to the common stockholders of Southern Natural until said date; and

The Commission having considered said request and deeming it appropriate that it be granted;

It is ordered, That the terms and conditions contained in our order of May 22, 1947, be and hereby are modified to the extent necessary to extend the time within which the aforesaid transactions may be consummated to July 28, 1947.

By the Commission.

INTERSTATE POWER CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 15th day of July A. D. 1947.

Interstate Power Company ("Interstate"), a registered holding company, having filed a declaration pursuant to the Public Utility Holding Company Act of 1935, particularly sections 6 and 7 thereof, regarding the following transactions:

1. The issue and sale, on or before August 1, 1947, of two Collateral Promissory Notes, each in the principal amount of $550,000, bearing interest at the rate of 2% per annum and maturing December 1, 1947, one of said notes to be sold to The Chase National Bank of the City of New York ("Chase") and the other to Manufacturers Trust Company, New York ("Manufacturers").

2. The issue and pledge as collateral security for the aforesaid notes of $1,100,000 principal amount of Interstate's First Mortgage Bonds, 5% Series, due 1957.

3. The issue and sale, on or before October 15, 1947, of two Collateral Promissory Notes, each in the principal amount of $250,000, bearing interest at a rate not exceeding 2% per annum and maturing on December 1, 1947; one of said notes to be sold to Chase, and the other to Manufacturers.

4. In the event that Interstate's plan of reorganization (which was approved by the Commission on January 24, 1947 pursuant to section 11 (e) of the act and by the District Court of the United States for the District of Delaware on April 24, 1947) is not consumated prior to the issuance of said $500,000 principal amount of notes specified in paragraph 3 above, the issue and pledge, as collateral for said notes, of $500,000 principal amount of Interstate's First Mortgage Bonds, 5% Series, due 1957;

5. If the aforesaid reorganization plan is consummated prior to the maturity date, December 1, 1947, of the aforesaid aggregate $1,600,000 principal amount of notes, the issue and sale of two promissory notes, ("refunding notes") each in the principal amount of $800,000 and maturing no more than one year from the date of issue and bearing interest at a rate not exceeding 2% per annum, one of said notes to be sold to Chase, and the other to Manufacturers. Said notes are either to be unsecured, or if unsecured loans cannot be obtained, to be secured by the pledge, at the earliest date practicable after issuance of said notes, consistent with the provisions of Interstate's proposed Indenture and First Supplemental Indenture, to be dated as of June 1, 1947, of an equal aggregate principal amount of First Mortgage Bonds, ------% Series, due 1977, to be issued under said indenture. Said issue and sale of refunding notes will be for the purpose of permitting the repayment of the aforesaid aggregate $1,600,000 principal amount of Collateral Promissory Notes. It is represented that said aggregate $1,600,000 principal amount of refunding notes will be retired, after consummation of said plan of reorganization, through permanent financing as soon as Interstate considers such permanent financing feasible.

The declaration states that the proceeds from the proposed issue and sale of $1,600,000 principal amount of Collateral Promissory Notes will be applied toward the financing of Interstate's construction program. The declaration states further that by reason of credits which it will have in its account with the Corporate Trustee under the indenture securing its First Mortgage Bonds, 5% Series, due 1957, based on property additions, Interstate will be entitled to the authentication and delivery by said trustee, prior to July 15, 1947, of $1,100,000 principal amount of additional 5% bonds, and will be entitled, by reason of similar credits, to the authentication and delivery by said trustee, prior to October 15, 1947, of an additional $500,000 principal amount of said bonds. Interstate further represents that since property additions, as defined in the proposed Indenture and First Supplemental Indenture to be dated as of June 1, 1947, made subsequent to December 31, 1946, will be fundable, Interstate will be entitled under the provisions of said indenture, on the basis of property additions made subsequent to December 31, 1946, to the authentication and delivery by the Corporate Trustee under said indenture of $1,600,000 principal amount of First Mortgage Bonds, ------% Series, due 1977, at the time of the consummation of said reorganization plan, in case it is necessary to issue said bonds as collateral security as outlined in paragraph 5 above.

Said declaration having been filed on June 16, 1947 and notice of such filing having been duly given in the manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing thereon within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

Interstate having requested that the Commission take appropriate action to accelerate its order herein and that said order become effective forthwith, and the Commission deeming it appropriate to grant such request; and

The Commission finding with respect to said declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interests of investors and consumers that said declaration be permitted to become effective;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid declaration be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 16th day of July A. D. 1947.

Notice is hereby given that a joint declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Arkansas Natural Gas Corporation ("Arkansas Natural"), a registered holding company, and its subsidiary, Arkansas Louisiana Gas Company ("Arkansas Louisiana"). Declarants have designated sections 6 (a), 7 and 12 (b) of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than July 28, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission orders a hearing thereon. At any time after July 28, 1947, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration which is on file in the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Arkansas Louisiana proposes to enter into a loan agreement with the Guaranty Trust Company of New York pursuant to which the bank will be obligated to lend Arkansas Louisiana $11,500,000 on October 15, 1947 and to extend credit for an additional amount of $2,500,000. Under said agreement Arkansas Louisiana proposes to borrow $11,500,000 on October 15, 1947 and to issue in evidence therefor its installment promissory note, bearing interest at 2¼% per annum, payable at the rate of

$500,000 semi-annually to April 15, 1949 and thereafter at the rate of $625,000 semi-annually to April 15, 1957, the date of the final installment. The remaining $2,500,000 may be borrowed by Arkansas Louisiana as needed in amounts of $250,000 or a multiple thereof at any time prior to October 15, 1948, such borrowings to be evidenced by notes which are to bear interest at the rate of 2½% per annum and mature on October 15, 1957. Arkansas Louisiana will pay the bank a commitment fee at the rate of ¼ of 1% per annum on the maximum aggregate amount of loans to be made under the loan agreement ($14,000,000) from June 19, 1947, the date of the bank's obligation to lend said amount, to October 15, 1947. In addition, Arkansas Louisiana will pay a similar commitment fee on the daily average unused amount of the said $2,500,000 which the bank is obligated to lend from October 15, 1947 to October 15, 1948.

Arkansas Louisiana proposes to use $8,875,465 of the net proceeds of the bank loan of $11,500,000 for the redemption, on October 15, 1947, of its outstanding First Mortgage Bonds in the aggregate principal amount of $8,700,000 at their respective redemption prices. The remaining balance of said loan, together with the net proceeds of any additional notes, is for the stated purpose of financing the company's construction program.

Arkansas Natural, as the holder of all of the 4½% Sinking Fund Debentures due 1955 in the principal amount of $6,500,000 issued by Arkansas Louisiana, proposes to enter into an agreement together with Arkansas Louisiana and the Bank providing for the subordination of said Debentures, with respect to payment of principal and interest thereon, to the payment of the notes proposed to be issued under the aforesaid loan agreement in the manner and to the extent set forth in said Subordination Agreement. In connection with the execution of the Subordination Agreement, Arkansas Natural will place upon the aforesaid debentures an appropriate legend.

Fees and expenses, exclusive of commitment fees, have been estimated at $17,500, of which $12,500 are for legal fees.

Declarants state that no State commission has jurisdiction over the proposed transactions.

Declarants request that the Commission's Order permitting the declaration become effective forthwith.

By the Commission.

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and,

There is hereby vested in the Attorney General of the United States the property described in subparagraphs 2b-2d inclusive hereof,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 16, 1947.

For the Attorney General.

[SEAL] DAVID L. BAZELON,
Assistant Attorney General,
Director, Office of Alien Property.

PART 22—THE FEDERAL LAND BANK OF BALTIMORE

FEES

1. Section 22.1 of Title 6, Code of Federal Regulations is revoked.

2. Section 22.2 of said title is amended by striking out all of the section and substituting in lieu thereof the following:

§ 22.2 *New loan fees.* The following new loan fees shall be charged and collected from applicants and borrowers through the Puerto Rico Branch Bank of The Federal Land Bank of Baltimore:

Each application for a new loan shall be accompanied by an initial deposit of $15.00 to cover the cost of examination of title. If the application results in a Federal land bank loan in excess of $1,200.00 there shall be deducted from the proceeds of the loan an additional fee equal to one and one-quarter percent of each $100.00 or fraction thereof in excess of $1,200.00.

Each application for an increased or additional loan, whether or not additional security is offered, shall be accompanied by an initial deposit of $15.00 to cover the cost of examination of title. If a land bank loan in an increased amount is closed, there shall be deducted from the proceeds of such increased loan a fee comparable to the fee which would be collectible in connection with a new land bank loan; *Provided, however,* That the amount of the fee shall be computed only up the basis of the amount of new land bank money loaned to the borrower.

3. Sections 22.3, 22.4, 22.5 are revoked.

(Sec. 13 "Ninth", 39 Stat. 372; 12 U. S. C. 781 "Ninth")

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 900—GENERAL REGULATIONS UNDER THE AGRICULTURAL MARKETING AGREEMENT ACT OF 1937

EXECUTION OF MARKETING AGREEMENT AND ISSUANCE OF MARKETING ORDER

By virtue of the authority vested in the Secretary of Agriculture by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the Administrative Procedure Act (60 Stat. 237), and in conformity with the provisions of § 102 of Part I of Reorganization Plan No. 1 of 1947 (12 F. R. 4534), the rules of practice and procedure, as amended (7 CFR, Supps., 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), issued under the Agricultural Marketing Agreement Act of 1937, as amended, are hereby further amended by deleting the provisions of § 900.14 (c) and inserting, in lieu thereof, the following:

§ 900.14 *Execution of marketing agreement and issuance of marketing order.* * * *

(c) *Issuance of marketing order without marketing agreement.* If, despite the failure or refusal of handlers to sign the marketing agreement, as provided in section 8c (8) of the act, the Secretary makes the determinations required under section 8c (9) of the act, the Secretary shall issue and make effective the marketing order, if any, which was filed as a part of his decision pursuant to § 900.13a.

PART 962—FRESH PEACHES GROWN IN GEORGIA

DETERMINATION RELATIVE TO BUDGET OF EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1947-48 FISCAL PERIOD

On July 3, 1947, the Secretary of Agriculture approved (12 F. R. 4536) the rate of assessment for the 1947-48 fiscal period under the marketing agreement and Order No. 62 (7 CFR, Cum. Supp., 962.1 et seq.), regulating the handling of fresh peaches grown in the State of Georgia. Such approval was given after consideration of all relevant matters presented, including the proposals set forth in the notice of proposed rule making which was published in the FEDERAL REGISTER on May 30, 1947 (12 F. R. 3538). One of the factors considered as a basis for the approved rate of assessment was that interstate shipments of peaches for the 1947-48 fiscal period would, according to the estimate of the Industry Committee (established pursuant to the aforesaid marketing agreement and order), aggregate 2,709,000 bushels. It has become necessary, since that time, to revise such estimate to 2,167,200 bushels.

Section 3 of the marketing agreement and § 962.5 of Order No. 62 provide that at any time during a fiscal period the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses of the aforesaid committee. Such increase shall be applicable to all assessable peaches handled during the fiscal period.

Pursuant to the provisions of the aforesaid marketing agreement and order and on the basis of available information, it is hereby found that the approved rate of assessment (12 F. R. 4536) of eight mills ($0.008) should be increased to one cent ($0.01) per bushel basket of peaches (net weight 50 pounds), or its equivalent of peaches in other containers or in bulk, shipped during the 1947-48 fiscal period so as to provide sufficient funds with which to defray the expenses of the aforesaid committee.

It is, therefore, ordered, That the provisions of § 962.201 *Budget of expenses and rate of assessment for the 1947-48 fiscal period* (12 F. R. 4536) are hereby amended to read as follows:

§ 962.201 *Budget of expenses and rate of assessment for the 1947-48 fiscal period.* The expenses necessary to be incurred by the Industry Committee, established pursuant to the provisions of the aforesaid marketing agreement and order, to enable such committee to perform its functions, in accordance with the provisions of the aforesaid marketing agreement and order, during the fiscal period beginning March 1, 1947, and ending on the last day of February 1948, both dates inclusive, will amount to $21,672.00, and the rate of assessment to be paid, in accordance with the aforesaid marketing agreement and order, by each handler who first handles peaches shall be one cent ($0.01) per bushel basket of peaches (net weight 50 pounds), or its equivalent of peaches in other containers or in bulk, shipped by him as the first shipper thereof during said fiscal period; and such rate of assessment is hereby approved as each such handler's pro rata share of the aforesaid expenses.

Compliance with the notice, public rule making procedure, and 30-day effective date requirements of section 4 of the Administrative Procedure Act is impracticable, unnecessary, and contrary to the public interest in that (a) regulations with respect to shipments of peaches have been in effect since June 5, 1947; (b) a large volume of the Georgia peach crop is handled by itinerant truckers and cash buyers who operate in the area only part of the season; and (c) in order for the assessments to be collected, especially from those handlers who do not have definite or established places of business

in the production area, it is essential that the specification of the increased assessment rate be issued immediately so as to enable the said Industry Committee to perform its duties and functions under the aforesaid marketing agreement and order.

As used in this section, the terms "handler," "shipped," "peaches," and "fiscal period" shall have the same meaning as is given to each such term in the aforesaid marketing agreement and order. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 7 CFR, Cum. Supp., 962.5)

Done at Washington, D. C., this 18th day of July 1947.

Acting Secretary of Agriculture.

TAG MANUFACTURERS INSTITUTE ET AL.

§ 3.27 (d) *Combining or conspiring—To enhance, maintain, or unify prices.* In connection with the offering for sale, sale, and distribution of tags, pin tickets, and other similar marking and pricing devices, or "tag products," in commerce, and on the part of respondent Tag Manufacturers Institute, its officers, etc., and respondent Frank H. Baxter, individually and as an officer of said Institute, and his representatives, etc., and respondent members, and their respective representatives, etc., entering into, continuing, cooperating in, or carrying out any planned common course of action, mutual agreement, understanding, combination, or conspiracy between and among any two or more of said respondents and others not parties hereto to (1) establish, fix, or maintain prices, terms, or conditions of sale for tags or tag products or adhere to, or promise to adhere to, the prices, terms, or conditions of sale so fixed; (2) hold or participate in any meeting, discussion, or exchange of information among themselves or under the auspices of the respondent Tag Manufacturers Institute, respondent Frank H. Baxter, or any other medium or agency for the purpose of discussing or devising methods or fixing, establishing, or maintaining prices, terms, or conditions of sale for tags or tag products; (3) expressly or impliedly subscribe to, or carry out, any past, presently existing, or new agreement to establish, maintain, or continue any plan for the purpose or with the effect of informing or advising any of the manufacturing respondents or any other manufacturer of tags or tag products as to the price, terms, or conditions of sale at or upon which any manufacturing respondent or other seller of tags or tag products expects to make a sale or sales of tags or tag products; (4) exchange, distribute, or relay among the manufacturing respondents, or any of them, or through respondent Tag Manufacturers Institute, respondent Frank H. Baxter, or through any other medium or central agency, information as to current prices for the purpose or with the effect of fixing or maintaining prices, terms, or conditions of sale for tags or tag products; (5) exchange, distribute, or relay among the manufacturing respondents, or any of them, or through respondent Tag Manufacturers Institute, respondent Frank H. Baxter, or through any other medium or central agency, information concerning prices charged particular customers or information concerning sales or shipments of tags or tag products when the identity of the manufacturer, seller, or purchaser can be determined or disclosed through such information and which has the capacity or tendency of aiding in securing compliance with the prices, terms, or conditions of sale as announced by any one or more of the manufacturing respondents; (6) collectively investigate, review, consider, or act upon, either directly or through respondent Tag Manufacturers Institute, respondent Frank H. Baxter, or any other medium or central agency, the act of any seller of tags in making a sale at prices, terms, or conditions of sale different from those announced, exchanged, or relayed by such seller to other respondents directly, through respondent Frank H. Baxter, or otherwise; (7) take any action for the purpose or with the effect of penalizing in any way, through the assessment or collection of liquidated damages or the imposition of any other penalty upon or against any seller of tags or tag products for failure to file with or exchange among respondents, directly or through respondent Tag Manufacturers Institute, respondent Frank H. Baxter, or any other medium or central agency, information concerning prices, terms, or conditions of sale expected to be charged by such seller or information concerning prices which such seller has charged or is currently charging any one of its customers; (8) take any action having the purpose, capacity, or tendency to aid in securing on the part of any seller of tags or tag products compliance with its announced prices, terms, or conditions of sale; (9) formulate, establish, put into operation, continue, or use in any way any "open price reporting plan" or any price reporting plan which has the tendency or the effect of depriving the public of any benefit of competition in price between and among the manufacturing respondents or between any of them and any other manufacturere or seller of tags or tag products; (10) authorize or permit the examination of the books or other records of the manufacturing respondents by any agent of respondent Tag Manufacturers Institute, respondent Frank H. Baxter, or by any agent of the respondents, or any of them, so as to permit or make possible a collective or cooperative consideration or comparison through any common agent of the prices, terms, or conditions of sale at which the respective manufacturing respondents have made sales, are currently making sales, or expect to make sales; or (11) employ or utilize respondent Frank H. Baxter, respondent Tag Manufacturers Institute, or any other medium or central agency as an instrument, vehicle, or aid in performing or doing any of the acts or practices prohibited by this order; prohibited. Eastman and Julia Eastman, copartners trading as Eastman Tag & Label Company, and J. L. May, J. C. May, and Frank May, copartners trading as J. L. May Company, and their respective representatives, agents, and employees, in connection with the offering for sale, sale, and distribution of tags, pin tickets, and other similar marking and pricing devices, hereinafter referred to as "tag products," in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from entering into, continuing, cooperating in, or carrying out any planned common course of action, mutual agreement, understanding, combination, or conspiracy between and among any two or more of said respondents or between any one or more of said respondents and others not parties hereto to do or perform any of the following acts or practices:

1. Establishing, fixing, or maintaining prices, terms, or conditions of sale for tags or tag products or adhering to, or promising to adhere to, the prices, terms, or conditions of sale so fixed.

2. Holding or participating in any meeting, discussion, or exchange of information among themselves or under the auspices of the respondent Tag Manufacturers Institute, respondent Frank H. Baxter, or any other medium or agency for the purpose of discussing or devising methods of fixing, establishing, or maintaining prices, terms, or conditions of sale for tags or tag products.

3. Expressly or impliedly subscribing to, or carrying out, any past, presently existing, or new agreement to establish, maintain, or continue any plan for the purpose or with the effect of informing or advising any of the manufacturing respondents or any other manufacturer of tags or tag products as to the price, terms, or conditions of sale at or upon which any manufacturing respondent or other seller of tags or tag products expects to make a sale or sales of tags or tag products.

4. Exchanging, distributing, or relaying among the manufacturing respondents, or any of them, or through respondent Tag Manufacturers Institute, respondent Frank H. Baxter, or through any other medium or central agency, information as to current prices for the purpose or with the effect of fixing or maintaining prices, terms, or conditions of sale for tags or tag products.

5. Exchanging, distributing, or relaying among the manufacturing respondents, or any of them, or through respondent Tag Manufacturers Institute, respondent Frank H. Baxter, or through any other medium or central agency, information concerning prices charged particular customers or information concerning sales or shipments of tags or tag products when the identity of the manufacturer, seller, or purchaser can be determined or disclosed through such information and which has the capacity or tendency of aiding in securing compliance with the prices, terms, or conditions of sale as announced by any one or more of the manufacturing respondents.

6. Collectively investigating, reviewing, considering, or acting upon, either directly or through respondent Tag Manufacturers Institute, respondent Frank H. Baxter, or any other medium or central agency, the act of any seller of tags in making a sale at prices, terms, or conditions of sale different from those announced, exchanged, or relayed by such seller to other respondents directly, through respondent Frank H. Baxter, or otherwise.

7. Taking any action for the purpose or with the effect of penalizing in any way, through the assessment or collection of liquidated damages or the imposition of any other penalty upon or against any seller of tags or tag products for failure to file with or exchange among respondents, directly or through respondent Tag Manufacturers Institute, respondent Frank H. Baxter, or any other medium or central agency, information concerning prices, terms, or conditions of sale expected to be charged by such seller or information concerning prices which such seller has charged or is currently charging any one of its customers.

8. Taking any action having the purpose, capacity, or tendency to aid in securing on the part of any seller of tags or tag products compliance with its announced prices, terms, or conditions of sale.

9. Formulating, establishing, putting into operation, continuing, or using in any way any "open price reporting plan" or any price reporting plan which has the tendency or the effect of depriving the public of any benefit of competition in price between and among the manufacturing respondents or between any of them and any other manufacturer or seller of tags or tag products.

10. Authorizing or permitting the examination of the books or other records of the manufacturing respondents by any agent of respondent Tag Manufacturers Institute, respondent Frank H. Baxter, or by any agent of the respondents, or any of them, so as to permit or make possible a collective or cooperative consideration or comparison through any common agent of the prices, terms, or conditions of sale at which the respective manufacturing respondents have made sales, are currently making sales, or expect to make sales.

11. Employing or utilizing respondent Frank H. Baxter, respondent Tag Manufacturers Institute, or any other medium or central agency as an instrument, vehicle, or aid in performing or doing any of the acts or practices prohibited by this order.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

TITLE 48—TERRITORIES AND INSULAR POSSESSIONS

Chapter IV—The Alaska Railroad, Department of the Interior

PART 400—ORGANIZATION AND PROCEDURE

REDELEGATIONS OF AUTHORITY

Section 400.100 is added to Chapter IV to read as follows:

§ 400.100 *Redelegations of authority; contracts.* (a) Pursuant to 43 CFR 4.100 and subject to its provisions, the persons specified in paragraph (b) of this section are authorized to enter into contracts on behalf of The Alaska Railroad. All contracts, other than those contracts for the purchase of materials, supplies and commissary requirements, entered into pursuant to the authority granted by this section and requiring payment by The Alaska Railroad of an amount in excess of one thousand dollars must be approved in writing by the General Manager or the Acting General Manager before becoming effective. With respect to any contract entered into on a United States standard form, a person authorized to enter contracts on behalf of the Railroad by virtue of this section, shall be deemed the contracting officer within the meaning of the provisions of said standard forms. In the case of any proposed contract to be entered into on a form other than a United States standard form, the extent of the authority of the person authorized to enter into such contract shall be as determined by the General Manager. The authority delegated by this section includes the authority to enter into a contract without previous advertisement for proposals in any case where the entering into a contract under such circumstances is authorized by section 9 of the act of August 2, 1946 (60 Stat. 806, 809, 41 U. S. C. sec. 5). However, the person entering into any such contract without previous advertisement shall without delay thereafter execute United States Standard Form No. 1034–Rev., including the form "Method of or Absence of Advertising" on the reverse side of said Form No. 1034–Rev. Persons authorized by this section to enter into contracts on behalf of the Railroad shall obtain the advice of the Chief Counsel, Division of Territories and Island Possessions, or the Legal Counsel of the Railroad throughout the course of the negotiations relating to a contract. Invitations for bids, bid forms, specifications, contract forms, and all other forms or materials pertaining to contracts of the Railroad shall be submitted to the said Chief Counsel or Legal Counsel for examination and every contract of the Railroad, other than those contracts for the purchase of materials, supplies and commissary requirements, entered into pursuant to the authority granted by this section and requiring payment by The Alaska Railroad of an amount in excess of one thousand dollars shall be initialed by either the Chief Counsel or the Legal Counsel. Forms or other materials relating to contracts of the Railroad shall be submitted for examination by the Chief Counsel or the Legal Counsel prior to their formal issuance or execution in any case where there is involved any departure from practices or procedures theretofore in effect, or any other novel or unusual circumstances.

(b) The following persons are authorized to exercise the authority with respect to contracts of The Alaska Railroad delegated by paragraph (a) of this section:

(1) The Purchasing Officer, Alaska-Seattle Service Office.

(2) The Assistant General Manager, The Alaska Railroad.

(3) The Superintendent of Operations, The Alaska Railroad.

(4) The Special Representative of The Alaska Railroad, Seattle Office.

(5) The Traffic Manager, The Alaska Railroad.

(6) The Chief Engineer, The Alaska Railroad.

(7) The Superintendent, Stores and Purchases, The Alaska Railroad.

(8) The Superintendent, Motive Power and Equipment, The Alaska Railroad.

(9) The Conservation Engineer, The Alaska Railroad.

(10) The Chief Surgeon, The Alaska Railroad.

NOTICE FOR FILING OBJECTIONS TO PROPOSED ORDER MODIFYING STOCK DRIVEWAY WITHDRAWAL NO. 144, WYOMING NO. 18

JULY 17, 1947.

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the proposed order of the Secretary of the Interior which would add the NW¼SE¼ sec 26 and NW¼SE¼ sec. 35, T. 42 N., R. 86 W., 6th P. M., Wyoming, to Stock Driveway Withdrawal No. 144, Wyoming No. 18, and release the SW¼NW¼ sec. 26 and NE¼SE¼ sec. 34, in the same townships, from the stock driveway withdrawal, may present their objections to the Secretary of the Interior. The proposed change is designed to effect an improvement in the stock trail. Objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed, and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose, intent and extent. Should any objection be filed, whether or not a hearing is held, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

FEDERAL POWER COMMISSION

[Docket No. G-912]

INTERSTATE NATURAL GAS CO., INC.

ORDER FIXING DATE OF HEARING

Upon consideration of the application filed June 16, 1947, by Interstate Natural Gas Company, Inc., a Delaware corporation with its principal place of business in Monroe, Louisiana, for authority pursuant to section 7 of the Natural Gas Act, as amended, to abandon and remove a certain portion of its natural gas facilities as fully described in such application on file with the Commission and open to public inspection; and

It appearing to the Commission that:

The proceeding is a proper one for disposition under the provisions of Rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946), applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on July 9, 1947 (12 F. R. 4521).

The Commission, therefore, orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on August 7, 1947, at 9:30 a. m. (e. d. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, NW., Washington, D. C., concerning the matters of fact and law asserted in the application filed in this proceeding; *Provided, however*, That if no request to be heard, or protest, or petition to intervene, raising in the judgment of the Commission an issue of substance, has been filed or allowed, the Commission may, after such hearing, forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the hearing, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: July 18, 1947.

By the Commission.

[Docket No. G-921]

UNITED GAS PIPE LINE CO.

NOTICE OF APPLICATION

JULY 16, 1947.

Notice is hereby given that on July 1, 1947, United Gas Pipe Line Company (Applicant), a Delaware corporation with principal place of business at Shreveport, Louisiana, and authorized to do business in the States of Alabama, Florida, Louisiana, Mississippi and Texas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of the following facilities to serve the following towns and communities in the State of Mississippi:

(1) *Charleston.* Approximately 8.29 miles of 4-inch and 7.00 miles of 2-inch line and appurtenant facilities, beginning at the Tennessee Gas and Transmission Company's 24-inch line in the southeast part of Quitman County, Mississippi, and extending in a general southeasterly direction, thence in a general southerly direction through Quitman, Panola and Tallahatchie Counties to end near the west city limits of Charleston in Tallahatchie County, Mississippi.

(2) *Crowder.* Approximately 0.85 mile of 2-inch line and appurtenant facilities, beginning at the above-proposed 4-inch and 2-inch Charleston line approximately 1.7 miles from its point of beginning and extending in a general northeasterly direction to end near the west city limits of Crowder, all in Quitman County, Mississippi.

(3) *Drew.* Approximately 1.24 miles of 2-inch line and appurtenant facilities, beginning at the Tennessee Gas and Transmission Company's 24-inch line and extending in a general northwesterly direction to end near the east city limits of Drew, all in Sunflower County Mississippi.

(4) *Marks.* Approximately 6.36 miles of 4-inch and 3.38 miles of 2-inch line and appurtenant facilities, beginning at the Tennessee Gas and Transmission Company's 24-inch line and extending in a general northerly direction to end near the south city limits of Marks, all in Quitman County, Mississippi.

(5) *Lambert.* Approximately 0.40 miles of 2-inch line and appurtenant facilities, beginning at the above-proposed 4-inch and 2-inch Marks line approximately 6.36 miles from its point of beginning and extending in a general westerly direction to end near the east city limits of Lambert, all in Quitman County, Mississippi.

(6) *Ruleville.* Approximately 1.69 miles of 2-inch line and appurtenant facilities, beginning at the Tennessee Gas and Transmission Company's 24-inch line and extending in a general southeasterly direction to end near the north city limits of Ruleville, all in Sunflower County, Mississippi.

(7) *Sardis, Como and Senatobia.* Approximately 7.17 miles of 4-inch and 7.70 miles of 2-inch line and appurtenant facilities, beginning at the Tennessee Gas and Transmission Company's 24-inch line in Panola County, Mississippi, and extending in a general northwesterly direction, passing near the east city limits of Sardis and Como in Panola County, Mississippi, and ending near the east city limits of Senatobia in Tate County, Mississippi.

(8) *Shaw.* Approximately 0.47 miles of 2-inch line and appurtenant facilities, beginning at the Tennessee Gas and Transmission Company's 24-inch line in Sunflower County and extending in a general northwesterly direction through Sunflower and Bolivar Counties to end near the south city limits of Shaw in Bolivar County, Mississippi.

(9) *Sumner-Tutwiler.* Approximately 5.61 miles of 2-inch line and appurtenant facilities, beginning at the Tennessee Gas and Transmission Company's 24-inch line and extending in a general northwesterly direction past the southwest corner of the Sumner city limits to end near the southeast corner of the city limits of Tutwiler, all in Tallahatchie County, Mississippi.

(10) *Water Valley.* Approximately 15.20 miles of 4-inch and 8.00 miles of 2-inch line and appurtenant facilities, beginning at the Tennessee Gas and Transmission Company's 24-inch line in Panola County, Mississippi, and extending in a general southeasterly direction through Panola, Lafayette and Yalobusha Counties to end near the north city limits of Water Valley in Yalobusha County, Mississippi.

(11) *Webb.* Approximately 0.99 mile of 2-inch line and appurtenant facilities, beginning at the Tennessee Gas and Transmission Company's 24-inch line and extending in a general southeasterly direction to end near the west city limits of Webb, all in Tallahatchie County, Mississippi.

Applicant states that it proposes to sell natural gas to United Gas Corporation at or near the corporate limits of the above-named towns for resale in such towns, which towns have not heretofore been served with natural gas. Applicant further proposes to sell to United Gas Corporation such volumes of natural gas as it may require for resale to rural customers along the route of Applicant's proposed pipe line facilities.

Applicant states that said facilities will be operated at the operating pressures prevailing in the 24-inch main pipe line of Tennessee Gas and Transmission Company at the points of connection, and will have an estimated maximum daily delivery capacity of approximately 11,000 Mcf. Applicant estimates the total maximum daily demand of the markets proposed to be served at 5,500 Mcf and the total minimum daily demand at 930 Mcf.

Applicant states that it is negotiating a contract with Tennessee Gas and Transmission Company for the gas supply for the proposed facilities.

Applicant recites that it proposes to enter into a contract with United Gas Corporation, under which Applicant will sell and deliver natural gas to that company at or near the corporate limits of the above-named towns at a price which will be 20 cents per Mcf more than the price which Applicant will pay to Tennessee Gas and Transmission Company for such gas.

Applicant states that there are no main line industrial consumers to be served from the proposed facilities at present, and there is no other natural gas company rendering service in the above-named counties in the State of Mississippi with the exception of the Counties of Bolivar, Panola and Sunflower, in which natural gas service is presently rendered to a limited extent by the following: Memphis Natural Gas Company in Bolivar and Sunflower Counties; Mississippi Power & Light Company in Sunflower County; and Tennessee Gas and Transmission Company in Panola County.

The estimated over-all capital cost of the proposed facilities is approximately $539,000. In order to finance its 1947 construction program, which includes the construction covered by this application, it is expected that in the third quarter of this year the Applicant will either (1) borrow from its parent, United Gas Corporation, and issue unsecured notes for the amount of such borrowings, or (2) sell bonds to its parent, United Gas Corporation, in accordance with Applicant's Mortgage and Deed of Trust dated September 25, 1944.

Any interested state commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of United Gas Pipe Line Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure, and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

[Docket No. G-922]

LOUISIANA-NEVADA TRANSIT CO.

NOTICE OF APPLICATION

JULY 18, 1947.

Notice is hereby given that on July 7, 1947, Louisiana-Nevada Transit Company (Applicant), a Nevada Corporation having its principal offices in Ada, Oklahoma, and Hope, Arkansas, and authorized to do business in the States of Louisiana and Arkansas, filed an application with the Federal Power Commission for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate the following described facilities, subject to the jurisdiction of the Commission:

Approximately 17.15 miles of 6-inch O. D. natural-gas transmission line, and appurtenant facilities, including measuring and regulating equipment, commencing at a point on the properties of Blackwell Oil & Gas Company and G. H. Vaughn, located in Haynesville Pool, Claiborne Parish, Louisiana, more particularly described in a contract executed by Applicant and said property owners, a copy of which contract is attached to the application and on file with the Commission, and extending in a westerly direction to a point of connection with Applicant's 8⅝-inch transmission line approximately two (2) miles south of Springhill, Louisiana, in Township 23 North, Range 11 West, Webster Parish, Louisiana.

Applicant states in its application that the proposed facilities are needed in order to connect an additional gas supply which will be available for the increasing demands made on Applicant's system. Applicant states in its application that, under an existing gas supply contract with the Cotton Valley Operators Committee, Applicant is limited to the purchase of ten million cubic feet of gas per day of 24 hours. Applicant further states that one of its industrial consumers, the Ideal Cement Company of Okay, Arkansas, is increasing its demand by two million cubic feet per day, and other industrial consumers are increasing their demands. Applicant estimates that by virtue of the gas purchase contract with Blackwell Oil & Gas Company, and G. H. Vaughn there is available to the Applicant a gas reserve of approximately 25 billion cubic feet.

Applicant estimates that the total over-all capital cost of the proposed facilities is $137,639.10, which will be financed from

funds on hand. Applicant does not contemplate making any changes in present rates for gas sold from existing facilities as a result of the proposed addition to its pipeline system.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

The application of Louisiana-Nevada Transit Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure, and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding, so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering specifically and in detail, each material allegation of fact or law asserted in the proceeding.

INTERSTATE COMMERCE COMMISSION

[No. 29791]

INTRASTATE COAL RATES TO ALTON AND EAST ST. LOUIS

NOTICE OF HEARING

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 9th day of July A. D. 1947.

It appearing, that a petition has been filed on behalf of The Alton Railroad Company (Henry A. Gardner, Trustee), and other common carriers by railroad operating in the State of Illinois averring that in Intrastate Coal Rates to East St. Louis, 142 I. C. C. 95 and 161 I. C. C. 371, the Commission prescribed reasonable rates for the transportation of bituminous coal, in carloads, from mines in the Belleville and southern Illinois groups to the St. Louis switching district in Missouri, and found that the intrastate rates from all mines in the inner portion of the Belleville group, the Du Quoin group, and the southern Illinois group, respectively, and from all mines on the Chicago & Illinois Midland Railway to the East St. Louis switching district in Illinois, prescribed by order of the Illinois Commerce Commission entered February 8, 1926, were, and for the future will be, unduly preferential of that district and shippers located therein and unduly prejudicial to the St. Louis switching district and shippers located therein, and unjustly discriminatory against interstate commerce, to the extent that they are lower by more than 25 cents per net ton, than the rates on like traffic from the same mines to the St. Louis switching district therein found reasonable; that the Illinois Commerce Commission has failed and refused to authorize or permit increases in the intrastate rates on bituminous coal from mines in Illinois to stations in the Alton-East St. Louis-Wood River area in Illinois in amounts corresponding to the general increases authorized by the Interstate Commerce Commission in the several proceedings referred to in said petition, in the interstate rates and charges on bituminous coal throughout the United States, including the interstate rates thereon from mines in Illinois, and western Kentucky to the St. Louis, Mo., switching district, and from mines in western Kentucky to destinations in Illinois, including those in the Alton-East St. Louis-Wood River area, with the result that the intrastate rates to the East St. Louis switching district in Illinois are now lower by more than 25 cents per net ton than the present rates on like traffic from the same mines to the St. Louis switching district in Missouri;

It further appearing, that said petitioners allege that the rates and charges which they are required by authority of the State of Illinois to maintain for the intrastate transportation of bituminous coal, in carloads, between points in Illinois cause and result in undue and unreasonable advantage, preference, and prejudice as between persons and localities in intrastate commerce on the one hand, and interstate commerce on the other hand, and undue, unreasonable, and unjust discrimination against interstate commerce;

And it further appearing, that the petition brings in issue rates and charges made or imposed by authority of the State of Illinois:

It is ordered, That in response to the said petition and investigation be, and it is hereby, instituted, and that a hearing be held therein for the purpose of receiving evidence from the respondents hereinafter designated and any other persons interested to determine whether the rates and charges of the common carriers by railroad, or any of them, operating in the State of Illinois, for the transportation of bituminous coal, in carloads, moving in intrastate commerce, from mines in Illinois to Illinois stations in the Alton-East St. Louis Wood River area, required by authority of the State of Illinois to be maintained, cause or will cause any undue or unreasonable advantage, preference, or prejudice as between persons or localities in intrastate commerce, on the one hand, and interstate or foreign commerce, on the other hand, or any undue, unreasonable, or unjust discrimination against interstate or foreign commerce; and to determine what rates and charges, if any, or what maximum or minimum, or maximum and minimum rates and charges, shall be prescribed thereafter to be charged by common carriers by railroad operating within the State of Illinois to remove the unlawful advantage, preference, prejudice, or discrimination, if any, as may be found to exist;

It is further ordered, That all common carriers by railroad operating within the State of Illinois subject to the jurisdiction of this Commission be, and they are hereby, made respondents to this proceeding; that a copy of this order be served upon each of said respondents; and that the State of Illinois be notified of this proceeding by sending copies of this order and of said petition by registered mail to the Governor of said State and to the Illinois Commerce Commission at 160 No. La Salle St., Chicago, Ill.;

It is further ordered, That notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of the Commission, at Washington, D. C. and filing a copy thereof with the Director, Division of Federal Register, Washington, D. C.

And it is further ordered, That this proceeding be assigned for hearing at such times and places as the Commission may hereafter direct.

By the Commission, Division 1.

[No. 29796]

INCREASED COACH FARES; SOUTHERN RAILROADS

NOTICE OF HEARING

JULY 21, 1947.

By petition dated July 15, 1947, the common carriers by railroad operating in the South, listed in the appendix hereto (including that part of the line of the Southern Railway Company east and south of and including St. Louis, Mo.) request this Commission to authorize petitioners to increase between stations on their lines their interstate basic one-way passenger fares in coaches by 13.63 percent or to approximately 2.5 cents per mile, fractions of less than 0.5 cent to be dropped and fractions of 0.5 cent or greater to be increased to the next whole cent, with a minimum one-way fare of 15 cents, and to increase such fares between stations on their lines and stations on connecting lines sufficiently to reflect the proposed increases on their lines.

Petitioners state that if authority is granted to increase the basic one-way fares as sought in the petition, it is the intention of petitioners to increase their round-trip fares in coaches to the following basis: 180 percent of the one-way fares (approximately 2.25 cents per mile in each direction) adding when necessary to make the resulting fare end in "0" or "5."

The Commission is further asked to modify its order of February 28, 1936, in No. 26550, *Passenger Fares and Surcharges*, 214 I. C. C. 174, as subsequently modified, sufficiently to permit the establishment and maintenance of the proposed increased fares on interstate traffic. Petitioner Southern Railway Company further asks the Commission to modify its order of November 13, 1920, in No. 11703, *Intrastate Rates Within Illinois*, 59 I. C. C. 350, as subsequently modified, sufficiently to permit the establishment and maintenance of like increased intrastate fares within Illinois on that part of the line of said petitioner above referred to.

The Commission is further asked to grant such fourth-section relief as may be necessary to permit the establishment and maintenance of such increased fares, and to permit such establishment on five days' notice, without suspension, by simple forms of tariff publication.

The petition above described has been docketed as No. 29796, Increased Coach Fares—Southern Railroads, and is assigned for public hearing before Commissioner John L. Rogers and Examiner Burton Fuller on August 26, 1947, 9:30 o'clock a. m., United States Standard time (or 9:30 o'clock a. m. daylight saving time, if that time is observed) at Atlanta Biltmore Hotel, Atlanta, Ga.

A copy of this notice has, on the date hereof, been sent by regular mail to the said petitioners, the Governors and the rate regulatory bodies of the States traversed by petitioners, and at the same time copies have also been posted in the office of the Secretary of the Commission at Washington, D. C., and filed with the Director, Division of Federal Register, Washington, D. C.

By the Commission.

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-992]

CONSOLIDATED EDISON CO. OF NEW YORK, INC.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 18th day of July A. D. 1947.

The Los Angeles Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the Common Stock, No Par Value, of Consolidated Edison Company of New York, Inc., a security listed and registered on the New York Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Philadelphia, Pennsylvania.

Notice is hereby given that, upon request of any interested person received prior to August 18, 1947, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Philadelphia, Pennsylvania. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

MIDDLE WEST CORP. ET AL.

ORDER DISMISSING PROCEEDINGS AND RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 16th day of July A. D. 1947.

In the matter of The Middle West Corp., Central and South West Utilities Co. and American Public Service Co.; File No. 54-81.

The Commission by supplemental order entered herein on April 15, 1947, having reserved jurisdiction with respect to certain issues raised by an application-declaration, as amended, filed by The Middle West Corporation ("Middle West") and with respect to a motion filed on behalf of certain stockholders of Central and South West Corporation ("Central") and Middle West; and

Central and Middle West having jointly filed a motion to dismiss said motion on behalf of said stockholders; and

The Commission having held hearings and heard oral argument thereon, and the parties having agreed to the withdrawal of said motion on behalf of said stockholders, and to termination of the proceedings on the aforesaid motions; and

It appearing to the Commission that the aforesaid motions should now be deemed withdrawn and the proceedings thereon dismissed, that the issues as to which jurisdiction was heretofore reserved are now moot, and that jurisdiction, with respect thereto should be released;

It is ordered, That the motions filed on behalf of the said stockholders and on behalf of Middle West and Central, be, and they hereby are, deemed withdrawn and that the proceedings thereon be, and they hereby are, dismissed.

It is further ordered, That the jurisdiction reserved in our supplemental order herein dated April 15, 1947, be, and hereby is, released.

MARYVILLE ELECTRIC LIGHT AND POWER CO. AND CONTINENTAL GAS & ELECTRIC CORP.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 18th day of July A. D. 1947.

Continental Gas & Electric Corporation ("Continental"), a registered holding company, and its public utility subsidiary, Maryville Electric Light and Power Company ("Maryville"), having filed a joint application-declaration and an amendment thereto pursuant to sections 6 (b), 9, 10 and 12 of the Public Utility Holding Company Act of 1935 and Rules U-43 and U-50 (a) (3) promulgated thereunder with respect to the following transactions:

Maryville proposes to issue and sell to its sole stockholder, Continental, and Continental proposes to acquire, at the par value thereof, 13,712 shares of common stock of the par value of $100 per share. To make possible the issuance and sale of said 13,712 shares of common stock, Maryville proposes to amend its Articles of Incorporation to increase the number of its authorized common shares from 5,000 to 20,000. Maryville also proposes to pay on its open account indebtedness to Continental the sum of $88.80. Continental proposes to pay for said 13,712 shares of common stock by surrendering for cancellation a demand note of Maryville in the principal amount of $328,719.84, by acknowledging full payment of Maryville's open account indebtedness to Continental in the amount of $542,480.16, and by paying $500,000 cash to Maryville, an aggregate consideration of $1,371,200. It is stated that the cash proceeds from the sale of said common stock will be used to pay the cost of construction of additional electric facilities needed in the operation of Maryville's business; and

The application-declaration having been filed June 9, 1947, the amendment thereto having been filed July 14, 1947, and notice of the filing having been given in the form and manner prescribed by Rule U-23 promulgated under the act, and the Commission not having received a request for a hearing with respect to said application-declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

Applicants-declarants having requested that the Commission's order granting the application and permitting the declaration to become effective become effective forthwith; and

The Commission finding that Maryville is entitled to an exemption from the provisions of sections 6 (a) and 7 of the act pursuant to the provisions of section 6 (b) thereof, it appearing that the issuance and sale of said stock are solely for the purpose of financing the business of Maryville and that the Public Service Commission of Missouri, the state commission of the state in which Maryville was organized and is doing business, has expressly authorized applicants-declarants to consummate the proposed transactions; and

The Commission further finding that the proposed transactions satisfy the applicable provisions of the act and the rules and regulations promulgated thereunder, that no adverse findings are necessary, and that the proposed issuance and sale of common stock is exempt from the competitive bidding requirements of Rule U-50 by virtue of the provisions of paragraph (a) (3) thereof; and the Commission deeming it appropriate to grant said application and permit said declaration to become effective and to grant the request of applicants-declarants that the order become effective forthwith;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act and subject to the requirements of Rule U-24, that the aforesaid application-declaration be, and it hereby is, granted and permitted to become effective forthwith; but upon the express condition, however, that nothing herein shall be construed as determining, or in any manner affecting the power and jurisdiction of the Commission to determine, the ultimate retainability by Continental of its interest in Maryville or what action should be taken by Continental to effectuate compliance with section 11 (b) (1) of the act.

By the Commission.

MISSISSIPPI POWER CO

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 17th day of July 1947.

Mississippi Power Company ("Mississippi"), a public utility subsidiary of The Commonwealth & Southern Corporation, a registered holding company, having filed an application-declaration and amendments thereto, pursuant to sections 6 (a), 7 and 12 (c) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-42 and U-50 promulgated thereunder, relating to the transactions summarized below:

Mississippi proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $2,500,000 principal amount of additional First Mortgage Bonds, --% Series, due August 1, 1977. The bonds are to be issued under and secured by Mississippi's present mortgage dated September 1, 1941, as supplemented by an indenture dated September 1, 1946 and one to be dated August 1, 1947. The interest rate on said bonds (to be in multiples of $\frac{1}{8}$ of 1% but not greater than 3¼%) and the price to be received by Mississippi (to be not less than 100% nor more than 102¾% of the principal amount of said bonds) are to be determined by competitive bidding.

Mississippi also proposes to issue 20,099 shares of new Preferred Stock, par value $100 per share, and to invite proposals pursuant to the competitive bidding requirements of said Rule U-50 for services in obtaining exchange of shares of its outstanding $6 Preferred Stock for shares of new Preferred Stock and for the purchase of such of the 20,099 shares of new Preferred Stock as are not required to effect exchanges. If such proposal is accepted, Mississippi will then offer for a period of twelve days to the holders of the 20,099 shares of $6 Preferred Stock outstanding the privilege of exchanging their shares for shares of new Preferred Stock on a share for share basis, plus an amount in cash, with respect to shares exchanged, equal to the difference between the price per share specified in the successful proposal and the redemption price of $110 per share of the $6 Preferred Stock, plus a cash dividend adjustment which will give each stockholder who exchanges an amount equal to the dividend on the $6 Preferred Stock from the last regular quarterly dividend date up to the date of redemption, less the amount of the dividend to accrue on the new Preferred Stock to that date. The price to the company per share of new Preferred Stock (to be not less than $100 nor more than $102.75, after deducting the aggregate amount of compensation per share to be paid to the successful bidders), the annual dividend rate (to be a multiple of 4¢ but not more than $4.60), and the aggregate amount of compensation to be paid to the successful bidders for their respective agreements to endeavor to obtain exchanges of $6 Preferred Stock for new Preferred Stock and to purchase the shares of new Preferred Stock not required to effect exchanges, will be determined by competitive bidding. Any shares of $6 Preferred Stock not exchanged will be redeemed.

It is further proposed to include in the supplemental indenture securing the new bonds, among other things, a covenant providing in substance that so long as any bonds of the 1971 Series or of the 1977 Series shall be outstanding, Mississippi will not declare or pay any dividends (other than dividends payable solely in its common stock) or make any distribution, by purchase of shares or otherwise, upon any shares of its common stock, except out of net income earned subsequent to December 31, 1941 and available for distribution of dividends, and unless, upon such declaration, payment or other distribution, there shall remain in the earned surplus account earned subsequent to December 31, 1941 an amount of $241,188 (representing two years' dividend requirements on the presently outstanding Preferred Stock) plus an amount equivalent to the amount by which the aggregate of the charges to income since December 31, 1941 for repairs, maintennace and provision for depreciation shall have been less than 16% of the gross operating revenues of Mississippi subsequent to December 31, 1941, after deducting from such gross operating revenues the amount spent subsequent to December 31, 1941 for electric energy, gas or steam purchased by it for resale.

In addition to such dividend restriction in the indenture Mississippi proposes to amend its by-laws to provide in substance, among other things, that not more than 75% of the net income available for the payment of dividends on the common stock may be paid out as dividends thereon when the ratio of common stock equity to total capitalization and surplus is 20% or more but less than 25%, and not more than 50% of such net income may be paid out as dividends when the ratio of common stock equity to total capitalization and surplus falls below 20%.

Mississippi also proposes to transfer the balance of capital surplus, amounting to $1,190,927, to common capital account.

Said application-declaration having been filed on June 12, 1947 and amendments thereto having been filed on June 27, 1947 and July 14, 1947, and notice of such filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for hearing with respect to said application-declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

Mississippi having requested that the Commission's order become effective forthwith; and

Mississippi, in view of the aforementioned proposed dividend restriction in the supplemental indenture, having requested that the condition in the Commission's order dated September 23, 1941, which restricts the payment of dividends on Mississippi's common stock substantially in the form of the proposed restriction shall cease to be effective upon the taking effect of the proposed dividend restriction in the supplemental indenture and, Mississippi, in view of the aforementioned proposed dividend restriction in the by-laws, having requested further that the condition in the Commission's order dated December 28, 1944, which provides in substance that dividends on Mississippi's common stock should not exceed 75% of its net income subsequent to December 31, 1944 if the common equity should be less than 25% of total capitalization and surplus shall cease to be effective upon the taking effect of the proposed dividend restriction in the by-laws; and the Commission deeming it appropriate to grant such requests; and

The Commission finding with respect to said application-declaration, as amended, that the requirements of the applicable provisions of the act and rules promulgated thereunder are satisfied, that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration, as amended, be granted and permitted to become effective and that the company's request that the order become effective forthwith be granted:

It is hereby ordered, That, pursuant to Rule U-23, said application-declaration, as amended, be, and the same is hereby granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and subject to the further condition that the proposed sale of new bonds, issuance of new Preferred Stock, and exchange or redemption of $6 Preferred Stock shall not be consummated until the results of the competitive bidding pursuant to Rule U-50 have been made a matter of record herein and a further order shall have been entered with respect thereto, which order may contain such further terms and conditions as may then be deemed appropriate, for which purpose jurisdiction is hereby reserved.

It is further ordered, That the condition is the Commission's order dated September 23, 1941 which restricts the payment of dividends on Mississippi's common stock and the condition in the Commission's order dated December 28, 1944 which also restricts the payment of dividends on Mississippi's common stock shall cease to be effective upon the taking effect of the proposed dividend restrictions in the aforementioned supplemental indenture and by-laws of Mississippi.

It is further ordered, That jurisdiction be, and the same hereby is, reserved, with respect to the fees and expenses in connection with the proposed transactions.

By the Commission.

FLORIDA POWER & LIGHT CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 17th day of July A. D. 1947.

Florida Power & Light Company ("Florida"), an electric and gas utility subsidiary of American Power & Light Company ("American"), a registered holding company subsidiary of Electric Bond and Share Company ("Bond and Share"), also a registered holding company, having filed an application-declaration and amendments thereto under the Public Utility Holding Company Act of 1935, particularly Sections 6 (a), 7, and 12 (c) thereof and Rules U-42 and U-50, regarding the issue and sale in accordance with the competitive bidding provisions of said Rule U-50 of $10,000,000 of First Mortgage Bonds --% Series due 1977, $10,000,000 principal amount --% Sinking Fund Debentures due 1972 and 150,000 shares of --% Cumulative Preferred Stock of the par value of $100 per share. The proceeds from the sale of said securities are to be applied as follows: (a) To redeem $14,210,000 principal amount of Florida's 4⅛% sinking fund debentures due 1979 at the current redemption price of 104⅝% plus accrued interest; (b) to prepay its outstanding 2⅜% and 2¾% serial notes in the aggregate principal amount of $3,250,000 plus accrued interest; (c) to prepay its promissory notes held by American in the aggregate principal amount of $4,250,000 plus accrued interest and (d) to provide funds for additional necessary facilities to Florida's gas and electric systems.

A public hearing having been held on the said application-declaration, as amended, after appropriate notice, and the Commission having examined the record and having made and filed its Findings and Opinion herein; and

The Commission having, by its order of December 28, 1943, directed Florida to appropriate annually out of earned surplus to a contingency reserve at least $700,000, said order stating:

(4) *It is further ordered*, That pending final determination of the amount and disposition to be made of Account 100.5 items presently in the plant account of Florida, Florida shall annually beginning with the calendar year 1944, appropriate out of earned surplus to a contingency reserve, at least $700,000, such act of appropriation to be without prejudice, however, to respondents' right to contest the validity of any definitive order with respect to such items as may ultimately be issued;

and Florida having requested that the above-quoted paragraph of our order of December 28, 1943 be modified to provide that appropriations to contingency reserve therein ordered be made at the monthly rate of 1/12 of $700,000.

It is ordered, That said application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith subject to the terms and conditions contained in Rule U-24 and subject to the following additional conditions:

(1) That the proposed sales of securities by Florida shall not be consummated until the results of competitive bidding have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, which order shall contain such further terms and conditions, if any, as may be then deemed appropriate, jurisdiction being reserved for that purpose;

(2) That jurisdiction be, and it hereby is, reserved over the payment of all legal fees incurred or to be incurred in connection with the proposed transactions.

It is further ordered, That the provision of our order of December 28, 1943 with respect to the annual appropriation of $700,000 from earned surplus to a contingency reserve be, and hereby is, modified to permit Florida to credit said contingency reserve each month by the amount of 1/12th of $700,000, on condition that a corresponding charge be made to Account 537—Miscellaneous Amortization—and that in all other respects said order of December 28, 1943 be, and hereby is, reaffirmed.

By the Commission.

904.10 Payment to cooperative associations.
904.11 Payments of administration expense.
904.12 Effective time, suspension, or termination.
904.13 Agents.

AUTHORITY: §§ 904.0 to 904.13, inclusive, issued under 48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq., Sec. 102, Reorg. Plan 1 of 1947, 12 F. R. 4534.

§ 904.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Supps. 900.1 et seq., 11 F. R. 7737, 12 F. R. 1159), public hearings were held upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area; and the decision (12 F. R. 4402) was made, with respect to amendments by the Secretary on June 30, 1947. Upon the basis of the evidence introduced at such hearings and the record thereof, it was found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions of said order, as amended and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest, and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Additional findings.* It is necessary to make effective promptly the present amendments to the said order, as amended, to reflect current marketing conditions and to give producers immediately some assurance of a substantial seasonal increase in prices as an incentive to a needed increase in milk production during the fall and winter months of 1947-48. Any delay in the effective date of this order, as amended, and as hereby further amended, will seriously threaten the supply of milk for the Greater Boston, Massachusetts, marketing area and, therefore, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order for 30 days after its publication (sec. 4 (c), Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by this

order, as amended and as hereby further amended, which is marketed within the Greater Boston, Massachusetts, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this amended order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this amended order is approved or favored by at least two-thirds of the producers who, during the determined representative period (February 1947), were engaged in the production of milk for sale in the said marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the first day of August 1947, the handling of milk in the Greater Boston, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended to read as follows:

§ 904.1 *Definitions.* The following words and phrases shall have the following meanings unless the context otherwise requires.

(a) *General.* (1) "Act" means Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(2) "Greater Boston, Massachusetts, marketing area," also referred to as the "marketing area," means the territory included within the boundary lines of the following Massachusetts cities and towns.

Arlington.	Newton.
Belmont.	Peabody.
Beverly	Quincy.
Boston.	Reading.
Braintree.	Revere.
Brookline.	Salem.
Cambridge.	Saugus.
Chelsea.	Somerville.
Dedham.	Stoneham.
Everett.	Swampscott.
Lexington.	Wakefield.
Lynn.	Waltham.
Malden.	Watertown.
Marblehead.	Wellesley.
Medford.	Weymouth.
Melrose.	Winchester.
Milton.	Winthrop.
Nahant.	Woburn.
Needham.	

(3) "Month" means a calendar month.

(4) "Marketing year" means the twelve month's period from August 1 of each year through July 31 of the following year.

(5) "Emergency period" means the period of time for which the market administrator declares that an emergency exists in that the milk supply available to the marketing area from producers is insufficient to meet the demand for Class I milk in the marketing area.

(b) *Persons.* (1) "Person" means any individual, partnership, corporation, association, or any other business unit.

(2) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture.

(3) "Market administrator" means the agency which is described in § 904.2.

(4) "Dairy farmer" means any person who delivers milk of his own production to a plant, except a producer-handler in respect to his deliveries in packaged form to another handler.

(5) "Segregated dairy farmer" means a dairy farmer whose milk is kept separate from the supply for the marketing area.

(6) "Dairy farmer for other markets" means any dairy farmer, except a segregated dairy farmer, whose milk is received by a handler at a pool plant during April, May, June, or July from a farm from which the handler, an affiliate of the handler, or any person who controls or is controlled by the handler, received nonpool milk on more than 3 days in any one of the preceding months of August through March. The term shall not include a person who was a producer-handler or a person delivering to a New York order pool plant during any of the preceding months of August through March.

(7) "Producer" means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets and a segregated dairy farmer. The term shall also include a dairy farmer who ordinarily delivers to a handler's pool plant, but whose milk is diverted to one of the handler's nonpool plants, if the handler, in filing his monthly report pursuant to § 904.6 (a), reports the milk as receipts from a producer and as Class I milk at such pool plant.

(8) "Handler" means any person who, in a given month, operates a pool plant, or engages in the handling of milk or other fluid milk products which are received at any plants from which fluid milk products are disposed of, directly or indirectly, in the marketing area.

(9) "Pool handler" means any handler who receives milk from producers at a pool plant.

(10) "Buyer-handler" means any handler who operates a bottling or processing plant from which Class I milk is disposed of in the marketing area, and whose entire supply of fluid milk products is received from other handlers.

(11) "Producer-handler" means any person who is both a handler and a dairy farmer and who receives milk of his own production only from farms located within 80 miles of the State House in Boston, and who receives no milk from other dairy farmers except producer-handlers or segregated dairy farmers.

(12) "Dealer" means any person who engages in the business of distributing fluid milk products, or manufacturing milk products, whether or not he disposes of any fluid milk products in the marketing area.

(13) "Consumer" means any person to whom fluid milk products are disposed of, except a dealer. The term "consumer" includes, but is not limited to, stores, restaurants, hotels, bakeries, hospitals and other institutions, candy manufacturers, soup manufacturers, livestock farmers, and similar persons who are not necessarily the ultimate users. The term also includes any dealer in his capacity as the operator of any of these establishments, and in connection with any other use or disposition of fluid milk products not directly related to his operations as a dealer.

(c) *Plants.* (1) "Plant" means the land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment for the receiving, handling, or processing of milk or milk products.

(2) "City plant" means any plant which is located not more than 40 miles from the State House in Boston.

(3) "Country plant" means any plant which is located more than 40 miles from the State House in Boston.

(4) "Receiving plant" means any milk plant currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms and for washing and sterilizing the milk cans in which such milk is received, and at which are currently maintained weight sheets or other records of dairy farmers' deliveries.

(5) "Pool plant" means any receiving plant which, in a given month, meets the conditions and requirements set forth in § 904.4 for being considered a pool plant in that month.

(6) "Regulated plant" means any pool plant; any of a pool handler's plants which is located in the marketing area and from which Class I milk is disposed of in the marketing area; and any plant operated by a handler in his capacity as a buyer-handler or producer-handler.

(7) "Distributing plant" means any plant from which Class I milk in the form of milk is disposed of to consumers in the marketing area without intermediate movement to another plant.

(8) "New York order pool plant" means any plant designated as a pool plant in accordance with the provisions of Order No. 27, issued by the Secretary, regulating the handling of milk in the New York metropolitan marketing area.

(d) *Milk and milk products.* (1) "Milk" means the commodity received from a dairy farmer at a plant as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least one-half of 1 percent but less than 16 percent, frozen milk, and reconstituted milk.

(2) "Cream" means that portion of milk, containing not less than 16 percent of butterfat, which rises to the surface of milk on standing, or is separated from it by centrifugal force. The term "cream" also includes sour cream, frozen cream, and milk and cream mixtures containing 16 percent or more of butterfat.

(3) "Skim milk" means that fluid product of milk which remains after the

removal of cream, and which contains less than one-half of 1 percent of butterfat.

(4) "Fluid milk products" means milk, flavored milk, cream, skim milk, flavored skim milk, cultured skim milk, and buttermilk, either individually or collectively.

(5) "Pool milk" means milk, including fluid milk products derived therefrom which a handler has received as milk from producers.

(6) "Outside milk" means:

(i) All milk received from dairy farmers for other markets;

(ii) All nonpool milk, including other fluid milk products derived therefrom except cream, which is received at a regulated plant from any unregulated plant, except receipts from a New York order pool plant and receipts of emergency milk; and

(iii) All Class I milk, after subtracting receipts of Class I milk from regulated plants, which is disposed of to consumers in the marketing area from an unregulated plant without its intermediate movement to another plant.

(7) "Emergency milk" means fluid milk products, other than cream, received at a regulated plant during an emergency period from a plant which was an unregulated plant in the month immediately preceding the month in which the emergency period became effective.

§ 904.2 *Market administrator*—(a) *Selection, removal, and bond.* The market administrator shall be selected by the Secretary and shall be subject to removal by him at any time. The market administrator shall, within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary.

(b) *Compensation.* The market administrator shall be entitled to such reasonable compensation as may be determined by the Secretary.

(c) *Powers.* The market administrator shall have the following powers with respect to this part:

(1) To administer its terms and provisions;

(2) To make rules and regulations to effectuate its terms and provisions;

(3) To receive, investigate, and report to the Secretary complaints of violations of its terms and provisions; and

(4) To recommend to the Secretary amendments to it.

(d) *Duties.* The market administrator, in addition to the duties described in the other sections of this part, shall:

(1) Keep such books and records as will clearly reflect the transactions provided for in this part;

(2) Submit his books and records to examination by the Secretary at any and all times;

(3) Furnish such information and such verified reports as the Secretary may request;

(4) Obtain a bond with reasonable security thereon covering each employee who handles funds entrusted to the market administrator;

(5) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person, who within 15 days after date upon which he is required to perform such acts, has not made reports pursuant to § 904.6, or made payments pursuant to § 904.9;

(6) Give each of the producers delivering to a plant as reported by the handler prompt written notice of their actual or potential loss of producer status, for the first month of the marketing year in which the plant's status has changed or is changing to that of a nonpool plant;

(7) Prepare and disseminate for the benefit of producers, consumers, and handlers, statistics and information concerning the operation of this part;

(8) Employ and fix the compensation of such persons as may be necessary to enable him to exercise his powers and perform his duties; and

(9) Pay, out of the funds provided by § 904.11,

(i) The cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator,

(ii) His own compensation, and

(iii) All other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and the performance of his duties.

(e) *Responsibility.* The market administrator, in his capacity as such, shall not be held responsible in any way whatsoever to any handler, or to any other person, for errors in judgment, for mistakes, or for other acts either of commission or omission, except for his own willful misfeasance, malfeasance, or dishonesty.

§ 904.3 *Classification of milk and other fluid milk products*—(a) *Classes of utilization.* All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to the other provisions of this section, the classes of utilization shall be as follows:

(1) Class I milk shall be all fluid milk products the utilization of which is not established as Class II milk.

(2) Class II milk shall be all fluid milk products the utilization of which is established:

(i) As being sold, distributed, or disposed of other than as or in milk; and other than as or in flavored milk or flavored skim milk, buttermilk, or cultured skim milk, for human consumption; and

(ii) As plant shrinkage, not in excess of 2 percent of the volume handled.

(b) *Classification of milk and milk products utilized at regulated plants of pool handlers.* All milk and milk products received at a regulated plant of any pool handler shall be classified in accordance with their utilization at such plant, except as provided otherwise in paragraph (c) of this section.

(c) *Classification of fluid milk products, other than cream, moved to other plants.* Milk, flavored milk, skim milk, cultured or flavored skim milk, or buttermilk which is moved from the regulated plant of a pool handler to any other plant shall be classified as follows:

(1) If moved to any other regulated plant, it shall be classified in accordance with its utilization at the plant to which it is moved.

(2) If moved to an unregulated plant, it shall be classified as Class I milk up to the total quantity of milk, or the corresponding milk product so moved, which is utilized as Class I milk at the unregulated plant.

(3) If moved to a regulated plant of a nonpool handler or to an unregulated plant, and thence to another such plant, it shall be classified as Class I milk.

(d) *Responsibility of handlers in establishing the classification of milk.* In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives milk from producers to account for the milk and to prove that such milk should not be classified as Class I milk.

§ 904.4 *Determination of pool plant status*—(a) *Basic requirements for pool plant status.* Subject to the provisions of paragraph (b) of this section, each receiving plant shall be a pool plant in the first month in which the handler operates it in conformity with the basic requirements specified in this paragraph, and shall thereafter be a pool plant for the remaining months of the marketing year in which it is operated by the same handler. The basic requirements for acquiring pool plant status shall be as follows:

(1) A majority of the dairy farmers delivering milk to the plant hold certificates of registration issued pursuant to Chapter 94, section 16, of the Massachusetts General Laws.

(2) The handler holds a license which has been issued by the milk inspector of a city or town in the marketing area, pursuant to Chapter 94, section 40, of the Massachusetts General Laws, or a majority of the dairy farmers delivering milk to the plant are approved by such an inspector as sources of supply for milk for sale in his municipality.

(3) Class I milk in the form of milk is disposed of in the marketing area from the plant.

(4) The handler's total Class I milk in the marketing area exceeds 10 percent of his total receipts of fluid milk products other than cream.

(b) *Conditions resulting in nonpool plant status.* (1) Each plant which has acquired pool plant status but from which no Class I milk in the form of milk is disposed of in the marketing area for two successive months in the marketing year shall be a nonpool plant in the second of the two months and for each consecutive succeeding month of the marketing year during which no such Class I disposition is made.

(2) Each nondistributing plant for which the market administrator has received on or before the 16th day of the preceding month the handler's written request for nonpool plant designation shall be a nonpool plant in each month of the marketing year to which the request applies.

(3) Each city distributing plant operated by a handler who operates no other plant which is a pool plant in the same month shall be a nonpool plant in any month in which the handler's total Class I milk in the marketing area does not exceed 10 percent of his total receipts of fluid milk products other than cream.

(4) Each plant which is operated as the plant of a producer-handler shall be a nonpool plant in any month in which it is so operated.

(5) Each plant which is operated as a New York order pool plant or as a plant from which emergency milk is received shall be a nonpool plant during the month or portion of a month of such operation.

(6) Each of a handler's plants which is a nonpool receiving plant during any of the months of August through March shall be a nonpool plant in any of the months of April through July of the same marketing year in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, unless its operation during August through March was in the handler's capacity as a producer-handler or as the operator of a New York order pool plant which had been acquired by him after June 30 of the immediately preceding marketing year.

(c) *Disposition of Class I milk in the form of milk in the marketing area.* For the purposes of this section, each plant from which milk is moved at some time during the month to another plant from which Class I milk in the form of milk is disposed of in the marketing area shall itself be considered to have made such a disposition, except that no movement of milk to any unregulated nondistributing plant shall be considered a disposition of Class I milk in the form of milk in the marketing area.

(d) *Total receipts of fluid milk products other than cream.* For the purposes of this section, each handler's total receipts of fluid milk products other than cream, referred to in this paragraph as "total receipts," shall be determined as follows:

(1) For each month of the marketing year until and including the first month in which the handler is a pool handler, his total receipts shall be the receipts at all plants from which Class I milk in the form of milk is disposed of in the marketing area, except his receipts from segregated dairy farmers and his receipts at any plant which fails to meet the applicable standards set forth in subparagraphs (1) and (2) of paragraph (a) of this section or which is a nonpool plant pursuant to subparagraph (2) of paragraph (b) of this section.

(2) For each of the other months of the marketing year, the handler's total receipts shall be the total receipts determined pursuant to subparagraph (1) of this paragraph plus the receipts at any other of his plants which is a pool plant in such month.

§ 904.5 *Assignment of receipts to Class I milk and Class II milk*—(a) *General provisions.* Except as provided in the other paragraphs of this section, all receipts of fluid milk products, other than receipts from producers, shall be assigned to Class I milk or Class II milk as follows:

(1) Receipts as to which Class II use is established shall be assigned to Class II milk.

(2) All other receipts shall be assigned to Class I milk.

(b) *Receipts of cream and other milk products.* All receipts of cream, and milk products other than fluid milk products, shall be assigned to Class II milk.

(c) *Receipts of skim milk from producer-handlers.* Skim milk received from a producer-handler shall be assigned to Class II milk, except that if the specific Class I use of the skim milk is established, it shall be assigned to Class I milk.

(d) *Receipts of outside milk.* All receipts of outside milk shall be considered as receipts of Class II milk, and shall be assigned to that class without regard to the specific use of such receipts.

(e) *Receipts from New York order pool plants.* Except as provided in paragraph (f) of this section, receipts of fluid milk products, other than cream, from New York order pool plants shall be assigned to Class I milk or Class II milk as follows:

(1) All receipts during the months of April through July, inclusive, shall be assigned to Class II milk.

(2) Receipts of milk and flavored milk during the months of August through March, inclusive, shall be assigned to Class I milk when classified in Classes I–A, I–B, or I–C under the New York order, except that the quantity as to which specific Class II use is established shall be assigned to Class II milk.

(3) Receipts of skim milk, cultured or flavored skim milk, or buttermilk during the months of August through March, inclusive, shall be assigned to Class II milk, except that if the quantity so received is in excess of the total quantity of the corresponding milk product classified as Class II milk at the plant of receipt, such excess shall be assigned to Class I milk.

(f) *Receipts of emergency milk.* (1) Emergency milk received by a handler whose total use of Class II milk is in excess of 10 percent of the total volume of fluid milk products, other than cream, handled by him shall be assigned to Class II milk to the extent of such excess. For the purpose of this subparagraph, the handler's total Class II milk and total volume handled shall be the total of the respective quantities from the first day on which emergency milk is received by the handler during the month up to and including the last such day in the month.

(2) If the quantity of emergency milk as to which specific Class II use is established is greater than the quantity assigned to Class II milk pursuant to subparagraph (1) of this paragraph, such greater quantity shall be assigned to Class II milk in lieu of the quantity determined under that subparagraph.

(3) Receipts of emergency milk not assigned to Class II milk shall be assigned to Class I milk.

§ 904.6 *Reports of handlers*—(a) *Monthly reports of pool handlers.* On or before the 8th day after the end of each month each pool handler shall, with respect to the fluid milk products received by the handler during the month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(1) The receipts of milk at each pool plant from producers, including the quantity, if any, received from his own production;

(2) The receipts of fluid milk products at each plant from any other handler, assigned to classes pursuant to § 904.5;

(3) The receipts of outside milk at each plant; and

(4) The respective quantities which were sold, distributed, or used, including sales to other handlers and dealers, classified pursuant to § 904.3.

(b) *Reports of nonpool handlers.* Each nonpool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of the month.

(c) *Reports regarding individual producers.* (1) Within 20 days after a producer moves from one farm to another, or starts or resumes deliveries to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

(2) Within 15 days after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

(d) *Reports of payments to producers.* Each pool handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month, his producer pay roll for such month, which shall show for each producer:

(1) The daily and total pounds of milk delivered with the average butterfat test thereof; and

(2) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

(e) *Outside cream purchases.* Each handler shall report, as requested by the market administrator, his purchases, if any, of bottling quality cream from nonpool handlers, showing the quantity and the source of each such purchase and the cost thereof at Boston.

(f) *Maintenance of records.* Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month.

(g) *Verification of reports.* For the purpose of ascertaining the correctness of any report made to the market administrator as required by this section or for the purpose of obtaining the information required in any such report where it has been requested and has not

been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(1) Verify the information contained in reports submitted in accordance with this section;

(2) Weigh, sample, and test milk and milk products; and

(3) Make such examination of records, operations, equipment, and facilities as the market administrator deems necessary for the purpose specified in this paragraph.

§ 904.7 *Minimum class prices*—(a) *Class I prices.* (1) Each pool handler shall pay producers, in the manner set forth in § 904.9 and subject to the differentials set forth in paragraph (c) of this section, for Class I milk delivered by them, not less than the price per hundredweight determined for each month as follows:

(i) Using the period beginning with the 25th of the second preceding month and ending with the 24th of the immediately preceding month, compute the average of the highest prices reported daily by the United States Department of Agriculture for U. S. Grade A (U. S. 92-score) butter at wholesale in the New York market.

(ii) Using the midpoint of any range as one quotation, compute the average of all the hot roller process dry skim milk quotations per pound for "other brands, animal feed, carlots, bags, or barrels," and for "other brands, human consumption, carlots, bags, or barrels," published during the 30 days ending on the 24th day of the immediately preceding month in "The Producers' Price Current"; subtract 4 cents; and multiply the remainder by 1.8.

(iii) Add the values determined pursuant to subdivisions (i) and (ii) of this subparagraph.

(iv) Subject to subdivisions (v), (vi), and (vii) of this subparagraph, the Class I price per hundredweight shall be as shown in the following table:

CLASS I PRICE SCHEDULE

Value computed pursuant to (iii) of this subparagraph (cents)		Class I price (dollars per cwt.)	
At least—	But less than—	April through June	July through March
0	25	1.99	2.14
25	30	1.91	2.35

40	45	2.57	3.01
45	50	2.79	3.23
50	55	3.01	3.45
55	60	3.23	3.67
60	65	3.45	3.89
65	70	3.67	4.11
70	75	3.89	4.33
75	80	4.11	4.55
80	85	4.33	4.77
85	90	4.55	4.99
90	95	4.77	5.21
95	100	4.99	5.43
100	105	5.21	5.65

If the value computed pursuant to subdivision (iii) of this subparagraph is 105 cents or more the price shall be increased at the same rate as would result from further extension of this table.

(v) The Class I price for any of the months of March through June of each year shall not be higher than the Class I price for the immediately preceding month; and the Class I price for any of the months of September through December of each year shall not be lower than the Class I price for the immediately preceding month.

(vi) The Class I price shall not be less than $4.77 per hundredweight for the month of August 1947 and shall not be less than $5.21 per hundredweight for each of the months of September through December 1947.

(vii) The Class I price for January 1948 shall not be less than the December 1947 Class I price minus 44 cents, and the Class I price for February 1948 shall not be less than the January 1948 Class I price minus 44 cents.

(2) For the purpose of this section, each pool handler's Class I milk during the month, after excluding receipts assigned to Class I milk pursuant to § 904.5, shall be allocated to his plants as follows:

(i) His Class I milk first shall be considered to have been the receipts at his city plants of milk from producers' farms, and of outside milk.

(ii) Thereafter, his Class I milk shall be considered to have been the receipts at his country plants of that milk received from producers' farms, and that outside milk, which was shipped as fluid milk products, other than cream, from each of his country plants, in the order of the nearness of the plants to Boston. However, shipments to plants located in the States of Maine, New Hampshire, Vermont, or New York, with respect to which utilization as Class II milk is established, shall not be allocated to Class I milk.

(b) *Class II prices.* Each pool handler shall pay producers, in the manner set forth in § 904.9 and subject to the differentials set forth in this section, for Class II milk delivered by them, not less than the price per hundredweight calculated by the market administrator for each month by combining in one sum such of the following computations as apply:

(1) Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the month during which such milk is delivered, multiply this result by 3.7, and subtract 27 cents.

(2) For any month for which no cream price as described in subparagraph (1) of this paragraph is reported, multiply the average price reported for such month by the United States Department of Agriculture for U. S. Grade A (U. S. 92–score) butter at wholesale in the Chicago market by 1.4, multiply this result by 3.7, and subtract 27 cents.

(3) Compute any plus amount for skim milk value which results from the following calculation. Using the midpoint in any range as one price, compute the average price per pound or nonfat dry milk solids in carlots for roller process human food products in barrels, and for hot roller process animal food products in bags, as published during the month by the United States Department of Agriculture for New York City. Multiply each such average price by the applicable percentage indicated for the month in the following table and combine the results; subtract 4 cents; and multiply the remainder by 7.5.

Month	Human food products	Animal food products
	Percent	*Percent*
January	100	----
February	100	----
March	50	50
April	50	50
May	25	75
June	25	75
July	50	50
August	75	25
September	75	25
October	100	----
November	100	----
December	100	----

(c) *Plant handling and transportation differentials.* The minimum prices set forth in paragraphs (a) and (b) of this section shall be subject to the differentials contained in the following table for the zone applicable to the plant at which the milk is received from producers. For each country plant the zone shall be determined in accordance with the railroad freight mileage distance to Boston from the railroad shipping point for such plant. In case the rail tariff for the transportation of milk in carlots in tank cars, as published in the New England Joint Tariff, M–5, is increased or decreased, the differentials set forth in Column B for zones other than 201–210 miles shall be increased or decreased to the extent of any increase or decrease in the difference between the rail tariff for mileage distances of 201–210 miles inclusive and for the other applicable distances. Such adjustment shall be made to the nearest one-half cent per hundredweight, effective with the first complete month in which such increase or decrease in the rail tariff applies. For the purpose of this paragraph, it shall be considered that the rail tariff on milk received at a city plant is zero.

[1] No differential.

(d) *Butter and cheese adjustment.* During the months of April, May, June, and July the value of a pool handler's milk computed pursuant to § 904.8 (a) (2) shall be reduced by an amount determined as follows:

(1) Using the midpoint of any range as one price, compute the average of the daily prices for U. S. Grade A (U. S. 92-score) butter at wholesale in the New York market which are reported during the month by the United States Department of Agriculture, deduct 5 cents, and add 20 percent.

(2) Divide by 3.7 the value determined as applicable to milk delivered to country plants in the 201–250 freight mileage zone pursuant to subparagraph (1) or (2) of paragraph (b) of this section, whichever applies, and subtract therefrom the value determined in subparagraph (1) of this paragraph. The result is the butter and cheese differential.

(3) Determine the pounds of butterfat in Class II milk received from producers, which was processed into salted butter, Cheddar cheese, American Cheddar cheese, Colby cheese, washed curd cheese, or part skim Cheddar cheese at a plant of the first handler of such butterfat or at a plant of a second person to which such butterfat was moved.

(4) Subtract such portion of the quantity determined in subparagraph (3) of this paragraph as was disposed of by the handler or such second person in a form other than salted butter or one of the designated types of cheese.

(5) Multiply the remaining pounds of butterfat determined pursuant to subparagraph (4) of this paragraph by the butter and cheese differential determined pursuant to subparagraph (2) of this paragraph.

(e) *Use of equivalent prices in formulas.* If for any reason a price for any milk product specified by this section or § 904.9 (d) for use in computing class prices and for other purposes is not reported or published in the manner described by this section or § 904.9 (d), the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price which is specified.

(f) *Announcement of class prices and differentials.* The market administrator shall make public announcements of the class prices and differentials in effect pursuant to this section, as follows:

(1) He shall announce any change in the Class I price on the 25th day of the month preceding the month in which such change is effective.

(2) He shall announce the Class II price and the butter and cheese differential on or before the 5th day after the end of each month.

§ 904.8 *Minimum blended prices to producers*—(a) *Computation of value of milk received from producers.* For each month, the market administrator shall compute the value of milk received from producers which is sold, distributed, or used by each pool handler, in the following manner:

(1) Multiply the quantity of milk in each class by the price applicable pursuant to § 904.7 (a) and (b); and

(2) Add together the resulting value of each class.

(3) Adjust the value determined in subparagraph (2) of this paragraph as provided in § 904.7 (d).

(b) *Computation of the basic blended price.* The market administrator shall compute the basic blended price per hundredweight of milk delivered during each month in the following manner:

(1) Combine into one total the respective values of milk, computed pursuant to paragraph (a) of this section, for each pool handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to § 904.9 (b) (2) and (g) for milk received during each month since the effective date of the most recent amendment of this part;

(2) Add the total amount of payments required from handlers pursuant to § 904.9 (g);

(3) Add the amount of unreserved cash on hand at the close of business on the 10th day after the end of the month from payments made to the market administrator by handlers pursuant to § 904.9;

(4) Deduct the amount of the plus differentials, and add the amount of the minus differentials, which are applicable pursuant to § 904.9 (e);

(5) Subtract the total amount of cooperative payments required by § 904.10 (b);

(6) Divide by the total quantity of milk for which a value is determined pursuant to subparagraph (1) of this paragraph;

(7) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining a cash balance in connection with the payments set forth in § 904.9. This result shall be known as the basic blended price for milk containing 3.7 percent butterfat.

(c) *Announcement of blended prices.* On the 12th day after the end of each month the market administrator shall mail to all pool handlers and shall publicly announce:

(1) Such of these computations as do not disclose information confidential pursuant to the act;

(2) The zone blended prices per hundredweight resulting from adjustment of the basic blended price by the differentials pursuant to § 904.9 (e); and

(3) The names of the pool handlers, designating those whose milk is not included in the computations.

§ 904.9 *Payments for milk*—(a) *Advance payments.* On or before the 10th day after the end of each month, each pool handler shall make payment to producers for the approximate value of milk received during the first 15 days of such month. In no event shall such advance payment be at a rate less than the Class II price for such month. The provisions of this paragraph shall not apply to any handler who, on or before the 17th day after the end of the month, makes final payment as required by subparagraph (1) of paragraph (b) of this section.

(b) *Final payments.* On or before the 25th day after the end of each month, each pool handler shall make payment for the total value of milk received during such month as required to be computed pursuant to § 904.8 (a), as follows:

(1) To each producer at not less than the basic blended price per hundredweight, subject to the differentials provided in paragraphs (d) and (e) of this section, for the quantity of milk delivered by such producer; and

(2) To producers, through the market administrator, by paying to, on or before the 23d day after the end of each month, or receiving from the market administrator, on or before the 25th day after the end of each month, as the case may be, the amount by which the payments required to be made pursuant to subparagraph (1) of this paragraph are less than or exceed the value of milk as required to be computed for such handler pursuant to § 904.8 (a), as shown in a statement rendered by the market administrator on or before the 20th day after the end of such month.

(c) *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments pursuant to subparagraph (2) of paragraph (b) of this section, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is payable by the market administrator to any handler, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by this section, the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

(d) *Butterfat differential.* Each pool handler shall, in making the payments to each producer for milk received from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent an amount per hundredweight which shall be calculated by the market administrator as follows: divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day inclusive of the month during which such milk is delivered, subtract 1.5 cents, and divide the result by 10: *Provided*, That if no such cream price is reported, multiply the average price reported for such period by the United States Department of Agriculture for U. S. Grade A (U. S. 92-score) butter at wholesale in the Chicago market by 1.4, subtract 1.5 cents, and divide the result by 10.

(e) *Location differentials.* The payments to be made to producers by handlers pursuant to subparagraph (1) of

paragraph (b) of this section shall be subject to the differentials set forth in Column B of the table in § 904.7 (c), and to further differentials as follows:

(1) With respect to milk delivered by a producer whose farm is located more than 40 miles but not more than 80 miles from the State House in Boston, there shall be added 23 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to § 904.7 (a) and (c) which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

(2) With respect to milk delivered by a producer whose farm is located not more than 40 miles from the State House in Boston, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to § 904.7 (a) and (c) which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

(f) *Other differentials.* In making the payments to producers set forth in subparagraph (1) of paragraph (b) of this section, pool handlers may make deductions as follows:

(1) With respect to milk delivered by producers to a city plant which is located outside the marketing area and more than 14 miles from the State House in Boston, 10 cents per hundredweight;

(2) With respect to milk delivered by producers to a country plant, at which plant the average daily receipts of milk from producers are:

(i) Less than 17,000 but greater than 8,500 pounds, 4 cents per hundredweight; and

(ii) 8,500 pounds or less, 8 cents per hundredweight.

(g) *Payments on outside milk.* (1) Within 23 days after the end of each month, each pool handler, buyer-handler, or producer-handler, whose receipts of outside milk are in excess of his total use of Class II milk after deducting receipts of cream, shall make payment on such excess quantity to producers, through the market administrator, at the difference between the price pursuant to § 904.7 (a) and the price pursuant to § 904.7 (b) effective for the location or freight mileage zone of the plant at which the handler received the outside milk.

(2) Within 23 days after the end of each month, each handler who operates an unregulated plant from which outside milk is disposed of to consumers in the marketing area without intermediate movement to another plant shall make payment to producers, through the market administrator, on the quantity so disposed of. The payment shall be at the difference between the price pursuant to § 904.7 (a) and the price pursuant to § 904.7 (b) effective for the location or freight mileage zone of the handler's plant.

(h) *Adjustment of overdue accounts.* Any balance due pursuant to this section, for any month since August 1, 1937, to or from the market administrator on the 10th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of 1 percent, effective the 11th day of such month.

(i) *Statements to producers.* In making the payments to producers prescribed by subparagraph (1) of paragraph (b) of this section, each pool handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The month, and the identity of the handler and of the producer;

(2) The total pounds and average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of paragraphs (b), (d), and (e) of this section;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under paragraph (f) of this section and § 904.10, together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

§ 904.10 *Payment to cooperative associations*—(a) *Application and qualification for cooperative payments.* Any cooperative association of producers duly organized under the laws of any state may apply to the Secretary for a determination that it is qualified to receive cooperative payments in accordance with the provisions of this section. Upon notice of the filing of such an application, the market administrator shall set aside for each month, from the funds provided by handlers' payments to the market administrator pursuant to § 904.9, such amount as he estimates is ample to make payment to the applicant, and hold it in reserve until the Secretary has ruled upon the application. The applicant association shall be considered to be a qualified association entitled to receive such payments from the date fixed by the Secretary, if he determines that it meets all of the following requirements.

(1) It conforms to the requirements relating to character of organization, voting, dividend payments, and dealing in products of nonmembers, which are set forth in the Capper-Volstead Act and in the state laws under which the association is organized.

(2) It operates as a responsible producer-controlled marketing association exercising full authority in the sale of the milk of its members.

(3) It systematically checks the weights and tests of milk which its members deliver to plants not operated by the association.

(4) It guarantees payment to its members for milk delivered to plants not operated by the association.

(5) It maintains, either individually or together with other qualified associations, a competent staff for dealing with marketing problems and for providing information to its members.

(6) It constantly maintains close working relationships with its members.

(7) It collaborates with similar associations in activities incident to the maintenance and strengthening of collective bargaining by producers and the operation of a plan of uniform pricing of milk to handlers.

(8) It is in compliance with all applicable provisions of this order.

(b) *Cooperative payments.* On or before the 25th day after the end of each month, each qualified association shall be entitled to receive a cooperative payment from the funds provided by handlers' payments to the market administrator pursuant to § 904.9. The payment shall be made under the conditions and at the rates specified in this paragraph, and shall be subject to verification of the receipts and other items upon which such payment is based.

(1) Each qualified association shall be entitled to payment at the rate of 1 cent per hundredweight on the milk which its producer members deliver to the plant of a handler other than a qualified association; except on milk delivered by a producer who is also a member of another qualified association, and on milk delivered to a handler who fails to make applicable payments pursuant to § 904.9 (b) (2) and § 904.11 within 10 days after the end of the month in which he is required to do so. If the handler is required by paragraph (e) of this section to make deductions from members of the association at a rate lower than 1 cent per hundredweight, the payment pursuant to this subparagraph shall be at such lower rate.

(2) Each qualified association shall be entitled to payment at the rate of 2 cents per hundredweight on milk received from producers at a plant operated by that association.

(c) *Reports relating to cooperative payments.* Each qualified association shall, upon request by the market administrator, make reports to him with respect to its use of cooperative payments and its performance in meeting the requirements set forth as the basis for such payments, and shall file with him a copy of its balance sheet and operating statement at the close of each fiscal year.

(d) *Suspension of cooperative payments.* Whenever there is reason to believe that an association is no longer meeting the qualification requirements, the market administrator shall, upon request by the Secretary, suspend cooperative payments to it, and shall give the association written notice of the suspension. Such suspended payments shall be held in reserve until the Secretary has, after notice and opportunity for a hearing, ruled upon the performance of the association.

(e) *Deductions from payments to members.* (1) Each association which is entitled to receive cooperative payments on milk which its producer members deliver to a handler other than a qualified association may file a claim with the handler for amounts to be deducted from the handler's payments to such members. The claim shall contain a list of the producers, an agreement to indemnify the handler in the making of the deductions, and a certification that the association has an unterminated membership contract with each producer, authorizing the claimed deduction.

(2) In making payments to his producers for milk received during the month, each handler shall make deductions in accordance with the association's claim, and shall pay the amount deducted to the association within 25 days after the end of the month.

§ 904.11 *Payments of administration expenses.* Within 23 days after the end of each month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this part. The payment shall be at the rate of 2.5 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, and shall apply to all of the handler's receipts of milk from producers and receipts of outside milk during the month.

§ 904.12 *Effective time, suspension, or termination*—(a) *Effective time.* The provisions of this part, or any amendment to its provisions, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to paragraph (b) of this section.

(b) *Suspension or termination.* The secretary may suspend or terminate this part or any of its provisions whenever he finds that this part or any of its provisions obstruct or do not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(1) The market administrator, or such other person as the Secretary may designate, shall:

(i) Continue in such capacity until removed by the Secretary;

(ii) From time to time account for all receipts and disbursements, and when so directed by the Secretary deliver all funds on hand, together with the books and records of the market administrator or such person, to such person as the Secretary shall direct; and

(iii) If so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant to this part.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 904.13 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

Issued at Washington, D. C., this 21st day of July 1947 to be effective on and after the 1st day of August 1947.

[Cauliflower Order 1]

PART 910—FRESH PEAS AND CAULIFLOWER GROWN IN ALAMOSA, RIO GRANDE, CONEJOS, COSTILLA, AND SAGUACHE COUNTIES IN COLORADO

LIMITATION OF SHIPMENTS

§ 910.302 *Cauliflower Order 1*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 10, as amended (7 CFR, Cum. Supp., 910.1 et. seq.), regulating the handling of fresh peas and cauliflower grown in the Counties of Alamosa, Rio Grande, Conejos, Costilla, and Saguache in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Administrative Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of fresh cauliflower, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., m. s. t., July 26, 1947, and ending at 12:01 a. m., m. s. t., August 10, 1947, no handler shall handle any lot of fresh cauliflower except cauliflower that meets the requirements of U. S. No. 1 Grade, as such grade is defined in the U. S. Standards for Cauliflower, issued by the United States Department of Agriculture, effective August 7, 1939, and that meets the following specifications: (i) The size shall be fairly uniform and shall be that which will pack not more than 14 nor less than 11 heads in a crate having inside dimensions of $8\frac{1}{2}'' \times 17\frac{1}{2} \times 21\frac{5}{8}''$; and (ii) each of such heads shall have an average diameter, exclusive of jacket leaves, of not less than 4 inches, and heads shall be packed at least fairly tight in the crate.

(2) As used in this section, the term "fairly uniform" means that the average diameters, exclusive of jacket leaves, of the several cauliflower heads contained in any crate of the inside dimensions mentioned above do not vary more than two (2) inches.

(3) As used in this section, the term "fairly tight" means that the cauliflower heads, when packed in a crate of the inside dimensions mentioned above, will have no more than a slight movement in such crate, but not so much that there will be any injury under ordinary handling conditions, and will not be loose enough to permit the addition of another head.

(4) As used in this section, the terms "cauliflower," "handler," and "handle" shall have the same meaning as when used in the amended marketing agreement and order. (49 Stat. 753, 50 Stat. 246; 7 U. S. C. 608c; 7 CFR Cum. Supp. 910.7)

PART 934—MILK IN THE LOWELL-LAWRENCE, MASS. MARKETING AREA

MISCELLANEOUS AMENDMENTS

§ 934.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Supps. 900.1 et seq., 11 F. R. 7737, 12 F. R. 1159), public hearings were held upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area; and the decision (12 F. R. 4420) was made with respect to amendments by the Secretary on June

30, 1947. Upon the basis of the evidence introduced at such hearings and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions of said order, as amended and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest, and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Additional findings.* It is necessary to make effective promptly the present amendments to the said order, as amended, to reflect current marketing conditions and to give producers immediately some assurance of a substantial seasonal increase in prices as an incentive to a needed increase in milk production during the fall and winter months of 1947–48. Any delay in the effective date of this order, as amended, and as hereby further amended, will seriously threaten the supply of milk for the Lowell-Lawrence, Massachusetts, marketing area and, therefore, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order for 30 days after its publication (Sec. 4 (c), Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by this order, as amended and as hereby further amended, which is marketed within the Lowell-Lawrence, Massachusetts, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this amended order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order further amending the said order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (February 1947), were engaged in the production of milk for sale in the said marketing area.

It is therefore ordered, That on and after the first day of August 1947, the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 934.6 (a) (1) delete the words "except that from the effective date hereof through February 1947 the price shall be not less than $5.70 per hundredweight: *Provided*, That for each delivery period or part thereof prior to February 1, 1947, which falls within any emergency period declared by market administrator of the order, as amended, regulating the handling of milk in the Greater Boston marketing area pursuant to § 904.3 (a) (14) of that order, the price shall be not less than $6.09."

2. Delete § 934.6 (a) (1) (iv) and substitute the following:

(iv) Subject to subdivisions (v), (vi), and (vii) of this subparagraph, the Class I price per hundredweight shall be as shown in the following table:

CLASS I PRICE SCHEDULE

Value computed pursuant to (iii) of this subparagraph (cents)		Class I price (dollars per cwt.)	
At least—	But less than—	April through June	July through March
0	25	2.15	2.59
25	30	2.37	2.81
30	35	2.59	3.03
35	40	2.81	3.25
40	45	3.03	3.47
45	50	3.25	3.69
50	55	3.47	3.91
55	60	3.69	4.13
60	65	3.91	4.35
65	70	4.13	4.57
70	75	4.35	4.79
75	80	4.57	5.01
80	85	4.79	5.23
85	90	5.01	5.45
90	95	5.23	5.67
95	100	5.45	5.89
100	105	5.67	6.11

If the value computed pursuant to subdivision (iii) of this subparagraph is 105 cents or more the price shall be increased at the same rate as would result from an extension of this table.

3. Add three new subdivisions to § 934.6 (a) (1) as follows:

(v) The Class I price for any of the months of March through June of each year shall not be higher than the Class I price for the immediately preceding month; and the Class I price for any of the months of September through December of each year shall not be lower than the Class I price for the immediately preceding month.

(vi) The Class I price shall not be less than $5.23 per hundredweight for the month of August 1947 and shall not be less than $5.67 per hundredweight for each of the months of September through December 1947.

(vii) The Class I price for January 1948 shall not be less than the December 1947 Class I price minus 44 cents, and the Class I price for February 1948 shall not be less than the January 1948 Class I price minus 44 cents.

4. In § 934.6 add a new paragraph as follows:

(d) *Use of equivalent prices in formulas.* If for any reason a price for any milk product specified by this order for use in computing class prices and for other purposes is not reported or published in the manner described by the order, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price which is specified.

5. In § 934.7 renumber paragraph (e) as (f), delete paragraphs (c) and (d), and add new paragraphs (c), (d), and (e) to read as follows:

(c) *Reports regarding individual producers.* (1) Within 7 days after a producer moves from one farm to another, or starts or resumes deliveries to a handler's plant, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering immediately prior to starting or resuming deliveries.

(2) Within 7 days after the 5th consecutive day on which a producer has failed to deliver to a handler's plant, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

(d) *Reports of payments to producers.* Each handler shall submit to the market administrator within 5 days after his request, made not earlier than 14 days after the end of the delivery period, his producer pay roll for such delivery period which shall show for each producer:

(1) The daily and total pounds of milk delivered with the average butterfat test thereof and

(2) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

(e) *Maintenance of records.* Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month.

6. Revise § 934.8 (c) to read as follows:

(c) *Milk subject to the Greater Boston order.* The provisions hereof shall not apply, except as provided in § 934.5 and § 934.7, to the handling of milk which is received from a plant which is a regulated plant, as defined in the order of the Secretary regulating the handling of milk in the Greater Boston, Massachusetts, marketing area, or which is received from a person who is a producer, as defined in that order.

7. Revise § 934.9 (b) (2) to read as follows:

(2) Subtract any amounts which the handler is required to pay on such milk pursuant to those provisions of the order of the Secretary regulating the handling of milk in the Greater Boston, Massachusetts, marketing area (i) which requires a handler under that order who operates an unregulated plant from which outside milk is disposed of to consumers in the Greater Boston, Massachusetts, marketing area, without intermediate movement to another plant, to make payments to producers as defined in that order, through the administrator of that order, on the quantity so disposed of, and (ii) which require payments for administrative expense under that order; and

8. Delete § 934.12 and substitute therefor the following:

§ 934.12 *Expense of administration.* As his pro rata share of the expense of administration hereof, each handler, except as set forth in § 934.8 (a) shall, on or before the 18th day after the end of each delivery period, pay to the market administrator 4 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, with respect to all milk received by him during such delivery period, from producers, from his own production, and with respect to milk or skim milk received from the type of handler described in § 934.8 (f) and moved to the marketing area.

9. Delete § 934.15.

PART 965—MILK IN CINCINNATI, OHIO, MARKETING AREA

MISCELLANEOUS AMENDMENTS

§ 965.0 *Findings and determinations—(a) Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Supps., 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), a public hearing was held on March 3, 1947, upon a proposed marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area; and the decision (12 F. R. 4517) was made, with respect to the amendments, by the Secretary on July 3, 1947. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions of said order, as amended and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to the persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which hearings have been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Additional findings.* It is necessary to make effective promptly the present amendments to the said order, as amended, to reflect current marketing conditions and to give producers immediately some assurance of a substantial seasonal increase in prices as an incentive to a needed increase in milk production during the fall and winter months of 1947–48. Any delay in the effective date of this order, as amended, and as hereby further amended, will seriously threaten the supply of milk for the Cincinnati, Ohio, marketing area and, therefore, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order for 30 days after its publication (See section 4 (c), Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by this order, as amended and as hereby further amended, which is marketed within the Cincinnati, Ohio, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, amending the order as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order, further amending the aforesaid order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (April, 1947), were engaged in the production of milk for sale in the said marketing area.

It is hereby ordered, That the handling of milk in the Cincinnati, Ohio, marketing area shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete § 965.6 (a) (1) and substitute therefor the following:

(1) The price for Class I milk shall be the price for Class III milk plus $1.05 for the delivery periods of April through July and $1.35 for the delivery periods of August through March: *Provided*, That for the delivery periods of July and August 1947 the price for Class I milk shall not be less than $4.80 and that for the delivery periods of September, October, November, and December 1947, such price shall not be less than $5.24: *And provided further*, That the Class I price for January 1948 shall not be less than the December 1947 Class I price minus $0.44 and that the February 1948 Class I price shall not be less than the January 1948 Class I price minus $0.44.

2. Delete § 965.6 (a) (2) and substitute the following:

(2) The price for Class II milk shall be the price for Class III milk plus $0.60 for the delivery periods of April through July and $0.90 for the delivery periods of August through March: *Provided*, That for the delivery periods of July and August 1947, the price for Class II milk shall not be less than $4.35 and that for the delivery periods of September, October, November, and December 1947 such price shall not be less than $4.79: *And provided further*, That the Class II price for January 1948 shall not be less than the December 1947 Class II price minus $0.44 and that the February 1948 Class II price shall not be less than the January 1948 Class II price minus $0.44.

Issued at Washington, D. C., this 21st day of July 1947, to be effective on and after the 25th day of July 1947. (48

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 41-7]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

ISSUANCE OF AIR CARRIER OPERATING CERTIFICATES FOR ALASKAN AIR CARRIER OPERATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 18th day of July 1947.

The purpose of this amendment is to permit Alaskan air carriers who are unable to fully comply with the provisions of Part 41 to operate until October 31, 1948.

Alaskan air carriers are unable to meet all the requirements of Part 41, principally with respect to airport spacings, weather reporting facilities, and communications and navigational facilities. These carriers are, however, performing a much needed transportation service and under present operating practices an acceptable degree of safety has been maintained. The public interest will best be served if the carriers are permitted to conduct operations under the terms of air carrier operating certificates which provide such deviations from Part 41 as the Administrator finds can be made with safety.

Effective August 18, 1947, Part 41 of the Civil Air Regulations is amended by adding a new section to read as follows:

§ 41.000 *Alaskan air carriers.* Whenever, upon investigation, the Administrator finds that the general standards of safety required for air carrier operations within the Territory of Alaska require or permit a deviation from any specific requirement of Part 41 for a particular operation or a class of operations for which an application for an air carrier operating certificate has been made, he may issue an air carrier operating certificate with appropriate changes, specifying therein the period during which such deviations may be permitted. The Administrator shall promptly notify the Board of any deviations included in the air carrier operating certificates and the reasons therefor. All certificates issued under the authority of this section shall terminate not later than October 31, 1948. (52 Stat. 984, 1007; 49 U. S. C. 425, 551)

By the Civil Aeronautics Board.

Secretary.

Chapter I—Federal Trade Commission

[Docket No. 5110]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

S & S TIE CO.

§ 3.72 (n 10) *Offering deceptive inducements to purchase or deal—Terms and conditions;* § 3.72 (p) *Offering deceptive inducements to purchase or deal—Undertakings, in general.* In connection with the offering for sale, sale, and distribution in commerce, of materials, patterns or instructions for making neckties or other articles, representing, directly or by implication, (1) that a contract of sale is a contract for services; or otherwise misrepresenting the character or terms of contracts offered; or, (2) that materials for processing will be furnished in sufficient quantities to afford continuous or profitable employment without any charge in addition to a stated payment, unless this is in fact done; prohibited. (Sec. 5, 38 Stat. 719 as amended by sec. 3, 52 Stat. 112; 15 U. S. C., sec. 45b) [Cease and desist order, S & S Tie Company, Docket 5110, June 5, 1947]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 5th day of June A. D. 1947.

In the Matter of Joseph Schecter and Arnold Stockenberg, Copartners, Trading as S & S Tie Company

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of the respondents, and a stipulation as to the facts entered into upon the record between counsel for the Federal Trade Commission and the respondents which provides, among other things, that the Commission may proceed on said statement of facts to make its report stating its findings as to the facts (including inferences which it may draw from said stipulated facts) and its conclusion based thereon and enter its order disposing of the proceeding without the presentation of argument or the filing of briefs or of a report upon the evidence by the trial examiner, and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondents Joseph Schecter, an individual, and Arnold Stockenberg, an individual, jointly or severally, trading as S & S Tie Company or trading under any other name, their agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of materials, patterns, or instructions for making neckties or other articles, do forthwith cease and desist from representing, directly or by implication:

1. That a contract of sale is a contract for services; or otherwise misrepresenting the character or terms of contracts offered.

2. That materials for processing will be furnished in sufficient quantities to afford continuous or profitable employment without any charge in addition to a stated payment, unless this is in fact done.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they are complying with this order.

By the Commission.

APPENDIX A TO PART 131—GENERAL RULINGS UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO

IMPORTATION OR RECEIPT OF SECURITIES FROM FOREIGN COUNTRIES

JULY 25, 1947.

Amendment to General Ruling No. 5 under Executive Order No. 8389, as amended, Executive Order No. 9193, as amended, sections 3 (a) and 5 (b) of the Trading with the Enemy Act, as amended by the First War Powers Act, 1941, relating to Foreign Funds Control.

Part 131, Appendix A, General Ruling No. 5 is hereby amended to read as follows:

(1) *Prohibitions with respect to bringing, receiving, or holding of scheduled securities.* Except as authorized herein, or as authorized by a license or other authorization of the Secretary of the Treasury, the following are prohibited:

(a) The sending, mailing, or otherwise bringing into the United States from any foreign country of any scheduled securities; or

(b) The receiving by any person in the United States of any scheduled securities mailed or otherwise sent directly to such person from any foreign country; or

(c) The receiving or holding in the United States of any scheduled securities by any individual (whether for himself or for any other person, including any corporation or other organization) having actual knowledge that such securities are scheduled securities: *Provided however*, (i) That no such individual shall be deemed to have such actual knowledge solely by reason of the publication in any manner of a list of such securities, or by reason of the fact that he has possession of a list of such securities, or by reason of any obligation express or implied to consult a list of such securities and (ii) that without limitation of the provisions of paragraph (2) hereof, the rights of any holder of scheduled securities who would otherwise be a bona fide holder shall not be affected or impaired hereby or by the publication hereof or of the list of scheduled securities.

(2) *Duty of persons bringing or receiving securities.* (a) Scheduled securities brought from a foreign country to the United States by any person entering the United States shall be forwarded by such person within five (5) days after his arrival in the United States to the Federal Reserve Bank of New York together with a statement in triplicate setting forth the following:

(i) His name and address;

(ii) A complete description of the securities;

(iii) The name and address of the person from whom he received the securities and the date of receipt; and

(iv) The circumstances under which the securities were received.

(b) Scheduled securities mailed or otherwise sent from a foreign country directly to any person in the United States shall be forwarded by such person within five (5) days after receipt thereof to the Federal Reserve Bank of New York together with the above-specified statement in triplicate.

(c) Scheduled securities delivered to any individual (whether for himself or for any other person, including any corporation or other organization) in the United States who, at the time he receives such securities has actual knowledge within the meaning of paragraph (1) (c) above that they are scheduled securities or who subsequently acquires such knowledge while the securities are still in his possession shall be forwarded by such individual within five (5) days after he acquires such securities or such knowledge, as the case may be, to the Federal Reserve Bank of New York, together with the above-specified statement, in triplicate: *Provided however*, (i) That the foregoing provision, insofar as it concerns the subsequent acquisition of such knowledge, shall not affect any person who holds such securities as security for any obligation owing to such person; and (ii) that any individual who would otherwise be required by the provisions of this subparagraph to forward securities to the Federal Reserve Bank of New York may return the securities to the person from whom he received them if such person is in the United States. The individual initiating such return shall file a report with the Federal Reserve Bank of New York giving the name and address of the person originally delivering such securities to him, and shall advise the person to whom he returns such securities that they are scheduled securities which should be deposited with the Federal Reserve Bank of New York pursuant to this ruling unless they are returned with a similar notice to a person in the United States from whom they were received. The last person in the United States to whom such securities are returned shall forward them to the Federal Reserve Bank of New York together with the statement in triplicate herein above provided. In case securities are returned under the rules of a securities exchange, an association of securities dealers, or a similar organization, the last person to whom such securities are returned under such procedure, although he may not be the last person to whom such securities are returned hereunder, shall file with the Federal Reserve Bank of New York the above-specified statement in triplicate with respect to his original receipt of the securities in question together with the date on which he returned such securities to the person from whom he received them.

Securities forwarded to the Federal Reserve Bank of New York or returned to the person from whom received, in compliance with this paragraph, shall not be deemed to have been received or held in violation of this general ruling by the person forwarding or returning such securities. Such securities nevertheless shall be subject to all other provisions hereof.

(3) *Duty of persons to whom securities tendered.* Any person to whom scheduled securities are offered or tendered for the purpose of effecting any transaction with respect thereto who refuses to receive or accept delivery thereof having actual knowledge that they are scheduled securities shall file with the Federal Reserve Bank of New York a statement in triplicate setting forth:

(a) His name and address;

(b) A complete description of the securities;

(c) The name and address of the person who offered or tendered such securities and the date thereof; and

(d) The circumstances under which the securities were offered or tendered.

(4) *Disposition of securities delivered to Federal Reserve Bank of New York.* Except as otherwise instructed by the Treasury Department, the Federal Reserve Bank of New York shall hold securities which are delivered pursuant to this general ruling until the Treasury Department is satisfied as to their status under the Order. Applications for release of securities so held may be filed with the Federal Reserve Bank of New York.

The Federal Reserve Bank of New York shall act only as fiscal agent of the United States hereunder, and shall receive and hold securities delivered to it pursuant to this general ruling as such fiscal agent, subject to the further order of the Secretary of the Treasury.

(5) *Definition.* As used herein, the term "scheduled securities" shall include all securities appearing on the list appended hereto entitled "Scheduled Securities" and evidences thereof, including coupons appertaining thereto.

(Sec. 3 (a), 40 Stat. 412, sec. 5 (b), 40 Stat. 415, 966, sec. 2, 48 Stat. 1, 54 Stat. 179, sec. 301, 55 Stat. 839; 50 U. S. C. App. 3 (a), 12 U. S. C. 95a, 50 U. S. C. App. Sup., 5 (b); E. APPENDIX A TO PART 131—GENERAL RULINGS UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO

STATUS OF PHILIPPINES

JULY 25, 1947.

Amendment to General Ruling No. 18 under Executive Order No. 8389, as amended, Executive Order No. 9193, as amended, sections 3 (a) and 5 (b) of the Trading with the Enemy Act, as amended by the First War Powers Act, 1941, relating to foreign funds control.

Part 131, Appendix A, General Ruling No. 18 is hereby amended to read as follows:

(1) *Status of the Philippines.* For the purpose of administering and complying with the provisions of sections 3 (a) and 3 (c) of the Trading with the Enemy Act, as amended, Executive Order No. 8389, as amended, and the regulations, rulings, instructions and licenses issued by or under the direction of the Secretary of the Treasury pursuant to Executive Orders Nos. 8389 and 9095, as amended, the Philippines shall not be included within the term "United States" but shall be deemed to be a foreign country not designated in Executive Order No. 8389, as amended, and to be included in the "generally licensed trade area" as defined in § 131.53 (General License No. 53).

(2) *Effect of previous status.* No person shall be deemed a national of a blocked country solely by reason of the fact that at any time on or since the effective date of the order the Philippines were regarded as a blocked country.

(Sec. 3 (a), 40 Stat. 412, sec. 5 (b), 40 Stat. 415, 966, sec. 2, 48 Stat. 1, 54 Stat. 179, sec. 301, 55 Stat. 839; 50 U. S. C. App. 3 (a), 12 U. S. C. 95a, 50 U. S. C. App. Sup., 5 (b); E. O. 8389, Apr. 10, 1940, as amended by E. O. 8785, June 14, 1941, E. O. 8832, July 26, 1941, E. O. 8963, Dec. 9, 1941, and E. O. 8998, Dec. 26, 1941, E. O. 9193, July 6, 1942, as amended by E. O. 9567, June 8, 1945; 3 CFR, Cum. Supp., 10 F. R. 6917; Regulations, Apr. 10, 1940, as amended June 14, 1941, Feb. 19, 1946, June 28, 1946, and Jan. 1, 1947; 31 CFR, Cum. Supp., 130.1-7, 11 F. R. 1769, 7184, 12 F. R. 6)

[SEAL] JOHN W. SNYDER,
Secretary of the Treasury.

STATUS OF CERTAIN REGISTERED SECURITIES AND PROPERTY OF BLOCKED FOREIGN ORGANIZATIONS

JULY 25, 1947.

Public Circular No. 35 under Executive Order No. 8389, as amended, Executive Order No. 9193, as amended, sections 3 (a) and 5 (b) of the Trading with the Enemy Act, as amended by the First War Powers Act, 1941, relating to foreign funds control.

(1) *Reference.* Reference is made to § 131.87 (General License No. 87), exempting certain transactions from section 2A (2) of the order, to § 131.94 (General License No. 94), generally licensing certain countries, to General Ruling No. 5[1] relating to the importation of securities, and to General Ruling No. 12, relating to unlicensed transfers of property in a blocked account.

(2) *Registered securities.* Securities owned by any person subject to the jurisdiction of the United States which were registered in the name of a national of a blocked country on or prior to the effective date of § 131.94 (General License No. 94) for such country are subject to the proviso of paragraph (a) of § 131.94 and constitute property in a blocked account unless transfer of registry has been appropriately authorized under the order.

(3) *Property of blocked foreign corporations and other organizations.* Property in the United States which is blocked by reason of the interest of any partnership, association, corporation, or other organization, organized under the laws of any foreign country, which is a national of a blocked country because of the stock or other interest therein of a blocked country (including the countries licensed under § 131.94 (General License No. 94)) or nationals thereof, shall continue to be regarded as property in a blocked account, notwithstanding the transfer of such stock or other interest to a non-blocked country or a national thereof.

(4) *Consequences of certain documents.* With respect to the preceding two paragraphs, attention is directed to the fact that neither § 131.87 (General License No. 87), exempting certain transactions from section 2A (2) of the order, nor the amendment to General Ruling No. 5 of July 25, 1947, removing the restrictions on the importation of securities not specified in the list attached to such ruling, authorizes any transfer of property in a block account. Regarding the same paragraphs, attention is also expressly directed to the provisions of General Ruling No. 12 concerning the effect of unlicensed transfers of property in a blocked account.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC DRUGS

PENICILLIN BOUGIES

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463 and Public Law 16, 80th Cong., 1st Sess.; 21 U. S. C. Sup. 357) the regulations for tests and methods of assay of antibiotic drugs (12 F. R. 2215) are hereby amended by adding the following new section:

§ 141.22 *Penicillin bougies*—(a) *Potency.* Proceed as directed in § 141.1 except paragraph (i) thereof, and in lieu of the directions in paragraph (d) of § 141.1 prepare sample as follows:

Dissolve 12 bougies in sterile distilled water to make an appropriate stock solution. The average potency of penicillin bougies is satisfactory if it contains not less than 85% of the number of units per bougie it is represented to contain.

(b) *Moisture.* Proceed as directed in § 141.5 (a).

(c) *Micro-organism count.* Proceed as directed in § 141.21 (b).

This order which provides for the marketing of a new penicillin product, penicillin bougies, shall become effective upon publication in the FEDERAL REGISTER since both the public and the penicillin industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to the public interest, and I so find, since it was drawn in collaboration with interested members of the affected industry, and since it would be against public interest to delay the marketing of a new penicillin product.

(Sec. 507, 52 Stat. 1040, as amended by 59 Stat. 463 and Pub. Law 16, 80th Cong.; 21 U. S. C. and Sup. 357)

Dated: July 21, 1947.

PART 146—CERTIFICATION OF BATCHES OF PENICILLIN- OR STREPTOMYCIN-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463 and Public Law 16, 80th Cong., 1st Sess.; 21 U. S. C., Sup. 357) the regulations for the certification of penicillin-containing drugs and streptomycin-containing drugs are hereby amended as indicated below:

1. The head note of § 146.26 is amended to read: "Penicillin ointment (calcium penicillin ointment, penicillin ointment calcium salt, crystalline penicillin ointment)."

2. Section 146.26 (a), first sentence, line 2, is amended by inserting "or crystalline penicillin" between "calcium penicillin" and "in."

3. Section 146.26 (d) (2) (ii) is amended to read:

(ii) The penicillin used in making the batch; potency, toxicity, moisture, pH, crystallinity and heat stability if it is crystalline penicillin and the penicillin G content if it is crystalline penicillin G.

4. Section 146.26 (d) (3) (ii) is amended to read:

(ii) The penicillin used in making the batch; five packages if it is calcium penicillin or 10 packages if it is crystalline penicillin, containing approximately equal portions of not less than 60 milligrams each, packaged in accordance with the requirements of § 146.24 (b).

5. The head note of § 146.31 is amended to read: "Penicillin dental cones (calcium penicillin dental cones, penicillin dental cones calcium salt, crystalline penicillin dental cones)".

6. Section 146.31 (a), first sentence, line 2, is amended by inserting "or crystalline penicillin" between "calcium penicillin" and "and".

7. Section 146.31 (c) (1) (iii) is amended to read:

(iii) The statement "Expiration date ----------", the blank being filled in, if crystalline is used, with the date which is 18 months, or if crystalline penicillin is not used, with the date which is 12 months after the month during which the batch was certified.

8. Subdivision (i) of § 146.31 (c) (2) is hereby revoked and subdivisions (ii) and (iii) are renumbered as (i) and (ii) respectively.

9. Section 146.31 (d) (2) (ii) is amended to read:

(ii) The penicillin used in making the batch; potency, toxicity, molsture, pH, crystallinity and heat stability if it is crystalline penicillin and the penicillin G content if it is crystalline penicillin G.

10. Section 146.31 (d) (3) (ii) is amended to read:

(ii) The penicillin used in making the batch; five packages if it is calcium penicillin or 10 packages if it is crystalline penicillin containing approximately equal portions of not less than 60 milligrams each, packaged in accordance with the requirements of § 146.24 (b).

11. The following new section is added:

§ 146.10 *Penicillin bougies (sodium penicillin bougies, calcium penicillin bougies, potassium penicillin bougies, penicillin bougies sodium salt, penicillin bougies calcium salt, penicillin bougies potassium salt)*—(a) *Standards of identity, strength, quality, and purity.* Penicillin bougies are bougies composed of penicillin in a base of polyethylene glycols. The potency of each bougie is not less than 25,000 units. Its moisture content is not more than 1.0 percent. Its content of viable microorganisms is not more than 50 per gram. The penicillin used conforms to the requirements of § 146.24 (a), except the limitation on penicillin K content and except subparagraphs (1), (2), (4), and (7) of § 146.24 (a), but its potency is not less than 300 units per milligram.

(b) *Packaging.* Each bougie is enclosed in a foil or plastic film or other container, each of which is a tight container as defined by the U. S. P., except the provision that it shall be capable of tight reclosure. The composition of the container shall be such as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package of penicillin bougies shall bear, on its label or labeling as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark;

(ii) The number of units in each bougie of the batch;

(iii) The statement "Expiration date ----------", the blank being filled in with the date which is 3 months after the month during which the batch was certified;

(iv) The statement "Warning—This product is very unstable unless stored in refrigerator not above 15° C. (59° F.)"; and

(v) The statement "For veterinary use only".

(2) On the circular or other labeling within or attached to the package, directions and precautions adequate for the use of such bougies, including:

(i) Clinical indications;

(ii) Dosage and administration;

(iii) Contraindications; and

(iv) Untoward effects that may accompany administration.

(d) *Requests for certification; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch of penicillin bougies shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless it was previously submitted) the date on which the latest assay of the penicillin used in making such batch was completed, the number of units in each bougie, the quantity of each ingredient used in making the batch, and the date on which the latest assay of the drug comprising such batch was completed.

(2) Except as otherwise provided by subparagraph (4) of this paragraph such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch; average potency per bougie, moisture, microorganism count.

(ii) The penicillin used in making the batch; potency, toxicity, moisture, pH, crystallinity, and heat stability if it is crystalline penicillin, and the penicillin G content if it is crystalline penicillin G.

(3) Except as otherwise provided by subparagraph (4) of this paragraph such person shall submit in connection with his request in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch; one bougie for each 5,000 bougies in the batch, but in no case less than 20 bougies or more than 100 bougies, collected by taking single bougies at such intervals throughout the entire time the bougies are being made, that the quantities made during the intervals are approximately equal.

(ii) The penicillin used in making the batch; five packages, or in the case of crystalline penicillin 10 packages, each containing approximately equal portions of not less than 60 milligrams each, packaged in accordance with the requirements of § 146.24 (b).

(iii) In case of an initial request for certification, one package of each polyethylene glycol used in making the batch, each containing approximately 25 grams.

(4) No result referred to in subparagraph (2) (ii) of this paragraph, and no sample referred to in subparagraph (3) (ii) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch of penicillin bougies under the regulations in this part shall be:

(1) $2.00 for each bougie in the sample submitted in accordance with paragraph (d) (3) (i) of this section; $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (ii) and (iii) of this section; and

(2) If the Commissioner considers that investigations other than examination of such bougies and packages, are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d).

This order which provides for the marketing of a new penicillin product, penicillin bougies, and for the use of crystalline penicillin in the manufacture of penicillin dental cones and penicillin ointment, shall become effective upon publication in the FEDERAL REGISTER since both the public and the penicillin industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to the public interest, and I so find, since it was drawn in collaboration with interested members of the affected industry, and since it would be against public interest to delay the marketing of a new penicillin product and the manufacture of penicillin dental cones and penicillin ointment using crystalline penicillin.

TITLE 32—NATIONAL DEFENSE

Chapter XXIII—War Assets Administration

[Reg. 1, Amdt. 3]

PART 8301—DESIGNATION OF DISPOSAL AGENCIES AND PROCEDURES FOR REPORTING SURPLUS PROPERTY LOCATED WITHIN THE CONTINENTAL UNITED STATES, ITS TERRITORIES AND POSSESSIONS

War Assets Administration Regulation 1, March 25, 1947, as amended through May 21, 1947, entitled "Designation of Disposal Agencies and Procedures for Reporting Surplus Property Located within the Continental United States, Its Territories and Possessions" (12 F. R. 2249, 2773, 3320), is hereby further amended in the following respects:

1. Paragraph (d) (1) of § 8301.2 is amended by deleting therefrom the word and figure "section 23".

2. Section 8301.6 is amended by designating the present paragraph (a) and inserting a sub-caption to read as follows:

(a) *Owning agencies.*

3. Section 8301.6 is further amended by adding a new paragraph to be designated (b) and to read as follows:

(b) *Disposals under other laws; section 34 (a) of the act.* Pursuant to the provisions of section 34 (a) of the Surplus Property Act of 1944, a Government agency having authority under another law to dispose of designated surplus property may exercise such authority without declaring the property surplus where the Administrator has not prescribed regulations to govern the disposition so as to bring it within the provisions of the Surplus Property Act.

(Surplus Property Act of 1944, as amended (58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611); Pub. Law 181, 79th Cong. (59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b); and Reorganization Plan of 1947 (12 F. R. 4534))

This amendment shall become effective July 25, 1947.

ROBERT M. LITTLEJOHN,
Administrator.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, War Department

PART 203—BRIDGE REGULATIONS

MISCELLANEOUS AMENDMENTS

Pursuant to the provisions of section 5 of the River and Harbor act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), paragraph (b) of § 203.200, and §§ 203.216, 203.223, and 203.224, are hereby revoked and the following § 203.221 is hereby prescribed:

§ 203.221 *Navigable waters of the United States within the State of New Jersey; bridges where constant attendance of draw tenders is not required.* (a) The owners of or agencies controlling the bridges listed in paragraph (f) of this section will not be required to keep draw tenders in constant attendance.

(b) Whenever a vessel, unable to pass under a closed bridge, desires to pass through the draw, advance notice, as specified, of the time of opening is required shall be given to the authorized representative of the owner of or agency controlling the bridge.

(c) Upon receipt of such advance notice, the authorized representative of the owner of or agency controlling the bridge, in compliance therewith, shall arrange for the prompt opening of the draw at the time specified in the notice for the passage of the vessel.

(d) The owners of or agencies controlling the bridges shall keep conspicuously posted on both the upstream and downstream sides thereof, in such manner that it can easily be read at any time, a copy of these regulations together with a notice stating exactly how the representative specified in paragraph (b) of this section may be reached.

(e) The operating machinery of the draws shall be maintained in a serviceable condition, and the draws shall be opened and closed at intervals frequent enough to make certain that the machinery is in proper order for satisfactory operation.

(f) The bridges to which these regulations apply, and the advance notice required in each case, are as follows:

Hackensack River; Bergen County highway bridges at Anderson Street, Hackensack, at Newbridge, and at Bridge Street, River Edge. At least 24 hours' advance notice required.

Overpeck Creek; Bergen County highway bridges near Ridgefield Park (Bergen Turnpike) and at Leonia (Fort Lee Turnpike). At least 24 hours' advance notice required.

Passaic River; Passaic and Bergen Counties highway bridge at West Eighth Street, Passaic. At least 24 hours' advance notice required.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 29]

TOBACCO INSPECTION

OFFICIAL STANDARD GRADES FOR FLUE-CURED TOBACCO

Consideration is being given to an amendment of the rules relating to the Official Standard Grades for Flue-cured Tobacco (7 CFR 29.157) issued pursuant to the Tobacco Inspection Act (49 Stat. 731; 7 U. S. C. 511 et seq.), which amendment is designed to establish six new subgroup grades of smoking-leaf tobacco, namely, H1L, H2L, H3L, H4L, H5L, and H6L.

The proposed amendment under consideration is as follows:

Delete Rule 12 of the rules relating to the Official Standard Grades for Flue-cured Tobacco (7 CFR 29.157), substituting therefor the following:

Rule 12. Smoking-leaf grades in L, F, and R colors shall be made a subgroup of leaf by substituting the letter "H" for the group letter "B" in the grade symbols.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposed amendment shall file the same with the Director of the Tobacco Branch, Production and

Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 15th day after the publication of this notice in the FEDERAL REGISTER. All documents should be filed in quadruplicate.

(49 Stat. 731; 7 U. S. C. 511 et seq.)

Issued this 21st day of July 1947.

[7 CFR, Part 955]

GRAPEFRUIT GROWN IN ARIZONA; IMPERIAL COUNTY, CALIF., AND THAT PART OF RIVERSIDE COUNTY, CALIF., SITUATED SOUTH AND EAST OF SAN GORGONIO PASS

NOTICE OF PROPOSED ADMINISTRATIVE RULES

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the administrative rules herein set forth, are proposed by the Grapefruit Administrative Committee, pursuant to the marketing agreement, and § 955.2 (h) (2) of the marketing order (7 CFR Cum. Supp. 955.1 et seq.) regulating the handling of grapefruit grown in the State of Arizona; Imperial County, California; and that part of Riverside County, California situated south and east of the San Gorgonio Pass, pursuant to the provisions of Public Act No. 10, 73d Congress, as amended by the Agricultural Marketing Agreement Act of 1937, as amended.

These rules have been adopted by the Grapefruit Administrative Committee, and prior to their final approval, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Fruit and Vegetable Branch, Production and Marketing Administration, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Inspection—(a) *Inspection required.* All grapefruit shipped from the States of Arizona and California to destinations outside of such states, and which is intended to be marketed as fresh fruit, shall be inspected by a representative of the Federal State Inspection Service prior to shipment from the area of production, and a certificate covering such grapefruit shall be obtained from an inspector certifying that such grapefruit conforms to the grade and size regulations then in effect.

(b) *Points of inspection.* Inspection stations will be located at:

El Centro, California, Imperial County Agricultural Commissioner's Inspection Platform, Simpson's Super Service Station, Adams Street and Imperial Highway. Phone Shipping Point Inspection Service, and the Imperial Valley Grapefruit Growers Packing House, 350 Brighton Street, phone El Centro 53. Inspection hours, 9 a. m. to 6 p. m.;

Indio, California, East of Indio on Highway 99. Inspection hours 10 a. m. to 7 p. m.;

Yuma, Arizona, Yuma Mesa Fruit Growers Association Packing House, phone 686, on Federal-State Inspection Service, phone 314. Inspection hours 8 a. m. to 6 p. m.;

Litchfield Park, Arizona, Dale Bumstead and Sunset Farms packing houses. Phone Glendale 783 and Citrus Park (Long Distance). Inspection hours 8 a. m. to 6 p. m.;

Phoenix, Arizona, Market Inspection Service, phone 3-2485, Committee Office, phone 4-7922 or Federal-State Inspection Service, phone 4-2842. Inspection hours 8 a. m. to 6 p. m.;

Mesa, Arizona, McKellips Mutual Citrus Growers, Inc., Mesa Citrus Growers Association and Arizona Citrus Products Co., packing houses. Phone 216, 367 and 809. Inspection hours 8 a. m. to 6 p. m.

All other packing houses handling grapefruit outside of the State of Arizona; Imperial County, California; and that part of Riverside County, California situated south and east of the San Gorgonio Pass.

Inspection stations will be located within the various areas of production and at points determined by the committee as will best serve the industry in keeping with good management and efficiency. Inspection points named above may be eliminated, and new ones established within the discretion of the committee as to the needs of the industry. Strict adherence to the above-stated hours may be difficult or impossible and exceptions may be made to the inspection hour, provided satisfactory arrangements are made with local inspectors prior to 5 p. m.

(c) *Border inspection stations.* All trucks transporting grapefruit in interstate commerce shall be required to present to inspection stations maintained and operated by the Agriculture and Horticulture Commission in Arizona, by the Imperial County Agricultural Commission in Imperial County, California and by the California Bureau of Fruit and Vegetable Standardization in Riverside, California, executed grapefruit inspection certificates, certifying that the grapefruit contained therein conforms to the then current size and grade regulations of the committee, or in lieu thereof, executed copies in triplicate of the committee's Form No. 1, Grapefruit Diversion Report.

Assessment fees and charges. An inspection fee of $0.010 (1¢) and an assessment charge of the committee of $0.0070 (7 mills) per standard box, or the equivalent of 65 pounds of loose fruit, will be charged by the inspector at the time of issuance of the certificate. These fees and assessments must be paid to the inspector at the time of the issuance of the certificate, unless the name of the handler appears on the inspector's accredited list.

(b) *Handlers' accredited list.* Each inspector will be provided with an accredited list of handlers by the committee. A handler's name will be placed on the accredited list at such time as he has deposited with the committee funds totaling an amount equivalent to the combined fees and assessments representing 25% of his anticipated market volume, or such larger amount as he may desire.

Records and reports—(a) *Shipping manifest reports.* Each handler shall forward to the committee, each Monday, an actual copy of the manifests covering each interstate shipment of grapefruit made during the previous week. Each manifest shall contain the number of boxes of each grade and size, and shall show the grapefruit inspection certificate number for each interstate shipment. If any such shipment is diverted so that a final destination becomes a place different than that shown on the original manifest or certificate, the handler shall promptly advise the committee of the place of final destination, identifying such shipment by the inspection shipment number in addition to such other information as is pertinent thereto. Any handler who so desires, may use the Grapefruit Administrative Committee Form No. 8 as a manifest for the purpose of complying with this section.

(b) *Report of weekly grapefruit movement.* Weekly reports shall be forwarded to the Grapefruit Administrative Committee, Security Building, Phoenix, Arizona, on the Monday following the date of interstate shipment showing for the preceding current week the quantity of grapefruit (1) shipped in interstate commerce and to Canada; (2) shipped for distribution to persons on relief, including donations for charitable purposes; (3) shipped by express and parcel post; (4) sold for consumption in fresh form within the State of origin; (5) exported to countries other than Canada; (6) sold or otherwise disposed of for canning or for manufacturing into by-products; and (7) disposed of otherwise. For the purpose of this section, a current week shall be defined as beginning on Sunday morning and ending at midnight on Saturday.

(c) *Reports regarding shipment for export.* Each handler shall mail to the committee within 24 hours after the shipment is made, an executed copy of the bill of lading (if shipment is made by water) or within a reasonable time after shipment is made, an official executed copy of such foreign country official landing certificate covering all shipments of grapefruit to foreign countries and Canada. A receipted railway freight bill paid at destination points within Canada may be substituted in lieu of Canadian landing certificates.

GRAPEFRUIT ADMINISTRATIVE COMMITTEE,
[SEAL] By R. M. HESS,
Chairman.

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS THERETO WITH RESPECT TO PROPOSED AMENDMENTS TO ORDER

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR Supps., 900.1 et seq.; 10 F. R. 11791; 11 F. R. 7737; 12 F. R. 1159) notice is hereby given of the filing with the Hearing Clerk of a recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed amendments to the order, as amended, and to a proposed marketing agreement, regulating the handling of milk in the Suburban Chicago, Illinois, milk marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 12th day after the publication of this recommended decision in the FEDERAL REGISTER.

Preliminary statement. A public hearing, on the record of which the proposed amendments to the order, as amended, and the proposed marketing agreement were formulated was called by the Production and Marketing Administration, United States Department of Agriculture, following receipt of proposed amendments filed by the Pure Milk Association. Additional proposals for consideration were submitted by the Lake County Milk Dealers Association, Inc., the Committee for Order 69 Handlers, and the Dairy Branch, Production and Marketing Administration. The public hearing was held at Chicago, Illinois, on March 3-5, 1947, inclusive, upon notice issued on February 24, 1947 (12 F. R. 1398).

The material issues presented on the record of hearing were whether:

1. The definition of "marketing area" should be revised for the purpose of dividing it into two areas each to be covered by a separate milk marketing order (H. N. proposal No. 1);

2. Provisions should be included for the purposes of (i) redefining Grade A and Grade B milk, and (ii) establishing a method of classifying and pricing Grade A milk separately from Grade B milk when both types of milk are received in the same plant (H. N. proposals Nos. 2, 3, 16, and 18);

3. Flavored milk, flavored milk drinks, and buttermilk should be reclassified from Class I milk to Class II milk (H. N. proposals Nos. 4 and 7);

4. The maximum amount of plant shrinkage allowed as Class IV milk should be increased (H. N. proposal No. 9);

5. The price structure for Class I milk and Class II milk should be revised as to level and seasonality (H. N. proposals Nos. 10 and 13);

6. A change should be made in the method of determining the prices to be paid for Class I milk disposed of in markets outside the marketing area (H. N. proposal No. 11);

7. A Class V milk definition and a price provision for such class of milk should be included (H. N. proposals Nos. 8 and 15);

8. The basic formula price provisions should be revised (H. N. proposals Nos. 12 and 14);

9. The butterfat differential applicable to producer milk testing above or below 3.5 percent of butterfat should be revised (H. N. proposal No. 19); and

10. Several revisions of language should be made to obtain further clarity and to simplify administrative problems with respect to:

(i) The determination of tests of chocolate milk drinks (H. N. proposal No. 6);

(ii) Precision of language in the allocation treatment of skim milk from emergency and other outside sources (H. N. proposal No. 5);

(iii) Classification of butterfat remaining in skim milk separated (H. N. proposal No. 17);

(iv) Assessments for expenses of administration (H. N. proposal No. 20); and

(v) Assessments for marketing services (H. N. proposal No. 21).

Findings and conclusions. (1) The definition of the marketing area should not be changed.

A proposal was made that a separate order be established for the "Calumet area". This area includes the townships of Calumet, North, and Hobart in Lake County, Indiana, and is included presently in the marketing area under Order 69. It was proposed that a separate order for the Calumet area should contain substantially the same provisions as Order 69 with certain modifications in the classification and pricing provisions. In support of this proposal it was pointed out, by comparison of employment statistics 1937-1946, that the Calumet area did not have the large increase in employment during this period such as occurred in Chicago, and that the Calumet area is devoted entirely to heavy industry as compared with more diverse sources of income elsewhere and therefore has a less stable economy than "other areas". It was claimed also that a decline in "take-home pay" had been felt more strongly in the Calumet area. Other points presented for a separate area include a decline in sales of chocolate milk and buttermilk, alleged problems concerning the separate classification and pricing of Grade A and Grade B milk, and problems involving the handling of surplus milk during the flush season.

Testimony by handlers not in the Calumet area showed that these same problems and conditions exist in other parts of the area regulated by Order 69. No statistics were presented to show any employment differences between the Calumet area and other areas under Order 69. A comparison of employment indexes, relied upon by the proponents, show that the variation between the yearly indexes of high and low employment was over 80 percent in metropolitan Chicago as compared with only 50 percent in Gary—one of the larger cities in the Calumet area. Thus, on the basis of these figures employment in the Calumet area was even more stable than in the Chicago metropolitan area during the period cited.

Under the individual-handler type of pool provided by Order 69, the Calumet handlers are not affected by operations of handlers located in other areas through pool equalization. Any advantages which might accrue from a separate order could only be derived through differences in classification and pricing.

The Calumet area falls within the 70-mile zone of Order 41, regulating the handling of milk in the Chicago marketing area. Producers supplying the Calumet area are intermingled with producers supplying Order 69 and Order 41 handlers. The general economic conditions affecting the production and movement of milk in all of these areas are very similar. There is also a considerable intermingling of routes and sales outlets of handlers under regulation in these areas. Because of these common factors affecting the production and marketing of milk, the classification and pricing of milk must be kept closely in line throughout the entire area, taking into account of course differences in the quality of milk required.

In view of these facts and of the conclusions reached with respect to other changes desired by handlers of the Calumet area there appears to be no justification for establishing a separate order for this area.

(2) The proposals to redefine Grade A and Grade B milk and to classify and price Grade A and Grade B milk separately when handled in the same building or "plant" should not be adopted.

These proposals were based upon a stated expectation that Grade A ordinances will become effective in certain municipalities in a manner which may permit handlers to process both Grade A and Grade B milk in the same building or plant. It was stated that an ordinance passed in Gary, Indiana, in April 1946 requires the use of Grade A labels on all fluid milk products sold in that city, and was to become effective July 1, 1947. It was further stated that the Gary health authorities had not yet indicated whether Grade A and Grade B milk could be handled in the same plant or building. A somewhat similar situation was indicated for an urban area in southern Wisconsin.

Certain important questions in this connection were unanswered. These are (i) how can the utilization of the respective amounts of Grade A and Grade B milk handled in the same plant be determined, (ii) how are Grade A producers to be distinguished from Grade B producers, and (iii) who should make the latter distinction. A solution to these problems is a necessary prerequisite to a determination as to the price to be received by Grade A producers as compared with Grade B producers shipping to the same plant. These questions are not deemed insurmountable, but present evidence does not support adequately a revised treatment of the two types of milk under the order. Such questions can be resolved best through knowledge of the precise conditions governing the handler's operations under revised health requirements when they occur. In view of the foregoing and because of the uncertainty concerning the extent of enforcement of the prospective Grade A ordinances, these proposals should not be adopted at this time.

(3) Flavored milk, flavored milk drinks, and buttermilk should not be reclassified from Class I milk to Class II milk.

The classification of these products was changed from Class I milk to Class II milk by an amendment to the order effective October 1, 1946. In support of the proposal to change the classification of these products from Class I milk to Class II milk it was claimed (i) that sales of these items decreased during the 4 months following reclassification to Class I milk as compared with the same period in 1945 and, if continued, producers' returns might thereby be reduced and (ii) the order has "for all practical purposes" made these products "nonprofit items" and there is no longer any incentive for handlers to increase their sales.

Flavored milk, flavored milk drinks, and buttermilk are disposed of in fluid form through the same retail and wholesale channels as bottled fluid milk and are used principally as a beverage. The physical characteristics, purposes, values, and uses of these items are more nearly similar to those of fluid milk than of items covered by the definition of Class II milk.

It was not shown that the decrease in sales following the amendment of October 1, 1946, was due to the reclassification of these products since the downward trend in sales had already started prior to reclassification and a general retail price increase embracing many other factors took place during the same period. Under the circumstances shown, a decrease in sales of these products is not in itself an adequate reason for the reclassification proposed.

(4) The plant shrinkage provisions (§ 969.4 (b) (4) (iii) and § 969.4 (c) (6) (vi) should be revised only with respect to shrinkage on transfers of milk to plants of nonhandlers by deleting the references to such plants.

Proposals made were designed to (i) increase the over-all plant shrinkage allowance in Class IV milk and (ii) alter the application of the plant shrinkage provisions to milk transferred to nonhandler plants. It was proposed that the shrinkage allowance on total butterfat received, at the plant of a handler, which is not disposed of to another handler in the form of bulk fluid milk, bulk fluid skim milk, or bulk fluid cream be increased from 1½ to 2½ percent. This allowance would be in addition to the ½ percent allowance under the present order on butterfat in milk received directly from producers. A second proposal would revise language with respect to transfers of milk from handlers' plants to nonhandlers' plants to allow shrinkage in Class IV milk on such transfers.

In support of the first proposal for an increase in shrinkage allowance it was claimed that many handlers had experienced butterfat losses in excess of the 2 percent maximum Class IV shrinkage allowance permitted under the present order and the figure 2.44 percent was indicated as the average shrinkage experience of the market based on the 12-month period from July 1945, through June 1946.

Analysis of the figure 2.44 percent discloses that it represents total butterfat loss for the period July 1945, through June 1946, including that portion of loss which was classified as Class I milk because it exceeded the maximum shrinkage allowance of 2 percent in Class IV milk. Shrinkage on Grade A milk actually classified in Class IV milk during this period amounted to 1.4 percent of total receipts, and if placed against only producer receipts, the shrinkage amounts to 1.66 percent. For the same period shrinkage on Grade B milk classified in Class IV milk was 1.2 percent of total receipts and 1.58 percent when placed against only the receipts from producers. These data indicate that a substantial proportion of the milk is handled with a shrinkage well below the maximum amount allowed in Class IV milk under the present order.

In view of this an increase in maximum shrinkage allowance in Class IV milk is not warranted. Any such increase as proposed would enhance the possibility for inequities to arise among handlers and would be conducive to less efficient handling of milk.

In support of the second proposal, it was pointed out that in many instances handlers make sales to nonhandlers' plants. These sales to nonhandlers are not segregated in all instances from other route sales. To simplify the accounting for the shrinkage with respect to milk moved to nonhandlers' plants, the second proposal should be adopted.

(5) The price differentials above the basic price for Class I and Class II milk should be revised to provide for (i) wider seasonal variation in uniform prices to be paid producers and (ii) an increase in the average level of price differentials above the basic price for Class I and Class II milk.

Under the present pricing provision of the order the Grade A Class I differential is 70 cents per hundredweight of milk except during May and June when it is 50 cents. The Grade A Class II differential is 32 cents. Class I and II differentials for Grade B milk are 10 cents per hundredweight less than those for Grade A milk. During the war years and until 1947 the seasonal decline in the Class I differential for May and June was suspended.

Two proposals were made to change the differentials for Class I and Class II milk. The first proposal provided for an increase in the average level of such differentials and a substantial increase in their seasonal variation. These objectives would be accomplished by increasing the Class I and Class II differentials during August, September, October, and November in both Grade A and Grade B milk. This proposal did not contemplate any change in the present 10 cent difference between Grade A and Grade B milk for either Class I or Class II uses.

The second proposal favored a decline of 25 cents in the Class I price differential for Grade A milk in the month of April and a decrease of 5 cents in such differential for May and June. It favored also a decrease in the Class I price differential for Grade B milk of 10 cents in all months except April, May, and June and decreases of 35 cents in April and 15 cents in May and June. Under this schedule a spread of 20 cents between the Class I prices of Grade A and Grade B milk would prevail. A similar spread of 20 cents on Grade A and Grade B Class II milk would be accomplished by decreasing the Grade B price differential by 10 cents.

Handlers located in the Calumet area favored the so-called "Louisville plan" of accomplishing seasonal prices to producers. Under this plan the seasonality in prices to producers would not be accomplished by changing present class price differentials, but by deducting certain amounts from the producers' uniform prices during the flush months of production and adding such deductions back during the months of short production.

The seasonal pattern of production is significantly different from the pattern of demand for Class I and Class II milk and during recent years the problems associated with these differences have become more acute than formerly.

In recent years producers supplying milk to handlers shipped on the average approximately 50 percent more milk during the flush months of May and June than they did during the short months of October and November. Data were presented which show that in 1939 the highest monthly production was approximately 30 percent above the lowest monthly production; whereas in 1946 the highest monthly production was approximately 53 percent above the lowest monthly production. In contrast, the monthly demand for Class I milk was relatively uniform. The daily utilization of Class I milk in the high production month in 1946 was less than one percent lower than in the short production month and in 1945 approximately 5 percent higher. The demand for Class II milk is less uniform than for Class I milk but is usually much more uniform than the production of milk.

During the fall months of 1945 and 1946 the total volume of Grade A and Grade B milk in excess of Class I and Class II uses averaged less than 1 percent of total market receipts of such milk. Supplementary milk was brought in by handlers to meet deficiencies of regular supplies of milk for Class I purposes. The amount of supplementary milk varied seasonally with the largest quantities being used during the fall months and the smallest quantities being used during the months of flush production. Even greater quantities of supplementary milk were brought in for Class II purposes with a pronounced seasonal pattern.

Proponents of the second proposal advocated that a greater seasonal variation in pricing should be achieved by lowering the price during the flush production period without increasing the present price differential during the short production season. While a lower price differential in the spring months can be expected to reduce the production of milk during such months it does not follow that fall production would thereby become increased without some increase in the fall differentials. They argued also that the fall differentials should not be increased because it would result in increased prices to consumers and that any increase in price to consumers would result in a loss of sales. If it is necessary to have increased prices to consumers in the fall months, it follows that there should be a decrease in consumer prices during months of lower producer prices. These arguments have insufficient weight to offset the merits of seasonal pricing.

In general, a wide seasonal variation in production creates the problem of surpluses in the spring months and shortages in the fall months. Unit marketing costs tend to be lower with uniform milk production than with a wide seasonal variation in production. The increase in seasonal variation in milk production during recent years was attributed to the small variation in prices during the war years. A relatively high level of prices such as now prevails compared with a lower level requires a wider seasonal variation in prices as an incentive to producers to even out production.

The seasonal supply and demand problem is subject to improvement through price incentives and educational influences. The role of education in correcting the problem of uneven production has been dealt with by agencies such as producer associations, handler organizations, and agricultural colleges; but education alone has not been sufficient and a price incentive is required in addition thereto.

During most months of the year handlers do not receive adequate supplies of milk from producers to meet their Class I and Class II milk requirements. During every month from September 1944, when Order 69 became effective, through December 1946, milk from sources other than producers and other handlers was obtained by handlers to supplement their usual sources of supply. Substantial quantities of this supplementary milk were needed for Class I milk uses. The number of producers supplying the suburban market has decreased since December 1944 and early 1945. Actual deficiencies occurred during every month which were off-set through the acquisition of supplies from supplementary sources. Adverse weather and crop conditions could easily place the market in a serious position of milk shortage especially during fall months. Also, the Chicago market, which in the past has been a regular source of emergency supply for many suburban Chicago handlers, is itself short of milk supplies particularly during the fall months when the need for emergency milk in the suburban Chicago market is greatest.

Practically all costs incurred by producers in the production of milk such as feed, supplies, labor, and equipment have increased during the past year. Prevailing prices for hogs, beef cattle, and other alternative enterprises open to most producers are at relatively high levels.

Class differentials above the basic or manufacturing level of milk prices, should reflect the competitive and other economic conditions affecting the supply of and demand for milk in the marketing area. The Class I and Class II price differentials over the basic formula price as set forth below together with the Class III and modified Class IV prices will result in such prices as will reflect the price of feeds and available supplies of feeds and other economic conditions which affect market supply and demand for milk or its products in the marketing area, insure a sufficient quantity of pure and wholesome milk, and be in the public interest. Class I and Class II price differentials should be as follows:

[Amount per hundredweight]

Period	Class I		Class II	
	Grade A	Grade B	Grade A	Grade B
May and June	$0.50	$0.40	$0.30	$0.20
August, September, October, and November	.60	.50	.50	.40
All other months	.70	.60	.40	.30

The above schedule of prices substantially increases the seasonal variation of price differentials and may be expected to establish a better relationship between the supply of and demand for milk. It establishes larger and more definite incentives for producers to shift some of their milk production from spring to fall. It may influence the seasonal demand if these differentials are reflected in consumer prices. It may also be expected that the future development of new supplies will be somewhat responsive to the seasonal aspects of price and result in a more even production for the market than now prevails.

In establishing the differentials set forth above, consideration has also been given to the need for maintaining a proper alignment of class prices between the Chicago market and the Suburban Chicago market. Producers supplying Order 69 handlers and producers supplying Order 41 handlers are intermingled. Many of these producers are located in the same milk shed. It is therefore important that any action taken with respect to prices in both orders be coordinated. Divergent action could very easily disrupt the sources of supplies of many handlers under both orders. Similar seasonal variation in differentials has been recommended as the most practical method of obtaining seasonal variation in prices to producers under Order 41.

The evidence supporting a change in the relationship between the Grade A milk and Grade B milk price differentials was not conclusive and no change should be made. Such data as are available in the record indicate that there has been no significant shift of producers from Grade A handlers to Grade B handlers or vice versa. Furthermore, handlers of both Grade A milk and Grade B milk have been confronted with insufficient supplies of milk from their producers during much of the time that Order 69 has been in effect.

It is estimated that the increased differentials on Class I and Class II milk together with the recommended reduction in the Class IV price will result in an average increase in the uniform price to producers of approximately 4 to 6 cents per hundredweight over the basic price.

(6) The method of pricing Class I milk disposed of in markets outside the Suburban Chicago, Illinois, marketing area should not be changed.

It was proposed that the price of Class I milk disposed of in any market outside the marketing area should be the "price as ascertained by the market administrator which is being paid for milk of equal grade and of equivalent use in the market where such milk is disposed of."

Milk produced primarily for the Suburban Chicago marketing area is sold also in several markets outside such marketing area. Some of this milk is sold under resale price levels lower than those in the marketing area. The prices effective under the Suburban Chicago order should be such as to induce supplies adequate to meet the demands of the marketing area but not necessarily to fulfill the requirements of outside markets at prices different from the price established on the basis of the hearing for the marketing area. The Suburban Chicago market does not have excessive supplies of milk except for a certain amount of seasonal surplus, which is not uncommon to the market. In fact a shortage of milk for the marketing area exists. Under such conditions Suburban Chicago milk sold in outside markets should return to producers at least the prices prevailing in the marketing area.

Moreover, prices paid by individual distributors within a single outside market often vary greatly and the standards and method by which the market administrator would ascertain the price being paid in the outside market for milk of equivalent use were not outlined. From the administrative viewpoint, it is considered undesirable and impractical for the market administrator to determine outside market price levels in such circumstances.

(7) A Class V milk definition and a price provision for such class of milk should not be included.

A proposal was made to establish an additional class to be known as Class V milk. It would cover all milk received by a handler in excess of his "actual and complete requirements" when, upon 24 hours' notice prior to its receipt by the handler the Pure Milk Association failed to accept delivery or the market administrator failed to locate a purchaser. Such Class V milk would be priced at 20 cents less than the net "actual" price received by the handler f. o. b. his plant. The principal supporting reason offered was that the handlers suffer losses when handling surplus milk. Losses thereon were claimed during the past year on the basis that the Class IV price (the lowest-valued class under the present order) was higher than the price realized by handlers in selling such milk. Except during the flush season, excess milk results principally from either the 6-day system of delivery practice or because handlers are interested in keeping producers through the flush production season to meet shortages during the fall months.

As previously stated, under the proposal the Class V price would take whatever price the handler and any buyer of such milk might agree upon, less 20 cents per hundredweight. The effect of the proposal would be an incentive for han-

dlers to arrange for a supply of milk to meet their peak requirements under any circumstances. Such a provision could stimulate the development of a constant surplus in the hands of some handlers at the expense of producers and other handlers. The adoption of the proposal would also tend to discourage the transfer of producers between handlers. Furthermore, no economic justification was shown under which handlers should be guaranteed against monetary loss on surplus milk received. Handlers are free to decide at any time whether or not they will purchase from producers more milk than is needed for their Class I milk and Class II milk requirements. In making this decision they must weigh the possibility of losing money or of making a profit on surplus milk handling. Also, supplementary milk supplies were brought into the Suburban Chicago marketing area during every month of 1946 and in recent months. The amount of milk used in the manufacturing classes, namely Class III and Class IV, has been a negligible percentage of the quantity of milk received from producers. The proposals, if adopted, would reduce the incentive for handlers with an excessive amount of milk to dispose of such milk to other handlers who might need it for Class I milk or Class II milk.

The present Class IV milk definition adequately covers those manufacturing uses for milk which are considered generally as the lowest-valued of all uses. Therefore, there would seem to be no point in including in the order a definition for Class V milk. (See also conclusion (8).)

(8) The basic formula price provisions should be revised.

(i) In the order currently in effect the basic formula price is the highest price computed from 3 manufacturing milk price formulas based respectively on the "paying" prices of several evaporated milk concerns, open market prices of butter and cheese, and open market prices of butter and nonfat dry milk solids for the current delivery period.

Two proposals were made to reduce the butter and nonfat dry milk solids formula price (Class IV price) in amounts of approximately 5 and 10 cents per hundredweight, respectively. Another proposal supplemented the present Class IV milk definition by adding a Class V definition designed to effect a reduction in price for surplus milk under certain conditions. (See conclusion (7).)

It was contended that losses were being encountered by handlers who have no facilities for processing Class IV milk, and in support of a Class V milk classification a handling allowance was requested to cover alleged losses of handling surplus milk. Temporary surpluses of milk occur in some plants not having sufficient manufacturing facilities to utilize such milk in the plant and in such instance surplus milk must be disposed of by transferring to a manufacturing plant. In recognition of this condition, some modification of the Class IV price formula seems appropriate. Conditions surrounding the production and disposition of milk in the Chicago and Suburban Chicago areas are very familiar. The evidence indicated a necessity for keeping a close alignment of prices in the two markets.

Therefore, it is determined that the Class IV price in Order 69 should be as follows: The present Class IV formula price provisions should remain unchanged, except that during the months of March, April, May, and June they should be modified to the extent of changing the present 5-cent operating allowance on nonfat dry milk solids to 6 cents when f. o. b. country plant prices are used and changing the present 6-cent allowance to 7 cents when Chicago delivered prices of such solids are used.

The recommended change in the Class IV formula price effects a reduction of 7.5 cents per hundredweight of Class IV milk during the 4 months of the year when surplus is of significance in some plants. The recommended change will coincide with and implement to a degree the seasonal price structure recommended elsewhere in this recommended decision.

(ii) Two proposals were made to expand the present list of condenseries set forth in § 969.5 (a) (1). One proposal would add the names and locations of 5 plants; the other would add the names and locations of 12 more plants.

The reasonableness or propriety of the list of 18 plants now included in the order was not strenuously or convincingly challenged. The proponents did not show that an improvement in the formula as an index of evaporated milk plant prices would result from the inclusion of the 5 Illinois plants. Appraisal of the testimony leads to the conclusion that the single action of adding the 5 Illinois plants would do little to improve the present Class III price formula and that there are a number of factors involved which should be considered before any revision of this formula is made.

The record does not disclose the effects which the 12 other plants suggested would have upon the present Class III price and there is practically no information in the record concerning their operations as to whether they are primarily manufacturing plants. The evidence is not sufficient to support the inclusion of the 12 latter plants. It is recommended that the suggested revisions of the list not be made until there is an opportunity to make a more complete analysis of the effect of these or similar changes.

(iii) Under the present order, class prices are not known until approximately the 5th day after the end of the delivery period during which the milk is received. While no specific proposal was made to change the application of the basic price formula in determining the Class I and Class II prices, it was shown that there is a need for similarity in the price structures of Orders 41 and 69. It has been found, in connection with recent recommended amendments to Order 41, that Class I and Class II milk prices should be based on the higher of the Class III or Class IV milk prices for the preceding delivery period. Orderly marketing of fluid milk and fluid cream should be encouraged by paralleling as nearly as possible the methods of determining the Class I and Class II prices in the two orders. For these reasons it is recommended that such class prices be based upon the manufacturing milk formula prices for the next preceding delivery period instead of the current delivery period with the condition that the basic formula price effective for July shall not be less than that for the preceding month of June. The latter condition should assist to preserve the proper seasonal trend of prices.

(9) The proposed 4-cent handler butterfat differential applicable to fluid milk sold as Class I milk testing above or below 3.5 percent of butterfat should not be adopted.

This proposal would have the effect of placing a price on butterfat which is in excess of 3.5 percent in fluid milk sold as Class I milk of 4 cents per point. This is substantially lower than the current price of butterfat for any use including butter, the lowest-valued use under the order. Under the proposal the butterfat in excess of 3.5 percent disposed of in Class I fluid milk would be subsidized at the expense of the handler's uniform price. No adequate reasons have been presented to show why these results should prevail.

(10) Several revisions of language should be made to obtain further clarity and to simplify administrative problems.

(i) In determining the butterfat test of flavored milk and flavored milk drinks the average fat test of these products, including the fat test of chocolate ingredients, should be used as their butterfat test in all cases where a handler's production records do not show the amount of butterfat going into the product. (§ 969.4 (e) (3) (ii))

The order now provides that in determining the pounds of butterfat in flavored milk and flavored milk drinks the weight of these products is multiplied by their average butterfat test. It has been contended in some instances that a variation exists between the total fat test of the finished product and the butterfat test thereof. A representative study by the market administrator showed that the difference between the butterfat test of the milk ingredients and the total fat test of the finished product was insignificant. The procedure presently being followed by the market administrator is to use the total fat test of flavored drink as their butterfat test in the absence of adequate records showing a different butterfat test. The proposal will specifically spell out this method in the order. Where handlers' records show the amount of butterfat going into these products, such records have been accepted and will continue to be accepted under the proposal.

(ii) A method for eliminating skim milk received as "emergency milk" or "other source milk" from Class I milk should be specified in connection with the allocation of milk classified.

In the allocation of milk classified under the order provision is made for the subtraction of emergency milk and other source milk from a handler's over-all utilization. The current provisions of the order provide for the allocation of butterfat only and the precise method to be followed in allocating skim milk in emergency milk and other source milk is not outlined. Because the order is not clear with reference to the appropriate allocation of fluid skim milk received from outside sources, administrative interpretation in this respect has been necessary.

Emergency milk and other source milk are received by handlers at times in the form of fluid skim milk. Occasionally Class I milk pounds exceed net producer receipts (plus overrun) because purchases of skim milk from outside sources are added to producer milk to fulfill the Class I milk needs of the handler. When this occurs it is often found that all butterfat received in producer milk is utilized in Class I milk and in other instances some butterfat from producer milk will be utilized in Class II, Class III or Class IV milk. In the latter circumstance some skim milk is carried into the lower use classes along with the butterfat so utilized and such skim milk is therefore not available for Class I milk.

In order to give a reasonable allocation to outside purchasers of skim milk it is recommended that an adjustment to Class I milk representing the amount of milk brought in from outside be allowed in those cases where either utilization of Class I milk, or the combined utilization of Class I milk plus the 18 percent cream equivalent of butterfat from producer milk used in other classes, is greater than the amount of milk received from producers plus overrun. Since Class II milk accounts for the bulk of the butterfat contained in Class II, Class III and Class IV milk, with the greatest portion of Class II milk sales being at approximately 18 percent butterfat content, it is recommended that the 18 percent cream equivalent of butterfat in producer milk be used in the latter type of adjustment. The Class I milk pounds so adjusted would be used in the computation of the handler's total obligation to producers. As indicated above, the adjustment will assure producers of payment for as much of their milk at the Class I price as is equitable. The recommended method of allocation adopts the administrative practice which has been in effect in such instances.

(iii) A butterfat allowance of 0.06 percent should be provided to handlers who are not able to show specific tests as to butterfat content of skim milk.

There has been an administrative problem with respect to the determination of the butterfat contained in skim milk. Some handlers do not have testing equipment adequate to ascertain with reasonable accuracy the butterfat content remaining in skim milk after separation. Handlers with adequate records have been permitted to claim butterfat in skim milk. A study by the market administrator indicates an average butterfat content of approximately 0.06 percent for skim milk used by handlers in manufacturing milk products. It appears that .06 percent is a reasonable factor for use in the absence of adequate tests or records. Butterfat in skim milk may be a substantial factor in the shrinkage experienced by a plant engaged primarily in receiving and separating milk and shipping cream to the marketing area.

The proposed amendment would relieve an administrative problem and would tend to bring about a greater degree of equity among handlers in determining the butterfat content of skim milk.

(iv) The section providing for an assessment on handlers covering administrative expenses should be revised to provide that changes in the administrative assessment rate below the maximum fixed in such section shall be determined by the Secretary rather than by the market administrator subject to review by the Secretary.

Procedure for making changes in such rates will be less complicated if such rate-making is a direct function of the Secretary rather than a review function. This revision will simplify the establishment of appropriate rates of assessment at any time the assessment rate should be changed.

(v) The section providing for the marketing services deductions should be revised to provide that changes in the rate of marketing services deductions below the rate specified in such section shall be determined by the Secretary rather than by the market administrator subject to review by the Secretary.

The fixing of the rate of marketing services deductions by the Secretary (who now reviews the rate established by the market administrator) will simplify the procedure for establishing such rate of assessment below that specified in the order when a change in the rate is necessary.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of the Producer Associations and various handlers subject to Order No. 69. The briefs contain statements of fact, conclusions, and arguments with respect to all of the proposals discussed at the hearing. Every point covered in the briefs was carefully considered, along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. Although all of the briefs do not contain specific requests to make proposed findings, it is assumed that the statements, conclusions, and arguments submitted were for this purpose and are treated accordingly. To the extent that such proposed findings and conclusions are inconsistent with the proposed findings and conclusions contained herein, the implied request to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and amendments to the order. The following amendments to the order, as amended, are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this recommended decision because the regulating provisions thereof would be the same as those contained in the order, as amended, and as proposed here to be further amended.

1. Delete § 969.4 (e) (3) (ii) and substitute therefor the following:

(ii) Multiply each of the resulting amounts by its average butterfat test (in the case of flavored milk and flavored milk drinks the test to be used shall be the average fat test of the finished product if the handler's production records do not show the amount of butterfat contained therein), and add the results so obtained.

2. Redesignate § 969.4 (f) (6) as § 969.4 (f) (7).

3. Add the following as § 969.4 (f) (6):

(6) If after making the applicable deductions pursuant to subparagraphs (1) to (5) of this paragraph, inclusive, (i) the amount of Class I milk is greater than the amount of milk received from producers plus the 3.5 percent milk equivalent of butterfat overrun, if any, and none of the butterfat received from producers has been allocated to Class II milk, Class III milk, or Class IV milk, the amount of Class I milk allocated to producers shall be equal to the amount of milk received from producers plus the 3.5 percent milk equivalent of the butterfat overrun, or (ii) the amount of Class I milk plus the 18 percent cream equivalent of the butterfat in the remaining Class II milk, Class III milk, and Class IV milk is greater than the amount of milk received from producers plus the 3.5 percent milk equivalent of butterfat overrun, if any, the difference shall be subtracted from the amount of Class I milk. In either case the adjusted volume of Class I milk shall be used in the computation of the handler's obligation to producers.

4. Delete from § 969.4 (b) (4) (iii) the words "or to a plant not meeting such description."

5. Delete from § 969.4 (e) (6) (vi) the words "or to plants not described in § 969.1 (f)."

6. Delete paragraphs (a) and (b) of § 969.5 and substitute therefor the following:

(a) *Basic formula price.* The basic formula price to be used in computing the prices of Class I milk and Class II milk for each delivery period shall be the higher of the prices for Class III milk and Class IV milk as computed by the market administrator pursuant to subparagraphs (3) and (4) of paragraph (b) of this section for the delivery period next preceding: *Provided*, That the basic formula price effective for July shall not be less than that effective for June.

(b) *Class prices.* Subject to the appropriate location adjustment credit set forth in paragraph (c) of this section, each handler, at the time and in the manner set forth in § 969.8, shall pay per hundredweight of milk purchased or received during each delivery period from producers or from cooperative associations, not less than the prices set forth below in this paragraph, f. o. b. his plant or station from which Class I milk is distributed in the marketing area.

(1) *Class I milk.* (i) The price for Grade A Class I milk shall be the basic formula price plus the following amount for the delivery period indicated: May and June, $0.50; August, September, October and November, $0.90; all others, $0.70; and (ii) the price for Grade B Class I milk shall be the price for Grade A Class I milk less 10 cents.

(2) *Class II milk.* (i) The price for Grade A Class II milk shall be the basic

formula price plus the following amount for the delivery period indicated: May and June, $0.30; August, September, October and November, $0.50; all others, $0.40; and (ii) the price for Grade B Class II milk shall be the price for Grade A Class II milk less 10 cents.

(3) *Class III milk.* The price for Class III milk shall be the highest of the prices resulting from the respective formulas set forth in (i) and (ii) of this subparagraph and in subparagraph (4) of this paragraph.

(i) The average of the prices per hundredweight reported to have been paid, or to be paid, for such delivery period to farmers for milk containing 3.5 percent butterfat delivered during such delivery period at each of the following listed manufacturing plants or places for which prices are reported to the United States Department of Agriculture or to the market administrator:

Companies and Location

Borden Co.: Black Creek, Wis.
Borden Co.: Greenville, Wis.
Borden Co.: Mount Pleasant, Mich.
Borden Co.: New London, Wis.
Borden Co.: Orfordville, Wis.
Carnation Co.: Berlin, Wis.
Carnation Co.: Jefferson, Wis.
Carnation Co.: Chilton, Wis.
Carnation Co.: Oconomowoc, Wis.
Carnation Co.: Richland Center, Wis.
Carnation Co.: Sparta, Mich.
Pet Milk Co.: Belleville, Wis.
Pet Milk Co.: Coopersville, Mich.
Pet Milk Co.: Hudson, Mich.
Pet Milk Co.: New Glarus, Wis.
Pet Milk Co.: Wayland, Mich.
White House Milk Co.: Manitowoc, Wis.
White House Milk Co.: West Bend, Wis.

(ii) The price per hundredweight computed from the following formula:

(*a*) Multiply the average wholesale price per pound of 92-score butter at Chicago for the delivery period as reported by the United States Department of Agriculture, by 6;

(*b*) Add 2.4 times the average weekly prevailing price per pound of "Twins" during the delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin: *Provided*, That if the price of "Twins" is not quoted on the Wisconsin Cheese Exchange the weekly prevailing price of "Cheddars" shall be deemed to be the prevailing price for "Twins" and shall be used in determining the price pursuant to this formula:

(*c*) Divide by 7;

(*d*) Add 30 percent thereof; and

(*e*) Multiply by 3.5.

(4) *Class IV milk.* The price for Class IV milk shall be that computed from the following formula: Multiply by 3.5 the arithmetical average of daily wholesale prices per pound of 92-score butter in the Chicago market, as reported by the United States Department of Agriculture during the delivery period, add 20 percent thereof, and add to, or subtract from, such sum 3¾ cents for each full ½ cent that the arithmetical average of carlot prices per pound of nonfat dry milk solids (not including that specifically designated animal feed, spray and roller pricess, f. o. b. Chicago area manufacturing plants, as reported by such agency during the delivery period, is respectively above or below 5 cents: *Provided*, That for the delivery periods of March, April, May and June "6 cents" shall be substituted for "5 cents" in such computation: *And provided further*, That if such f. o. b. manufacturing plant prices of nonfat dry milk solids are not reported there shall be used for the purpose of such computation the arithmetical average of the carlot prices of nonfat dry milk solids delivered at Chicago, Illinois, as reported weekly by such agency during the delivery period; and in the latter event the respective amounts "5 cents" and "6 cents" shall be increased by one cent.

7. Add as § 969.6 (c) the following:

(c) *Butterfat in skim milk.* A handler may claim, for classification purposes pursuant to § 969.4, butterfat in skim milk disposed of to others or used in the manufacture of milk products by including the butterfat content of such skim milk in his report for the delivery period filed pursuant to § 969.3 (a) (2) or by giving prior notification to the market administrator of his desire to do so. In the event that a handler does not have adequate records of the butterfat content of such skim milk, the market administrator shall use 0.06 percent as the butterfat content per hundredweight of such skim milk: *Provided*, That if the handler desires to discontinue accounting for butterfat in skim milk, or after discontinuing the accounting therefor desires to again account for the same, he may do so by notifying the market administrator in writing at least 30 days prior to the first day of the delivery period during which such change shall become effective.

8. Insert in § 969.9 following the phrase "an amount not exceeding 4 cents per hundredweight" the words ", or such lesser amount as the Secretary may prescribe," and delete from such section the words "the exact sum to be determined by the market administrator, subject to review by the Secretary".

9. Delete from § 969.10 (a) the parenthetical phrase "(or such lesser amount as the market administrator shall determine to be sufficient, such determination to be subject to review by the Secretary)" and substitute therefor the words ", or such lesser amount as the Secretary may prescribe,".

Filed at Washington, D. C., this 22d day of July 1947.

UTAH

NOTICE OF FILING OF PLAT OF SURVEY

JULY 18, 1947.

Notice is given that the plat of survey of lands hereinafter described will be officially filed in the District Land Office, Salt Lake City, Utah, effective at 10:00 a. m. on September 19, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 19, 1947, to December 18, 1947, inclusive, the public lands affected by this notice shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from August 30, 1947, to September 19, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 19, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 18, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from November 28, 1947, to December 18, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 18, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Salt Lake City, Utah, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Acting Manager of the District Land Office, Salt Lake City, Utah.

The lands affected by this notice are described as follows:

SALT LAKE MERIDIAN

T. 27 S., R. 9 E. All

The areas described aggregate 23,052.15 acres.

The lands involved are rough and broken having a clay soil with much rock.

Bureau of Reclamation

RESERVOIRS OF COLORADO-BIG THOMPSON, NORTH PLATTE, KENDRICK, AND MIRAGE FLATS PROJECTS

PUBLIC USE REGULATIONS

MAY 26, 1947.

The following regulations have been established to assure safest and fullest possible recreation use of the reservoirs of the Colorado-Big Thompson, North Platte, Kendrick, and Mirage Flats Projects of the Bureau of Reclamation compatible with the uses and primary purposes for which such reservoirs were constructed. These areas are in part public playgrounds and should be enjoyed to the fullest extent. Adherence to these regulations will help assure that enjoyment.

1. *Permits*—(a) *Boating permit.* Any person desiring to place a boat (including all types of floating craft) on any of the reservoirs of the Colorado-Big Thompson, North Platte, Kendrick, or Mirage Flats Projects of the Bureau of Reclamation, must first obtain a permit to do so. An application form for such a boating permit may be obtained by contacting in person or writing the project office of the Bureau of Reclamation concerned or any other office later desig-

nated as their representative. The project offices and their locations are listed below:

Colorado-Big Thompson Project: Bureau of Reclamation, Estes Park, Colo.
North Platte Project: Bureau of Reclamation, Casper, Wyo.
Kendrick Project: Bureau of Reclamation, Casper, Wyo.
Mirage Flats Project: Bureau of Reclamation, Hemingford, Nebr.

The permit will be issued for use of the boat on the project concerned, following receipt of the application and the fee for such permit, the amount of which is defined in the boat classification given below. The permittee will be furnished a permit card which must be available for inspection at all times while his boat is using any of the project reservoirs. In addition, each permittee will be furnished a license bearing a number, corresponding to that of his permit that must be displayed in a conspicious place on the prow of the boat. Permits shall continue in force until the end of the calendar year during which they are issued, unless revoked for a violation of laws or of the public use regulations. Permits may be transferred with the boat at no additional cost upon sale of such boat, provided notice of that sale is furnished the Bureau of Reclamation at the office of issue. Where deemed desirable, the Bureau of Reclamation may issue a boating permit for more than one project, where such projects are in close relationship to each other.

Permit rates by boat classes:

I. Boats for personal use:

A. Manually operated craft—$1.00.
B. Sailboats and motorboats with overall length of 16 feet or less—$2.00.
C. Sailboats and motorboats with overall length of more than 16 feet and not more than 26 feet—$4.00.
D. Sailboats and motorboats with overall length of more than 26 feet—$6.00.

II. Boats for hire (including boats operated for fee or profit either as direct charge to a second party or as incident to other services provided to the second party).

A. Manually operated craft—$2.00.
B. Sailboats and motorboats with overall length of 16 feet or less—$4.00.
C. Sailboats and motorboats with overall length of more than 16 feet and not more than 26 feet—$8.00.
D. Sailboats and motorboats with overall length of more than 26 feet—$12.00.

The number of permittees under this class (Class II) for a certain reservoir may be restricted by the Bureau of Reclamation if such restriction is necessary in order to properly operate and care for the reservoir and its recreational values. Permission to place boats for hire on a reservoir for one year does not guarantee in any way that the same permittee will be allowed the same privilege or have priority for that privilege in the following year or years unless it has been covered by lease or concession contract with the Bureau of Reclamation.

Manually operated craft are all craft whose movement through the water during the boating year is dependent entirely upon manual propulsion.

Sailboats are craft whose movement through the water at any time during the boating year is dependent upon the use of sails.

Motorboats are craft whose movement through the water at any time during the boating year is dependent upon the use of an inboard or outboard motor or engine. Some boats might be classified as both sailboats and motorboats as defined but separate differentiation need not be here made since the same permit classes include both types of boats.

Overall length is the longest distance between the two outer extremities of the boat or any permanent structure attached thereon.

All types of boats are allowed on the reservoirs with the exception of what is commonly known as a houseboat.

(b) *Dock, pier, boathouse, mooring permit.* Each boating permit issued according to the above provisions carries permission to install a dock, pier, boathouse, or mooring suitable for the boat or boats covered by it but in a manner, design, and location agreeable to the Bureau of Reclamation, providing, however, that, in the opinion of the Bureau of Reclamation, such installation is desirable. Before installation of dock, pier, boathouse, or mooring is made on any of the reservoirs of a specific project, approval in writing must be obtained through the office that issued the boating permit. The docks, piers, boathouses, and moorings are subject to relocation or removal at the discretion of the Bureau of Reclamation in the best interest of the project.

(c) *Compliance with Federal and State laws.* The operations of each permittee shall at all times be conducted in accordance with all applicable Federal and State laws and the rules and regulations issued thereunder. Failure of the permittee to abide by any of the terms or conditions of any applicable Federal or State laws, or rules and regulations issued thereunder shall cause the permit to be subject to immediate termination at the option of the United States.

2. *Safety equipment requirements.* (a) Each manually operated craft, sailboat, or motorboat in use at any time between sunset and sunrise shall carry a lantern or other suitable light visible all around the horizon.

(b) Each manually operated craft, sailboat, or motorboat must be provided with the following:

(1) An anchor of sufficient size and a chain, cable, or rope of sufficient length and strength to hold the boat in case of accident, storm, or other emergency.

(2) Paddles or oars.

(3) Efficient life preservers equal in number to the maximum number of persons to be carried.

(4) A ready means of hand bailing or, if this would be impossible or impracticable due to the boat's size or construction, adequate bilge pumps should be installed.

(c) Metal boats of any type must have sufficient air chambers, tanks, or flotation gear to safely hold up the boat when filled to proper carrying capacity should accident or other emergency necessitate their doing so.

(d) Specific safety requirements for motorboats:

(1) Motorboats with inboard engines must have:

(*a*) A flame arrester on the carburetor, if the combustion air is taken from below the deck line or from the engine compartment.

(*b*) A provision for adequate ventilation of the engine compartment.

(c) One of the following types of fire extinguishers:

1 quart carbon tetrachloride or 1¼ gallons foam, or 4 pounds CO_2.

(2) Motorboats with outboard engines must have:

(*a*) Mufflers or silencing devices.

3. *General traffic rules.* (a) When boats are approaching each other headon or so nearly as to endanger collision, it shall be the duty of each to turn to the right to pass the other.

(b) When two boats are crossing so as to involve risk of collision, the boat which has the other on her starboard or right side shall keep out of the way of the other boat.

(c) A boat overtaking any other boat shall keep out of the way of the overtaken boat.

(d) The following takes precedence when a meeting occurs between boats of different classifications: Manually operated craft take precedence over all other craft. Sailboats take precedence over motorboats but must give way to manually operated craft. Motorboats must give way to all other types of craft.

(e) All motorboats must remain at a reasonably safe distance from manually operated craft and sailboats, and must not circle same or approach in such a manner or close enough to cause waves or spray to inconvenience occupants of those boats.

(f) Motorboats must reduce speed when approaching or leaving public boat launching and landing areas so as not to create undue disturbance to the water or interference with other boats.

(g) No boat can approach closer than 500 feet to any dam or other restricted water area as designated unless duly authorized by the Bureau of Reclamation.

4. *Safety rules and procedures.* (a) The number of people riding in a boat shall not exceed its proper carrying capacity.

(b) In case of distress three quickly repeated signals repeated at regular intervals should be used. These signals could be made by calling, whistling, waving a flag or lighted flashlight, or by other means. Anyone is morally obligated to rescue the party in distress, but if he is incompetent to do so, he is obligated to notify Bureau of Reclamation personnel, boaters, picknickers, or other persons of the evident need for aid. A rescue party may cause the signaler considerable expense. The distress signal, like the S. O. S., is never to be used except when life or property is actually in danger, and outside help must be obtained. Whoever receives such distress signals should acknowledge it in a practical manner, preferably by two signals of similar character as received, repeated at regular intervals.

(c) Because of the possibility of fire, the motor or engine of inboard motorboats must be started and running before any passengers are loaded. Refueling operations of such boats will be carried on at a safe distance from all public use areas except public boat docks. Such boats must not be refueled with passengers on board.

(d) All boats used for passenger service must be operated at all times by a competent and experienced operator while in such use.

(e) Boats, which, in the opinion of the representative of the Bureau of Reclamation, whose opinion shall be final and conclusive, are not properly constructed, operated, or maintained, shall not be permitted to be placed or remain on the waters of the reservoirs.

(f) Small boats shall be securely anchored or tied up when not in use. Boats found floating loose on the reservoir may be taken up; and the permittee shall be liable to the United States for any expense incurred in making the boat secure. Owners thereof shall be liable to the United States for any damage done by their boat to works of the United States. Boats shall not be left in the reservoir proper during the winter months.

5. *Regattas and racing.* Regattas and racing are prohibited unless duly authorized by the Bureau of Reclamation.

6. *Violation of regulations.* The permit of any person violating any of the foregoing regulations may be revoked, and such person shall remove his boat and dock, pier, boathouse, or mooring where installed from the reservoir and lands adjacent to the reservoir; failing to do so the offending boat and dock, pier, boathouse, or mooring where installed may be removed and held for the costs of removal.

7. *Public boat launching and landing.* The Bureau of Reclamation may restrict certain areas, when and where necessary, for the exclusive purpose of public boat launching and landing.

8. *Cars.* Cars must be confined to roads and parking areas. Roads must not be used for parking where parking areas have been designated.

9. *Swimming.* Swimming is permitted except within 500 feet of any dam or other restricted water area as designated.

10. *Airplanes.* Airplanes must not land on or take off from the reservoirs.

11. *Fires.* The Bureau of Reclamation may restrict or prohibit, when and where necessary, the building of fires. Where fires are allowed they may be built only where they will not damage live trees, shrubs, grass, or other plants. Fires may not be left unattended and must be extinguished before leaving. Only dead trees and brush may be used for fires where firewood has not been furnished. Lighted matches, cigarettes, cigars, and ashes should never be thrown on the ground without first being extinguished.

12. *Sanitation.* Refuse, garbage, rubbish, or waste of any kind shall not be placed or thrown in the reservoir waters or on any of the United States lands adjacent to the reservoir, but shall be burned or buried or disposed of at designated points or places assigned for the sanitary disposal thereof.

13. *Picnicking.* Picnicking is allowed on the United States lands adjacent to the reservoir except when and where the Bureau of Reclamation finds it necessary to restrict or prohibit such use. Any area used for picnicking must be cleaned after using.

14. *Damage to Property.* The destruction, injury, defacement, or removal of public property or vegetation (trees, shrubs, and other plants), rock or minerals is prohibited.

15. *Order.* No intoxicated person shall be permitted upon United States lands adjacent to the reservoir or in boats on the waters of the reservoir.

16. *Construction of Facilities and Changing Reservoir Shoreline.* The installation or construction of any facility on the United States lands adjacent to the reservoir or any change in the shoreline of the reservoirs is prohibited unless due authority is given by the Bureau of Reclamation for such installation, construction, or change to be made.

17. *Private notices and advertisements.* Private notices and advertisements shall not be posted, distributed or displayed on the United States lands adjacent to the reservoir except such as the Bureau of Reclamation may deem necessary for the convenience and guidance of the public using the area for recreational purposes.

18. *Establishment of businesses on Bureau of Reclamation lands.* No person, firm, or corporation or their representatives shall engage in or solicit any business on a reservoir or the United States lands adjacent to the reservoir without permission in writing from the Bureau of Reclamation or in accordance with terms of a lease or concession contract with the Bureau of Reclamation.

19. *Concession and other charges to public.* Any concession or other business operating on a reservoir or on the United States lands adjacent to the reservoir must post the charges for its services, refreshments, and other items in conspicuous places, and such prices shall be within reason.

20. *Hunting and fishing.* Hunting and fishing are permitted upon compliance with the laws, rules, and regulations prescribed by the State concerned, but subject to such additional regulations as may be issued by the United States in order to protect the reservoir or other project features or to protect the area as a Fish and Wildlife Refuge if it has so been established.

21. *Firearms.* The carrying of firearms is prohibited on reservoirs or on United States lands adjacent to the reservoir except when and where hunting is allowed in compliance with section 20 above.

22. *Waiver of liability.* The main purpose of the Bureau of Reclamation reservoirs is to impound water for irrigation and other regulatory purposes. Accordingly, any person at any time going in or upon the waters thereof or upon any of the structures or lands upon the margin thereof, or upon adjacent lands belonging to the United States, and held in reserve for the use in connection therewith, whether as lessee, contractee, or permittee of the United States, or otherwise, thereby assumes all risks of injury to or death of himself by damage to or destruction of property resulting directly or indirectly, wholly or in part, from said reservoir or appurtenant structures, or their construction, operation, and control by the United States.

MICHAEL W. STRAUS,
Commissioner.

[P. & S. Docket No. 383]

ST. LOUIS NATIONAL STOCK YARDS

NOTICE OF PETITION FOR MODIFICATION

By orders dated February 28, 1933, November 5, 1936, and December 6, 1937, made pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), maximum rates and charges for selling and buying livestock on commission by market agencies operating at the St. Louis National Stock Yards, National Stockyards, Illinois, were prescribed. By supplemental orders entered from time to time, the last one of which was entered on September 17, 1946 (5 A. D. 679), the three orders referred to have been suspended and the respondents have been permitted to assess and collect higher rates than the maximum prescribed in the three prior orders. The order of September 17, 1946, provides that the rates therein set forth shall remain in effect to and until September 17, 1947, unless modified or extended.

By petition, dated July 8, 1947, and filed with the Hearing Clerk, the respondents have requested that the rates and charges provided for in said order of September 17, 1946, be extended for a further period of at least one year.

It appears that public notice should be given of the filing of such petition in order that all interested persons may have an opportunity to be heard in the matter.

Now, therefore, notice is hereby given to the public and to all interested persons of the filing of such petition for extension of temporary rates. All interested persons who desire to be heard upon the matter requested in said petition shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days from the date of the publication of this notice.

Copies hereof shall be served upon the respondents by registered mail or in person.

Done at Washington, D. C., this 21st day of July 1947.

CIVIL AERONAUTICS BOARD

[Docket No. 3007]

CHINA NATIONAL AVIATION CORP.

NOTICE OF HEARING

In the matter of the application of China National Aviation Corporation pursuant to section 402 of the Civil Aeronautics Act of 1938, as amended, for a foreign air carrier permit authorizing the foreign air transportation of persons, property and mail between Shanghai, China and San Francisco, Calif., via intermediate points in the Pacific, including Honolulu.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 402 and 1001 of said act, that a hearing in the above-entitled proceeding is assigned to be held on July 30, 1947 at 10 a. m. (eastern daylight saving time) in Room 1302, Temporary "T" Building, Constitution Avenue between 12th Street and 14th Street, NW., Washington, D. C., before Examiner Barron Fredricks.

Without limiting the scope of the issues presented by said application, particular attention will be directed to the following matters and questions:

1. Whether the proposed air transportation will be in the public interest, as defined in section 2 of the Civil Aeronautics Act of 1938, as amended.

2. Whether the applicant is fit, willing and able to perform such transportation.

3. Whether the authorization of the proposed transportation is consistent with any obligation assumed by the United States in any treaty, convention or agreement in force between the United States and the Republic of China or any other foreign country.

Notice is further given that any person desiring to be heard in this proceeding must file with the Board, on or before July 30, 1947, a statement setting forth the issues of fact or law raised by said application which he desires to controvert.

For further details of the service proposed and authorization requested, interested parties are referred to the application on file with the Civil Aeronautics Board.

Dated at Washington, D. C., July 21, 1947.

By the Civil Aeronautics Board.

EMPORIA BROADCASTING CO. INC.

NOTICE CONCERNING THE PROPOSED TRANSFER OF CONTROL [1]

The Commission hereby gives notice that on July 9, 1947 there was filed with it an application (BTC-559) for its consent under section 310 (b) of the Communications Act to the proposed transfer of control of Emporia Broadcasting Company, Inc., licensee of KTSW, Emporia, Kansas, from R. J. Laubengayer, Sidney F. Harris and John P. Harris to Gervais F. Reed and Robert B. Reed. The proposal to transfer control arises out of a contract of June 10, 1947 pursuant to which the three above mentioned transferors agree to sell and the two above named transferees agree to buy in equal amounts all of the transferor's 20,471 shares (81.9%) of the common voting stock of Emporia Broadcasting Company, Inc., for a total consideration of approximately $40,942 ($2 per share plus a pro rata share represented in the number of shares delivered of the net current assets of the station) and the additional minority shares (4,529, 18.1%) that the transferors will endeavor to purchase from the other minority stockholders. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

Pursuant to § 1.321 which sets out the procedure to be followed in such cases including the requirement for public notice concerning the filing of the application, the Commission was advised by applicant on July 11, 1947 that starting on July 15, 1947 notice of the filing of the application would be inserted in the Emporia Gazette, a newspaper of general circulation at Emporia, Kansas in conformity with the above section.

In accordance with the procedure set out in said section, no action will be had upon the application for a period of 60 days from July 15, 1947 within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above-described contract.

NATIONAL FUEL GAS CO. ET AL.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 17th day of July 1947.

In the matter of National Fuel Gas Company, United Natural Gas Company, Iroquois Gas Corporation, File No. 70-1559.

National Fuel Gas Company ("National"), a registered holding company, and its public utility subsidiaries, United Natural Gas Company ("United") and Iroquois Gas Corporation ("Iroquois"), having filed a joint application-declaration pursuant to sections 6, 7, 10 and 12 of the Public Utility Holding Company Act of 1935 and Rules U-45 and U-50 (a) (2) promulgated thereunder with respect to the following transactions:

National has entered into a credit agreement with Chase National Bank, in the City of New York, whereby the bank will make loans to National in an aggregate amount not to exceed $6,500,000 from the effective date of the agreement to July 1, 1950, with the right on the part of National to terminate the arrangement at any time on thirty days' notice.

The proposed loans are to be evidenced by promissory notes to be issued at various dates on or after July 15, 1947, are to be of three months maturity, and are to bear interest at the rate of 1½% per annum to July 1, 1949 and at the rate of 1¾% per annum thereafter. National will pay Chase a commitment fee of ¼ of 1% per annum on the average daily unused amount which Chase is obligated to lend.

National proposes to extend to two of its wholly-owned subsidiaries, United and Iroquois, a line of credit of up to but not to exceed at any one time $5,000,000 and $1,500,000, respectively, which the subsidiaries may borrow, renew and repay from time to time during the period July 1, 1947 to June 30, 1948. The loans of the two subsidiaries are to be evidenced by promissory notes to be issued from time to time during the period July 1, 1947 up to June 30, 1948, are to bear interest at the rate of 1½% per annum, and are to mature three months from date of issue, or June 30, 1948, whichever shall be earlier. Each subsidiary agrees to pay the parent a commitment fee of ¼ of 1% per annum on the daily average unused amount which the parent is obligated to lend to each subsidiary.

The joint application-declaration having been filed June 26, 1947, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application-declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to this joint application-declaration that the applicable statutory standards are satisfied and that there is no basis for any adverse findings and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application-declaration be granted and permitted to become effective, and further deeming it appropriate to grant the request of applicants-declarants that this order should be effective upon issuance;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that this joint application-declaration be, and the same hereby is, granted and permitted to become effective forthwith.

By the Commission.

PHILADELPHIA ELECTRIC POWER CO. AND SUSQUEHANNA POWER CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 18th day of July 1947.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Philadelphia Electric Power Company ("PEP"), a registered holding company, and its electric utility subsidiary, The Susquehanna Power Company ("SP"), designating sections 6 (a), 7, 10, 12 (c), 12 (d) and 12 (f) and Rules U-42 (a) and U-43 thereunder as being applicable to the proposed transaction.

Notice is further given that any interested person may, not later than July 24, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said joint application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after July 24, 1947, said joint application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said joint application-declaration which is on file in the offices of this Commission, for a statement of the transaction therein proposed, which is summarized as follows:

By orders of the Federal Power Commission and a decree of the United States Circuit Court of Appeals for the Third Circuit, PEP and SP have been directed to make certain accounting adjustments in connection with the final determination of the actual legitimate original cost, as of December 31, 1932, of the Conowingo Hydro-Electric Project, including (a) the charge off by SP of certain disallowed amounts to Earned Surplus with

a provision that certain amounts may be charged to a properly created Capital Surplus; and (b) the reduction by PEP of the book cost of its investment in the stock of SP. In this connection SP has determined to create a Capital Surplus of $3,676,091.92 to be used solely for charging off an equal amount of the disallowed cost in compliance with said orders and decree. Accordingly, SP has determined to reclassify its common stock and reduce the stated value thereof from $4,866,886.36 to $1,190,794.44.

SP's present capital stock consists of 135,000 shares of common stock, Class A, no par value, of which 110,500 shares are issued and outstanding, and 135,000 shares of common stock, Class B, no par value, all of which are outstanding. All of SP's outstanding stock is owned by PEP and pledged with Fidelity-Philadelphia Trust Company, Trustee, under the first mortgage of PEP and SP, dated February 1, 1926, as amended by supplemental indenture dated July 1, 1946. SP proposes to cancel by Charter amendment all of its authorized Class A and Class B stock and create in lieu thereof a new common stock, without par value, in the amount of 200,000 shares. The new shares are to be issued to PEP and exchanged with the Trustee in place of the outstanding shares of the Class A and Class B stock of SP.

The joint application-declaration requests that the Commission's order granting the application and permitting the declaration herein to become effective be issued on or before July 28, 1947.

By the Commission.

MORRIS PLAN CORP. OF AMERICA ET AL.

NOTICE OF APPLICATION, STATEMENT OF ISSUES, AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 18th day of July A. D. 1947.

In the matter of the Morris Plan Corporation of America, American General Corporation, and Burton E. Forster, et al., File No. 812-501.

Notice is hereby given that The Morris Plan Corporation of America (Morris Plan) has filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 for an order exempting from section 17 (a) of said act, transactions in which Burton E. Forster, Robert A. Culver, Gordon E. Marks, William C. Jacobs, James S. Hall II, James M. Austin and Rubye C. Goforth propose to purchase from Morris Plan a total of 117 shares of The Tennessee Valley Bank (Bank) at a price of $181.33 per share, an aggregate purchase price of $21,215.61.

The purchasers in the proposed transactions are either officers, directors or employees of the Bank. The Bank is a majority-owned subsidiary of Morris Plan and the latter company is controlled by American General Corporation (American), a registered investment company. Therefore the purchasers are affiliated persons of an affiliated person of American and the proposed transactions are prohibited by section 17 (a) (2) of the act.

The proposed purchase price, which is equal to the book value of $181.33 per share for the stock as at May 31, 1947, is subject to revision downward to the extent that any dividend declaration after May 31, 1947 and prior to the date of sale reduces the book value below $181.33 per share. The net earnings of the Bank (1) averaged $22.33 per share over the ten year period 1937-1946, (2) amounted to $33.40 per share in 1946, and, (3) amounted to $20.73 per share for the first five months of 1947. The contracts between Morris Plan and the respective purchasers reserve to Morris Plan the right of first refusal to repurchase the stock at the then book value either upon the desire of a purchaser to dispose of the stock or upon the demise of a purchaser. The terms of the contracts conform to the provisions of a resolution adopted by the Board of Morris Plan authorizing the officers thereof to sell stock of several of its majority-owned banks, at prices not less than the per share book values thereof, to the extent that such sales do not reduce the holdings of Morris Plan below 51% of the outstanding stock of any of the banks named in the resolution. All interested persons are referred to said application, which is on file in the offices of this Commission, for a more detailed statement of the terms of the proposed transactions and the matters of fact and law asserted therein.

The Corporation Finance Division of the Commission has advised the Commission that upon a preliminary examination of the application, it deems the following issues to be raised thereby without prejudice to the specification of additional issues upon further examination: whether the terms of the proposed transaction, including the consideration to be paid and received, are reasonable and fair and do not involve overreaching on the part of any person concerned; whether the proposed transaction is consistent with the policy of American General Corporation as recited in its registration statement and reports filed under the act; and, whether the proposed transaction is consistent with the general purposes of the act.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on the 6th day of August 1947 at 10:00 a. m., eastern daylight saving time, in Room 318 of the offices of the Securities and Exchange Commission, 18th and Locusts Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to trial examiners under the Commission's rules of practice.

Notice of such hearing is hereby given to The Morris Plan Corporation of America, American General Corporation, Burton E. Forster, Robert A. Culver, Gordon E. Marks, William C. Jacobs, James S. Hall II, James M. Austin, Rubye C. Goforth and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise wishing to participate in said proceedings should file with the Secretary of the Commission, on or before August 4, 1947, his application therefore as provided by Rule XVII of the rules of practice of the Commission setting forth therein any of the above issues of law or fact which he desires to contravert and any additional issues he deems raised by the aforesaid application.

By the Commission.

DAITOSHAI CO., LTD.

In re: Debt owing to Daitoshai Co., Ltd. F-39-5033-C-1.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Daitoshai Co., Ltd., the last known address of which is Kobe, Japan, is a corporation, partnership, association or other business organization, organized under the laws of Japan, and which has or, since the effective date of Executive Order No. 8389, as amended, has had its principal place of business in Japan and is a national of a designated enemy country (Japan);

2. That the property described as follows: That certain debt or other obligation owing to Daitoshai Co., Ltd., by J. Kahn & Co., Inc., 1203 Cotton Exchange Building, Dallas, Texas, in the amount of $207.40, as of December 31, 1945, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

REORGANIZATION PLAN 3 OF 1947

Prepared by the President and transmitted to the Senate and the House of Representatives in Congress assembled, May 27, 1947, pursuant to the provisions of the Reorganization Act of 1945, approved December 20, 1945.[1]

HOUSING AND HOME FINANCE AGENCY

SECTION 1. *Housing and Home Finance Agency.* The Home Owners' Loan Corporation, the Federal Savings and Loan Insurance Corporation, the Federal Housing Administration, the United States Housing Authority, the Defense Homes Corporation, and the United States Housing Corporation, together with their respective functions, the functions of the Federal Home Loan Bank Board, and the other functions transferred by this plan, are consolidated, subject to the provisions of sections 2 to 5, inclusive, hereof, into an agency which shall be known as the Housing and Home Finance Agency. There shall be in said Agency constituent agencies which shall be known as the Home Loan Bank Board, the Federal Housing Administration, and the Public Housing Administration.

SEC. 2. *Home Loan Bank Board.* (a) The Home Loan Bank Board shall consist of three members appointed by the President by and with the advice and consent of the Senate. Not more than two members of the Board shall be members of the same political party. The President shall designate the members of the Board first appointed hereunder to serve for terms expiring, respectively, at the close of business on June 30, 1949, June 30, 1950, and June 30, 1951, and thereafter the term of each member shall be four years. Whenever a vacancy shall occur among the members the person appointed to fill such vacancy shall hold office for the unexpired portion of the term of the member whose place he is selected to fill. Each of the members of the Board shall receive compensation at the rate of $10,000 per annum.

(b) The President shall designate one of the members of the Home Loan Bank Board as Chairman of the Board. The Chairman shall (1) be the chief executive officer of the Board, (2) appoint and direct the personnel necessary for the performance of the functions of the Board or of the Chairman or of any agency under the Board, and (3) designate the order in which the other members of the Board shall, during the absence or disability of the Chairman, be Acting Chairman and perform the duties of the Chairman.

(c) Except as otherwise provided in subsection (b) of this section there are transferred to the Home Loan Bank Board the functions (1) of the Federal Home Loan Bank Board, (2) of the Board of Directors of the Home Owners' Loan Corporation, (3) of the Board of Trustees of the Federal Savings and Loan Insurance Corporation, (4) of any member or members of any of said Boards, and (5) with respect to the dissolution of the United States Housing Corporation.

SEC. 3. *Federal Housing Administration.* The Federal Housing Administration shall be headed by a Federal Housing Commissioner who shall be appointed by the President, by and with the advice and consent of the Senate, and receive

compensation at the rate of $10,000 per annum. There are transferred to said Commissioner the functions of the Federal Housing Administrator.

SEC. 4. *Public Housing Administration.* The Public Housing Administration shall be headed by a Public Housing Commissioner who shall be appointed by the President, by and with the advice and consent of the Senate, and receive compensation at the rate of $10,000 per annum. There are transferred to said Commissioner the functions—

(a) Of the Administrator of the United States Housing Authority (which agency shall hereafter be administered and known as the Public Housing Administration);

(b) Of the National Housing Agency with respect to non-farm housing projects and other properties remaining under its jurisdiction pursuant to section 2 (a) (3) of the Farmers' Home Administration Act of 1946 (Public Law 731, Seventy-ninth Congress, approved August 14, 1946); and

(c) With respect to the liquidation and dissolution of the Defense Homes Corporation.

SEC. 5. *Housing and Home Finance Administrator.* (a) The Housing and Home Finance Agency shall be headed by a Housing and Home Finance Administrator who shall be appointed by the President, by and with the advice and consent of the Senate, and shall receive compensation at the rate of $10,000 per annum.

(b) The Administrator shall be responsible for the general supervision and coordination of the functions of the constituent agencies of the Housing and Home Finance Agency and for such purpose there are transferred to said Administrator the functions of the Federal Loan Administrator and the Federal Works Administrator (1) with respect to the Federal Home Loan Bank Board, the Home Owners' Loan Corporation, the Federal Savings and Loan Insurance Corporation, the Federal Housing Administration, and the United States Housing Authority, and (2) with respect to the functions of said agencies.

(c) There are also transferred to the Administrator the functions—

(1) Of holding on behalf of the United States the capital stock of the Defense Homes Corporation;

(2) Under Titles I and III, and sections 401, 501, and 502, of the Act of October 14, 1940 (54 Stat. 1125), as amended;

(3) Of the War and Navy Departments with respect to national defense and war housing (except that located on military or naval posts, reservations, or bases) under the Act of September 9, 1940 (54 Stat. 872), as amended; and

(4) Of all agencies designated to provide temporary shelter in defense areas under the Acts of March 1, 1941, May 24, 1941, and December 17, 1941 (55 Stat. 14, 197, and 810), insofar as such functions relate to such temporary shelter.

SEC. 6. *National Housing Council.* There shall be in the Housing and Home Finance Agency a National Housing Council composed of the Housing and Home Finance Administrator as Chairman, the Federal Housing Commissioner, the Public Housing Commissioner, the Chairman of the Home Loan Bank Board, the Administrator of Veterans Affairs or his designee, the Chairman of the Board of Directors of the Reconstruction Finance Corporation or his designee, and the Secretary of Agriculture or his designee. The National Housing Council shall serve as a medium for promoting, to the fullest extent practicable within revenues, the most effective use of the housing functions and activities administered within the Housing and Home Finance Agency and the other departments and agencies represented on said Council in the furtherance of the housing policies and objectives established by law, for facilitating consistency between such housing functions and activities and the general economic and fiscal policies of the Government, and for avoiding duplication or overlapping of such housing functions and activities.

SEC. 7. *Interim appointments.* Pending the initial appointment hereunder of any officer provided for by this Plan, the functions of such officer shall be performed temporarily by such officer of the existing National Housing Agency as the President shall designate.

SEC. 8. *Transfers of property, personnel, and funds.* The assets, contracts, property, records, personnel, and unexpended balances of appropriations, authorizations, allocations, or other funds, held, employed, or available or to be made available in connection with functions transferred by this Plan are hereby transferred with such transferred functions, respectively.

SEC. 9. *Abolitions.* The Federal Home Loan Bank Board, the Board of Directors of the Home Owners' Loan Corporation, and the Board of Trustees of the Federal Savings and Loan Insurance Corporation, together with the offices of the members of said boards, the office of Federal Housing Administrator, and the office of Administrator of the United States Housing Authority, are abolished.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 33—CLAIMS AND APPEALS OF VETERANS; RECOGNITION OF REPRESENTATIVES [1]

APPEARANCE: RECOGNITION OF SERVICE ORGANIZATIONS

Sections 33.1 and 33.3 are amended to read as follows:

§ 33.1 *Appearance.* Any veteran who has filed with the Commission a claim or an appeal under section 12 or section 14 of the Veterans' Preference Act of 1944 may appear in any proceeding in connection therewith either personally or by a representative. Such representative may be any person designated by the veteran, such person being hereinafter referred to as agent; or a service organization designated by him and approved by the Commission.

§ 33.3 *Recognition of service organizations.* Any service organization approved by the Commission may be recognized in the presentation of claims or appeals under section 12 or section 14 of the Veterans' Preference Act of 1944 when the proper officers thereof make application for recognition, and as a part of such application agree and certify that neither the organization nor its representatives will charge claimants or appellants any fee or compensation whatsoever for their services, except expenses actually incurred with the consent of the claimant.

In requesting recognition, the following information must be supplied:

(a) Statement outlining the purpose of the organization and need thereof, and manner in which the veteran will be benefited by such recognition.

(b) Names, titles, and addresses of officers.

(c) Number of posts or chapters, and States in which located.

(d) Names, titles, and addresses of full-time paid employees who are qualified to act as accredited representatives.

(e) Copy of constitution or charter and by-laws of the organization.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 904—MILK IN GREATER BOSTON, MASS., MARKETING AREA

Sec.
904.100 Findings and determinations.
904.101 Scope.

[1] CSC Forms 306 and 307 are filed with the Division of the Federal Register.

Sec.

904.102 Application of definition of producer handler and of segregated dairy farmer.
904.103 Classification of milk and other fluid milk products.
904.104 Plant shrinkage.
904.105 Butterfat subject to the butter and cheese adjustment.

904.107 Prescribed detail for reports of receipts and disposition.
904.108 Averaging of producers' semimonthly butterfat tests.
904.109 Deductions from payments to producers.
904.110 Weights of fluid milk products.

AUTHORITY: §§ 904.100 to 904.110, inclusive, issued under 49 Stat. 753 as amended; 7 U. S. C. 601 et seq.

§ 904.100 *Findings and determinations.* Pursuant to the provisions of Order No. 4 as amended (8 F. R. 3109, 8294; 9 F. R. 4972; 11 F. R. 5897, 10693, 14093), and of the Administrative Procedure Act (60 Stat. 237), a public meeting was held at Boston, Massachusetts, on July 15, 1947, to consider proposed amended rules and regulations to supersede the rules and regulations[1] issued by the market administrator to effectuate the terms and provisions of said order. The data, views, and arguments presented at this meeting and all written material received prior to July 19, 1947, have been considered and it is hereby found and determined that the following rules and regulations are necessary to effectuate the terms and provisions of Order No. 4, as amended, issued by the Secretary on July 21, 1947, and made effective August 1, 1947.

It is further found and determined that to defer the effective date of the said rules and regulations to a date thirty days or more after publication in the FEDERAL REGISTER would be impractical, unnecessary, and contrary to the public interest because said rules and regulations are being issued to effectuate the terms and provisions of Order No. 4 as it has been most recently amended and the effective date of the rules and regulations should be the same as the effective date of said amended order.

§ 904.101 *Scope.* The rules and regulations in §§ 904.101 to 904.110, inclusive, are made by the market administrator pursuant to § 904.2 (c) (2) of "Order No. 4, as Amended, Issued by the Secretary of Agriculture, Regulating the Handing of Milk in the Greater Boston, Massachusetts, Marketing Area", hereinafter referred to as "the order".

§ 904.102 *Application of definition of producer-handler and of segregated dairy farmer*—(a) *Receipts from producer-handlers.* (1) Milk received in packaged form from a producer-handler shall be considered as a receipt from a handler.

(2) Milk received from a producer-handler for the purpose of being processed or packaged for him shall be considered as a receipt from a handler. However, any excess of receipts in bulk from a producer-handler over the quantity of processed or packaged milk returned to him during the month shall be considered as a receipt from a diary farmer.

(b) *Receipts from segregated dairy farmers.* Milk received from dairy farmers and handled in conformity with subparagraphs (1) and (2) of this paragraph shall be considered as receipts from segregated dairy farmers. The burden of proof rests on the handler who receives the milk from dairy farmers to establish such handling.

(1) In the process of being received at the handler's plant, the milk was kept entirely separate from the milk of producers and from any other fluid milk products shipped to or disposed of in the marketing area.

(2) The milk was not shipped to or disposed of in the marketing area in any form of fluid milk products, and was not intermingled with any other fluid milk products shipped to or disposed of in the marketing area.

§ 904.103 *Classification of milk and other fluid milk products*—(a) *Application of this section.* The provisions of this section shall apply only to fluid milk products which are not required to be classified as Class I milk pursuant to § 904.3 (c) (2) and (3) of the order.

(b) *Fluid milk products disposed of to consumers.* Fluid milk products disposed of by a handler or dealer to consumers shall be classified as follows:

(1) Milk, flavored milk, cultured or flavored skim milk, and buttermilk shall be classified as Class I milk, except as provided in subparagraphs (3) and (4) of this paragraph.

(2) Cream and skim milk shall be classified as Class II milk.

(3) Sour milk and milk otherwise unsuitable for human consumption as milk, which is disposed of to a livestock farmer and used by him for animal feed, shall be classified as Class II milk.

(4) Flavored milk, cultured or flavored skim milk, and buttermilk, which is disposed of to a livestock farmer and used by him for animal feed, shall be classified as Class II milk.

(c) *Fluid milk products manufactured into other milk products.* Fluid milk products manufactured by a handler or dealer into other milk products shall be classified as Class II milk, unless the resulting milk product is subsequently reconverted into fluid milk products for which Class II utilization is not established. Specifically, the following shall be considered to be milk products:

Acidophilus Milk.
Butter.
Buttermilk Powder.
Casein.
Cheese and Cheese Paste.
Condensed Milk.
Condensed Skim Milk.
Eggnog (unless found to be flavored milk).
Evaporated Milk.
Evaporated Skim Milk.
Ice Cream, Ice Cream Mix, and Similar Frozen Desserts.
Milk Powder.
Nonfat Dry Milk Solids (skim powder).
Whey and Whey Products.
Yarhout (Bulgarian milk).

(d) *Miscellaneous uses.* Fluid milk products used or disposed of by a handler or dealer in accordance with this paragraph shall be classified as follows:

(1) Milk dumped or discarded shall be classified as Class I milk, unless established as sour milk or milk otherwise unsuitable for human consumption as milk.

(2) Fluid milk products dumped or discarded, except milk suitable for human consumption as milk, shall be classified as Class II milk.

(3) Fluid milk products destroyed or spilled under extraordinary circumstances shall be classified as Class II milk.

(4) Plant shrinkage in excess of 2 percent of the volume of fluid milk products handled shall be classified as Class I milk.

(e) *Inventories.* Fluid milk products on hand at any plant at the close of the month may be classified tentatively as Class II milk, subject to final classification in the following month.

§ 904.104 *Plant shrinkage*—(a) *Application of this section.* The provisions of this section shall apply in determining the quantity of plant shrinkage to be classified as Class II milk pursuant to § 904.3 (a) (2) (ii) of the order.

(b) *Requirement to establish plant shrinkage.* (1) Plant shrinkage may be considered as established only if both the volume of fluid milk products handled during the month and the total of specific uses of fluid milk products during the month are established.

(2) If plant shrinkage is not established, the total quantity of fluid milk products not specifically accounted for shall be classified as Class I milk.

(c) *Computation of volume handled and of total of specific uses.* (1) The volume of fluid milk products handled by a handler during the month shall consist of the total receipts of fluid milk products at the handler's regulated plants, plus the opening inventory, and minus the closing inventory, at such plants. In computing the volume handled, receipts from segregated dairy farmers shall not be included.

(2) Each handler's total of specific uses of fluid milk products during the month shall consist of the total quantity of fluid milk products the specific disposition of which is established at the handler's regulated plants, minus the quantity of syrup or other flavoring material disposed of in flavored milk or flavored skim milk. Receipts from segregated dairy farmers shall not be included in such total.

(d) *Determination and classification of plant shrinkage.* (1) Plant shrinkage shall be determined by deducting the total of specific uses from the volume handled. The remainder, if it can reasonably be considered to represent the loss or shrinkage in fluid milk products normally incurred by the handler in the receiving, processing, packaging, and distribution of the milk and milk products handled by him, shall be considered his plant shrinkage.

(2) The classification of plant shrinkage shall be determined by computing 2 percent of the volume handled, and comparing the result with the plant shrinkage. Plant shrinkage not in excess of such result shall be classified as Class II milk. Plant shrinkage in excess of such result shall be classified as Class I milk.

[1] These rules and regulations were not filed with the Division of the Federal Register.

§ 904.105 *Butterfat subject to the butter and cheese adjustment*—(a) *Application of this section.* The provisions of this section shall apply in determining the quality of butterfat subject to the butter and cheese adjustment provided in § 904.7 (d) of the order. As used in this section, the term "Cheddar-type cheese" shall mean Cheddar cheese, American Cheddar cheese, Colby cheese, washed curd cheese, or part skim Cheddar cheese; and the term "salted butter" shall mean butter which contains not less than 1.5 percent of salt by weight. The definitions and standards of identity issued by the Food and Drug Administration of the United States Department of Agriculture, insofar as they are applicable, shall govern in determining whether cheese is Cheddar-type cheese.

(b) *General provisions for determining quantity subject to the adjustment.* (1) The butter and cheese adjustment shall not apply to the butterfat in receipts of milk from dairy farmers who are not producers, receipts of butterfat in farm-separated cream, and receipts of butterfat in other fluid milk products derived from nonpool milk, regardless of the form in which the butterfat is received or used at any plant.

(2) The butter and cheese adjustment shall not apply to butterfat processed into salted butter or Cheddar-type cheese at any plant other than a plant of the first handler of the butterfat or of a second person to which the butterfat is moved.

(3) In general, the butter and cheese adjustment shall apply only to butterfat processed into salted butter or Cheddar-type cheese during any of the months of April through July. In the case of movements of butterfat to the plant of a second person, however, the date of shipment to such person, rather than the date of processing shall govern. Accordingly, the adjustment shall not apply to butterfat shipped to a second person during March, but shall apply to butterfat so shipped during July if the butterfat is otherwise eligible for the adjustment.

(4) The butter and cheese adjustment shall not apply to butterfat which is disposed of by the first handler or the second person in a form other than salted butter or Cheddar-type cheese after being processed into those products. However, if the salted butter or Cheddar-type cheese is held in inventory by the first handler or the second person at the close of any month, the butterfat in such butter or cheese may be tentatively considered as eligible for the adjustment, subject to proof of the form in which the butterfat was subsequently disposed of by the first handler or the second person.

(5) The butter and cheese adjustment may apply to the butterfat in route returns which is processed into salted butter or Cheddar-type cheese, except as provided in subparagraph (1) of this paragraph.

(c) *Assignment of identified butterfat to source.* When the source of butterfat processed into salted butter or Cheddar-type cheese at any plant is established by the processor's records, the butterfat shall be assigned to that source.

(d) *Assignment of unidentified butterfat to source.* When the source of butterfat processed into salted butter or Cheddar-type cheese at any plant is not established by the processor's records, the butterfat so used shall be assigned in the following manner:

(1) Butterfat processed into salted butter shall first be assigned to the butterfat in receipts of farm-separated cream at the plant, unless the records establish other uses of the cream.

(2) Butterfat processed into salted butter or Cheddar-type cheese at a plant at which the receipts of butterfat in fluid milk products are derived partly from pool milk and partly from nonpool milk shall be assigned proportionately to butterfat derived from pool milk and from nonpool milk, except as provided in subparagraph (1) of this paragraph.

(3) After butterfat processed into salted butter or Cheddar-type cheese has been assigned to butterfat derived from nonpool milk as provided in subparagraphs (1) and (2) of this paragraph, any remaining quantity of butterfat so processed shall first be assigned to the processing handler's receipts from producers, and then to his receipts from other handlers.

(4) Butterfat shipped to the plant of another person for processing into salted butter or Cheddar-type cheese shall be assigned to the butterfat in the shipping plant's receipts from pool sources and from nonpool sources in the manner set forth in subparagraph (2) of this paragraph. The butterfat assigned to pool sources shall be considered eligible for the butter and cheese adjustment, but not in excess of the quantity of butterfat available at the shipping plant from the handler's receipts from producers.

§ 904.106 *Due dates for reports of receipts and disposition*—(a) *Application of this section.* The provisions of this section shall apply with respect to the due dates for the filing of reports by nonpool handlers relating to their total receipts and utilization of fluid milk products, and to the filing of reports by all handlers relating to their purchases of outside cream, pursuant to paragraphs (b) and (e) of § 904.6 of the order.

(b) *Reports of buyer-handlers and producer-handlers.* (1) Each buyer-handler and producer-handler whose daily average disposition of milk during the month is at least 300 quarts per day shall report on or before the 8th day after the end of the month.

(2) Except as provided in subparagraph (3) of this paragraph, each buyer-handler or producer-handler whose daily average disposition of milk during each month is less than 300 quarts per day shall report semiannually. The handler shall report on or before July 8 with respect to his receipts and disposition of fluid milk products in the preceding six months' period ended June 30, and shall report on or before January 8 for the preceding six months' period ended December 31.

(3) Any buyer-handler or producer-handler whose daily average disposition of milk is less than 300 quarts per day but who receives outside milk during any month shall report within 8 days after the end of such month, and shall thereafter file separate reports for each subsequent month of the semiannual period involved. Separate reports for each prior month of the semiannual period shall be due on the same date as the report for the month in which the outside milk is received.

(c) *Reports of handlers who operate unregulated distributing plants.* Each handler who operates an unregulated distributing plant during the month shall report within 8 days after the end of such month.

(d) *Reports of subhandlers.* Each nonpool handler who disposes of Class I milk directly to consumers in the marketing area, but who does not operate a plant, shall report at the same time as a buyer-handler or producer-handler is required to report.

(e) *Reports of handlers who purchase outside cream.* Each handler who purchases bottling quality cream from nonpool handlers shall report on the 16th day of each month with respect to his purchases of such cream in the preceding 15 days, and shall report on the first day of the following month with respect to his purchases of such cream from the 16th day to the last day of the previous month.

§ 904.107 *Prescribed detail for reports of receipts and disposition*—(a) *Application of this section.* The provisions of this section shall apply with respect to the detail and form for the filing of reports by all handlers relating to their total receipts and utilization of fluid milk products, pursuant to paragraphs (a) and (b) of § 904.6 of the order.

(b) *Requirements applicable to pool handlers.* Each pool handler shall report the following information:

(1) The respective quantities of milk received at each plant from producers whose farms are located not more than 40 miles, more than 40 miles but not more than 80 miles, and more than 80 miles from the State House in Boston; and the number of producers in each group;

(2) The total receipts at each plant, other than the plant of a qualified operating association, from producers who are members of each cooperative association qualified pursuant to § 904.10 of the order and from producers who are nonmembers; and the number of producers in each group;

(3) The shipments of fluid milk products from each country pool plant;

(4) The information necessary to calculate the amount of the butter and cheese adjustment provided for in § 904.7 (d) of the order; and

(5) The total receipts at each pool plant from segregated dairy farmers and the use classification of such receipts pursuant to § 904.3 of the order.

(c) *Requirements applicable to nonpool handlers.* Each nonpool handler shall report the following information:

(1) The receipts of fluid milk products at each plant from other handlers and dealers;

(2) The receipts of milk from his own production, and from other dairy farmers, including receipts from segregated dairy farmers;

(3) The total quantity of Class I milk disposed of to consumers without intermediate movement to another plant, showing the respective quantities so disposed of in the marketing area and outside the marketing area;

(4) The total quantity of Class I milk disposed of to individual handlers and dealers, showing the respective quantities so disposed of in the marketing area and outside the marketing area; and

(5) The total quantity of fluid milk products disposed of as Class II milk, and information as to the quantities so disposed of to individual handlers and dealers.

§ 904.108 *Averaging of producers' semimonthly butterfat tests.* In making payments for milk to each producer, pursuant to § 904.9 of the order, each handler may determine the average butterfat content of the milk by using the simple average of the butterfat tests of semimonthly composite samples of the milk, unless the difference between the semimonthly tests is more than two points (0.2%), or the quantity of milk delivered by the producer in either semimonthly period is as much as three times as large as his deliveries in the other semimonthly period.

§ 904.109 *Deductions from payments to producers*—(a) *Authorization for deductions.* In making payments to producers as required by § 904.9 (a) and 904.9 (b) (1) of the order, the burden shall rest upon the handler making deductions from such payments to prove that each deduction is properly authorized, and properly chargeable to the producer.

(b) *Deductions for cooperative associations.* Upon receipt of notice from the market administrator that there is an error in the claim filed by a cooperative association pursuant to § 904.10 (c) of the order, the handler shall be relieved of the obligation to make that part of the deductions which was claimed in error, as determined by the market administrator.

§ 904.110 *Weights of fluid milk products*—(a) *Application of this section.* The provisions of this section shall apply in determining the respective quantities of fluid milk products received or used by each handler or dealer .

(b) *Basis for determination of quantity.* The determination of the quantity of fluid milk products received or used by each handler or dealer shall be on the basis of the weight, in pounds, of the fluid milk products.

(c) *Standard weights.* In the absence of specific weights the weight of fluid milk products received or disposed of in a quart or 40-quart container shall be determined according to the following table, and the weight of such products in any other container shall be determined by multiplying the equivalent number of quarts by the respective standard weight per quart container.

AUTHORITY: §§ 947.0 to 947.14, inclusive, issued under 48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq., sec. 102, Reorg. Plan 1 of 1947; 12 F. R. 4534.

§ 947.0 *Findings and determinations*—(a) *Finding upon the basis of the hearing record.* Pursuant to Public Act. No. 10, 73d Cong. (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Supps. 900.1 et seq., 11 F. R. 7737, 12 F. R. 1159), public hearings were held upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Fall River, Massachusetts, marketing area; and the decision (12 F. R. 4756) was made with respect to amendments by the Secretary on July 11, 1947. Upon the basis of the evidence introduced at such hearings and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions of said order, as amended and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Additional findings.* It is necessary to make effective promptly the present amendments to the said order, as amended, to reflect current marketing conditions and to give producers immediately some assurance of a substantial seasonal increase in prices as an incentive to a needed increase in milk production during the fall and winter months of 1947–48. Any delay in the effective date of this order, as amended, and as hereby further amended, will seriously threaten the supply of milk for the Fall River, Massachusetts, marketing area and, therefore, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order for 30 days after its publication (Sec. 4 (c), Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by this order, as amended, and as hereby further amended, which is marketed within the Fall River, Massachusetts, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this amended order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area;

(3) The issuance of this amended order is approved or favored by at least two-thirds of the producers who, during the determined representative period (June 1947), were engaged in the production of milk for sale in the said marketing area; and

(4) The adoption of the provision which provides for the payment to all producers and cooperative associations delivering milk to the same handler of uniform prices for all milk delivered by them is approved or favored by at least three-fourths of the producers who, during a representative period (June 1947), were engaged in the production of milk for sale in the said marketing area.

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Fall River, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended to read as follows:

§ 947.1 *Definitions.* The following terms as used herein have the following meanings:

(a) "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

(b) "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

(c) "Fall River, Massachusetts, marketing area", hereinafter called the "marketing area," means the city of Fall River and the town of Somerset, both in the Commonwealth of Massachusetts, and the town of Tiverton in the State of Rhode Island.

(d) "Person" means any individual, partnership, corporation, association, or any other business unit.

(e) "Dairy farmer" means any person who produces milk.

(f) "Producer" means any dairy farmer, irrespective of whether such dairy farmer is also a handler, whose milk is received at a plant from which Class I milk is shipped to, or sold in, the marketing area either directly or through another plant during the delivery period: *Provided*, That a dairy farmer shall not be a producer within this definition:

(1) If minimum prices are required to be paid to him under provisions of any other Federal order;

(2) If milk delivered by him is determined by the market administrator to be a part of the handler's normal supply for a market other than the marketing area and (i) is classified in Class II or is disposed of outside the marketing area and is classified as Class I, or (ii) is moved to a plant from which the quantity of Class I milk sold or distributed in the marketing area during the delivery period is no greater than the quantity of Class I milk received during the delivery period at such plant from Fall River handlers plus the quantity of bulk milk received from a Federal order plant during the delivery period; or

(3) If his milk is delivered to a plant located outside Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, and New York.

(g) "Dairy farmers designated for other markets" means those dairy farmers which are reported to the market administrator by a handler as his normal supply for a market other than the marketing area.

(h) "Cooperative association" means any association of producers or producers and dairy farmers which the Secretary determines (1) to have its entire activities under the control of its members, and (2) to have and to be exercising full authority in the sale of milk of its members.

(i) "Handler" means any person, irrespective of whether such person is also a dairy farmer, a producer, or a cooperative association, who receives milk from producers, dairy farmers, cooperative associations, or other handlers, all or a portion of which milk is disposed of as Class I milk in the marketing area during the delivery period.

(j) "Producer-handler" means a producer who is also a handler who receives no milk from producers: *Provided*, That such handler shall furnish to the market administrator for his verification, subject to review by the Secretary, evidence that the maintenance, care, and management of the dairy animals and other resources necessary for the production of milk in his name are and continue to be the personal enterprise of and at the personal risk of such producer and the processing, packaging, and distribution of the milk are and continue to be the personal enterprise of and at the personal risk of such producer in his capacity as a handler.

(k) "Delivery period" means the calendar month, or the portion thereof, during which the provisions hereof are effective.

(l) "Producer milk" means all milk produced by a producer, which is purchased or received by a handler either directly from such producer or from a cooperative association.

(m) "Other source milk" means all milk received by a handler which is not producer milk, milk from dairy farmers designated for other markets, or milk from a Federal order plant.

(n) "Federal order" means any order of the Secretary regulating the handling of milk pursuant to the act.

(o) "Federal order plant" means any plant at which the milk is subject to the minimum pricing provisions of another Federal order during the delivery period.

(p) "Hundredweight" means one hundred pounds of milk or its volume equivalent, considering 85 pounds of milk and 86 pounds of skim milk per 40-quart can, and 2.15 pounds of milk per quart.

§ 947.2 *Market administrator*—(a) *Designation.* The agency for the administration hereof shall be a market administrator who shall be a person selected and subject to removal by the Secretary. The market administrator shall, within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary. The market administrator shall be entitled to such reasonable compensation as shall be determined by the Secretary.

(b) *Powers.* The market administrator shall have the power to:

(1) Administer the terms and provisions hereof;

(2) Report to the Secretary complaints of violations hereof;

(3) Make rules and regulations to effectuate the terms and provisions hereof; and

(4) Recommend to the Secretary amendments hereto.

(c) *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(1) Keep such books and records as will clearly reflect the transactions provided for herein;

(2) Submit his books and records for examination by the Secretary at any and all times;

(3) Furnish such information and such verified reports as the Secretary may request;

(4) Obtain a bond with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(5) Publicly disclose, after reasonable notice, the name of any person who has not made reports pursuant to § 947.3 or made payments required by § 947.8;

(6) Prepare and disseminate, for the benefit of producers, consumers, and handlers, such statistics and information concerning the operation hereof as do not reveal confidential information;

(7) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;

(8) Pay out of the funds received pursuant to § 947.10 the cost of his bond and of the bonds of such of his employees as handle funds entrusted to

the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and the performance of his duties;

(9) Promptly verify the information contained in the reports submitted by handlers; and

(10) Verify, subject to review by the Secretary, evidence furnished by handlers pursuant to § 947.1 (j), such verification to be made within 15 days of the date of receipt of such evidence, and to be effective from the first day of the delivery period during which verification is made.

§ 947.3 *Reports of handlers*—(a) *Submission of reports.* Each handler shall report to the market administrator in the form and detail prescribed by the market administrator.

(1) On or before the 7th day after the end of each delivery period, the receipts of milk, skim milk, and cream at each plant from producers, from other handlers, from such handler's own production, from any other sources, and inventories on hand at the beginning and end of such delivery period;

(2) On or before the 7th day after the end of each delivery period, the respective quantities of milk, skim milk, and cream which were sold, distributed, or disposed of, including sales or deliveries to other handlers, for the several purposes and classifications as set forth in § 947.5;

(3) Within 10 day after the market administrator's request, with respect to any producer for whom such information is not in the files of the market administrator, and with respect to a period or periods of time designated by the market administrator, (i) the name, post office address, and farm location, (ii) the total pounds of milk delivered, (iii) the average butterfat test of milk delivered and (iv) the number of days on which deliveries were made;

(4) At such time after the 18th day after the end of each delivery period as the market administrator may require, each handler shall within 10 days submit to the market administrator his producer records for such delivery period which shall show for each producer: (i) The total delivery of milk with the average butterfat test thereof, (ii) the net amount of the payment to each producer and each cooperative association made pursuant to § 947.8, and (iii) the deductions and charges made by the handler;

(5) On or before the 18th day after the end of the first delivery period following the effective date hereof, a schedule of the transportation rates which were charged and paid for the transportation of milk from the farm of each producer to such handler's receiving plant and such information with respect to distances involved as the market administrator may require;

(6) On or before the 18th day after any changes are made in the schedule filed in accordance with subparagraph (5) of this paragraph, a copy of the revised schedule with the effective dates of such changes as may appear in the revised schedule;

(7) On or before the 7th day after the end of each delivery period, dairy farmers designated for other markets.

(b) *Verification of reports.* Each handler shall make available to the market administrator or his agent those records which are necessary for the verification of the information contained in reports submitted by such handler pursuant to this section and those facilities necessary for the weighing, measuring, sampling, and testing for butterfat content of milk or any product therefrom and for determining the utilization made by the handler of milk or any product therefrom.

§ 947.4 *Applications of provisions.* (a) Sections 947.6, 947.8, 947.9, and 947.10 are not applicable to any producer-handler as herein defined.

(b) Milk received by a handler from a producer-handler shall be considered as being received from a producer.

§ 947.5 *Classification of milk*—(a) *Responsibility of handlers.* In establishing the classification of milk received by a handler the burden rests upon the handler who received the milk from producers to account for all milk received at each plant at which milk is received from producers, and to prove that such milk should not be classified as Class I. The burden rests upon the handler who distributes milk in the marketing area to establish the source of all milk received.

(b) *Classes of milk.* Milk received by each handler at a plant where milk is received from producers shall be classified in Class I or Class II in accordance with subparagraphs (1) and (2) of this paragraph, subject to paragraphs (c) and (d) of this section.

(1) All milk the utilization of which is not established as Class II shall be Class I.

(2) Class II milk shall be all milk which is accounted for as (i) sold, distributed, or disposed of other than as milk which contains one-half of 1 percent or more but less than 16 percent of butterfat, and other than as chocolate or flavored whole or skim milk, buttermilk, or cultured skim milk, for human consumption; and (ii) actual plant shrinkage not in excess of 2 percent of milk received from all sources including the handler's own production but not including receipts from other handlers who receive milk from producers or milk received completely processed and packaged from a Federal order plant.

(c) *Transfers of milk from a plant at which milk is received from producers.* (1) Transfers to a producer-handler shall be Class I.

(2) Transfers to another handler not a producer-handler or to a Federal order plant shall be classified as reported by the seller, or, if the seller submits no report, as reported by the buyer: *Provided,* That the quantity classified as Class II milk shall not exceed the total quantity of Class II milk of such buyer during the delivery period.

(3) Transfers to a plant, other than a plant at which milk is received from producers or a Federal order plant, from which milk is distributed or at which milk products are manufactured shall be Class I not to exceed the total Class I at such plant during the delivery period

(d) *Classification of milk received at plants at which milk is received from producers.* For each delivery period each handler shall report the classification of milk which was received at plants at which milk is received from producers by making computations in the order indicated as follows:

(1) Determine the pounds of milk, skim milk, cream, and other milk products received at all plants of the handler at which milk is received from producers (i) from producers, including own production, (ii) from dairy farmers designated for other markets, (iii) in the form of products received completely processed and packaged from a Federal order plant, (iv) in the form of bulk milk received from another Federal order plant, (v) from other handlers who receive milk from producers, and (vi) from other sources, and the total.

(2) Determine the total pounds of milk, skim milk, cream, and other milk products utilized in Class II products including allowable plant shrinkage as provided in § 947.5 (b) (2) (ii).

(3) Prorate allowable plant shrinkage classified as Class II to producer milk, milk from dairy farmers designated for other markets, bulk milk received from a Federal order plant, and other source milk, and deduct such plant shrinkage from total Class II computed pursuant to subparagraph (2) of this paragraph.

(4) Classify other source milk as Class II in an amount no greater than the amount of Class II remaining.

(5) Deduct from the remaining pounds in each class the quantity of milk, skim milk, cream, and other milk products received from other handlers who receive milk from producers and classified according to paragraph (c) (2) of this section, and Class I and Class II products received completely processed and packaged from a Federal order plant classified according to the actual use established.

(6) Prorate remaining Class II to producer milk, milk from dairy farmers designated for other markets, and bulk milk received from a Federal order plant: *Provided,* That the amount of producer milk classified as Class II inclusive of plant shrinkage shall not exceed 5 percent of the total amount of producer milk.

(7) Deduct any remaining Class II amounts from the total quantity received from producers and the remainder is Class I producer milk.

(8) From the total receipts from each source listed in subparagraph (1) of this paragraph deduct the amount classified as Class II for each source in subparagraphs (3), (4), (5), (6), and (7) of this paragraph and the remainder from each source is Class I: *Provided,* That the total Class I utilization in the marketing area is not more than the Class I producer milk determined in this subparagraph plus Class I milk received from Federal order plants and Class I milk from plants located outside Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, and New York.

§ 947.6 *Minimum prices*—(a) *Class I prices.* (1) Each handler shall pay producers or cooperative associations for their milk containing 3.7 percent butterfat, during each delivery period, in the manner set forth in § 947.8 and subject to the differentials set forth in paragraph (c) of this section, for Class I milk delivered by them, not less than the price per hundredweight determined as follows:

(i) Using the period beginning with the 25th of the second preceding month and ending with the 24th of the immediately preceding month, compute the average of the highest prices reported daily by the United States Department of Agriculture for U. S. Grade A (U. S. 92-score) butter at wholesale in the New York market.

(ii) Using the midpoint of any range as one quotation, compute the average of all the hot roller process nonfat dry milk solids quotations per pound for "other brands, animal feed, carlots, bags, or barrels," and for "other brands, human consumption, carlots, bags, or barrels," published during the 30 days ending on the 24th day of the immediately preceding month in "The Producers' Price Current;" subtract 4 cents; and multiply the remainder by 1.8.

(iii) Add the values determined pursuant to subdivisions (i) and (ii) of this subparagraph.

(iv) Subject to subdivisions (v), (vi), and (vii) of this subparagraph, the Class I price per hundredweight shall be as shown in the following table:

CLASS I PRICE SCHEDULE

Value computed pursuant to subdivision (iii) of this subparagraph (cents)		Class I price (dollars per hundredweight)	
At least—	But less than—	April through June	July through March
0	25	2.44	2.88
25	30	2.66	3.10
30	35	2.88	3.32
35	40	3.10	3.54
40	45	3.32	3.76
45	50	3.54	3.98
50	55	3.76	4.20
55	60	3.98	4.42
60	65	4.20	4.64
65	70	4.42	4.86
70	75	4.64	5.08
75	80	4.86	5.30
80	85	5.08	5.52
85	90	5.30	5.74
90	95	5.52	5.96
95	100	5.74	6.18
100	105	5.96	6.40

If the value computed pursuant to subdivision (iii) of this subparagraph is 105 cents or more the price shall be increased at the same rate as would result from further extension of this table.

(v) The Class I price for any of the months of March through June of each year shall not be higher than the Class I price for the immediately preceding month, and the Class I price for any of the months of September through December of each year shall not be lower than the Class I price for the immediately preceding month.

(vi) The Class I price shall not be less than $5.52 per hundredweight for the month of August 1947 and shall not be less than $5.96 per hundredweight for each of the months of September through December 1947.

(vii) The Class I price for January 1948 shall not be less than the December 1947 Class I price minus 44 cents, and the Class I price for February 1948 shall not be less than the January 1948 Class I price minus 44 cents.

(2) For milk delivered to a handler from producers' farms at a plant located more than 100 miles from the City Hall in Fall River, there shall be deducted the sum of 13 cents plus an amount per hundredweight equal to the lowest rail tariff, for the transportation in carlots of milk in 40-quart cans, as published in the New England Joint Tariff M5 (including revisions and supplements thereto), for the distance from the railroad shipping point for such plant to the handler's railroad delivery point for the marketing area.

(b) *Class II prices.* (1) Except as provided in subparagraph (2) of this paragraph, each handler shall pay producers or cooperative associations for their milk in the manner set forth in § 947.8 not less than the price per hundredweight, for milk containing 3.7 percent butterfat calculated for each delivery period by the market administrator as follows:

(i) Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market, reported by the United States Department of Agriculture for the delivery period during which such milk is delivered, multiply the result by 3.7 and subtract 15 cents.

(ii) Add any plus amount which results from the following computations: using the midpoint in any range as one quotation, compute the average quotation per pound of nonfat dry milk solids in carlots for roller process human food products in barrels, and for hot roller process animal feed products in bags, as published during the delivery period by the United States Department of Agriculture for New York City. Multiply each such quotation by the applicable percentage indicated for the delivery period in the following table and combine the results, subtract 4 cents, and multiply the remainder by 7.5.

Delivery period	Percent	
	Human food products	Animal food products
January	100	0
February	100	0
March	50	50
April	50	50
May	25	75
June	25	75
July	50	50
August	75	25
September	75	25
October	100	0
November	100	0
December	100	0

(2) For milk delivered to a handler from producers' farms at a plant located more than 100 miles from the City Hall in Fall River, the price shall be the amount computed pursuant to subparagraph (1) of this paragraph minus 14 cents.

(c) *Butterfat differential.* If any producer has delivered to any handler during any delivery period milk having an average butterfat content other than 3.7 percent, such handler shall, in making the payments to such producer prescribed by paragraph (a) of § 947.8, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, an amount per hundredweight which shall be calculated by the market administrator as follows: Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day inclusive of the delivery period during which such milk is delivered, or the last such price reported for a delivery period if no such price is reported for the period between the 16th day of the preceding month and the 15th day inclusive of the delivery period during which such milk is delivered, subtract 1½ cents and divide the result by 10.

(d) *Computation of transportation allowances.* For the purpose of this section, the milk which was disposed of during each delivery period by each handler as Class I milk from a plant located within 100 miles of the City Hall in Fall River shall be presumed to have been, first, that milk which was received directly from producers' farms at such plant, and then that milk which was shipped from the nearest plant located more than 100 miles from the City Hall in Fall River.

§ 947.7 *Determination of uniform prices to producers*—(a) *Computation of value of milk of basic test received by each handler from producers.* For each delivery period the market administrator shall compute the value of milk received by each handler from producers in the following manner:

(1) Multiply the quantity of milk received from producers and classified in Class I and Class II pursuant to § 947.5 (d) by the respective class prices pursuant to § 947.6 (a) and (b);

(2) Combine the resulting values.

(b) *Computation of uniform prices.* The market administrator shall compute for each handler the uniform price per hundredweight of milk received from producers during each delivery period in the following manner:

(1) Add to the total value computed pursuant to paragraph (a) of this section the total amount of the differentials pursuant to § 947.8 (b); and

(2) Divide the amount computed pursuant to subparagraph (1) of this paragraph by the total quantity of milk received from producers. This result shall be the handler's uniform price for milk containing 3.7 percent butterfat.

(c) *Announcement of uniform prices.* The market administrator shall, on or before the 11th day after the end of each delivery period, mail to each handler and publicly announce:

(1) The uniform prices per hundredweight computed pursuant to paragraph (b) of this section; and

(2) The Class II price and the butterfat differential.

§ 947.8 *Payments for milk*—(a) *Time and method of payment.* (1) On or before the 1st day after the end of each delivery period, each handler shall make payment to producers for the approximate value of milk received during the first 15 days of such delivery period. On or before the 17th day after the end of each delivery period, each handler shall make payment for the total value of milk received from producers or cooperative associations during the preceding delivery period, computed pursuant to § 947.7, subject to the differentials set forth in paragraph (c) of § 947.6 and paragraphs (b) and (c) of this section as follows:

(i) To producers, at not less than the uniform price per hundredweight announced pursuant to § 947.7 (c) for the quantity of milk received from each producer.

(ii) To a cooperative association for milk which is caused to be delivered to a handler from producers by such cooperative association, and for which such cooperative association collects payment, a total amount equal to not less than the sum of the payments otherwise payable to such producers individually, pursuant to subdivision (i) of this subparagraph.

(b) *Differential for plant handling and transportation.* The payments to be made by handlers to producers, pursuant to paragraph (a) of this section shall be reduced by differentials as follows: With respect to milk received from a producer at a plant located more than 100 miles from the City Hall in Fall River, a sum of 13 cents plus an amount per hundredweight equal to the lowest rail tariff for transportation in carlots of milk in 40-quart cans, as published in the New England Joint Tariff M5 (including revisions and supplements thereto), for the distance from the railroad shipping point of such plant to the handler's delivery plant for the marketing area.

(c) *Other differentials.* In making payments to producers or cooperative associations pursuant to paragraph (a) of this section, handlers may deduct $0.0075 per hundredweight with respect to milk received from producers in containers supplied by the handler for the transportation of milk from their farms to the handler's plant as rental for such containers.

(d) *Correction of errors in payments to producers.* Errors in making any of the payments required in this section shall be corrected not later than the date for making payments next following the determination of such errors.

§ 947.9 *Marketing service deductions*—(a) *Marketing services performed by market administrator.* On or before the 15th day after the end of each delivery period, in making payments to producers pursuant to § 947.8, each handler shall deduct, with respect to milk received from each producer during such delivery period, except as set forth in paragraph (b) of this section, 4 cents per hundredweight, or such lesser amount as the market administrator shall determine to be sufficient; and shall pay an amount equivalent to such deductions to the market administrator. Such amount shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples and tests of milk received from, producers. The market administrator may contract with a cooperative association or associations for the furnishing of the whole or any part of such services to or with respect to the milk received by handlers from, producers.

(b) *Marketing services performed by cooperative associations.* On or before the 17th day after the end of each delivery period, in making payments to producers pursuant to § 947.8, each handler shall deduct, with respect to milk received from producers for whom a cooperative association, which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act" is actually performing the services set forth in paragraph (a) of this section, such amounts as are authorized by such producers, and pay an equivalent amount to the cooperative association rendering such services to its members.

§ 947.10 *Expense of administration*—(a) *Payments by handlers.* As his pro rata share of the expense of administration hereof, each handler not a producer-handler shall, on or before the 15th day after the end of each delivery period, pay to the market administrator 5 cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe with respect to all milk received during such delivery period at (1) a plant at which milk is received from producers, and (2) a plant from which Class I milk is disposed of in the marketing area to persons other than handlers who receive milk from producers: *Provided*, That such handler, which is a cooperative association, shall pay such pro rata share of expense of administration on such milk which it causes to be delivered by member producers to a handler's plant for the marketing area and for which milk such cooperative association collects payment: *And provided further*, That any amounts required by this paragraph to be paid to the market administrator shall be reduced by an amount equivalent to any amounts paid with respect to such milk, for cost of administration of a Federal order.

(b) *Suits by the market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of payments required by this section.

§ 947.11 *Effective time, suspension, or termination of order*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended, or terminated, pursuant to paragraph (b) of this section.

(b) *Suspension or termination of order.* The Secretary may suspend or terminate this order or any provision hereof whenever he finds that this order or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate. The market administrator, or such other person as the Secretary may designate, shall:

(1) Continue in such capacity until removed by the Secretary;

(2) From time to time account for all receipts and disbursements and, when so directed by the Secretary, deliver all funds on hand, together with the books and records of the market administrator or such person, to such person as the Secretary shall direct; and

(3) If so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof, the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 947.12 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture to act as his agent or representative in connection with any of the provisions hereof.

§ 947.13 *Marketing committee*—(a) *Establishment.* At the request of handlers of more than 50 percent of the milk which is produced for sale in the marketing area, the Director of the Dairy Branch, Production and Marketing Administration, United States Department of Agriculture, (hereinafter referred to as Director) may select a committee, to be known as the "Marketing Committee," which shall have as its members representatives of the various groups directly interested in the marketing of milk in the marketing area, all of whom may be selected from among the persons nominated by the handlers in accordance with the procedure established by the Director.

(b) *Duties.* The marketing committee shall have such duties as the Director determines to be necessary and appropriate to effectuate the declared policy of the act in its application to this order, as amended, and the administration thereof, all of which duties shall be prescribed by the Director.

(c) *Compensation.* The members of the Marketing Committee shall serve without compensation but shall be entitled to expenses necessarily incurred by them in the performance of their duties, and such expenses shall be paid by the market administrator out of the assessments collected hereunder for the cost of administration hereof.

(d) *Supervision.* Each and every act of the Marketing Committee shall be subject to the continuing right of the Director or the Secretary to disapprove at any time.

(e) *Procedure.* The procedure to be followed by the Marketing Committee shall be recommended by the market administrator hereunder and shall be approved by the Director.

§ 947.14 *Emergency price provision.* Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy, or other similar payment, being made by any Federal agency in connection with the milk, or product, associated with the price specified: *Provided*, That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: *Provided further*, That if the specified price is not reported or published and there is no applicable maximum uniform price, or if the specified price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

Issued at Washington, D. C., this 23d day of July 1947 to be effective on and after the 1st day of August 1947.

[SEAL] N. E. DODD,
Acting Secretary of Agriculture.

[Lemon Reg. 232]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.339 *Lemon Regulation 232*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 53 (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., July 27, 1947, and ending at 12:01 a. m., P. s. t., August 3, 1947, is hereby fixed at 515 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 231 (12 F. R. 4812) and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said marketing agreement and order. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 24th day of July 1947.

[Orange Reg. 188]

PART 966—ORANGES GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.334 *Orange Regulation 188*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66 (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., July 27, 1947, and ending at 12:01 a. m., P. s. t., August 3, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* (a) Prorate District No. 1, unlimited movement; (b) Prorate District No. 2, 1,700 carloads; and (c) Prorate District No. 3, unlimited movement.

(ii) *Oranges other than Valencia oranges.* (a) Prorate Districts Nos. 1, 2, and 3, no movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base", shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 24th day of July 1947.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. 3221]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

UNITED BUYERS CORP. ET AL.

§ 3.45 (e) *Discriminating in price—Indirect discrimination—Brokerage payments.* Directly or indirectly, on the part of respondent United Buyers Corporation, its officers, etc., and among other things, as in order set forth, in any manner or form whatever, (1) accepting from sellers any brokerage or commission, or any allowance, discount, or thing of value in lieu thereof, upon the purchase of commodities in interstate commerce, by itself, by any of its stockholders, or by any buyer for whom in fact, on whose behalf, or under whose direct or indirect control it acts; or, (2) transmitting, passing, or granting to buyers of commodities any brokerage or commission, or any allowance, discount, or thing of value in lieu thereof, received on such buyers' purchases of commodities in interstate commerce, either in the form of money or credits or in the form of services or benefits provided or furnished by respondent United Buyers Corporation through or by means of the use or expenditure of any such brokerage fee, commission, compensation, allowance, or discount; prohibited. (Sec. 2c, 49 Stat. 1527; 15 U. S. C., sec. 13c) [Modified cease and desist order, United Buyers Corporation et al., Docket 3221, June 17, 1947]

§ 3.45 (e) *Discriminating in price—Indirect discrimination—Brokerage payments.* Accepting from the sellers of commodities or from respondent United Buyers Corporation, on the part of respondents H. P. Lau Company, Bluffton Grocery Company, Lima-Kenton Grocery Company, S. Zollinger Company, William Edwards Company, and Copps Company, and all other stockholders in United Buyers Corporation prior to May 21, 1941, their officers, etc., and among other things, as in order set forth, directly or indirectly, in any manner or form whatever, any brokerage or commission, or any allowance, discount, or thing of value in lieu thereof, upon their purchases of commodities in interstate commerce, either in the form of money or credits or in the form of services or benefits provided or furnished by respondent United Buyers Corporation through or by means of the use or expenditure of any such brokerage fee, commission, compensation, allowance, or discount; prohibited. (Sec. 2c, 49 Stat. 1527; 15 U. S. C., sec. 13c) [Modified cease and desist order, United Buyers Corporation et al., Docket 3221, June 17, 1947]

§ 3.45 (e) *Discriminating in price—Indirect discrimination—Brokerage payments.* Paying or granting, directly or indirectly, to United Buyers Corporation, on the part of respondents Allison-Bedford Company, Blue Seal Products Company, Bordo Products Company, Champion Chemical Works, Cupples Company, Dean Milk Company, and J. B. Inderrieden Company, their officers, etc., and among other things, as in order set forth, any brokerage or commission, or any allowance or discount or anything of value as compensation in lieu thereof upon their sales of commodities in interstate commerce, except in transactions in which United Buyers Corporation renders to them a bona fide selling service as their selling agent or broker, and does not act for or on behalf of, or under the direct or indirect control of, the purchasers in such transactions; prohibited. (Sec. 2c, 49 Stat. 1527; 15 U. S. C., sec. 13c) [Modified cease and desist order, United Buyers Corporation et al., Docket 3221, June 17, 1947]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 17th day of June A. D. 1947.

In the Matter of United Buyers Corporation; Arthur E. Koeniger, Individually and as One of the Directors of United Buyers Corporation; Eli P. Gale, Individually and as Vice President in Charge of Buying and as One of the Directors of United Buyers Corporation; W. Wendell Caldwell, Individually and as Vice President in Charge of Merchandising, and as One of the Directors of United Buyers Corporation; Helen M. Driscoll, Individually and as Secretary of United Buyers Corporation; Stella E. Nordlund, Individually and as Treasurer of United Buyers Corporation; Paul E. Painter, Milton F. Rolfsmeyer, Alfred M. Copps, Eldon B. Smith, and Oliver J. Lecklider, and Each of Them, Individually and as Directors of United Buyers Corporation; H. P. Lau Company, a Corporation; Bluffton Grocery Company, a Corporation; Lima-Kenton Grocery Company, a Corporation; S. B. Inderrieden Company, a Corporation; Respondents

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answers of respondents, testimony and other evidence in support of and in opposition to the allegations of the complaint, and the Commission having made its findings as to the facts and its conclusion that the respondents, with the exception of the Angelus Campfire Company, have violated the provisions of section 2 (c) of the Clayton Act, approved October 15, 1914 (38 Stat. 730), as amended by the Robinson-Patman Act, approved June 19, 1936 (49 Stat. 1526; 15 U. S. C., section 13), and issued its order to cease and desist dated November 13, 1941; and the Commission having further considered said order to cease and desist after having given notice to respondents to show cause why said order to cease and desist should not be modified in certain specified particulars, and having considered the answer to said notice and the oral arguments of counsel; and being of the opinion that paragraph 2 of said order should be made more explicit, and having issued its order modifying paragraph 2 of said order, now issues this its modified order to cease and desist:

It is ordered, That respondent United Buyers Corporation, its officers, directors, agents, representatives, and employees, do forthwith cease and desist from:

1. Directly or indirectly, in any manner or form whatever, accepting from sellers any brokerage or commission, or any allowance, discount, or thing of value in lieu thereof, upon the purchase of commodities in interstate commerce, by itself, by any of its stockholders, or by any buyer for whom in fact, on whose behalf, or under whose direct or indirect control it acts.

2. Directly or indirectly, in any manner or form whatever, transmitting, passing, or granting to buyers of commodities any brokerage or commission, or any allowance, discount, or thing of value in lieu thereof, received on such buyers' purchases of commodities in interstate Commerce, either in the form of money or credits or in the form of services or benefits provided or furnished by respondent United Buyers Corporation through or by means of the use or expenditure of any such brokerage fee, commission, compensation, allowance, or discount.

It is further ordered, That respondents H. P. Lau Company, Bluffton Grocery Company, Lima-Kenton Grocery Company, S. Zollinger Company, William Edwards Company, and Copps Company, and all other stockholders in United Buyers Corporation prior to May 21, 1941, their officers, directors, agents, representatives, and employees, do forthwith cease and desist from accepting from the sellers of commodities or from respondent United Buyers Corporation, directly or indirectly, in any manner or form whatever, any brokerage or commission, or any allowance, discount, or thing of value in lieu thereof, upon their purchases of commodities in interstate commerce, either in the form of money or credits or in the form of services or benefits provided or furnished by respondent United Buyers Corporation through or by means of the use or expenditure of any such brokerage fee, commission, compensation, allowance, or discount.

It is further ordered, That respondents Allison-Bedford Company, Blue Seal Products Company, Bordo Products Company, Champion Chemical Works, Cupples Company, Dean Milk Company, and J. B. Inderrieden Company, their officers, directors, agents, representatives, and employees, do forthwith cease and desist from paying or granting, directly or indirectly, to United Buyers Corporation, any brokerage or commission, or any allowance or discount or anything of value as compensation in lieu thereof upon their sales of commodities in interstate commerce, except in transactions in which United Buyers Corporation renders to them a bona fide selling service as their selling agent or broker, and does not act for or on behalf of, or under the direct or indirect control of, the purchasers in such transactions.

It is further ordered, That the complaint herein be, and hereby is, dismissed as to:

1. Respondent Arthur E. Koeniger.
2. Respondent Eli P. Gale.
3. Respondent Helen M. Driscoll.
4. Respondent Angelus Campfire Company.

Respondent Arthur E. Koeniger is deceased; respondents Eli P. Gale and Helen M. Driscoll have resigned their offices and positions with the United Buyers Corporation and there is no indication that they are likely to resume their previous employment with it; and the record does not show that respondent Angelus Campfire Company, a seller-respondent, has paid any brokerage or commissions to United Buyers Corporation.

It is further ordered, That the respondents, except those as to whom the complaint is dismissed, shall file with the Commission, within sixty (60) days after service upon them of this order, a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SEAL] WM. P. GLENDENING, JR.,
Acting Secretary.

HANDLING OF WALNUTS IN CALIFORNIA, OREGON AND WASHINGTON

DECISION WITH RESPECT TO PROPOSED FURTHER AMENDMENTS TO MARKETING AGREEMENT AND MARKETING ORDER

Correction

In F. R. Doc. 47-6797 appearing at page 4819 of the issue for Saturday, July 19, 1947, the following change is made in the third column on page 4822. The second paragraph of § 901.7 (a) (section 1 of Article VI) should read as follows:

The Control Board may direct that such certificate be not issued to any packer who has failed to deliver or otherwise account for his surplus obligation in accordance with the terms hereof.

[7 CFR, Part 933]

HANDLING OF ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders, as amended (7 CFR and Supps. 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed amendments to Marketing Agreement No. 84, as amended (hereinafter referred to as the "marketing agreement"), and Order No. 33, as amended (7 CFR Supps., 933.1 et seq.) (hereinafter referred to as the "order"), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the fifteenth day after publication of this report in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendments to the marketing agreement and order are formulated, was initiated by the Production and Marketing Administration as a result of a request received from the Growers Administrative Committee and the Shippers Advisory Committee, administering the marketing agreement and order, that a hearing be called to consider proposed amendments. In accordance with the applicable provisions of the aforesaid rules of practice and procedure a notice that a public hearing would be held at Vero Beach, Florida, on May 12, 1947, and at Lakeland, Florida, on May 14, 1947, to consider the proposed amendments was published in the FEDERAL REGISTER (12 F. R. 2809).

Material issues. The material issues presented on the record of the hearing were concerned with the following:

(1) Amending the marketing agreement and order to provide for the issuance of regulations which may specify that shipments of any variety (as such term is defined in the marketing agreement and order) grown in Regulation Area II, as defined in the aforesaid notice of hearing, shall be limited to grades and sizes different from the grade and size limitations applicable to shipments of the same variety grown in Regulation Area I, likewise defined in the hearing notice; and

(2) Establishing Regulation Area I and Regulation Area II.

Findings and conclusions. The following findings and conclusions on the material issues are based upon the evidence introduced at the hearing and the record thereof.

(1) The marketing agreement and order should be amended to provide for the issuance of regulations which may

[1] The deleted portions relate to rent control functions transferred to the Office of Housing Expediter pursuant to Executive Order No. 9841 (12 F. R. 2645), and have been adopted by the Housing Expediter in Rent Control Order No. 1 (12 F. R. 2986).

specify that shipments of any variety grown in Regulation Area II shall be limited to grades and sizes different from the grade and size limitations applicable to shipments of the same variety grown in Regulation Area I.

Substantial differences exist between Regulation Area I and Regulation Area II with regard to cultural, grading, packing, and marketing practices insofar as they apply to the citrus fruits covered by the marketing agreement and order.

A distinctive heavy hammock soil is found in Regulation Area II. The land within this area, on which citrus fruits are grown, is low and flat. These low lands require an elaborate system of drainage ditches, which are not found in the groves located in Regulation Area I, since such groves are usually on rolling, sandy type soils. Most of the groves in Regulation Area II are irrigated. Due to the ridging practices followed in Regulation Area II, citrus groves in such area are smaller in acreage than those in Regulation Area I. Other cultural practices in Regulation Area II, such as preparing the land for citrus fruit trees, cultivating, and control of insects differ in varying degrees from practices in Regulation Area I. Citrus fruit yields are generally lower per acre in Regulation Area II than yields in Regulation Area I, and production costs per box are higher. Fruit discoloration in Regulation Area II is more prevalent but is smoother and less unsightly. The fruit grown in Regulation Area II is, on the average, more tender and the peel is thinner than that grown in Regulation Area I. These and other differences in characteristics of the fruit grown in the two areas are due to the differences in soils and cultural practices.

Grading practices are different in the two areas. In Regulation Area I, citrus fruit is generally marketed as U. S. Combination grade[1] fruit which consists of a mixture of both No. 1 grade[1] and U. S. No. 2 grade[1] fruit. In Regulation Area II, however, the U. S. No. 1 grade fruit and the U. S. No. 2 grade fruit are separated in the packing house and are sold separately in the markets. The latter method of grading is more costly than the former method. This difference in grading practices has existed for several years. In the past, this difference has prevented the institution, at certain times, of grade and size regulations limiting shipments of citrus fruits to such grades of fruit as the then current marketing conditions warranted. If these regulations were made effective, then shippers in Regulation Area II would have been forced to change their grading practices. The proposed amendments would provide the necessary flexibility in the operation of the marketing agreement and order program to meet changing marketing conditions; and would not tend to decrease the volume of Florida citrus fruit marketed in interstate commerce. Such regulations, if issued, would result (i) in better quality fruit being shipped; and (ii) higher average prices being received for producers for such fruit; and would protect the interest of consumers by the shipment of better fruit.

Citrus fruits grown in Regulation Area II are generally packed in the nailed wooden box whereas most of the fruit grown in Regulation Area I is packed in the wire bound box. The nailed box is higher in cost than the wire bound box.

Some differences in the marketing of citrus fruits exist between Regulation Area I and Regulation Area II. A greater percentage of the fruit grown in Regulation Area II is marketed in fresh form than that grown in Regulation Area I, while a greater percentage of the fruit grown in Regulation Area I is sold for processing than that grown in Regulation Area II. Although the production of fruit in Regulation Area II, during the last five years, constituted only 7.6 percent of the total production in the State of Florida, approximately 25 to 30 percent of the fresh grapefruit shipped out of the State of Florida during this period was grown in Regulation Area II. Citrus fruit grown in Regulation Area II commands a higher average price on the auction markets than does fruit grown in Regulation Area I. During the seasons 1941–42 to 1945–46 such prices averaged per box 48 cents higher for early and midseason oranges, 40 cents higher for Temple oranges, 28 cents higher for Valencia oranges, 43 cents higher for white seeded grapefruit, 61 cents higher for white seedless grapefruit, 44 cents higher for pink seeded grapefruit, and 45 cents higher for pink seedless grapefruit.

Citrus fruit grown in Regulation Area II competes in the market with that grown in Regulation Area I. The marketing agreement and order program is concerned with problems which arise in every citrus fruit area in the State of Florida, and the same marketing agreement and order should continue to cover all areas within the State. During the major portion of each marketing season, grade and size regulations would in all probability be uniform in Regulation Area I and Regulation Area II. The regulations should be recommended by the same administrative and advisory committees which have administered the marketing agreement and order since their inception.

(2) Regulation Area I and Regulation II should be established as set forth in the aforesaid notice of hearing.

The boundary line between Regulation Area I and Regulation Area II is a natural one geographically inasmuch as it is clearly demarcated by swamps, rivers, lakes, canals, and other natural landmarks. No groves are located on the boundary line; and along almost the entire length of the boundary line the nearest groves are several miles distant from the line. This line is almost identical to the boundary line established for the Indian River Citrus Area by the laws of the State of Florida. Such laws provide that only fruit grown within the Indian River Citrus Area, which corresponds to Regulation Area II as defined in the aforesaid hearing notice, may be sold under the name or brand of Indian River Citrus Fruit.

The Federal Trade Commission has defined the Indian River Area in general terms and has issued orders in cases investigated by the commission, that shippers may not market fruit grown in Regulation Area I under an Indian River stamp or label. The Office of Price Administration established price ceilings for citrus fruit varieties grown in the Indian River Area which were lower per box than those established for like varieties grown in Regulation Area I.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of Marion County Growers and Shippers, and the Indian River Citrus League, Incorporated, and by Mr. W. M. Davidson. The briefs contain statements of fact, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. Although all of the briefs do not contain specific requests to make proposed findings, it is assumed that the arguments and conclusions submitted were for this purpose and are treated accordingly.

The brief submitted on behalf of the growers and shippers from Marion County who testified at the hearing in opposition to the amendments states that there is no basis upon which the amendments can be justified and that the amendments should not be approved. The brief submitted by Mr. W. M. Davidson discussed in general terms his objections to the amendments on the basis that they would result in discrimination against his operations in the citrus industry. The proposed findings and conclusions of the Marion County Growers and Shippers and of Mr. Davidson are denied to the extent that they are inconsistent with the findings and conclusions contained herein and because of the reasons stated for the conclusions in this recommended decision.

The Indian River Citrus League, Incorporated, proposed that the amendments be adopted. This proposal is in agreement with the findings and conclusions stated herein and is approved.

Recommended amendment to the marketing agreement and order. The following amendments to the marketing agreement and order are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

1. Add to section 1 of the marketing agreement and § 933.1 *Definitions* of the order the following new paragraph:

(m) "Regulation Area I" shall include all that part of the State of Florida not included in "Regulation Area II".

(n) "Regulation Area II" shall include that part of the State of Florida particularly described as follows: Beginning at a point on the shore of the Atlantic Ocean where the line between Flagler and Volusia Counties intersects said shore, thence follow the line between said two counties to the Southwest corner of Section 23, Township 14 South, Range 31 East; thence continue South to the Southwest corner of Section 35, Township 14 South, Range 31 East; thence East to the Northwest corner of Township 15 South, Range 32 East; thence South to the Southwest corner of Township 17 South, Range 32 East; thence East to the Northwest corner of Township 18 South, Range 33 East; thence South to the St. Johns River; thence along the main channel of the St. Johns River and through Lake Harney, Lake Poinsett, Lake Winder, Lake Washington, Sawgrass Lake, and Lake Helen Blazes to the range line between Ranges 35 East and 36 East; thence South to the South line of Brevard County; thence East to the line between Ranges 36 East and 37 East; thence South to the Southwest corner of St. Lucie County; thence East to the line between Ranges 39 East and 40 East; thence South to the South line of Martin County; thence East to the line between Ranges 40 East and 41 East; thence South to the West Palm Beach Canal (also known as the Okeechobee Canal); thence follow said canal eastward to the mouth thereof; thence East to the shore of the Atlantic Ocean; thence Northerly along the shore of the Atlantic Ocean to the point of beginning.

2. Delete the provisions in paragraph (b) (1) of section 4 of the marketing agreement and in paragraph (b) (1) of § 933.4 *Regulation by grades and sizes* of the order and substitute therefor the following:

(1) Whenever the Shippers Advisory Committee deems it advisable to regulate any variety pursuant to this section, the said committee shall recommend the particular grades and sizes or either thereof deemed by it advisable to be shipped, and any such recommendation may include a proposal that shipments of any variety grown in Regulation Area II shall be limited to grades and sizes different from the proposed grade and size limitation applicable to shipments of the same variety grown in Regulation Area I. In making such determination, the said committee shall give due consideration to the following factors relating to the citrus fruit produced in Florida and in other States: (i) Market prices, including prices by grades and sizes of the fruit for which regulation is recommended; (ii) amount on hand at the principal markets, as evidenced by supplies on track; (iii) maturity, conditions, and available supply, including the grade and size thereof in the producing areas; (iv) other pertinent market information; and (v) the level and trend in consumer income. The Shippers Advisory Committee shall promptly report the recommendations so made, with supporting information, to the Growers Administrative Committee, which committee shall, in turn, submit the same to the Secretary, together with its own recommendations and supporting information respecting the factors hereinbefore enumerated.

3. Delete the provisions in paragraph (c) of section 4 of the marketing agreement and in paragraph (c) of § 933.4 of the order and substitute therefor the following:

(c) *Regulation by the Secretary.* Whenever the Secretary shall find from the recommendations and reports of the Shippers Advisory Committee and the Growers Administrative Committee, or from other available information, that to limit the shipment of any variety to particular grades and sizes would tend to effectuate the declared policy of the act, he shall so limit the shipment of such variety during a specified period or periods, and any such regulation may provide that shipments of any variety grown in Regulation Area II shall be limited to grades and sizes different from the grade and size limitation applicable to shipments of the same variety grown in Regulation Area I. Prior to the beginning of any such regulation the Secretary shall notify the Growers Administrative Committee of the regulation issued by him, which committee shall notify all handlers, by publication in daily newspapers, selected by the said committee, of general circulation in the citrus-producing districts of Florida: *Provided*, That when the regulation as issued is different from the recommendation of the committee, notice thereof shall be given also by mailing a copy thereof to each handler who has filed his address with said committee for this purpose.

⅞ PERCENT TREASURY CERTIFICATES OF INDEBTEDNESS OF SERIES G–1948

OFFERING OF CERTIFICATES

JULY 21, 1947.

I. *Offering of certificates.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par, from the people of the United States, for certificates of indebtedness of the United States, designated ⅞ percent Treasury Certificates of Indebtedness of Series G–1948, in exchange for Treasury Certificates of Indebtedness of Series G–1947, maturing August 1, 1947.

II. *Description of certificates.* 1. The certificates will be dated August 1, 1947, and will bear interest from that date at the rate of ⅞ percent per annum, payable with the principal at maturity on July 1, 1948. They will not be subject to call for redemption prior to maturity.

2. The income derived from the certificates shall be subject to all taxes now or hereafter imposed under the Internal Revenue Code, or laws amendatory or supplementary thereto. The certificates shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The certificates will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer certificates will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. The certificates will not be issued in registered form.

5. The certificates will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States certificates.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of certificates applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for certificates allotted hereunder must be made on or before August 1, 1947, or on later allotment, and may be made only in Treasury Certificates of Indebtedness of Series G–1947, maturing August 1, 1947, which will be accepted at par, and should accompany the subscription.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for certificates allotted, to make delivery of certificates on full-paid subscriptions al-

lotted, and they may issue interim receipts pending delivery of the definitive certificates.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.
